Mr. E.S. Jones,
Superintendent, Indian Agency,
P.O. Box 787,
Prince Albert, Saskatchewan.

We have your letter of the 23rd ultimo enclosing applications for admission and certificates of health for the admission of Florence and Grace Bird to the St. Alban's Residential School.

It is noted that these girls came from Montreal Lake Reserve, where one of the girls has attended the day school for six months and the other for fifteen months. Both parents are stated to be living, and consequently, before approving their admission we would like to know if there are any special reasons why these girls should receive institutional care. From the information contained in the forms, it would appear that they should continue to attend the Montreal Lake Day School. As you know, it is not our practice to place children in residential schools when they come from a reserve where a day school is in operation, unless there are some particular reasons why they should be removed from their homes.

Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Transportation of Indian Children to their homes for summer holidays.

Referring to the fourth paragraph of your 1-1-10(W.T.1) of 30th Oct. 1947, we have been advised that the estimated cost of transporting the children from St. Alban's School, Prince Albert (Onion Lake School) to their homes at the end of the present term is approximately $375.00, including fares and meals of escorts.

Yours sincerely,

Henry G. Cook.

1-1-10 (WT 1)

Ottawa, October 30, 1947.

Dear General Turner:-

We have your letter of the 25th inst. file P.A.-3 with reference to transportation of children to and from Indian residential schools.

Sub-section 3 of Section 9 of the Indian Act reads in part as follows:

> "The Superintendent General (Minister) may provide for the transport of Indian children, etc..."

You will note that payment of such expenses is not compulsory.

The general practice for many years is that principals of residential schools and Indian Agents are expected to encourage parents to bring the children to the school and to return them to their homes without cost either to the Department or the school management.

However, in cases where the above mentioned action is not practicable, we are prepared to consider making an allowance towards the travelling expenses. However, in such cases principals are expected to advise the Indian Agent what amount they consider would be required to cover travelling expenses and the Agent in turn applies to the Department. We can then decide the amount that we can allow.

We are only allowed a limited amount for the transportation of pupils to and from residential schools and consequently we try to deal fairly with all schools by keeping the expenditure to the lowest possible point.

19th May, 1949.

Rev. Canon H.G. Cook, D.D.,
Superintendent,
The Indian School Administration,
M. S. C. C.,
102 Bank Street,
Ottawa, Ontario.

Dear Canon Cook:

Re: Transportation of Indian Children to their homes for summer holidays

We have your letter of the 17th instant requesting an amount of $375.00 for transporting children from St. Alban's Residential School to their homes at the end of the present term.

It is noted that you refer to official letter of October 30th, 1947. If you will review that letter again, you will note that the Principal of a residential school is expected to advise the Indian Superintendent regarding the amount that will be required, and he in turn will apply to this Department. We will then be in a position to decide what amount we can allow.

In view of the above, I suggest that the Principal of the St. Alban's School confer with Superintendent Jones.

Yours sincerely,

Bernard T. Neary,
Supt. of Indian Education

PP/ST

658-10 (E.1)

19th May, 1949.

Mr. E.S.Jones,
Superintendent, Indian Agency,
Prince Albert, Saskatchewan.

We have recently received a request from Canon Cook, Superintendent of the M.S.C.C. for an amount of $375.00, the estimated cost of transporting children from St. Alban's Residential School to their homes at the end of the present term. Canon Cook does not state whether the above amount covers their transportation home and also the return of the pupils to school after the summer holidays.

In requesting the above amount Canon Cook refers to a letter from the Department dated October 30th, 1947, a copy of which is attached for your information. In replying to Canon Cook we have suggested to him that the Principal of St. Alban's follow the procedure outlined in the fourth paragraph of official letter of October 30th, 1947, by consulting you.

May I direct your attention to the fact that the amount provided for travelling expenses is limited, and as we try to deal fairly with all residential schools, we must be very careful deciding what amount we can allow to each one of them.

It has always been understood that the Principal should communicate with the Superintendent concerned before sending children home for holidays, with a view to determining if home conditions are suitable. If not, the children have to remain at the school during the holiday period. In the case of those going home, it is also expected that both the Principal of the school and the Indian Superintendent will encourage the parents to show sufficient interest in their children to arrange for their transportation home and also their transportation back to the school in September, without cost to the Department.

When the Principal confers with you, please write to us again.

Indian Affairs Branch, Department of Mines and Resources,
Ottawa.

I regret the delay in replying to letter 658-10 E.1. of May 19th last pertaining to cost of returning pupils to their homes for summer holidays. I am enclosing a copy of the estimated cost submitted by the Principals of the St. Albans and All Saints Residential Schools together with my comments.

The cost submitted are as follows. In the case of St. Alban's the Principal has estimated the cost at $335.00 and All Saints $919.25

St. Alban's	All Saints
Battleford: 8 pupils; estimated cost $17.50	Battleford: 32 pupils estimated cost $62.50
Note: If the school truck is used, pupils supplied with lunches from the respective schools, as in past years, the whole of the above children can be returned for $20.00.	
Turtleford: 1 pupil estimated cost $3.05.	
Note: This child can return with the Battleford children at no additional cost.	
The Pas: 10 Pupils estimated cost $83.50	The Pas: 50 pupils; estimated cost $315.00
Note: Some of the above children have to go to Split Lake and York Factory. The estimates submitted by the Principals is conservative.	
Fort a la Corne: 14 pupils estimated cost $9.90	Fort a la Corne: 4 pupils estimated cost $11.05
Note: The above can be taken home by school truck for $10.00.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

St. Albans'
Sandy Lake: 10 pupils
estimated cost $8.50

All Saints
Sandy Lake: 13 pupils
estimated cost $11.05

Note: The above can be taken home by school truck for $10.00.

Pelican Narrows Area: 5 pupils

Pelican Narrows: 6 pupils

Note: These children must return by air. The cost will be $133.55.

Stanley: 5 pupils

Stanley: 6 pupils

Note: These children must return home by air, the cost will be $118.25

Lac La Ronge: 15 pupils
estimated cost $117.00

Lac La Ronge: 21 pupils
estimated cost $163.80

Note: These children can be returned home by truck, the cost will be approximately $20.00.

The balance of the pupils in both schools can be picked up by their parents.

If funds are available, I recommend consideration be given in connection with the children returning to Stanley and Pelican Narrows.

Regarding the children from Manitoba. These were brought in by the late Rev. Fisher. I have advised Superintendent Law of The Pas Agency that these pupils should not be returned to Prince Albert after the holidays.

Where do they be sent to (?)

656-10 (E.1)

June 20th, 1949.

Mr. E.S. Jones,
Superintendent, Indian Agency,
Box 787, Prince Albert, Sask.

We have your letter of the 4th instant with reference to the pupils returning to their homes for the summer Holidays in the St. Alban's and Lac la Ronge Indian Residential Schools.

We presume that the Principal and yourself have made every possible effort to secure the transportation expenses from the parents. You will recall that instructions to this effect were contained in official letter of May 19th.

In connection with that portion of the expenses that is not paid by the parents, it has always been our practice to expect the school management to co-operate with us by paying a portion of the cost.

After considering the contents of your letter, I consulted the officials of the Head Office of the M.S.C.C. and it has been decided that the Department will allow the following amounts for the summer of 1949:

(1) St. Alban's - $200.00
(2) Lac la Ronge - $575.00

With reference to the last paragraph of your letter, we sent you an army signal this afternoon.

Superintendent,
The Indian School Administration,
M. S. C. C.,
102 Bank Street,
Ottawa, Ont.

Dear Canon Cook:

With reference to travelling expenses of the pupils going on holidays, we are informing Superintendent Jones that the following amounts will be allowed:

(1) St. Alban's - $200.00

(2) Lac la Ronge - $575.00

Sincerely yours,

Bernard F. Neary,
Supt. of Indian Education

Mr. E. S. Jones,
Superintendent, Indian Agency,
Box 787, Prince Albert, Sask.

Your File No. 403-11-1-6 (107)

We have your letter of the 21st instant and it is noted that you have now advised Superintendent Law that the children of Manitoba may return to the Lac la Ronge School after the summer holidays.

It appears that the most feasible manner of settling the difficulty is to have Mr. Mayo, principal of Gordon's School interview the principals of Lac la Ronge and St. Alban's Schools in order to ascertain the names and number of the children from the John Smith's and James Smith's Reserves who might be transferred from Lac la Ronge and St. Alban's to the Gordon Residential School. Mr. Mayo could then take up the matter with Superintendent N.J. McLeod of the Duck Lake Agency in order that he may make arrangements with the children concerned.

When these details have been completed a letter should forwarded to us giving the names and register numbers of the children transferred from the St. Alban's and Lac la Ronge Schools to the Gordon's School.

If this is handled properly it will provide vacancies for children from Northern Saskatchewan.

Philip Phelan,
Chief, Education Division.

Mr. P. N. Phelan,
Chief, Training Division,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ontario.

Dear Mr. Phelan:

Transportation of children for holidays
St. Alban's (Onion Lake) School, Prince Albert, Sask.

Referring to your 658-10 (E.1) of 20th June, 1949, and further to our letter of 14th July, we have now received, and send you herewith, from the Principal of the above School receipts for railway fares of children from St. Alban's (Onion Lake) School to points near their homes. They are as follows:

Prince Albert	to	Kinistino, Sask.	$14.15
" "	"	Hartwell, "	7.80
" "	"	Ordale, "	1.50
" "	"	The Pas, Manitoba	35.00
" "	"	" "	20.00
		Total	~~78.45~~

78.45

This amount ($78.45) together with the $40.79 covered by receipts sent you with our letter of 14th July makes a total charge to St. Alban's (Onion Lake) School of $119.24 against the allotment of $200.00 notified in your letter of 20th June.

We shall be glad, therefore, to receive your cheque for $78.45 in reimbursement of the expenditure covered by the enclosed receipts.

Yours truly,

per H. G. Cook

AIR MAIL

Mr. E. Law,
Supt. Indian Agency,
The Pas, Man.

We are in receipt of applications for the admission of Margaret Winnifred Cook, Louis Arthur Bear and Gerald Howard Bear to the Prince Albert Residential School. In each case the parents are stated to be living and evidently Margaret Cook has been attending Big Eddy School and the two Bear boys are located on the John Smith Reserve where a Day School is in operation. In addition Louis Bear is only six years of age which is under the age for admission to a Residential School. Please let me have full information from you regarding the reasons that you consider these three children should have institutional care.

Philip Phelan,
Chief, Education Division.

Department of Mines & Resources Indian Affairs Branch SEP 13 1949 A.M. REGISTERED

Colonel B. F. Neary,
Supt. of Indian Education,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ontario.

Dear Colonel Neary:

Re: Transportation of children for holidays, Anglican Indian Residential Schools, Prince Albert, Sask.

In your letter 658-10 (E.1) of 20th June, 1949, you informed us that you would allow the following amounts for travelling expenses of pupils going on holidays:

(1) St. Alban's (Onion Lake) School $200.00
(2) All Saints' (Lac la Ronge) School $575.00

Subsequently we sent you accounts covering the transportation of pupils to their homes following the close of the term in June, 1949, as under:

St. Alban's	$119.24
All Saints'	$457.12

leaving unexpended balances of $80.76 and $117.88 for St. Alban's and All Saints' respectively.

We now have received accounts for travelling expenses of pupils returning to or joining these Schools for the autumn, 1949, term as follows:

St. Alban's	$115.38
All Saints'	$365.11

Deducting the credits mentioned above, the following additional amounts are still required to cover the cost of return and joining transportation expenses:

St. Alban's	$115.38 less $80.76 =	$ 34.62
All Saints'	$365.11 less $117.88 =	247.23
		$281.85

In view of the fact that the accounts now received cover

the cost of transporting a number of new pupils joining the Schools for the first time it will be appreciated if you will accept the charges of $281.85 detailed above in addition to the amounts indicated in your 658-10 (E.1) of 20th June, 1949. Will you please advise us what you are prepared to do about this.

Yours sincerely,

Henry G. Cook.

Dear Canon Cook:

Re: Transportation of Children -
St. Alban's Indian Residential
School

In view of the contents of your letter of the 12th instant, we are prepared to allow an additional amount of $281.85 for transportation of children returning to the above mentioned school.

It should be definitely understood that the amount allowed this year is not to form a precedent for next year. Before the summer holidays of 1950, it is our intention to give the whole matter of transportation of children further consideration with a view to laying down a policy that will guide us all in the future.

Sincerely yours,

Ottawa, Ontario.

Dear Mr. Phelan:

Transportation of children,
St. Alban's (Onion Lake) and
All Saints' (Lac la Ronge)
Indian Residential Schools.

Thank you for your 658-10 (E.1). of 16th Sep, 1949.

I enclose vouchers covering expenditure of $115.38 and $365.11 on return transportation of children to St. Alban's and All Saints' Schools, respectively. I shall be glad to receive your cheque in reimbursement in due course.

I am pleased indeed to learn that you propose to issue instructions before the summer holidays of 1950 to guide all concerned in this matter of children's transportation to and from their homes. I suggest that these instructions also state clearly that the School Principals are responsible for arranging for the transportation of the children and their escorts and that Indian Superintendents or Agents are responsible for ensuring that the children are met by parents or guardians at specified times and places when journeying to their homes from the Schools.

I would appreciate the opportunity of discussing your draft instructions with you before they are finalized or issued.

Attention: Mr. P. Phelan

I wish to acknowledge receipt of your letter of August 31st, 1949 under file 658-10 (E1), with regard to Applications for Admission of Margaret Winnifred Cook, Louis Arthur Bear and Gerald Howard Bear to the Prince Albert Residential School, and regret delay in answering same.

With regard to Margaret Winnifred Cook, I would advise that this application was submitted due to the fact that the parents of this child refused to send her to the Big Eddy School as discipline is very lax and the child was not making any progress. Both parents although they would like tohave the child at home requested that she be admitted to Residential School.

The Bear children do not belong to this Agency, but live at The Pas and both parents are very shiftless, the father being more or less of a drunkard and the mother moving from house to house wherever she can obtain shelter. Dr. Yule claimed that both these children were under-nourished due to home conditions and recommended that I have them admitted to Residential School where they would have institutional care.

Would you kindly advise if these applications will now be approved by the Department.

INDIAN AFFAIRS BRANCH

PLEASE QUOTE 1776
FILE 109/25-2

14910

Duck Lake, Sask.
November 23, 1949.

Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

Authority is requested to re-admit Eliza Knife, daughter of Matilda Knife, Treaty No. 209, Sandy Lake Reserve, who has returned to St. Alban's Indian Residential School, Prince Albert, Sask. on October 28, 1949.

The Principal of St. Alban's Residential School advises that Eliza was in attendance during the school year 1947-48 but was out of school during the term 1948-49. The Principal also advises that he cannot find the Department letter approving the discharge of this girl. The School records show that she was in attedance in March of 1948 and that her number in the school at that time was 0319.

I might state that the Principal of St. Alban's School took over the duties this fall and apparently the records are not entirely in order and it will take some time before he will be able to get the records straightened out.

I recommend that admission be granted to the above named Indian child to return to St. Alban's School.

Mr. N.J. McLeod,
Superintendent, Indian Agency,
Duck Lake, Saskatchewan.

Re: St. Alban's Indian Residential School. Your File 1776 109/25-2

With reference to your letter of the 23rd instant, the Department approves the re-admission of Matilda Knife to the above school.

Please inform the Principal accordingly, and advise him that when including her name on the Quarterly Return, she should carry the same number as she had when she was previously in the school.

Yours truly,

Philip Phelan,
Chief, Education Division

, January 20, 1950.

Mr. N.J. McLeod,
Supt. Indian Agency,
Duck Lake, Sask.,

The Department approves the discharge of the following children from the Onion Lake C.E. Indian Residential School:

No. 0319
0334
0336
0431

As this school's official name is Onion Lake C.E. it would be appreciated if you would bring this fact to the Principal's attention and instruct him to use this name rather than St. Alban's.

The use of the name St. Alban's is confusing not only to this Department but to the Treasury Office who must have the correct name of the school before paying the accounts. The Auditor-General's office has also complained about the use of other than official names for schools.

Rev. N.D. Pilcher,
Onion Lake C.E. Res., School,
Prince Albert, Sask.,

Your December 1949 Quarterly Return has been received and checked and it has been noted that when pupils are in residence for less than the prescribed number of days for the Quarter you fail to show the date the pupils left and later returned to residence.

The Treasury Branch of the Department of Finance and the Auditor-General's office who are entitled to any information deemed necessary insist that dates pupils leave the residence and later return to residence must be shown on the return for all pupils for whom grant is requested for less than the prescribed number of days.

This naturally applies to all pupils whether they are being discharged, absent on account of illness, admission to hospital, truancy, authorized leave of absence or for any other reason.

Please bear this in mind when completing future returns.

INDIAN
AFFAIRS

File:658-10(E5)

Dear Mr. Neary:

I have received your letter of the 24th. instant.

I have checked my copy of the December Quarterly Return and can find no case where pupils have left and returned to the school during the period covered. However, I see that several girls entered the school late. In such cases the date of admission is shown on Form I.A.411. I really don't know whether or not a copy of that form goes to Ottawa. Would you like the date of admission (and of discharge also) included on future copies of the Quarterly Returns? These dates would be added, no doubt, under the space left for remarks.

Naturally, I am most anxious to complete the forms in the way which is most convenient for the Ottawa departments.

Yours sincerely,

N. D. Pilcher

Re: Your File 665-107/27-8

With reference to your letter of the 2nd instant, you have already been advised regarding the amount we are prepared to allow for the transportation of children to and from the St. Alban's Indian Residential School for the summer of 1950. The amounts stated in previous letters were the same as those allowed last year.

We now note that the cost of sending the children from Montreal Lake, Lac la Ronge, Stanley and Pelican Narrows to their homes and returning them to the school after the holidays, will amount to $161.00 for the round trip.

Dear Sir:

Re: Transportation of Girls to and from Homes

In accordance with instructions received from Ottawa, I am submitting the estimated costs of transporting children from this school to their homes and bringing them back in the fall.

The trip to Fort a la Corne will amount to $15.00, making the two trips amount to $30.00.

The Sandy Lake run is estimated at a cost of $10.00 or $20.00 including the return in the fall.

I am informed that this total of $50.00 for the transportation in your Agency is to be submitted to the Department.

Yours sincerely,

(sgd) Rev. N. D. Pilcher
Principal.

Colonel B. F. Neary,
Supt. of Indian Education,
Indian Affairs Branch,
Dept. of Citizenship & Immigration,
Ottawa, Ontario.

Dear Colonel Neary:

Pupils - Anglican Indian School,
Prince Albert, Saskatchewan.

The following extract from a letter, dated 21st September, 1950, from the Principal of All Saints' (Lac la Ronge) School may be of interest to you:

" We have to date three hundred and fourteen children at All Saints'.

Yesterday I got word that there are 17 children to come in from Red Earth. Most of these are girls and so will go to St. Albans which are still short in numbers. It is very difficult to get children for St. Albans when they are limited by sex and grade. Also many parents and agents request that families be kept together if at all possible. A number of new children from Punnichy were grade 5 so only four of the 17 went to St. Albans. There are still new children at Montreal Lake and Battleford Reserves which could be brought in. If all the children from Red Earth come in St. Albans should have their quota."

REGISTERED
SEP 25 1950
RECORDS
INDIAN
AFFAIRS

The 17 children noted above as from Punnichy are NOT from Gordon's Reserve but from Moscow, Poormans, Day Star and Fishing Lake who were sent to Prince Albert after consultation with you on 13th September, 1950.

The points raised about the difficulty in allocating children to St. Alban's (Onion Lake) by sex and age when Agents and parents wish families to be kept together seem to warrant consideration.

Yours truly,

Henry G. Cook,
Superintendent.

Dear Canon Cook:

Re: Lac la Ronge and St. Alban's
Indian Residential School
Your File A.S.-4
St.A.-4

We have your letter of the 23rd instant with reference to the number of children that have been enrolled at the Lac la Ronge School.

In view of the fact that the two schools mentioned above are comparatively close together, we cannot see that there should be any serious complaint regarding the separation of children by sex and age. Arrangements can be made to have members of the same family meet frequently.

Yours sincerely,

PP/ST

Onion Lake CE-10

Official Name: Onion Lake, C. of E.

THE PRINCIPAL

E 16

ST. ALBAN'S INDIAN SCHOOL
PRINCE ALBERT, SASK.

Sept. 30, 1950

Indian Affairs Branch
Dep't of Citizenship & Immigration

To whom it may concern:

We request that the following girls be transferred from St. Alban's (Onion Lake) to All Saints' (Lac La Ronge) School. This change is necessitated in some cases by promotion to Grade 5 (not provided here) and in other cases by requests from parents that their children be not separated into two schools.

0262 Rose Lightfoot
0267 Mary Maud Bighead
0272 Irene Turner
0286 Alvina Bear
0288 Vivian Ahenakew
0291 Agnes Burns
0293 Louisa Poundmaker
0300 Dorian Ahenakew
~~0316 Doris Burns~~
~~0332 Mary L. Bird~~
0348 Clara Bird
0379 Flora Ross
0383 Susannah Morris
0385 Beatrice Dorion
0386 Kathleen Harris
0387 Mary Jebb
0389 Christina Moose
0404 Helen Moose
0407 Mary Jane Brightnose
0410 Nancy Outchikat

Watch the transfers

Yours sincerely,
N. D. Pilcher
The ~~Rev'd~~ N. D. Pilcher

INDIAN AFFAIRS BRANCH

Box 68,
Prince Albert, Sask.,
November 18, 1950.

Mr. J. P. B. Ostrander, Regional Supervisor of Indian Agencies,
Post Office Building, Regina, Sask.

I am enclosing herewith a letter received from the Rev. N. D. Pilcher, Principal of the St. Alban's Indian Res. School, Prince Albert, Sask. which will be found self-explanatory.

A few minutes ago I received a call from the matron of the school advising that both girls had left the school this morning without permission. It is quite evident the staff of this school are not capable of keeping these girls under control. Mina Bird, age 14 is the daughter of William Bird, No. 89, Wm. Charles Band. Elsie May Charles, Age 13, is the daughter of Adam Charles, No. 331 of the Lac La Ronge Band.

I recommend that Elsie May Charles be discharged from the school immediately. Please advise if you concur in my decision.

Citizenship & Immigration,
OTTAWA, Ontario.

I am enclosing herewith a copy of a letter received from Mr. Jones together with a copy of a letter from the Reverend Pilcher, Principal of St. Albans Residential School, Prince Albert, regarding the conduct of Mina Bird and Elsie May Charles, two pupils of the above school.

I would recommend that action be taken as requested by Mr. Jones and the Reverend Pilcher, that is, that Elsie May Charles be discharged from the school. However the matter is submitted for Departmental consideration and I would request that Mr. Jones be advised of what action ~~taken~~ to take at the earliest possible.

DEPARTMENT OF CITIZENSHIP AND IMMIGRATION
INDIAN AFFAIRS BRANCH

Dauphin, Manitoba,
February 8th., 1951.

R.S. Davis, Esq.,
Regional Supervisor of
Indian Agencies,
Dominion Public Bldg.,
Winnipeg, Manitoba.

Re: Application; Admission
Indian Residential Schools

With reference to the above subject. Some time ago I was informed that children had been admitted to All Saints Indian Residential School at Prince Albert, Saskatchewan, from this Agency, without the necessary authority having been received from Ottawa.

Upon writing the Principal, Rev. A.J. Scrase (copy of letter attached) I received a reply (copy also attached) enclosing three application for admission forms covering the three unauthorized admissions.

In view of the fact that the children are now at the school and it would not be to the benefit of the children concerned, to move them in the middle of a term, I have signed the application forms. The forms are enclosed and I am leaving it to your decision whether to forward them to Ottawa, or not.

As you are no doubt aware the practice of admitting the children first and applying for authority after, has been rampant at various schools in the past even though it is against Department Regulations.

May I suggest a circular letter be sent to all Principals of Residential Schools pointing out the practice is against Regulations.

JHS/nma
encls.

J.H. Staunton,
Supt. Indian Agency.

Re: Application; Admission
Indian Residential Schools

Copy of a letter dated February 8th, 1951 received from Superintendent J.H. Staunton of Dauphin which is self-explanatory is being attached hereto. It is noted that the children are already in the school and under the circumstances, it is considered advisable not to have them transferred at this time.

I am in agreement with Superintendent Staunton's suggestion to remind all principals that it is contrary to regulations to accept these children without first submitting an application to the Department for approval.

March 10th.1951

Indian Affairs Branch. Department of Citizenship and Immigration. Ottawa.

I am enclosing herewith applications for admissions to Residential School.

Celina, Alice, Elizabeth and Mabel Shavetail, daughters of Widow Shavetail # 48 Peepeekisis,- these children have been attending File Hills Day School but their mother move to Crooked Lake Agency and is co-habiting with another Indian, therefore her children were being more or less cared for by neighbours ,consequently I had no alternative to to send them to St Albans Residential School at Prince Albert ,where the Principal had room for them.

Application for Elizabeth Walker #71, Okanese Reserve to Brandon Residential School.

I would recommend that the applications for admissions be accepted.

Frank Booth.
Superintendent.

COMMISSIONER'S OFFICE,
H. REGINA, SASK., November 17th, 1926.

Sir:

I have received through Mr. Lang Turner, Indian Agent, Onion Lake, a request from the Principal of the Onion Lake Anglican Residential School, to be supplied by the Department with 15 milk cows on the ground that the 8 cows which they at present possess have been in use for the past ten years and are not giving a sufficient quantity of milk and further, that the pupilage of the school has doubled.

I cannot understand why the Department should be called upon to furnish so large a number of cows, if indeed any at all. Other schools have been obliged to provide their own milk cows and I do not see any reason why an exception should be made in the case of the Onion Lake School. I shall be glad to receive an expression of opinion from the Department.

Your obedient servant,

DEC 1 1926

DEPARTMENT OF INDIAN AFFAIRS

CANADA

R

December 2, 1926.

Memorandum:

Dr. Scott.

Mr. Indian Agent Turner has forwarded to Mr. Commissioner Graham a request from the Principal of the Onion Lake C. E. Indian Residential School. It is represented that 15 milch cows are required. It appears that the 8 they have on hand should be slaughtered as they are too old for milking purposes.

Mr. Commissioner Graham recommends that none be supplied. But we have helped nearly all the other Indian residential schools in the Prairies in the matter of stock. I wish to suggest that we supply five (5) head, on condition that the school management secure an equal number.

Duncan C. Scott

Supt. of Indian Education.

Sir:

I have your 309-11A C. E. of the 17th ultimo, with reference to a request that we supply the Onion Lake C. E. Indian Residential School with milch cows. The Department will grant five suitable animals, provided that the school management purchase a like number. It is understood that replacements will have to be made by the school. Please make the necessary arrangements.

Your obedient servant,

Reverend Sir:

Mr. Commissioner Graham reports that the Rev. Principal of the Onion Lake C. E. Indian Residential School has requested the Department to supply some milch cows. It appears that the eight animals which the school at present possesses are too old for satisfactory service as milch cows. Mr. Commissioner Graham has been authorized to purchase five suitable animals, provided that the school management or the church authorities secure a like number.

JAN 31 1927

Sir:

I have just had an interview in my office with Dr. T.B.R. Westgate and have been discussing with him certain requirements at the Onion Lake School, including tools and farming equipment. I attach a list of these. The latter, including the horses and harness, are absolutely necessary before spring opens in order that they may proceed with their farming operations, and if there is money immediately available, I shall be glad to have authority to make the purchases.

In regard to the tools, they will involve an expenditure of about $250.00 to $275.00. The prices of the other items marked are approximate.

Your obedient servant,

W.M. Graham,
Indian Commissioner.

FEB 23 1927

Sir:-

I beg to acknowledge receipt of your letter of the 31st. ultimo #115-1-14, in which you state that before consideration can be given to the request for tools, machinery, etc., at the C.of E. Indian Residential School at Onion Lake it will be necessary to know what agricultural machinery and what horses are owned by the school at the present time. I have just been furnished with this information, and the machinery and horses on hand at that institution are as follows,-

1 Binder, new
1 Mower, "
1 Hay Rake "
1 12" Gang Plow
1 14" Walking Plow
1 Wagon with box and hay rack
2 Sleighs
1 Potato Cultivator.

4 Work horses
1 Team drivers
1 2-year-old colt } Drivers
1 1 " " "
2 old horses

There are no tools at the school which belong to the institution. The few that are in use at the present time are the private property of Mr. Mitchell, ex-Farm Instructor, who will be taking them away as soon as he is able to come for his car.

COMMISSIONER'S OFFICE,
H. BRANCH
REGINA, SASK., June 14th, 1927.

BRANCH
JUN 16 1927

Sir:-

On the 3rd December last under Department No. 115-1-14 I was advised that the Department would purchase five milk cows for use at the Church of England School at Onion Lake, provided the Church authorities would furnish a like number. I have just received a letter from the Reverend T.B.R. Westgate stating that the Society's expenditures have been very heavy and asking if the Department would come to their assistance and undertake to buy eight milk cows without imposing any conditions on the Church authorities.

Will you please advise me so that the children of the School may be assured of an adequate supply of milk.

Your obedient servant,

W. M. Graham

115-1-14.

Ottawa, June 21st, 1927.

Sir:

I have your No. 309-11A C.E. of the 14th instant, relative to the purchase of a number of milch cows for use at the Onion Lake C. E. Indian Residential School. In this connection it is noted that the Church authorities will be unable to supply any milch cows owing to lack of funds, and request that this Department purchase 8 cows for the use of the school.

You may arrange for the purchase and delivery at the school of 8 milch cows of a type considered by you to be suitable for the purpose for which they are required. You should see that they are free from tuberculosis and are satisfactory in all respects. This matter will be left in your hands to make the purchase as advantageously as possible.

Your obedient servant,

J. D. McLEAN

J. D. McLean,
Asst. Deputy and Secretary.

EXTRACT FROM COMMISSIONER GRAHAM'S 309-11A,
dated July 8, 1927.

Original on 115-1-5

x x x

Inspector Murison also enquired as to whether we could purchase suitable Holsteins and I understand that suitable grade Holstein cows can be bought for about $100.00 each, probably less. I am writing to the Agent to tell him that he may buy eight at a price not exceeding $800.00. I may say that Inspector Murison saw one or two animals belonging to a small herd which is for sale, comprising ten females and one pure-bred bull, at a price of $775.00. As Inspector Murison thinks this would be a good purchase, I have told the Agent that if, after he has inspected the whole herd, he is of the opinion that it would be advisable to make the purchase, he may do so. I trust this arrangement will be satisfactory to the Department.

September 6, 1927.

MEMO FOR FILE:

With reference to official letter of July 11th, last, for the purpose of assisting the management of the Onion Lake C. E. Indian Residential School because of the unusual cost of lighting the institution, I promised Dr. Westgate that we would give favourable consideration to a grant of $700 towards the cost of a truck. This equipment has been found really necessary at the school and I suggest that the church authorities make the best possible arrangements to get what they require and, in due course, to present their claim to the Department.

CANADA

October 27, 1927.

Memorandum: approved DCL

DR. SCOTT.

You will remember you directed that favourable consideration be given to some special grant in the case of the Onion Lake C. E. Indian Residential School, because of the unusual cost of lighting the institution over a term of several months. When you were in the West, Dr. Westgate visited the Department and mentioned that a truck was urgently required, because of the school's distance from markets.

Dr. Westgate has now forwarded receipt for $1018 in connection with the purchase of a Chevrolet truck, and I have to recommend that reimbursement to the extent of $700 be made. This was the estimate of the special costs of lighting the school, caused by unsuitable equipment.

Rev. Sir:

I have your letter of the 10th instant, relative to the testing of the herd of cows at the Onion Lake C. of E. Indian Residential School.

In reply I beg to say that you may arrange with the Principal to have an officer of the Health of Animals Branch for the locality in which the school is situated visit the school and make a test of the cows. The Principal should be guided by the instructions of the officer who makes the test regarding any reactors that may be found in the herd.

The Department will pay any reasonable expense upon receipt of an account, in duplicate, properly certified.

Dear Sir:-

Some time ago the Principal of our Society's School at Onion Lake, requested our Commission to furnish him with a grain crusher and fanning mill, but owing to the omission of any recommendation as to the cost, the most suitable kind required, etc. the matter was referred back to him for further information. In his reply dated the 3rd. inst. he recommends the purchase of :-

a 12" Grain Crusher which would cost $68.50 and
a 32" Imperial Grain Cleaner with Barley
Gang and Bagger which would cost. .. 58.40

I presented this information to our Commission at their last meeting and was instructed to request your Department to provide these items of equipment . Before moving to the new School, the School management were able to use, when required, the Agency equipment, but now that the distance between the School and the Agency has been increased to approximately five miles, and the farming activities have been greatly increased, such action is so inconvenient as to be practically impossible, and I trust that your Department may authorize our Commission to provide these two very necessary items of permanent equipment.

I have the honour to be, Sir,

Your obedient servant,

T. B. R. Westgate

Ottawa, December 21st, 1928.

Rev. Sir:

I have your letter of the 15th instant, relative to the request of the Principal of the Onion Lake C. E. Indian Residential School to be supplied with a grain crusher and fanning mill, and stating the cost of this equipment.

In reply I beg to say that you may arrange for the purchase of a 12" grain crusher and a 32" Imperial grain cleaner with barley gang and bagger. Please make the purchase to the best possible advantage, and the price should not exceed the estimate given by you for this equipment.

You should obtain an account, in duplicate, from the firm from whom you make the purchase. This you should certify in the usual manner and send to the Department for payment. The cheque in payment of the cost will be forwarded direct to the firm from whom the purchase is made.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Dear Sir:- Attention Mr. Minhinnick

This letter will confirm the verbal order given to you over the phone this morning in connection with the following implements:-

one 8" grain crusher, cost approximately $54.15
one 32" grain cleaner with barley gang and bagger,
cost approximately.....$51.20

These implements should be consigned to the following address:-

Rev. Henry Ellis,
Principal Anglican Indian School,
Onion Lake,
Via Lloydminster,
Saskatchewan.

If you will kindly prepay the freight and include the same in your bill to me, I will ask the Indian Department to forward a cheque to you direct to cover the cost of the same.

Kindly advise Mr. Ellis of the date of shipment and send him one copy of the invoice.

Kindly note also that the invoice should be submitted to me in triplicate, as the Department require two copies certified by me, and the third I will require for our office files.

With the compliments of the season

EXTRACTS FROM COMMISSIONER GRAHAM'S 309-11
OF MARCH 29, 1930, on ONION LAKE C. E. RES. SCHOOL.

Orig. on 115-1-5.

I would particularly draw your attention to that portion of the report in which it is pointed out that the milk supply is inadequate. I would say that it is very inadequate. I do not think this matter should be passed over lightly.

- - - - - - - - - - -

The Inspector points out that they have 30 head of cattle and that the stable only contains 21 stalls. This is true, but if they had the right kind of cattle, as it was intended they should have when the buildings were erected, 21 stalls would have provided amply for the cows. The trouble here is that they have the wrong type of cattle, probably not milking strain.

EXTRACT FROM INSPECTOR MURISON'S REPORT,
FORWARDED UNDER COVER OF COMMISSIONER GRAHAM'S
309-11, dated March 29, 1930.

Orig. on 115-1-5.

Their stock consists of 13 milk cows, 1 bull and 11 young stock. There are only 5 cows milking during the winter. In February, according to the record, these cows produced 2,210 lbs., which is equal to 221 gals. This is a very inadequate supply and it can readily be seen that they cannot provide the children with milk to drink. With the Principal's family and staff, there is an average of 118 persons to provide for.

If the stock are to be increased at this school, it will be necessary to increase the housing accommodation for cattle. They now have 30 head of cattle and there are 21 stalls in the barn.

Please pay

[illegible] binder for use a[illegible]
Onion Lake. Howev[illegible]
there this year, I a[illegible]
for them seemed unnece[illegible]
difficulty in borrowing a[illegible]
crop they might have. Subse[illegible]
placing orders for other binde[illegible]r difi[illegible]
Agencies, an order for one for this school w[illegible]
placed. It has transpired, however, that prio[illegible]
to my advising the Indian Agent that delivery sho[illegible]
be taken of it at Lloydminster, the Principal of t[illegible]
school bought one, stating that they did their best
to borrow an implement, but could not get one, and
as their wheat was shelling out, they were obliged
to buy one. They hope the Department will approve
and pay the account. The binder which I had ordered
for them was from the Massey-Harris Co. at a price
of $250.91. The one the school authorities purchased
was from a local dealer, at a price of $279.00.

Under the circumstances, perhaps the Department will agree to pay the account, although I strongly deprecate Principals of schools making purchases without authority and then requesting the Department to meet the payments. This is a practice which is not uncommon and yet seems difficult to check.

Your obedient servant,

W. M. Graham

Orig. on 115-1-13.

Ottawa, June 6, 1930.

Reverend Sir:

I have your letter of the 31st ultimo, relative to the exchanging of some of the milch cows at the Onion Lake C. E. Indian Residential School for younger animals of a good milking strain. In this connection I have to say that all replacements to stock and agricultural machinery at Indian residential schools should be provided by the school authorities from per capita earnings or other receipts. The Department therefore regrets that it will be unable to provide any part of the cost in the exchanging of the old cows for younger stock at the Onion Lake C. E. Indian Residential School. It is noted that, at the present time, there is an abundant yield of milk from the cows at the school for the pupils' use.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
W. REGINA, SASK., 9th August, 1930.

Sir:-

I have received a letter from the Reverend Principal of St. Barnabas' School, with reference to the purchase of a spring toothed cultivator.

Principals of schools are constantly taking advantage of the initial assistance which the Department grants them in the form of supplying them with implements and so forth, and this is another instance of this practice. I cannot see that the Department is called upon to furnish this implement and I cannot recommend it. I trust the Department will uphold my views in this connection, in which case I will communicate with the Principal and so advise him.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

When I was at Onion Lake last it was brought to my attention while there that the small herd belonging to the Onion Lake School had been sold. Something like 80 head in all were disposed of and evidently the prices they were sold at were ridiculously low. However, I am just quoting heresay.

Did we have any interest in these cattle?

Mr. M. Christianson, General Supt. of Indian Agencies,
Dominion Public Building, Scarth & Victoria Streets,
Regina, Sask.

I have for acknowledgment your letter of September 11, in which you intimate that the Anglican Church authorities have disposed of the cattle herd attached until recently to the Onion Lake Residential School.

These cattle were the property of the church authorities, who were of course free to dispose of them in any manner they might choose. It does occur to the writer, however, that they might well have communicated with you or with one or two of the Indian agents in the district, who might have been interested in the purchase of cattle at low prices.

I wish to acknowledge receipt of your letter No. 115-1-14 of the 15th instant regarding the sale of the cattle herd belonging to the Onion Lake Indian Residential School, and I note what you state in the last paragraph.

Your contention is the same as mine, that is if we had been offered a chance to buy the cattle in question we would probably have been able to do so as both the Agent and the Clerk at Onion Lake Agency said the cattle were sold at a ridiculously low price. However, as it stands now the matter is closed.

Extract from Inspector Belowney's
School Report, enclosed in Commissioner
Reed's letter of date March 5th 1891

Onion Lake Agency

"In addition to my report of last year I beg to say that in anticipation of having nuns to teach here, it has not been deemed necessary to make any of the improvements mentioned in my report except mudding and thatching. It is intended to erect a frame building near the Roman Catholic Mission: only a class room is needed as the Reverend Sisters if they come here, will take possession of part of the Mission's house. The building of such a class room is, as I understand authorized by you, if the Agent can do it without expense; however it will be necessary to buy nails, windows, door, nails etc".

"If as intended by the Roman Catholic Mission, a boarding school is established the Mission will attend to the erection of a proper building if it be granted a sufficient grant per head to enable it to conduct the school after it is established. The intention is not to have an Industrial School but simply a boarding School"

No. 032

OFFICE OF THE

Indian Commissioner,

NORTH-WEST TERRITORIES

Regina, 6th April 1891

Sir

I have the honor to acknowledge the receipt of your letter of the 16th ult. asking for a report on the matter of the proposed establishment of a Roman Catholic Boarding School on the Onion Lake Reserve. In reply I beg to state that as there are now a number of Industrial Schools established in the North West Territories which are a source of high expenditure to the Department, I would recommend that if this school is authorized it be a Boarding School pure and simple, and conducted in every respect like the Protestant and Roman Catholic Boarding Schools at the Touchwood Hills Agency. The per capita grant allowance to be $72.00

The Deputy
of the Supt General
of Indian Affairs
Ottawa

making

76936

making $60.00 for board and lodging and $12.00 for tuition - The number of pupils to be admitted not to exceed ten.

In this connection vide my letter of the 31st ultimo No 194.

In reference to the subjects to be taught, literary or otherwise, I would advise nothing further than the usual Standard Course of Study. Gardening and Housework unless more can be had for the above payment.

If the teacher or male attendant about the school had a special adaptability for some trade it could be taught.

I am advised that the Church authorities anticipate putting two nuns in charge of this school, in the event of it being opened, in which case no teacher would be required, but merely a male attendant, as it is intended to lease the school building adjacent to the Church and Mission buildings, and not where it is at present.

I have the honour to be

St Albert, 21st Sept. 1893.

Dear Sir,

Do you remember the visit I had the honor to pay you last July at Ottawa when I was coming back from France?

Do you remember the favor I asked you and which you so kindly promised to grant?

I requested you to have the goodness to recommend, that a boarding school opened at Onion Lake by the Rev'd Sisters, should be officially recognized by the Department, with the usual per capita grant.

Now I am writing to Mr H. Reed who will have the kindness to forward that letter to your address.

Mr. H. Reed will give you all the particulars required concerning his school, which he will put in the next estimates and, Dear Sir, I rely upon you to redeem your kind promise, and have this boarding school approved of by the Department.

I Remain, dear Sir,

Devotedly Yours,

DEPT. OF INDIAN AFFAIRS
OCT 31 1893

My dear Sir,

The Revd. Sisters of Onion Lake have already in fact opened a boarding school attended by some 20 children. Now, dear Sir, I do earnestly unite with them to request you to have that boarding school officially approved of by the Department with the per capita grant given to such schools.

When you came here with Honorable Daly, Minister of the Interior, you remember the conversation we had together about the amount of good done by such institutions and the desire of the Government to multiply them.

By the high position you occupy you know better than anybody else the desirability of such schools. Therefore I come to you to day to ask you to recommend the establishing of this school under the charge of the Revd Sisters, at Onion Lake.

I know that if you will, this will be done. Please then, be kind enough to have that new boarding school in the next estimate with a good recommendation on your part, and it will be all right.

Please also please find here attached letters for the Honorable Minister of the Interior and for Mr Vankoughnet. Will you have the kindness to forward them yourself with a kind word of recommendation.

Let the Sisters have a good boarding school of some 40 children, in connection with their Day school and the Department will be, before long, entirely satisfied with the good results of the Institution.

I Remain, Dear Sir,

Yours very devotedly

H. Reed. Esq.

Onion Lake

3rd July 1894

A. E. Forget Esq

Indian Commissioner

Mr Commissioner,

We have received with much satisfaction the pleasant news that the Indian Department authorizes us to open a Boarding School at Onion Lake; and we hasten to offer our most sincere thanks for it.

Always more an more happy to labour for the civilization of the poor Indian children, we can assure you that we will do everything in our power to carry out the views of the Department in this direction. The only thing to be regretted is that the Boarding School is not to be for a larger number of children.

You can see by our Quarterly Reports that our school is regularly attended by from 40 to 45 pupils: Out of this number 20 are admitted

admitted to the Boarding school: What is to become of the others if no steps are taken to attract them to the school? With this end in view, we are convinced that you will not refuse to do as you did last year, and as has been promised by Mr Reed; --- continue the ration &c for all the children we can admit as Boarders, over and above the 20 authorized for the Boarding School; and also furnish dinner to those who attend the Day School. In this way, it seems, that we could secure from all the children of the Reserve, the inestimable advantage of regular attendance at the school.

I am quite confident you will take our request into your favourable consideration without delay.

In this pleasant expectation,

I have the honour to be

Mr Commissioner

SCHOOL BRANCH
NOV 6 1894

C. C. Talk with me this for Est

see 7 me H.

The Revd Sisters of Orion Lake boarding School having deemed it advisable to forward a petition to the effect of having the number of children entitled to receive a special grant of twenty two dollars a year, increased from twenty to forty, I take the liberty of adding to their petition, the following remarks which I hope will not be unworthy of your generous attention.

While we fully appreciate the strenuous efforts made by the Indians Department and keenly realise the spirit of liberality which characterize the government and the Head of the said department in order to secure for the indian children the benefit of a sound education, we in the mean time feel the obligation of representing to your consideration the necessity of increasing the number of the children on the list of boarders, that the hope of the Indian Department in establishing boarding schools may not be frustrated—

Here at Orion Lakes twenty seven children attend the school & boarders and out of this number twenty only receive a special grant of Twenty two dollars from the Government, while the rest, seven in all, receive only the + though they are cared for by the Revd Sisters as the others boarders — The latter are willing to do as much, but cannot do more — However I am utterly satisfy that had the sisters the proper means at their disposal they could have from twenty to twenty five children Beside those already mentioned on the list of boarders, but on account of their financial inability they are bound to restrain the number of children, and therefore many are deprived of their only means of getting civilized and to ascertain the extent of frustrating

2 ~~To a certain extent~~ thereby the view of the Indian Department. The

119303

Gentlemen at the head of the Indian Department are well aware of the fact that one of the most successful factor in bringing about the civilization of the Indians, is the school well conducted and well attended. With this fact in view multiply efforts have been made by those in charge of the Indian affairs in order to secure for the children ~~for~~ the benefit of a good education. Day's schools have been established throughout the Reserves to suit the purpose, a great amount of energy, and money has been put in by those who are more or less interested in the solution of the great problem of the civilization of the Indians. But unfortunately difficulties unforeseen have proved the day's school to be to a certain extent a failure.

To the honor, be it said, of ~~those~~ gentlemen who preside at the management of Indian affairs, a new plan which seems to justify the most sanguine hopes of the interested parties has been devised and already put in execution. Boarding-schools entrusted to the intelligent and generous care of teachers well qualified for the purpose have taken the place of day's schools, and, I may say, so far as Onion Lake boarding schools is concern, basing my impression on what I have seen and on the inspector report, boarding schools have been a success so far. Through the new system difficulties which hitherto have baffled the intelligent efforts of the Indian department and teachers alike have been successfully overcome. The natural apathy of the Indians (I speak of Onion Lake reserve,) for the education of their children has been vanquished to a certain extent, and a strong desire of having their children brought up under the devoted care of the sisters has been roused, so much that at the present time the Revd Sisters are confronted with the sad necessity of refusing a great number of children as boarders on account of their lack of resources, and consequently we are unable to favor the development of this new spirit amongst the Indians and thereby depriving many of the benefit of a good education —

and

One who is not fully cognizant with the real facts, might make this observation, namely: That the children

Indian Affairs. (RG 10, Volume 6324, file 659-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

the children who cannot be taken as boarders, may attend day's school and thereby receive a certain education—

To this, allow me to bring forth the same reasons which have caused the day's schools to be a failure in some way— moreover experience compells me to state that the idea of having boarding schools attended by days-schools children is pretty near next to the impossible— Days' schools children most of them poorly clad and poorly fed are not slow to detect the difference existing between them and those of the boarding school better clad and cared for, and this perception of their inferiority cause them to be more than ever against their attending the school— While they would feel happy to attend the school as boarders, they shun the idea of attending the school as Days' school children— Therefore unless the Sisters take those children under their personal expenses, they would remain ignorant, that is savages as ever—

But, as I say in the beginning of my letter, the Rev Sisters are utterly incapable to take care of those children and treated them as boarders, unless the Indian Department extending the measure of liberality, grant their petition and allow them to take forty instead of twenty—

We specify the number 40, because we are satisfy that we could get more than that if we were in a position to do so—

I am intimately convinced that you are Sir, well aware of our strong desire to secure the education of the Indians children and that we are ready to impose upon us personal sacrifice in time and money to attain this end, but presently it is impossible for the Rev Sisters to do more unless the Government come to their assistance

You are also well aware of the position of Onion Lake, the difficulties of communication, the cost of transport &c— and for all those reasons above mentioned, and encouraged by our agent Mr

Rev. Sir,-

I beg to acknowledge the receipt of your letter of the 24th ~~ultimo~~ Sept., along with one from the Rev. Sisters of Orion Lake, relative to an increased ~~number~~ number of pupils for the Boarding School under their management. The Department is fully alive, as you appear to be aware, of the necessity of providing proper education for the Indian children, and instead of making slow progress has advanced in recent years with very rapid strides, and the experditure in connection with schools has mounted up to something in the neighbourhood of a million of dollars annually, from a few thousand some fifteen years ago. Not only from you but from others of all denominations throughout British Columbia and the North West Territories are we in receipt of similar applications: and the Department fears it will be unable to meet many of the demands; but the application of the good and Rev. Sisters will be seriously considered during the making up of the coming Estimates. You may rest assured that my wishes are with you: and if it is at all possible to meet your wishes it certainly will be done, as the Goverrment is only too anxious to do so if it can see its way clear.

Deputy S. G. of Indian Affairs

Ottawa

Sir

It is with the greatest pleasure that we receive through the kindness of Mr Mann the news that we were allowed to take ten more children as boarders - Please accept our best thanks - We cannot commend too much your efforts and congratulate you on your success

Be allways aware that on our part we will not spare any thing to make the school a success and a credit to the Indian Depart. inspite of the many difficulties we have to contend with -

With the present return we send seven new names, to be put on the list of boarders raising the number from twenty to twenty seven -

Before the next return be due our list will be completed - Once more accept our best thanks and believe me

Sir

Your Ob't S. A. Pierson principal

THIS LETTER HAS BEEN SENT

Ottawa 10th August 1895.

Sir,

I have to inform you that a letter has been received from the Rev.J.A.Therien,Principal of the Onion Lake Boarding School,in which he states that he has been informed by Mr Agent Mann that the Onion Lake School was to be allowed 10 more boarders and thanking the Department for its kindness in making provision for this additional number.

The number provided for this year is only 25 or 5 more than last year. You can,therefore, see the awkward position in which the Department is placed by Mr Mann's incorrect statement. The Department would like you to know whether Mr.Mann was authorised to give this information.

Your obedient servant,

Acting Deputy Supt:Genl:
of Indian Affairs.

The Assistant Indian Commissioner,
Regina,

Regina, August 31st 1895

Sir:-

II6622. I have the honour to acknowledge the receipt of Department letter of the I9th inst, relative to the appropriation for the Roman Catholic Boarding School, at Onion Lake, and to state in reply that Mr Agent Mann was authorized from this office to allow the enrolment to be increased to 30 pupils.

This was done under authority of Departments letter (no number) of the 29th May last, advising that a reduction of I0 at this school had been made in our Estimates, which originally asked for an appropriation for 40 pupils.

It is hoped that this explanation will be satisfactory to the Department.

I have the honour to be.

Regina, N.W.T., Sept 11th. 1895

25 pupils provided for

Dear Mr Reed,

A mistake seems to have occurred at Ottawa relative to the number of pupils provided for at the Onion Lake Roman Catholic School. If you will refer to a letter from this office, No 032 of the 31st ultimo you will, I think, find that I was justified in authorizing an enrolment of 30 though Department's letter 116622 of Sept 6th repeats that 25 is the limit. At the end of July last according to admission Returns in the hands of the Department, the enrolment had reached 27. The Return for August is not yet to hand but it is more than probable that the number has now reached 3 0.

Yours faithfully,

Wmdaget-

Sir,

In reply to your letter of the IIth instant, in regard to the grant to the R.C.School at Onion Lake I beg to say hat although provision was made in the Estimates for 30 pupils at that school the number was reduced to 25 by the Treasury Board and that number is all that is provided for for the current year. You will therefore, see that it is impossible for the Department to pay for more than 25 pupils.

Your obedient servant,

Regina, October 17th 1895

Sir:-

I have the honour to forward herewith the September 1895, quarterly attendance Return, of the Onion Lake Boarding School, and in this connection to refer the Department to my letter of even number of the 11th Ulto, and to express a hope that, for the reasons therein given the Department may see its way to paying for 30 pupils.

As to funds, might not the unused portion of the appropriation for the other Boarding School in this Agency be used here ? The present indications are that not more than one-half of the appropriation for 16 at the Protestant Boarding School will be needed there.

I have the honour to be.

OTTAWA 24th October I895

032

Sir,

I have to acknowledge the receipt of your letter of the I7th instant in reference to the Grant to the Roman Catholic Boarding School at Onion Lake;and in reply I beg to refer you to my letter of the 8th inst: in which you were informed that 25 pupils are all that are provided for for the current year at that school.

The Estimates only provide for II pupils at the Church of England Boarding School at that place,and as there were 7 on the roll last Quarter you see it will be impossible to pay anything out of that grant towards the support of the Roman Catholic School at present.

The earnings of the Boarders therfor during September Quarter were $42I:20 (not $489:60) and $35:94 being earned by day pupils makes a total due this school of $457:I4 (not $$24:55)

DEPT. OF INDIAN AFFAIRS
DEC 20 1895

Regina, December ~~16th~~ 1895

INDIAN SCHOOL BRANCH
DEC30 1895

Sir:-

I have the honour to refer to Department's letter No 116622 of the 6th ulto, advising the issue of a cheque for $11.40. for tuition during the last September quarter of the 5 pupils for whom no maintenance grant was allowed, and to state that in drafting the Official letter of even number of the 28th October last, making requisition for said grant, the figures used as a basis of computation, were those given in the column headed " No of days attendance during quarter ". With reference to 3 of the e, Nos 015, 016 and 017 who are shown in the columns to have been admitted July 22nd and to have been present 71 days, it will be observed that under " Remarks " the Rev Principal explains that they were admitted July 1st and were therefore present 92 days.

The tuition Grant earned by these 5 pupils was therefore as below:-

No 015	92 days	$3.00.
No 016	92 days	$3.00.
No 017	92 days	$3.00.
No 018	62 days	$2.20.
No 019	60 days	$2.00.
	In all	$13.20.
Deducting payment already made		$11.40.
	Balance still due	$1.80.

The Deputy Superintendent General,
of Indian Affairs,
Ottawa.

CONTRACTS - PRINTING - SCHOOLS 24 1898

Sir,

I have the honour to inform you that I have an application from the Principal of the Onion Lake R.C. Boarding School for ten additional boarders over the number already authorized, to be selected from among the Chippewyan families of Beaver River who, on account of the distance of their homes from their own Reserve School are practically deprived of educational advantages.

I have answered that there being no appropriation for this purpose during the current year it would be impossible to entertain this application. I may, however, state that the Chippewyan Day School on account of its inefficiency has been closed for an indefinite period, at least until next July, and as these Indians are quite open to civilizing methods, and as it would be injudicious to discourage them when seeking to hand over their children to the School authorities at Onion Lake, I beg to ask that the appropriation for the Day School be utilized by allowing the Boarding School to receive five additional boarders.

Your obedient servant,

A. E. Forget

In your reply refer to
No. 126/148.
and date of this letter and address
A. E. Forget, Esq.,
Indian Commissioner,
Winnipeg, Man.

Winnipeg, 9th September, 1898.

H&R

Sir,

I have the honour to acknowledge the receipt of your letter of the 30th ultimo, in regard to attributing the grant of the Beaver River Day School towards increasing the number of boarders at the Roman Catholic Boarding School at Onion Lake.

Pursuant to the Department's letter of the 16th October, 1895, No. 132895, the Estimates for 1897-98 did not provide for a day School but contained a sum for increasing the number of boarders at Onion Lake instead. The parties concerned were not however, informed of this fact, and the day school was kept open up to the end of last fiscal year, and the grant was presumably paid by the Department. In making this year's Estimates the increased number of boarders at Onion Lake was not provided for in the belief that the School would not be able to receive more than 40 pupils, but I was under the impression till the receipt of your letter that provision had been made for the Chippewyan Day School. This is unfortunate, and something requires to be done, and with this end in view, I would recommend that the appropriation for the Day School at Meadow Lake, which has also been closed for the year, be applied to the maintenance of additional boarders taken from the Chippewyan Indians in the Onion Lake Boarding School.

Your obedient servant,

A. E. Forget

Indian Commissioner.

The Secretary of the

23rd September, 1898.

THE SECRETARY.

With reference to the recommendation of the Indian Commissioner that the appropriation ($300) for the Day School at Meadow Lake, Carlton Agency, be applied to the maintenance of five additional boarders from the Chippewayan Indians at the Onion Lake Roman Catholic Boarding School, I beg to report that at present the per capita grant for the boarding school in question provides for 50 pupils at $72, and that according to the last return received there are only 45 pupils on the roll.

As the Department thought proper to cut down the grant for the present year to 50 pupils, whereas 60 were provided for in 1897-98, I submit that the Indian Commissioner's recommendation ought not to be approved.

There is no connection between the Day School at Meadow Lake in the Carlton Agency and the boarding school in the Onion Lake Agency.

H.C. Ross.

Ottawa, 30th September, 1898.

Sir :

I have to acknowledge the receipt of your letter No. 126/148 of the 9th instant, in which you recommend that the appropriation for the day school at Meadow Lake, now closed, be applied to the maintenance of additional boarders from the Chippewayan Indians in the Onion Lake boarding school.

In reply I beg to say that the department does not approve of your recommendation in this matter. At present the per capita grant at the boarding school in question provides for 50 pupils, and according to the last return received there are only 45 on the roll. The Department thought proper to cut down the grant for the present year from 60 to 50 pupils, and it does not see sufficient reason why it should now provide for a greater number.

Your obedient servant,

A. N. McNEILL

Assistant Secretary.

A. E. Forget, Esq.,

Indian Commissioner,

DEPARTMENT OF INDIAN AFFAIRS. DEC 1899

1re folio

University of Ottawa.

L. J. C. ET M. I.

Ottawa, Canada. November 28 1899

192070

Memorandum respectfully submitted to the Indian Department by Bishop Legal Coadjutor of St. Albert = Alberta. N.-W. Ter.

The following grants are recommanded for insertion in the Estimates:

1°/ A Grant of $1200.00 for additional buildings at Onion Lake's Boarding School. There is not sufficient accommodation there for the number of pupils admitted. $ 1200.00

2°/ a grant of $1200.00 to help covering the expenses of the building at Blackfoot crossing. — Another Grant of $2160.00 to support 30 more additional pupils. There are only 10 authorized, which is much too small a number for this large Reserve. — As to the actual cost of the buildings there, it is as follows: 1200.00 2160.00

Amount of Vouchers sent to the Ind. Dep. $ 2519.37
" paid by me 811.94
" Still due on the buildings 1205.11
$ 4536.42

And we will have to buy what is necessary to furnish the house.

3°/ A grant of $200.00 to help covering the expenses of the buildings at the Blood Reserve. This amount is still due. 1200.00

4°/ A grant of $1440.00 for 20 more additional pupils at the Peigan Reserve Catte. Boarding School. There were admitted, last year 25 pupils, during the whole year, with the consent of the Department, which however, refused to pay 1440.00

Carried forward $ 7200.00

Brought forward $ 7200.00

for more than 20 pupils. We were made to understand then that 40 would likely be the number of children approved for this year; and instead, the former number of 20 has been left to stand. — By treaty the Government has assumed the duty to provide instruction for all the Indian children.

5°) A Grant of $2500.00 for a Boarding school at Cold Lake. 2500.00
Children of this place cannot be taken at Onion Lake. Total $ 9700.00

Extract from 132985-1

—— The Missionary, on the Blood Reserve, has some complaints on various subjects, connected with the schools:

1) The Written promise of Parents, for the admission of their children in our school, has been disregarded in some instances.

2) The same rule is not observed by the Indian agent in regard to the half-breed children actually at the charge of the Indian Department.

3) The rule about school age, should not be too strictly inforced, When parents are consenting to give away children only 4 or 5 years old:

It would be advisable to ascertain the well founded of these complaints.

Respectfully submitted to the Consideration of the Genral Superintendent of Indian affairs.

SUPERINTENDENT GENERAL OF INDIAN AFFAIRS CANADA

DEPARTMENT OF INDIAN AFFAIRS. DEC 1 1899

R.E.

Ottawa, 28th November 1899

Memorandum Mr. Smart,

The attached, which was prepared for submission to the Minister, was left with me by Bishop Legal to-day.

Each of the first five cases had better be made the subject of a separate report by Mr. Benson.

Paragraph No. 1 of the 2nd page of the memorandum refers, the Bishop stated, to a case in which although a written demand was made by the parent to have the child placed in the boarding conducted under the auspices of his church on the reserve, the child was placed in another school.

Paragraph 2 of the same page is really an allegation which the Bishop makes on information given him by the Priest in charge that the Agent gives rations to certain non-treaty people while refusing them to others.

If there is no correspondence in the Department throwing light upon these matters, I think

Indian Affairs. (RG 10, Volume 6324, file 659-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

think the Bishop should be asked for definite information, names, dates, etc.

Paragraph 3 of the same page explains itself, and is a subject for report by Mr.Benson.

Evêché de St-Albert,

ALBERTA, T. N. O. (Canada)

St. Albert, January 5 1910

DEPARTMENT OF INDIAN AFFAIRS
RECEIVED
JAN 10 1910

To the Honorable
Mr. Clifford Sifton.
Sup^t Gen^l of Indian affairs.
Ottawa.

Honourable Sir,

I have the honour to respectfully call your attention, before the opening of Parliament, to the Memo that I left in your office, at Ottawa, on the 29th of Last November. Having not then the opportunity to see you there personally, as, at the time, you were absent in the West I exposed to your Secretary the various points to which I wanted to draw your particular attention.

There are, amongst the rest, two items on which I want to give some special explanation. I have asked for a grant of $ 1200 00 to help covering the expenses of building the Boarding School, at the Blood Reserve, and for a similar sum of $ 1200 00 to help also covering the expenses of the building for a Boarding school at the Blackfoot Reserve.

Authorized Jan 18th/10

$ 1200 to be spent at Blood Reserve Authorized Jan 12th/10

If we had limited ourselves to the sum allowed, at first, by the Department, for both places, we would have put up only insignificant buildings, altogether unsuitable for the purpose in view, & we would have had to ask, from year to year, for additional sums in order to make the necessary enlargements. These would have cost a great deal without making even then a decent building. By completing the whole building, in its main component parts at least, I am sure that we have made a very substantial saving, for the Department

Indian Affairs. (RG 10, Volume 6324, file 659-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

We have gone into large expenses, besides over the Government grant, that we have paid already; but there are still about $1200 cts due on each Building, for Lumber taken at Peter McLaren, Macleod, for the Blood school, & at the Lac Claie Co, Calgary, for the Blackfoot Crossing School, & these companies, of Course, are anxious to be paid, as soon as possible for the material supplied.

I hope that your Department will be willing to pay this debt of $1200 cts on each of these buildings, & in such case we would put no application for the purpose of securing back the other sums paid by us.

Without prejudice to the other items, contained in my Memo, I am confident that these, & for the reasons I have just exposed, will be satisfactorily settled.

I have the honour to remain,

Honourable Sir,

Your very respectful & obedient servant.

OTTAWA,22nd January,1900

Rt.-Rev. Sir,

I have the honor ot acknowledge the receipt of Your Lordship's letter of the 15th inst. calling special attention to two grants asked for in your previous communication of the 29th November last and in reply I beg to say with regard to the first item that I find that the Minister has already informed Your Lordship that the additional contribution of $1200.00 asked for towards meeting the cost of the boarding school building on the Blood Reserve has been authorized.

In reference to the grant of a similar sum of $1200.00 to assist in meeting the expense of the boarding school building on the Blackfoot Reserve, I regret to say that the Department cannot see its way to meet Your Lordship's wishes in this matter this year.

I have the Honor to be, Rt-Rev. Sir,

Ottawa

Note: See

I have the honour to acknowledge the receipt of your letter of the 11th inst. informing me that a sum of 1200 $ is available, as an additional contribution towards meeting the cost of the Boarding School Building upon the Blood Reserve. I have just written to you again, a short while ago, to remind you of my former demand, on that respect, not only for the Boarding School on the Blood Reserve, but also for the one on the Blackfoot Reserve; of course that, by putting up the complete buildings at once, we had made, in our opinion, a considerable saving of expenses, which would permit us of not calling often upon the Department for additional accommodations.

I feel very thankful to you for having granted my request, as far as the Blood Reserve Boarding School is concerned, and I hope that you will be able also to grant the same assistance for the Boarding School on the Blackfoot Reserve "Crowfoot Boarding School". The opportunity will be afforded to you of so doing, as the session of the Parliament will soon open.

I have the honour to remain
Honorable Sir
your very respectful & obedient servant.

GOVERNMENT OF THE PROVINCE OF SASKATCHEWAN.

DEPARTMENT OF EDUCATION.

302671

REGINA, DECEMBER 15th, 1906.

S i r,

I have the honour to inform you that the Department of Education has recently received some correspondence relative to the provincial grant for a Catholic School at Onion Lake, presided over by Rev. Father Cunningham.

I shall be glad to know for the guidance of the Commissioner as to whether or not a grant has been paid by the Dominion Government in support of this school, also if such grant is still being paid. Any information you can give respecting the pupils in attendance, whether they are English speaking children, Indians or half breeds would be appreciated.

The Provincial Government, I may say, has every wish to help deserving schools but it will be absolutely necessary for these to conform to the regulations of the Department respecting the employment of teachers holding valid certificates of qualification.

Your obedient servant,

(Sgd) D. P. McColl ,

Deputy Commissioner.

Sir,

Application has been made to this Government for aid towards the support of the education of pupils, claimed to be half-breeds or white children, for whom no grant is paid by the Indian Department.

As this school is situated outside the range of travel of any of our Inspectors we are not in a position to have these statements verified; yet, if the facts are as stated, namely, that certain pupils are receiving education in the school for whom the Indian Department is not paying grant, this Government is disposed to give some assistance.

I will therefore esteem it a favour if you will send me a copy of the last list of the names of pupils for whom your Department is paying grant so that the Commissioner may have something before him upon which he can determine the justice of Father Cunningham's claim.

ACCOUNTANT FEB 28 1911 BRANDON

DEPARTMENT OF INDIAN AFFAIRS FEB 27 1911

CLXH 381843

Sir,—

~~Referring to your letter of~~

~~Max~~ I have the honour to inform you that on my return yesterday from visiting the distant reserves with Inspector Chisholm, I found that Mrs. Dr. Matheson had quarantined the R. C. Mission for diphtheria, and had wired the department reporting the outbreak and asking for antitoxine.

SCHOOL BRANCH FEB 28 1911

It appears that on the 12th. instant Dr. Matheson's services were called by a settler named Huntly, who lives with his family on his farm abutting he south boundary of the reserve, and there, she reports, she found a case of diphtheria, and on the 13th quarantined the place. On the 14th. she visited the Indian houses in the neighbourhood but found no symptoms of the disease. On her return home that evening she found that one of the settlers, who had two children at the R. C. Boarding School, wanted her to go to the school, as one of his children had died and the other one was sick. On going to the school, she reports, she found two cases of diphtheria which she treated, and the next day quarantined the whole Mission. On he 17th. the Rev: Principal wired to Dr. Amos of Lloydminster "Diphtheria reported in our school can you come" and Dr. Amos arrived the following evening. On the 18th. I returned to the agency with the Inspector, and, on hearing of the reported outbreak, was disappointed to find that Dr. Matheson had not communicated with Mr. Turner, agency clerk,

whom I had left in charge and who is perfectly capable of attending to agency work.

Dr. Amos remained here until this morning, when he returned to Lloydminster, taking with him swab specimens from the throats of the patients, which he will send to be examined by the Provincial Government bacteriologist.

He should explain

I would point out that the Rev: Principal wired to Dr. Amos without consulting with the agency, at the same time I must remind you that Dr. Amos is the physician who has medical charge of the school.

With regard to the afflicted children- I may say that Dr. Amos does not think that the disease is diphtheria, I therefore thought it better to wire the department to-day as follows.

"Reference Dr. Matheson's telegram, Dr. Amos here
"two days, cases uncertain. Everything necessary
"being done, writing".

If it is found necessary Dr. Amos will return on the 22nd. or 23rd. and if any more antitoxin is required he will bring it with him.

I have the honour to be

Sir,

Your obedient servant

W. Tibbalds

Indian Agent

Dear Sir

You will be glad to know that the outbreak of Diphtheria, about which I telegraphed you during the absence of your Agent, has so far been confined to the two houses in which it first appeared. i.e. that of a settler near the South East Corner of the Reserve, but in Alberta, and in the Roman Catholic School. I was asked by the Health Commissioner in Each Province to Quarantine & if possible prevent any Spread of the disease. I did so at once & have had every assistance from the Principal, Police. The Children attached to the School were French & I was specially requested by the parents to attend them. The

Listers did not wish me to see any of the other children in the school except those whose parents had called me in & told me Dr. Amyot was their house doctor. A few days later a couple of Indian boys left Sicily & Amyot was sent for by the Priest. He came and went into the quarantine without a word to me to look after his private & my patients to send down for examination saying that if it was Diphtheria it was very mild. I did not see my patients until they were over the worst but as the patients had died before I was notified & another was very seriously ill I thought it severe enough & insisted on maintaining the quarantine. He also disinfected the Priest's house & Church all inside my quarantine & left it with the Priest to ask me to release them from quarantine When spoken to about this by your Agent he (Dr Amyot) admitted that he had gone

so far but made no apology to me and returned to Coydunnidlt. I allowed his conduct to pass, supposing he was, as the Sisters gave me to understand, ashed by your Department to attend their school in case of sickness - but I did not see how he could do this while the School was quarantined unless he became a resident in it. Puzzled what to do and anxious to know your mind in the matter and whom you wished to attend the Indian Children I telegraphed you Department - I knew Dwas, would attend the Indians on the Reserve but thought you might have appointed Dr. Amos for their School - Let your answer for simply authorized me to procure Assistance if required - so I inferred - I was also to attend the Children - - Since his return your Agent informed me that Dr. Amos had not been appointed & I was very glad for it

www.collectionscanada.gc.ca

seemed an unnecessary mix-up.
When the Priest asked to have the Church
and Rectory released, we referred the Question
to Regina and I received the Commissioner's
answer last Evening. It was as follows:
"I quite approve of the measures that have been
taken to prevent the spread of the disease.
I think, however, it would be proper to raise
the Quarantine on the Church after the end
of this month providing no fresh cases
develop in the vicinity. Quarantine upon
the building in which the sick Children are
must however be maintained to the full
extent required by the Law". Dated Feb. 28th
In the meantime Dr. Amos came up again
with four Agents and without notifying me
or the Mounted Police of his intention
raised the Quarantine on the Church and
Rectory & was returned to Lloydminster
by four Agents yesterday. I am anxious
to learn what authority he had and
why I should be ordered to Quarantine
and another allowed to raise the same
and remove flags without notifying me.
That Dr. Snyder has not authorized
Dr Amos would seem evident from his
letter to me as quoted.

Sir,—

I have the honour to refer to my letter of even number dated 20th Feby. and to report that an examinationof the swabs proved that diphtheria existed.

The sickness was of a very mild type and the children have all recovered.

There were four cases Viz. Hozel Reinhart, Rose Marie Tremblay, Alice Nolin and Nancy House. The first two are white children and the last two halfbreed children for which four no grant is allowed by the Department. George Beaudry and Pierre Horse pupils Nos. 54 and 64 for whom department grant is allowed were suspects but diphtheria did not develop/

Dr. Amos made four trips from Lloydminister and will probably have to make annother to see that quarantine can be safely raised.

On March 14th. quarantine was raised on the principal parts of the school buildings, after being disinfected, and one suspect was kept in a separate building under quarantine but the child has not develloped diphtheria .

Dr. Matheson has been visiting the school as wellas Dr. Amos having been asked to do so by the the father of one of the white children.

Sir,—

I regret to inform you that one of the pupils at the R. C. School is laid up with typhoid fever. It was reported to me by the principal on 11th. instant that one of the girls was sick, with a request that the doctor be sent for. I went to the mission and with the reverend father saw the child; her temperature was 103 and she seemed seriously ill. We both thought it advisable to wire to Lloydminster for the doctor, and next morning Dr. Amos' partner, Dr. Graham arrived, saw the child twice and prescribed and the next morning she was much better. The doctor mentioned that some of the symptoms pointed to typhoid but he could not decide positively; he left instructions with the reverend sisters, and submitted a specimen of the blood to Edmonton for examination. Today I received a message from Dr. Amos stating that the report is "Typhoid positive " and that he will be out to arrange protection of other children.

The patient is Veronique Blackman, No.060, for whom a government grant is allowed, but she is non-treaty and is a halfbreed; it is the first case of typhoid fever I have ever heard of on an Indian reserve.

Sir,—

I have to report that on the 20th. instant I received a letter from the R. C. Boarding School at this agency, informing me that Agnes and Marie Peche, pupils Nos.094 and 096 respectively, paid on ticket No.64 of Chipewyan band No.149, were very sick, and asking when the doctor was expected to pay a visit. As the quarterly medical visit by Dr. Hill was due I wrote telling him of the school children's sickness and asking him to arrange his visit at as early a date as possible. However, on 22nd· instant, before allowing time for a reply to my letter from Dr. Hill, I received another letter from the school, stating that the sisters there were becoming alarmed at the illness of the two children and asking me to telegraph for Dr. Hill, which I did.

In answer to my telegram Dr. Hill arrived on the evening of yesterday the 23rd. instant, and left again for Lloydminster this morning. He pronounced the eldest girl, Agnes, to be suffering from heart trouble, and the youngest one to be in rather an advanced stage of tuberculosis. He prescribed treatment for each of the children, which, in the case of the tubercular one, included isolation from the other children.

ONION LAKE AGENCY

St. Anthony's R.C.Bearding School,

Onion Lake, May 20,1920.

To the Secretary of Indian Affairs,

Ottawa.

Hon. Sir :-

I beg to draw your attention to the arduous problem we are confronted with,in the successful management or our Bearding School namely :

The ever increasing cost of living,and as a result;the inefficacy of the actual per Capita school grant as an adequate mean to give our children committed to our care, the rational and healthy comfort they are entitled to.

I will learn you nothing,when I make you aware of the fact that the high cost of living is becoming a very serious proposition for such an institution as ours .

A return to the pre-war state of thing is not to be dreamed of,as prices for everything are still soaring and the top has not been reached yet.

Therefore I feel in duty bound to apprise you of the strenuous difficulties we are against in carrying out the Department's regulations concerning the boarding and the clothing of the children under our care.

Hitherto it has been a matter of great concern to us, to supply our children with what was considered the best in matter of food and clothing,as directed by the Dept. so much so,that both the local authority and the Indians were wont to make us known their entire satisfaction with the manner we were taking care of our wards.

But under the awful stress we have to carry on the work,I feel bound to inform you that henceforth,it would be impossible to keep up to our standard,unless

Indian Affairs. (RG 10, Volume 6324, file 659-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

an increase in the per Capita grant is alletted to us by the Department, substantial enough to enable us to run our school without incurring an annual deficit.

For a long time we have been contemplating the idea of improving the buildings so that our Boarding School might share in the maximum grant given out to certain up to date schools under the supervision of the Department.

But unfortuately, the high cost for everything partainable to the good maintenance of our school, our being at a great distance from the nearest station, the scarcity of material in our surroundings and our financial strimgency owning to an un-adequate per Capita grant, makes it imperative for us to postpone the intended improvements till the situation comes back to its normal if it ever comes.

However, I may say, although, we have not all the up to date conveniences and improvements existing in some other institutions better favored than ours, our school, nevertheless, offers our children all the necessary requisites required for their welfare .

Good spacious rooms, well heated and well lighted and a system of ventilation which affords fresh and pure air whenever necessary, so much so, that in the long winter we are just coming through, we had no sickness to report, and right now our children are the very picture of health.

Of course it would be a matter of great satisfaction to us, were we in a position to go through with the improvements heretofore contemplated, but it is impossible under the present circumstances, unless the Department sees its way through to give us a substantial bonus to begin with.

So far as the additional grant asked for, is concerned, I would kindly suggest and demand that a monthly per Capita grant of fifteen dollars instead of ten be granted . That additional grant being allowed to us, we feel

Sir,—

I have the honour to enclose herewith a letter received from The Rev: Father Therien, principal of the Onion Lake (R.C.) Boarding School, in which he makes application for an increased per capita allowance for the pupils.

It would be a great relief to both the Boarding Schools here, if the Department could increase the per capita allowance. Many instances come under my notice of difficulties experienced by these Schools in making ends meet with the present allowance, as instanced by the request of Mr H.Ellis, principal of the Onion Lake (C.of E.) School, for an advance of $300.00 on his quarterly per capita allowance; which request was transmitted to the Department in letter from this office dated 17th.instant, of even number.

I have the honour to be

Ottawa, May 27. 1920.

Sir,-

99 I have to acknowledge the receipt of your letter of the 20th instant enclosing a communication from the Principal of the Onion Lake (R.C.) Boarding School, in which he applies for an increase in the per capita grant.

In reply I beg to say that, owing to the appropriation for Indian Education being limited, the Department has no funds to increase the per capita grants. If any increase in grants were made, it would have to be general, as it would not be possible to make an increase in the case of the boarding schools at Onion Lake unless similar increases were made to the other residential schools.

The difficulties the residential schools have in meeting the demands, owing to the increased cost of supplies, etc., are fully understood, and the strictest economy should be exercised by the Principals in order to meet their obligations, as it is not possible, as stated above, to make any increase in the per capita allowance during the present fiscal year.

If it would be of any assistance to the Principal of the Roman Catholic Boarding School, the Department would be prepared to make an advance on the grant each quarter, upon receipt of a request from the Principal to that effect. You will be good enough to inform him accordingly.

MEMORANDUM

DR. SCOTT.

In an effort to determine the amount of accommodation which should be provided in the new Onion Lake R. C. Indian Residential School, I have studied the census returns for the reserves which can be considered in this institution's regular recruiting district. There are a total of approximately 184 Roman Catholic children of school age in the area in question. 126 of these children are on the Onion Lake, Keeheewin, Frog Lake and Island Lake Reserves. Approximately 20 percent of these would be found physically unfit for residential school life. I, therefore, conclude that 100 children can be secured from these 4 reserves if a campaign is carried on with success. I might point out that over 50 of the 60 children at present enrolled in the school come from these reserves.

There is another group of Indians that must be considered in connection with the Onion Lake R. C. Indian School, - the Chipewyans, Cold Lake, etc., with a Roman Catholic school population of 37 - 30 of whom would likely be fit. The school, however, has not been popular with the Chipewyans, as there are but 2 enrolled at present, yet there is a potential ~~population~~ purilage of about 25.

There are 20 Catholic children of school age belonging to the Meadow Lake Band, and the Onion Lake School is closest for them, but I find that they are all enrolled at Thunderchilds.

I consider that a purilage of not more than 110 should be allowed. Mr. Orr states that the plans can be altered slightly to care for this number and that the estimate already prepared will not need any change.

Dear Sir:

I am sorry to state that Rev. Father Thérien is not improving in health and feels quite unable to resume his functions as Principal of the Onion Lake Boarding School.
I therefore present to the Department for this charge Rev.Father L.Balter O.M.I.,who has previously exercised the functions of Principal.

Yours Sincerely:

J. B. Beys

Collège Mathieu

Gravelbourg, October 1st 1927

SASK., CANADA

Mr Duncan C.Scott,
Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Ont.

My Dear Mr Scott:-

Your letter of September 27th received this morning. Immediately upon its reception I advised Rev.Fr Beys of his mistake in appointing Rev.Fr Lacombe as Principal of Onion Lake Indian Residential School. Of course the Reverend Provincial is not aware of Rev.Fr Lacombe's activities in the past. I hope that my letter will have its effect and that a new appointment will be made.

Rev. Fathers Leonard and Carrière have spoken to me of your visit. You easily conceive my regret at not having met you. If Rev.Fr Leonard had been advised earlier of your coming he would have phoned to me and I would have motored the 200 miles to have the pleasure of meeting you and Mrs Scott. The Reverend Principal was told of your coming just two hours before you entered the house. However it is only a delayed pleasure on my part as I intend to go to Ottawa during this present month and part of next.

Best regards to Mrs Scott.

Yours very truly,

Joseph Guy o.m.i.

Dear Mr. Graham,-

I have your note about the buildings at Onion Lake, and I quite agree. By the way, I refused to accept Father Lacombe as Principal of this school. You may have known of the trouble we had with him in the past, and when the Oblate Order has so many fine men in its ranks, I think we should get them into our service. Father Guy is supporting me, and I have had a letter from Father Beys stating that Father Therien will resume his position in a short time.

Yours sincerely,

Deputy Superintendent General.

To 31/10/27
1806

115-8-1
St Anth Res Sch.

October 31, 1927.

My dear Father Guy,-

I am inclosing two telgrams, one addressed to the Minister and the other to myself from Father Lacombe. You can appreciate how painful it was for me to receive a telegram couched in this language. This is ample proof that Father Lacombe is quite out of place. The idea that the destruction of the Beauval school could ever be forgotten by me is an insinuation that really distresses me. I know that Rev. Father Beys has said that this Father Lacombe is only a locum-tenens. Why then does he sign these telegrams as "Principal of St.Anthony's Residential School"? I cannot think that Father Beys who has been so considerate in all our dealings together could fail to take a very serious view of these telegrams. I know what your opinion will be. As for the question regarding conduits, the contention is perfectly absurd. Flexible conduits are used in thousands of buildings in this city and elsewhere. If rigid conduits were placed in the Anglican School, it was only because the contractor wished to use them. The specifications for the two schools were exactly the same, and there is no danger whatever in the use of flexible conduits.

Ever yours sincerely,

dcl

MEMO FOR FILE:

I learned, when at the Onion Lake R. C. Indian Residential School this summer, that there has been no change in the matter of management. The Oblate Fathers are not responsible for the financing of the institution. The Sisters are doing the financing and they pay Rev. Father Balter for his services. I am not satisfied with this, and I am prepared to discuss it with the church authorities at an early date.

Via Lloydminster, Sask.

March 18th. 1929

Mr. Russell T. Perrier,
Sup't. of Indian Education,
Ottawa, Canada.

Dear Sir;

It was with very grave concern that we learned of the Departments refusal to pay the per capita allowance for the 110 pupils that this school was equipt for, or even the lesser number whose admission was authorized, and which we accepted in the belief that since the school was equipt for more, a formal application was unnescessary.

We therefor, make application herewith, for the authorization of the number of pupils we have room for, namely, 110, and we ask that this number will be arranged for when the budget for this year is made up.

In addition, we ask that the per capita grant be raised to $170.00 per annum, as the distance from the railroad as well as other inconveniences here, it is very expensive for us, and in spite of the generous help we have had from the Dep't. it is impossible for us to live within our income.

We are certainly apreciative of the co-operation of your Dep't., and do not wish to seem otherwise through making these further requests. We simply deem it nescessary.

Yours very truly,

L. Baelen
O. mi. I.
Principal.

Ottawa, March 26, 1929.

Reverend Sir:

I have your letter of the 18th instant, with reference to the pupilage and the per capita grant at the Onion Lake R. C. Indian Residential School. When our Estimates were made up, in December, the Department made provision for an appropriation for 90 pupils at your school at $165 per capita. I am pleased to inform you that arrangements have been made to make this effective from the first of January, and grant will be allowed for this quarter at the increased rate. I regret that it will not be possible to allow a pupilage of more than 90 at the present time. If you find that you are in a position to earn more than this number next Fall, you should write the Department, so that they will arrange for an increased appropriation for the fiscal year commencing April 1, 1930.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

NO 26

COMMISSIONER'S OFFICE,

REGINA, SASK., Nov. 20th, 1929

IN YOUR REPLY REFER TO

No. 309-11

ALSO TO DATE OF THIS LETTER.

Dear Mr. Scott:-

The Onion Lake R. C. Indian Residential School was recently inspected by Provincial School Inspector, Mr. D. L. Hicks, and he has this to say regarding Sister St. Aldegonde, who is one of the teachers on the staff at that institution,-

"Sister St. Aldegonde in my opinion will never
"make a success of the teaching profession until
"her command of English improves. I can see very
"little improvement in the last year. I asked her
"three times for her register, and finally had to
"look for it myself as she could not understand my
"request. The following are a few of the expressions
"she used in my hearing:- "How many years you have",
"What is de word". Her accent is so poor that even
"when she reads to the class I cannot always understand
"her. I fear that the pupils are making very little
"progress under her direction. I asked her what
"Saskatchewan certificate she held, and she said that
"she only had a certificate from Nicolet, Que. I feel
"that in the interests of this school some step should
"be taken to place a more capable teacher in this room."

The above is an extract from Inspector Hicks' report to the Dept. of Education, copy of which has been sent to me for the information of our Dept. You have his general report on the school, which was forwarded under cover of my letter dated Nov. 2nd.

Yours very truly,

W. M. Graham

Sir:

I have your 309-11 of the 20th instant, relative to the report of the provincial school inspector regarding the services of the teacher of the junior classroom at the Onion Lake R. C. Indian Residential School.

In this connection I have to say that upon receipt of your letter of the 2nd instant enclosing the inspector's report, the Department immediately took up with the Principal the question of a change of teacher. In a report from the Principal dated the 17th instant he states that arrangements have been made to improve conditions with regard to the junior room and that Sister Stebbins, who is a qualified teacher, has been appointed to succeed Sister St. Aldegonde.

Your obedient servant,

A. F. MacKenzie.

R

DEPT. OF INDIAN AFFAIRS
DEC 17 1929
RECORDS

St. Anthony's Res. Indian School,

via Lloydminster. Sask.

Dec. IIth. I929.

The Hon. Duncan Scott,

Deputy Minister Of the Dept. Of Indian Affairs.

Ottawa.

Sir.-

In a letter dated March 26th. I929, No. II5-8-I written by the Department to Father Balter the then Principal of this school in reference to an increase in the pupillage and per capita grant, the last part of it reads as follows:
" If you find that you are in a position to earn more than this number (90) next fall, you should write the Department,,so that they will arrange for an increase appropriation for the fiscal year commencing April I, I930"
Acting on that suggestion, I beg the Department to increase the pupillage up to II0 children. Actually we have in our school I03 children and we receive the grant for 90 only.
We can afford to take II0 children without any over crowding and can give them all the accommodation required.The fact that we have I3 un-paid children is an over charge which we cannot afford to carry any longer and I beg to ask you to see that we are paid for their maintenance.
Would it be too much to ask the Department to classify our school so that we may be entitled to get the maximum of the per capita grant(I70 dollars)as it is alloted to some more favored one? I am not aware that our schoolis less efficient and is not up to the standard required to get the maximum of the per capita grant.
You know just as well as I do the many drawbacks we have to contend with. Owing to the distance from the nearest railway station our expences are considerably increased and the fact that our crop this year was almost a failure is far from improving our financial situation.
To be candid about it,I must say, that we shall not be able to meet both ends unless the Department come to our help by increasing the pupillage up to II0 children and a per capita grant of I70 dollars per head.
Hoping that my request will received a favorable answer from the Department,

I remain.

Your's faithfully.

J. A. Therrien

Reverend Sir:

I am directed to acknowledge your letter of the 11th instant, concerning the pupilage and per capita grant at the Onion Lake R. C. Indian Residential School. The rate for schools of the same class in your locality is $165 per annum, and I regret that, at the present time, there can be no change in the grant. However, I am pleased to inform you that a pupilage of 100 will be allowed as from January first - this number having been provided for in our Estimates which were prepared in the fall.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Sir,-

I beg to acknowledge the receipt of your letter of the 20th instant, enclosing letter received from the Reverend Principal of the Onion Lake R. C. Indian Residential School. In reply I beg to say that provision has been made in this year's Appropriation for a pupilage of 100 at this school, with a per capita grant of $165. With reference to the latter, I may say that it is the same as is allowed at the other Indian residential school in the Onion Lake agency. As our funds for this year are quite limited, it will be impossible to increase either the pupilage or the per capita grant.

Your obedient servant,

Russell T. Ferrier

DEPT. OF INDIAN AFFAIRS APR 7 1931

To the Honorable Duncan Scott
Deputy Minister of Indian Affairs
Ottawa.

Mr Jackson

Hon. Sir,

It is often during the last two or three years that the Principals of the Onion Lake R.C. Indian School have applied for a raise of the per capita grant, so that we may receive as much as other schools that have a better location and less expenses. Please allow me to renew the application, and to beg your approbation and recommandation for it,

no funds

Also, I think I am justified to demand, with the trusting hope to get, the same kind approbation and official support from you to increase our authorised pupilage up to 115 children.

increased to 110 pupils Apr 1/31

You know that Principals and their staff in this school have been devoted to their work; and the increase of grant and pupilage shall be received as an encouraging proof of your appreciation, as well as it will grant the help necessary for the proper maintenance of the school without too laborious and painful efforts.

100 now

Hoping that my request will receive your consideration and a favorable answer,

I remain
Yours faithfully,

Jos. Portier
Principal.

99-19

Onion Lake, Sask.
December 17, 1934.

Sir,

I have the honour to inform the Department that I am in receipt of a communication from the Reverend Father Langlois, in which he makes two requests in connection with the Onion Lake R. C. Indian Residential School. They are as follows.

116@170 = 116-17

(a) He desires the capacity of the school increased from 110 to 120 grant earning pupils.

no

(b) Assistance in the form of a grant towards freighting supplies from Lloydminster, a distance of 35 miles.

Since summer holidays, as the returns will show, has been accomodating 120 pupils, which is ten more than the grant provides for. Apparently there is ample room for all, and should the Department decide the building is large enough to justify this request, I would be pleased to recommend it, as all the children in residence should be in school somewhere.

Re grant for freighting. Both schools are at a great disadvantage as they have to freight their supplies from Lloydminster, a distance of 35 miles. The road connecting the schools with Lloydminster is a very bad one and in some seasons they have considerable difficulty in getting through. I do not think this an unreasonable request.

I have the honour to be,
Sir,
Your obedient servant,

J. T. Hill,
Indian Agent.

1 Mr Fabien

Dr.H.McGill, Surintendant Général,
Affaires Indiennes, Ottawa, Ont.

22 décembre 1934

2 Déc

Cher M. McGill,

Permettez-moi tout d'abord de vous renouveler l'expression de mes meilleurs voeux de Bonne, Heureuse et Prospère année 1935 pour vous et votre personnel.

Je suis heureux que le Département ait enfin fini par reconnaître l'école du jour du Grand Lac-des-Iles, qui sera officiellement ouverte le 2 janvier prochain. C'est sans aucun doute à votre intervention personnelle que nous le devons et je tiens à vous remercier; de même pour l'école du jour du Lac-en-Long.

Au cours de votre visite rapide de l'été dernier, vous vous êtes rendu à L'Ecole-pensionnat St.Antoine du Lac d'Oignon. Il y a 2 choses sur lesquelles j'aimerais à attirer votre attention au sujet de cette Ecole:

1o.- Cette Ecole peut facilement accommoder 120 enfants; de fait, elle les a depuis le commencement de l'année, et il lui sera de plus en plus facile de recruter ce nombre parmi les enfants des réserves qu'elle dessert.

Je demande donc, M.le Dr., à ce que le nombre d'enfants autorisés dans cette Ecole soit porté de 110 à 120 désormais. Ce surcroît d'allocation annuelle, surcroît qui devrait normalement lui revenir, allègera beaucoup sa situation financière, et permettra au Rév.P.Principal de faire plus aisément honneur à ses affaires qui n'ont pas été toujours très brillantes, tant à cause de circonstances incontrolables que du fait des lourdes dépenses extraordinaires occasionnées par l'éloignement du chemin de fer et des centres de distribution.

2o.- Cet éloignement étant cause de frais de transport considérables, je demande au Département de vouloir bien considérer ce fait avec sympathie et de venir en aide à cette Ecole par quelques secours particuliers, soit par une légère augmentation du "Per capita Grant" pour chaque enfant, soit par une allocation subsidiaire destinée à couvrir les frais de transport auxquels l'Ecole est forcément obligée de faire face.

J'espère, cher M.le Dr., que vous recevrez ces demandes favorablement, afin que notre collaboration en commun au succès de cette Ecole soit encore plus effective que par le passé.

Veuillez agréer l'assurance de mes sentiments les plus distingués,

H. Langlois O.M.I.
Provincial.

Translation

Edmonton, Alta. Dec. 22, 1934

Dr. H. McGill, Superintendent General
Indian Affairs, Ottawa, Ont.

Dear Dr. McGill.

Permit me first to renew the expression of my best wishes of good, happy and prosperous year for 1935 to yourself and your staff.

I am glad that the Department has at last recognised the School of Grand Island Lake, which will be officially opened on the 7th of January next. It is no doubt to your personal attention that we owe it and I wish to offer you my thanks as well as for the day school of Long Lake.

During your rapid visit of last Summer, you went to the boarding school of St-Anthony of Onion Lake, There are two things I would like to draw your attention about that school:

1° — That school can easily accomodate 120 children in fact it has them since the beginning of the year, and it will be gradually easier to get that number of recruits from the children of the reserves it is taking care of.

10 extra pupils for Apl

I would therfore, ask you that the number of authorized children for that school be raised from 110 to 120 in future. This increase of annual grant, surplus which should normally be allowed, would help its financial situation and permit the Rev. Father Principal to do honour to his affairs which were not always very brilliant, so much on account of uncontrolable circumstances than from the fact that extraorminary heavy expenses have to be incurred from on account of distance from the railroads and the centres of distribution.

2° — This remoteness being the cause of considerable

Indian Affairs. (RG 10, Volume 6324, file 659-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

www.collectionscanada.gc.ca

cost of transportation, I would ask the Department to kindly consider this fact in a sympathic way and come to the help of that school with some particular grant, such as for instance a slight increase "per capita Grant" for each child, or by a grant to cover the transportation which the school has to pay for.

I hope, dear doctor, that you will favorably consider this request so that our common collaboration for the success of that school will be more effective in the future.

Kindly accept the assurance of my most distinguished sentiments

(sgd) A. Langlois, O.M.I.
Provincial

January 7, 1935.

Dear Father Langlois:

I have your letter of the 22nd ultimo, requesting that provision be made for an increase of 10 in the pupilage at the Onion Lake Roman Catholic Indian Residential School.

In this connection I am pleased to inform you that the Department will allow an increase of 10 in the pupilage at this school, making a total of 120 pupils, as from April first, next, the beginning of the new fiscal year. The local Indian Agent will be informed and requested to advise the Reverend Principal of the School.

It will not be possible to provide a grant towards the cost of transportation expenses in the hauling of supplies from Lloydminster to the school. With the grant allowed for an increased pupilage, the Reverend Principal should be able to finance the cost of hauling supplies.

Thanking you for the kind expression of your good wishes for the New Year,

Yours very truly,

H. Conroy

Deputy Superintendent General.

115-8-1.

99-19.

Ottawa, January 7, 1935.

Sir:

I have your letter of the 17th ultimo, relative to the request of Rev. Father Langlois, Provincial of the Oblate Order, Edmonton, for a grant for an increased pupilage at the Onion Lake Roman Catholic Indian Residential School. I have to inform you that the Department will approve of a grant for an increase of 10 pupils as from April first, the beginning of the new fiscal year. This will make the grant allowed from that date for a total of 120 pupils. I would request that you inform the Rev. Principal of the school accordingly, and he can arrange to recruit up to that number, forwarding applications and certificates of health for the approval of the Department.

Regarding the request for a grant towards the cost of freighting supplies from Lloydminster to the school, I have to say that the Department will be unable to favourably consider this request. It is considered that, with a grant for an increased pupilage, the Principal should be in a position to finance the cost of hauling supplies.

I may add that Father Langlois also forwarded a request and has been informed in accordance with the contents of this letter.

Your obedient servant,

A. F. MacKenzie,
Secretary.

1 Dr Adrien
2 Dr Mc

Hon.Harold McGill,
Surintendant Général des Affaires Indiennes ,
Ottawa,Ont.

28 janvier 1935

Cher Dr.McGill,

J'accuse réception de votre lettre du 7 courant et vous prie de croire que je vous suis très reconnaissant d'avoir accordé à l'Ecole du Lac d'Oignon,dont le P.Pratt est Principal,une augmentation d'inscription de 10 enfants de plus.Espérons que l'allocation supérieure qu'elle recevra,à partir du 1er avril prochain,lui permettra de faire plus facilement honneur aux espérances que vous fondez sur la collaboration intelligente et dévouée de tout le personnel.

Vous vous rappelez peut-être,cher Dr.McGill,qu'à votre passage de l'été dernier à Edmonton nous nous étions entretenus de la question d'approvisionnement d'eau aux écoles de Delmas et du Lac d'Oignon.A cette dernière école on travaille actuellement à l'installation pour usage courant du gros moteur à incendie qui jusqu'ici était resté inutilisé;ce n'est pas une petite entreprise en hiver.Aussi afin que l'école ne soit plus exposée à manquer de lumière et d'eau et afin que les travaux de réparations urgentes soient plus aisément exécutés,il serait nécessaire de remplacer et d'agrandir un peu la construction qui abrite le moteur à incendie.J'ai l'intention de vous en écrire sous peu.Quant à l'école de Delmas,je sais que vous vous occupez en ce moment du creusage d'un puits ou de ce qui serait,à mon avis, bien préférable,de la canalisation de la source si belle et si riche située à quelque distance de l'école.Je fais des voeux pour que ce dernier projet soit mis à exécution le plus tôt possible.

Avec l'assurance de mon entier dévouement,

H. Langlois O.M.I.

Translation

Edmonton, Jan 28th 1935

Hon. Harold McGill
Superintendant General of Indian Affairs
Ottawa. Ont.

Dear Dr. McGill.

I acknowledge the receipt of your letter of the 7th inst. and beg you to believe that I am very grateful to you for having granted to Onion Lake school, of which Father Pratt is principal, an increase of 10 in the number of children registered. We hope that the increase in the grant they will receive from the 1st of April next, will permit the institution to honour their obligations and carry the expectations founded on the intellectual collaboration of the devoted staff.

You evidently remember, dear Dr. McGill, that at the time of your visit at Edmonton last Summer, we spoke of the water supply at the schools of Delmas and Onion Lake. At this last school we are now proceeding with the installation for current use, of the large motor for fire protection which was not utilized so far: and this is not a small undertaking during Winter. So that the school be not threatened by a lack of light and water and in a manner to do the urgent repairs more easily, it would be necessary to replace and enlarge a little the construction containing the fire protection motor. I intend to write you about it soon. Concerning the Delmas school, I know that you are at present looking over the matter of digging a well or of what would be better, in my mind, the canalisation of the water from the springs, so beautiful and rich, situated at a small distance from the school. I pray that this last project be carried out as soon as possible. With the assurance of my entire devotion.

(sgd) U. Langlais, O.M.I.

115-8-1.

February 8, 1935.

Dear Father Langlois:

I have your letter of the 28th ultimo, expressing thanks for the providing of a grant for an increase of ten pupils at the Onion Lake R. C. Indian Residential School as from April first, next, the beginning of the new fiscal year, and also with reference to water supply at that school and at the Thunderchild Indian Residential School, Delmas, Sask.

Regarding the Onion Lake R. C. School, the Department, in October, last, authorized the local Indian Agent to have the 15 h. p. engine, used in the school building, overhauled and repaired. We also authorized that the 25 h. p. engine, which was installed in the small detached building and used for fire protection purposes, be traded for a 20 h. p. gasoline engine, to be placed in the new structure adjoining the engine room of the main building, and that a lean-to be erected adjoining the engine room in the main building, in which to place this engine. The Agent was authorized to expend the sum of $850 for the above purposes. The Department understands that this work is being carried out.

With reference to the water supply system for the Thunderchild School at Delmas, the Department is in receipt of a report regarding the obtaining of water from the spring and piping same to the school. The matter will receive consideration. I would point out that the sum of approximately $6,500 was expended last year in drilling a well and installing water tanks in the basement of the school building. It will cost approximately $10,000 to install the system from the spring.

Yours very truly,

Harold W. McGill

Deputy Superintendent General.

L.J.C. & M.I.

May 5th 1936

DEPT. OF INDIAN AFFAIRS
MAY 12 1936
RECEIVED

EXD.

A.F. MacKenzie "Secretary"
Dept. of Indian Affairs
Ottawa, Ont.

Dear Sir:

For causes unknown to me, "The Return Form for the Principal's Fiscal Year Report has reached me only yesterday because I called for my mail at Lloydminster P.O.

Unfortunately I was not able to send it to you before to-day.

As you will see, the Principal's Salary, Sisters' Salaries and the Engineer who is a member of our religious Order have not been paid in full or even half. This is due to the fact that I had to renew many things as House Equipment, Repairs. The building being built for nearly 9 years requires many repairs and also all the material supplied by the Indian Dept. when the school opened has been worn out. Therefore a great portion of the allowance goes in that direction.

This year the farm brought in $1232.30 and beside 6535 lbs of beef and 14501bs of pork was supplied by the farm as food supplies for the school. By increasing and improving the farm I expect to be able to meet all my obligations.

Transportation is another heavy item being so far away from town or Railway.

The pasture on the school ground is absolutely ruined and needs to be ploghed entirely and is not large enough for our live Stock Every year I experience trouble with the Indians and also I loose some heads. Lately I asked with our local Indian Agent, the Indians to let me have a little pasture on the Reserve and they refused. Perhaps if the Indian Dept. takes up this question with the Indians we will have a better success. Dr. J.T. Hill Indian Agent was supposed to report this matter to the Dept.

I am very sorry to see that you are on the impression that I deal with your Dept without passing through the Local Indian Agency Office as per stated in yours April 28th --II5-8-114

May I state that before writing to the Dept. I always discuss every subject with the Indian Agent and upon his suggestion I then write to the Dept. I will be pleased always to act according to the Dept. Regulations as it is my greater desire to do everything right and honestly .

Hoping ,Dear Mr. MacKenzie, that this letter will be well received and the details contained useful to the Dept.

yours truly J.E. Batt O.M.I.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St Anthony School for the Quarter ended December 30th 1944

Principal Rev E. Jamot OMI

Dated Dec. 30th 1944

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Donald J. Cameron
Indian Agent

Dated at Onionlake. Sask.

this January 2. 1945.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

FILE

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

CANADA

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Anthony School for the Quarter ended September 30th 1946

Acting Principal Rev. Jules A. Garneau.

Dated September 28 1946

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

Indian Agent

Dated at Onion Lake, Sask.

this Oct. 5. 1946.

NOTE

Principals will please be guided by the instructions printed on the last page.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Anthony Residential School for the Quarter ended Dec. 31, 1948

Principal [signature]

Dated December 31 1948

Department of Mines & Resources
Indian Affairs Branch
JAN 8 1949
A. M.
RECORDS

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

[signature]
Indian Agent

Dated at Meadow Lake

this JAN 3 1949 19

NOTE

Principals will please be guided by the instructions printed on the last page.

FORM No. I. A. 403
Reqn. No. 2752

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

CANADA

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Anthony Residential School for the Quarter ended March 31, 1950.

Principal Rev. Jules M. Pierre.

Dated march 31 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

CANADA

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Anthony R.C. Indian Res. School for the Quarter ended Sept. 30, 1950

Principal Rev. Jules M. Pelletier Principal

Dated September 30 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case of each pupil, as called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals placed at the foot thereof.

3. When, owing to the number of pupils, all the names cannot be included on one sheet of the Return, use another sheet, paging it No. 2, and carry forward all totals, placing them in the proper columns.

4. The Returns must embrace only the quarterly periods ending 31st March, 30th June, 30th September and 31st December, respectively, and should be prepared and forwarded immediately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by the Department.

6. *The total number of days in quarter* means every day in the quarter, including Saturdays, Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the total number of days in residence of all pupils entered on the Return and is ascertained by adding the column under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of days in quarter".

9. *The amount per capita grant due for quarter* is ascertained by multiplying the "Average attendance of pupils during quarter" by the amount of the quarterly per capita grant. In no case, however, will payment be made for any average attendance in excess of the number of pupils for which grant is allowed.

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. On this Return the names of the boys and the girls must be arranged consecutively according to numbers.

INDIAN RESIDENTIAL SCHOOL QUARTERLY RETURN

I HEREBY CERTIFY that the within Return is a true and faithful statement of the attendance and tuition at the St. Anthony R.C. Indian Res. School for the Quarter ended December 31, 1950

Principal R. Jules M.A. Piersons

Dated December 31 1950

I have carefully examined the within Return and hereby certify that it is correctly made out in accordance with the instructions of the Department.

J.P. Davis
Indian Agent

Dated at MEADOW LAKE INDIAN AGENCY

this JAN 2 1951 19

NOTE

Principals will please be guided by the instructions printed on the last page.

FORM No. I.A. 403
R. 3608

NOTES ON THE PREPARATION OF THIS RETURN

1. Fill in all the columns of this Return, giving full particulars in the case o called for under the various headings thereof.

2. The columns of the Return should be correctly added and the totals pla thereof.

3. When, owing to the number of pupils, all the names cannot be included the Return, use another sheet, paging it No. 2, and carry forward all totals, placi proper columns.

4. The Returns must embrace only the quarterly periods ending 31st Mar 30th September and 31st December, respectively, and should be prepared and fo diately thereafter.

5. No Quarterly Grant will be paid until Returns have been received by th

6. *The total number of days in quarter* means every day in the quarter, includ Sundays and holidays.

7. *The aggregate number of days pupils in residence during quarter* means the of days in residence of all pupils entered on the Return and is ascertained by addi under the heading "Total number of days pupils in residence during quarter".

8. *The average attendance of pupils during quarter* is ascertained by dividing t number of days pupils in residence during quarter" by the "Total number of day

9. *The amount per capita grant due for quarter* is ascertained by multiplying attendance of pupils during quarter" by the amount of the quarterly per capita case, however, will payment be made for any average attendance in excess of pupils for which grant is allowed.

13

SPECIAL NOTE

A new number must be given to each pupil upon entrance to the school. C the names of the boys and the girls must be arranged consecutively according

CORRESPONDENCE
MAR 10 1894
BRANCH

Sir:-

I am sorry to have to report that the Roman Catholic School here, and all the school material, was burnt on the 17th, Saturday night, about 10 o'clock. The fire cannot be accounted for as there had been no fire in the school since Friday. This will make the building of a new school house necessary. At present the school is being held in a room belonging to the Mission.

I have, etc.,

(Sgd) Geo. G. Mann.

The Indian Commissioner,
Regina,
Assa.

Ottawa 12th March 1894

Sir,

I have to acknowledge the receipt of the copy forwarded by you on the 6th Instant, of a letter from Mr Agent Mann dated the 10th Ultimo, and in reply I beg to inform you that the Department very much regrets to learn therefrom of the distruction by fire of the Roman Catholic Indian School at Onion Lake together with al the School material.

Notice 26-4-94

May I ask you to be good enough to report how much a new School building will cost so that an item may be placed in the Supplementary Estimates for 1894-95

Your obedient servant

Acting Deputy Superintendent General

of Indian Affairs

The Assistant Indian Commissioner

grant 83

Ottawa, 29th March, 1894.

Sir,-

Owing to the unfortunate burning down of the Roman Catholic Boarding School at Onion Lake, I have promised His Lordship Bishop Grandin that the Department would provide the lumber for a new institution, and that our employees at Onion Lake would do as much as in their power lay in aiding in its erection.

Kindly, therefore, instruct Agent Mann to do this through his mill. Of course, the quantity of lumber is not to exceed that required for the building which has been destroyed. I do not know exactly where the money can come from; but, no doubt, you will be able to arrange if any is required to pay any of the Indians in getting this lumber.

Your obedient servant,

Deputy Supt. General
of Indian Affairs.

MAY 15 1894

Commissioner of Indian Affairs,

North-West Territories,

Regina, 11th May, 1894

File

Sir:-

I have the honour to acknowledge the receipt of
76,935. Departmental letter of the 26th Ultimo, asking for an explanation as to why no letter had been sent relative to the aid required from the Department in the erection of a school building to replace the one burnt in the Onion Lake Agency.

In reply I beg to say that on receipt of Department's
76,935. letter of the 12th of March last, communication was opened on the subject with Mr. Agent Mann, but before his reply arrived the Department's letters of the 29th and 30th March were received, stating what aid had been ag-
76,935. reed upon between the Department and His Lordship Bishop Grandin.

The Department having thus decided the matter, it was not thought that anything further would be required from this office.

Mr. Agent Mann was duly notified of the Department's wishes as to providing lumber and work for the new building.

I have the honour to be,

Sir,

Your obedient Servant,

THIS LETTER HAS BEEN SENT

OTTAWA 5th June 1894

Sir,

I have to acknowledge the receipt through your office on the 30th ultimo of a letter from Mr Agent Mann relative to the new Roman Catholic Boarding school at Onion Lake; and in reply I beg to inform you that, owing to lack of funds, it is feared that nothing more can be provided ~~than what has already been given~~ in the way of nails &c. ~~the Indians in the way of lumber.~~ No doubt, however, the Agent and Indians could give more lumber and thus make up for the nails, paper, etc. not given.

With regard to the concluding portion of Mr Agent Mann's letter I beg to inform you that any pupils in excess of the 20 authorized to earn the $72 per cap: maintenance grant at this school, will be allowed the usual $12 per cap: per annum tuition grant.

Your obedient servant,

Reference Mr Inspector Belcourt's Report on this school sent to the Department Nov 26th 1894

Ans. asst Comm.

Sir

In reply to your letter No 032 D. of December 5th 1894. re. Wells, R.C. Mission Boarding School.

I beg to inform you that a well 45 feet has already been sunk in proximity to this school, but no water can be obtained — the work was principally performed by a practical man, as Indians refuse to work in wells after digging to the depth of twenty five feet. I might here state that in the vicinity of the mission, two wells have been sunk by H.B.Co, and two by the N.W.M. Police with no success. Therefore I can see no use in digging shallow wells in this vicinity, had Mr Insp. Belcourt suggested a boring machine be used, it would be more to the purpose, I might also say, that all the water used here is obtained from springs and

KODAK SAFETY FILM

which I think will have to be con-
-tinued, or a boring machine
employed. I have had considerable
experience in digging wells,
and in every case they have
proved a failure.

The Indians will supply
the lumber for making desks,
cupboard, blackboard and table.
The chairs can probably be pur-
chased in Battleford for about
$2.00 each.

A box stove procured
locally would cost about $36.00,
Forty links of pipeing and two
(2) elbows would also be required
cost ——— . The school house is not
yet erected therefore it is im-
-possible to give the exact number
of pipes wanted - these will not
be required for use until next
winter.

Agent leaves price of pipes blank. They can be bought here when required.

DEPARTMENT OF INDIAN AFFAIRS
DEC 21 1895
032

FORWARDED FOR THE INFORMATION OF THE DEPARTMENT
REGINA, 17th Dec 1895
A. Forget
INDIAN COMMISSIONER

Onion Lake,

Nov. 18th 1895

Dear Sir:-

We have been very disappointed by your letter of the 19th Oct. Being convinced that we were authorized to take thirty boarders, not only did we admit such a number, but so as to more fully meet the wishes of the Department, and remedy to a want felt by all those who are interested, we moreover have admitted ten boarders for whom we receive no grant. Our object was to give to the larger number of our Indian children in the same degree the benefit of an unbroken course of instruction.

School allowance per instructions of letter dated 19th Sept. last that if funds will permit, grant for more pupils will be paid to obtain the fiscal year ending 31st.

You are aware that children attending the Day School and returning to their homes in the evening, do not, or nearly so, profit by the School, for the reason that the children do not attend the greatest part of the year owing to their fickleness and the carelessness of parents. To remedy this inconvenience, we have taken upon ourselves to admit ten children above the number allowed, relying upon the fact that we were authorized to take thirty boarders.

You can see how we are fixed. We receive the grant for only 25, and have 15 more for which we

www.collectionscanada.gc.ca

we receive no grant. We do not forget that we receive rations for the latter and $1.00. ahead a month, but this is as nothing compared to the expenses for their clothing, and food, especially when we are obliged to erect an expensive and comfortable building for these children. If we had reseources upon which we could rely! but such is not the case. We must absolutely rely on the Department's grant and in a locality remote from large centres where we must pay high rates for everything in the way of food or clothing for the chil dren. You can see the trouble we are in.

I leave it to your spirit of justice to see the means to remedy this awkward situation which has been brought upon us by some kind of a misapprehension. However I beg the Department to consider our request to have a larger amount of children as earners of the grant. Considering the number of children of School age, the distance between here and large towns where everything costs less, we ask anew an increase of the grant for ten children above the 25 we are already allowed as boarders. It must not be forgotten that 50 children of school age could be had here. We have built a house which can offer comfort and accomodation for such a number. I request you, dear Sir, to strongly urge the justice of this demand

upon

upon the Department of which you are one of the more appreciated Officers.

We are well desposed to do everything in our power to ~~keep~~ *help* the Department in reaching the gaol it looks for in the matter of the education of the Indian children; we appreciate to their true values the sacrifices made by the Government in order to solve the problem of the education and civilization of the Indians, and I take this opportunity to thank him, whoever he is, for the grant which has been allowed us for the 25 boarders of our school; but considering the urgency of giving to a large number of those children who are of school age, the benefit of a solid training, and also that our financial resources are insufficient to do more than we are doing at present, we beg the Department to do justice to our demand.

Hoping that our request will be taken into favourable consideration,

I etc,

(sd) J. A. Therien Pt. O. M. I.

Onion Lake,

Dec. 3rd 1895.

Dear Sir:-

In November 1894, the School house having been burnt down here, we began the erection of a boarding School. To meet the wants which were felt and the desire of the Department, we resolved upon building a spacious house wherein all the necessary comfort could be found for the children, who might be taken as boarders. This house, 35 ' by 45 ' three stories, begun in November 1894 was terminated in November 1895. Today there are forty children residing in the same. The ground floor divided in two rooms is intended for the class room, and for the girls workroom; the 2nd story is also divided in two, one for the boys dormitory, the other for the girls, the top story is not yet finished.

School accounts

Ack^d, stating could be sent.

Notified to Department.

A.E.F.

For this building, 50,000 feet of lumber have been used, the Department has contributed 12,000 as against the school house which had been burnt down, so that we have provided 38,143 feet to erect this building. I enclose the details of the expenses in connection with it, amounting to $2165.68.

We are thankful to the Department for

A. E. Forget Esqr,
Regina.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 1)

PUBLIC ARCHIVES

for the 12,000 feet of lumber we have received, but considering that this house is a School for the Indian children only, we beg to take leave to ask the Department to be kind enough to help us to pay the expenses that we were obliged to go to to erect it.

We see that the Department goes to a large output for the education of Indian children, and we cannot but praise it for the same; at the same time we beg the Department to consider that it is impossible for us to answer to its desire in giving to the children all the necessary comfort and adequate room if we are obliged to clothe, feed and shelter them out of the grant received from the Government.

We therefore pray the Government to aid us in defraying the expenses we have gone to in this building. We beg that the number of the children we keep as boarders without the grant usually allowed them as such, be considered.

We beg the Department also to consider that, owing to the promise received of a grant for 30 pupils when ultimately the grant was only for 25, we have been induced to take a larger number of pupils. This disappointment has put us to great financial embarrasment, specially for having to pay the cost of house, expensive, it is true, but at the same time necessary and occupied exclusively by Indian children.

I am etc.

EXAMINED
SCHOOL BRANCH.

OTTAWA 27th December 1895

THIS LETTER HAS BEEN SENT

Sir,

I have to acknowledge the receipt of a copy of a copy of a letter from the Rev. J.A.Therien,Principal of the Roman Catholic Boarding School at Onion Lake, enclosing a statement giving details of expenses in connection with the erection of a new building for the school,and asking the Department to contribute towards the expense incurred on this account;and in reply I beg to say that the Department regrets that it has no funds from which it could meet such expenses,and as the Estimates for next year have been prepared and submitted to Council,it will not be able to make any provision for assistance beyond that already granted.

With regard to the grant now paid for pupils at this Institution I beg to say that if at or before the close of the current fiscal year it is found that the Department can pay for a number in addition to those now provided for ,it will be willing to do so,but at present it is impossible to make any definite promise.

Your obedient servant,

The Indian Commissioner,
Regina,N.W.T.

Canadian Pacific Railway Co.'s Telegraph.

All Messages taken by this Company are subject to the following Terms:

READ THE NOTICE AND AGREEMENT AT THE TOP.

It is agreed between the sender of the following message and this Company that said Company shall not be liable for damages arising from failure to transmit or deliver, or from any error in the transmission or delivery of an unrepeated telegram, whether happening from the negligence of its servants or otherwise, or for delays from interruption in the working of its lines, for errors in cipher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same. To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon, at the following rates, in addition to usual charges for repeated messages, viz—One per cent, for any distance not exceeding 1000 miles, and two per cent, for any greater distance.

W. C. VAN HORNE, President.
CHAS. R. HOSMER, Manager Telegraphs.

This Company shall not be liable for the act or omission of any other Company, but will endeavour to forward the telegram by any other Telegraph Company, necessary to reaching its destination, but only as the agent of the sender, and without liability therefore. This Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed in writing, within sixty days after receipt of telegram for transmission. No employee of the Company shall vary the foregoing.

THIS LETTER HAS BEEN SENT

Sir,

I beg to acknowledge the receipt of your letter of the 11th instant, enclosing a Voucher , No 8439, in favour of the Revd J.A.Therien for $2165.68 , for expenditure in connection with the erection of the Roman Catholic Boarding School at Onion Lake , and with reference to the telegram from Agent Mann , which is attached to the Voucher , I would point out that according to his statement the expenditure up to date (10th August) has been $2700.00 . It would thus appear that the Department is asked to pay nearly the total cost , which as you are aware is more than has been done in the case of other Schools.

Will you therefore kindly telegraph the Department at once what you would consider a fair sum for it to pay ,in order that the subject may receive immediate attention.

Your obedient servant.

ACCOUNTANTS SEP 2 1896 BRANCH

Ottawa 31st August 1896-

Dear Mr. Scott-

I beg to submit herewith a Voucher,amounting to $2165.68 for expenditure on the building for the Onion Lake Roman Catholic Boarding School. I think it desirable to pay this Voucher,which is for material only. The building has cost over $3000.00 and it will be possible to charge at least $1200.00 to the General Appropriation for Schools,North West Territories,for the year 1895-96. It is usual to aid Boarding Schools in this way,and the Onion Lake School is worthy of special consideration.

A.Forget Esq.

Indian Commissioner,

Winnipeg.

Sir,

I beg to draw your attention to the fact that we have received only $1200.00 for our school building. As may be seen by the bills sent Aug.11th '96, the total cost of the house is $3633.00.

Would you kindly ask the Department to forward us the balance, that is $2433.00.

It is pretty near two years that the exterior is completed. As for the interior we intend to paint it before long, if we are granted the means to do so.

Hoping to receive a favourable answer.

I remain

Your humble servant,

W.Camiré,O.M.I.

R.C.Mission Onion Lake.

April 2rd.1898.

A.E.Forget Esq.

Indian Commissioner.

Winnipeg.

Sir,

We intend to finish the interior of the School House, and to paint it this summer.

This would require 3500 feet of ceiling.

1 barrel of nails.

50 gals of oil.

500 lbs of white lead

20 " for shading.

The total would cost about,-

Ceiling	$90.00
Nails.	5.00
Oil.	50.00
White lead.	50.00
Shading.	2.00

The painting could be done by the children of the school. As for the ceiling a man or two should have to be employed at about $1.00 a day. This work to be done in about ten days.

I would therefore ask the Department to grant an appropriation to enable us to do the work above mentioned.

W.Comiré.
Principal.

R.C.Mission,

Onion Lake.

April 2nd. 1898.

A.E.Forget Esq.

Indian Commissioner.

Winnipeg.

Sir,

I beg to draw the attention of the Department to the following fact. The school-room being now too small on account of the increasing number of children, we are obliged to use the dining room as a second class-room.

The boys' dormitory is also a little too crowded. This state of things has been found unsatisfactory by the Inspector, as being subjected to a great many inconveniences.

To remedy this, we intend to build an addition, connecting the school house with the Sisters' house. This addition would be about 40x30 feet, 2 stories high, with french roof.

It is impossible to get lumber here. We would be obliged to get it from Edmonton.

It could be taken down by the river

at

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 1)

PUBLIC ARCHIVES

Enc.

Sir,

I have the honour to forward three requisitions from the Principal of the Onion Lake Boarding School, received under cover of a letter from the Indian Agent.

In regard to the first I may say that I have gathered from a private conversation with the Coadjutor Bishop of St. Albert that $1500. would cover the expenditure in connection with the addition mentioned and I would recommend Departmental aid to the extent of $750. The work done at this school is unquestionably meritorious.

In regard to the second, I think the two blackboards on rollers should be sent without delay.

The third is for minor repairs at a cost of less than $200. and I also recommend this to the favourable consideration of the Department.

Should there be no money available out of the current year's General School Vote, items for the amounts and purposes mentioned might perhaps be added to the Supplementary Estimates for next fiscal year.

Your obedient servant,

Commissioner.

116,622--5

For file.

Department of Indian Affairs,
Ottawa, 27th April, 1898.

THE SECRETARY.

I beg to submit herewith an application from the Principal of the Roman Catholic Boarding School at Onion Lake for a grant to build an addition to that school.

The Principal does not mention the amount required, but the Commissioner states that in a private conversation with the Coadjutor Bishop of St. Albert he learned that $1500 would cover the expenditure, and he recommends that the Department grant aid to the extent of $750.

In view of the Minister's decision not to make any grants at present for new buildings for industrial or boarding schools, I do not suppose anything will be done in this case, particularly in consideration of the fact that the Onion Lake Boarding School building belongs to the Roman Catholic Church, and it has been the practice of the Department to decline to make grants to buildings not owned by it.

H. C. Ross.

As Minister has decided.

Ottawa, 29th April, 1898.

Sir :

I have to acknowledge the receipt of your letter of the 16th instant, No. 122/62, enclosing an application from the Principal of the Roman Catholic boarding school at Onion Lake for a grant to erect an addition to the school building.

In connection with this request you state that in a private conversation with the Coadjutor Bishop of St. Albert you have learned that $1500 would be the probable cost of the addition, and you recommend that the Department contribute $750.

In reply I may say that in view of the Minister's decision not to make grants at present for new buildings for industrial or boarding schools, and particularly in consideration of the fact that the Orphanage makenga boarding school building is not the property of the Department, nothing can be done this year in the direction above indicated.

Your obedient servant,

J. D. McLEAN

DEPARTMENT OF INDIAN AFFAIRS
MAY 16 1898

ACCOUNTANT'S
MAY 17 1898

Sir,

I have the honour to refer to your letter, No. II6622/21, of the 24th. of March last in regard to expenditure on the Onion Lake Boarding School to the amount of $198I.5I and to enclose two letters from the Indian Agent, Onion Lake, and the Principal of the Boarding School, respectively, and to say that the vouchers said to have been sent, viz: F.A.Frazer, lumber - $82.50, and H.W.McKenny -$II4.46, were forwarded in my letter of the I8th. of March last. There is however an apparent error as to the first one which was mentioned as F.A.Osborne - $82.oo. Both these vouchers are not in the list given in the department's letter above mentioned. I beg to recommend that a cheque be sent to the Principal for this amount, viz: $I98.46. Another voucher for the balance of the appropriation has also been sent but had to be returned on account of its incompleteness. It will be forwarded by the Agent direct to the Department.

Your obedient servant,

Commissioner.

122/62 Ottawa , 20th May, 1898.

Sir,

In reply to your letter of the 11th instant, ,No 122/62 ,I beg to inform you that the list of accounts given in Departmental letter of the 24th March is quite correct . There is no account in favour of F.A. Frazer, for lumber amounting to $82.50 , but there is an account in favour of F.A. Osburn for windows amounting to $82.50 , and it is included in the list . As regards H.W. McKenny's account for hardware ~~would~~ I should say that the total amount of same is $151.39 , as given in the list , and that $114.46 referred to by you is only a portion of the account . You will therefore observe that both the amounts of the above mentioned accounts ($82.50 and $114.46) are included in the cheque forwarded.

Your obedient servant.

Secretary.

116622 -------5

Department of Indian Affairs,

OTTAWA, 28th April, 1900

The Secretary:-

Re application for a grant to assist in enlarging the Roman Catholic boarding school at Onion Lake.

Provision is made for fifty pupils at this school at the usual per capita grant of $72 per annum and it has its full quota of children.

Mr Inspector Chisholm in his report on this school, dated the 22nd December last, states that with the present attendance the school stands in need of a second class-room, a convenient and suitable kitchen, at least one additional recreation room and a larger dining-room and boys' dormitory, and attached to his report is a plan and estimate for the erection of an addition to the school building, which was prepared by the Principal and approved by him. The estimate comes to $3137.30 but the item for wages could, the Inspector states, be much reduced by utilizing the labor of the senior boys under the instruction of a competent and skilled carpenter. The Indian Commissioner, in a marginal note, says that the Inspector has exceeded his duty in approving of the estimate and plan, and that such provision has been made in the estimates as was considered reasonable. The Department informed tha Commissioner that it

concurred

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 1)

CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

concurred in his opinion, as expressed in the note above referred to and that the Inspector should be so informed, as such action on his part was likely to compromise the Department.

A new building was completed for this school about three years ago, towards which the Department contributed ~~$12~~ about $2000.00 and it was supposed to furnish accommodation for the same number of pupils as are now provided for.

If the Department contributes anything towards the enlargement of the buildings a grant for an increased number of pupils is sure to be asked for.

The Church of England has a boarding school on this reserve with provision for only 15 pupils and there has always been considerable jealousy between the two schools, and my experience is that when a concession is made to a boarding school a similar one has to be made to its neighbor of a different denomination.

I may add that the Department's contribution covered almost the total cost of the Roman Catholic school building. The accompanying photographs will give you a good idea of the each of these school buildings.

Father Comire's letter addressed to Mr Davis M.P. is returned herewith.

Martin Benson

116622/5.

With Cheque.

Ottawa, 22nd. May, 1900.

Sir:-

I enclose herewith cheque No. 5216 in your favour for $87.54 in payment of your account dated 31st. January which is rendered at $91.23 for drugs etc supplied for use at Onion Lake Agency. The reason for the reduction in the amount of the account is owing to the charge of $3.69 for freight from Winnipeg being disallowed. The prices which the Department agrees to pay for drugs covers the cost of freight charges. also,as you have already been informed.

1.

Sir,

I have the honor of addressing you the same demand that my predecessor made you in his letter of April 2d November, 1st March, 29, 1898 and March 20, 1900. —

Arrived here to take the direction of the School in August last. I find the present building already full of Pupils and not sufficently large for the wants of the Reserve and of the other Reserves that place children here. Were our School larger a greater number of children would reap the benefits of instruction and education. The Chippewyans of Cold Lake seem desirous to place their Children at School, we do not ask them as we see we have not the necessary accommodation.

I would beg you then to be kind enough to reckon in your estimates the Approximative Sum de five thousand dollars, which would enable us to enlarge the house and to have the old building finished, it has as yet no stone foundation, ceiling or paint on the inside.

Hoping that my petition will meet with more success than the first. I remain,

Sir,

Your humble Servant,

Cyr. Bouchon OMI

Sir 1

SCHOOLS
SEP 10 1901

The Honorable
The Superintendent General of Indian Affairs
Ottawa.

Honorable Sir.

I beg to be allowed to draw your attention once more to the pressing necessity of building an addition to our School.

For five years now we have been soliciting the same favour and have always been put off from year to year. Acknowledging the help given by the Department in helping to build the first addition and sincerely grateful for it yet we dare remark that as much and far more has been given for several other Indian Schools under its control.

We are so far from all communication and commerce that it is impossible to think of building without the Department's help or authority. And at the same time it is hard to be obliged to refuse

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 1)

217919

admittance to pupils on account of want of space and thus force their parents to place them in schools contrary to their creed as has been done lately.

I know we importunate you with our reiterated demand, but I feel sure, Honorable Sir, were you to see our actual necessity you would plead in our favour for a reasonable amount which would allow us to put up an addition and finish the first one.

Firmly hoping that you will interest yourself in our favour.

I remain,

Sir,

Your humble and grateful servant

Alyn. Boudem o.m.i.

116622-----5

Dec. 16/10/1901

Department of Indian Affairs,

OTTAWA, 16th October, 1901.

The Secretary:-

With regard to the application of the Principal of the Roman Catholic boarding school at Onion Lake for a grant to enable them to enlarge the building and to finish the addition already made, I beg to say that ~~that~~ the Department is paying for 50 pupils at this school which ha~~d~~ an enrollment of 58 and an average attendance of 52 for last year. Any more pupils addmitted to this school would only over-tax the accommodation and it is a question whether the Department should be called upon to furnish room for any new pupils they may wish to take in. I think the Department is doing enough in giving the full grant for the number they can accommodate..

The Church of England has a boarding school at Onion Lake in close proximity to this school, which is only receiving a grant for 16 pupils althpugh there are many in excess of that number on the roll.

Ottawa, October 18th, 1901.

Memorandum:

Mr. McLean,

I thought it was an understood thing, at all events as a general rule, that the Department should not provide anything in the way of grants for the building of boarding schools. I am afraid that any exceptions which have been made to this rule are going to lead to a good deal of trouble and I think, in the meantime at all events, the rule should be adopted that no boarding schools are to be given grants for building purposes.

In view of the report of Mr. Benson regarding the Roman Catholic Boarding School at Onion Lake, in which he states that only 52 pupils were in attendance last year, I think no increase should be given this year.

Sir,—

At my last visit to the Onion Lake (R.C.) Boarding School, the Sisters in charge requested that the Department supply the school with ten small, single, school desks; or five small, double ones; and a hyloplate blackboard, measuring 8 ft. by 3ft. 6 inches.

There are 55 children on the roll at this school and the school desks in use number 19; they were purchased by the Department in 1910 from John Leslie, of Winnipeg. They are double desks and are supplemented by rough wooden forms in the junior room, the senior room has a sufficiency of desks. The children who use the forms are the smallest children in the school, and the desks required are of the smallest size.

I would be glad if the Department can furnish the school with the equipment asked for; it would be greatly appreciated by both the principal and teachers.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa.

OTTAWA, May 26th, 1922.

Sir, -

I have to acknowledge the receipt of your letter of the 15th instant, in which you request on behalf of the sisters in charge of the Onion Lake R.C. Boarding School that 10 small single desks, or 5 small double desks, also a hyloplate blackboard, 8' x 3'6", be supplied for the use of the school.

Regarding the desks, I beg to say that the Department is prepared to favourably consider this request, but I have to request that you will be good enough to ascertain the name of the manufacturer of the desks at present in the school in order that if new desks are supplied they will be of the same make and type as those already in the school. The name of the manufacturer will, no doubt, be stamped on the desks. I will also be pleased if you will give full shipping directions. We prefer to supply single desks, and will order 10 of these, size #6 which are suitable for children 5 to 7 years. The next largest size is the #7 for children 7 to 9 years. In order to prevent any error, you should state which of these sizes would be required, or whether a certain number of each size be supplied.

Regarding the hyloplate blackboard, I beg to say that we shall place an order with the Government Stationery Office for a supply of hyloplate blackboard of the dimensions mentioned above, with the necessary moulding and chalk trough, as soon as we are informed as to the address to which this should be shipped. It will go forward by express, and you should state the nearest express office to the school.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Sir,—

I have the honour to acknowledge the receipt of your letter of the 26th, ultimo, - which I must apologize for having left so long unanswered - regarding desks asked for the the Sisters in charge of the Onion Lake (R.C.) Boarding School.

The name of the manufacturer of the desks already in use at this school is the C. O. and School Furniture Co., Preston, Ontario. I would ask the Department to kindly order 10 single desks of this manufacture, size 6, suitable for children 5 to 7 years. Shipped to Lloydminster, C. N. Ry. which is our nearest railway point.

With respect to shipping the hyloplate blackboard asked for I would state that Lloydminster is the nearest express office to the school.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent.

Sir,—

I have the honour to enclose herewith a letter received from the Rev: J. A. Therien, principal of the Onion Lake (R.C) Boarding School; together with bills and receipts amounting to $ 1551.85 for labour and material in excavating a large cellar and putting new foundations and floors in the school.

The cellar measures 34' by 24' and is about 7 feet high and has cement concrete floor and walls. New joists and flooring have been put under the old building, and a first class job in every respect has been made. I would be glad if the Department can see its way to re-imburse the school for this outlay, as the work was very badly needed and had to be done. In fact, the flooring was in such a bad condition that visitors to the building had to be conducted away from the weak spots to prevent them from breaking through.

99-10.

OTTAWA, August 28th, 1922.

Sir: -

I have to acknowledge the receipt of your letter of the 21st instant, enclosing a communication from the Principal of the Onion Lake R. C. Boarding School, together with receipts showing an expenditure to the amount of $1551.85 for labour and material in excavating a large cellar and putting new foundations and floors in the school, and requesting that same be paid.

In reply I beg to say that this school is the property of the Roman Catholic Church authorities. These repairs appear to have been undertaken by the Principal without reference to the Department or any request previous to the work being commenced that a grant for same be made. Our appropriation for Indian Education during the present fiscal year is limited, and has been entirely assigned. We have no funds available for the payment of these accounts. The Principal, before undertaking any expenditure which he desires the Department to pay, should first receive permission to undertake the work, and also instructions regarding the purchase of any material required. Judging from the accounts which you forwarded, no competitive prices were received in the purchase of the material used as is necessary in order to meet the requirements of the Purchasing Commission of Canada.

As this is church-owned property, payment of these accounts should be undertaken by the church authorities.

The receipts and accounts which you forwarded are returned herewith.

Your obedient servant,

Lang Turner, Esq.,
Indian Agent,
Onion Lake,
Sask.

Department of Indian Affairs.

572494

SIR:

Your reply to MR. Turner's letter and mine submitting to the Department the expenses in connection with the excavation of a cellar to our Boarding School, and asking the help of the same to cover the said expenses, has been transmitted to me.
In your answer you lay stress on the fact that the Department were not refered to before going into such outlay, and that the school being the church's property the expenses should be met by the church.

True we did not previously communicate with the Department, before undertaking the work, for ~~sheple~~ the reason that we had no intention to go into such expenses.

At the outset we thought a little repair would do for this year and we had made up our mind to meet the expenses ourselves, with the intention to ask an appropriation from the Department next year in case we had to make a new foundation.

But as we proceeded with the work we soon found out that it was urgent to tackle the whole work right now, that it was not safe to delay any longer, the foundation giving away everywhere, the beams and the whole under structure being utterly rotten and beyond re pairing.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

After laying the case before MR. Turner we decided to go on at once with the work we had in mind to postpone till next year, after having refered the matter to the Department.
Thus what we thought could be attend to next year, had to be carried through right away.
We were taken unaware and could not ascertain before beginning the work the necessity of pushing it through to a finish.
To wait and communicate with the Department was out of the question as we had to hurry the work before the reopening of the school in August.
We had no other alternative than to go on and to communicate with the Department once the work would be done, although we had the approval of our Agent MR. Turner as to the urgency of going in such outlay.
As to the fact that our school is the church's property, I would simply say, that considering that the annual grant alloted for the maintenance of the school is barely sufficient, it would seem that the Indians through the Department, could help covering such expenses.
I beg also to draw your attention to the fact: that being far away from any center, the nearest town being Lloydminster 40 miles, we had to rely on the only man staying here to do the work.
Under the circumstances it was impossible to meet the requirments of the Purchasing Commission of Canada.
In view of the facts as stated above which I beg to submit to your Kindly considerations, I take the liberty to press our claim for at least a part of the expenses incured, if it be at all possible for the Department to give us a grant that would cover the whole expenses
I may also state that this excavation forms a part of a plan for a

Ottawa, October 2, 1922.

Sir:-

I have to inform you that Rev. Father Therien, of the Onion Lake R. C. Boarding School, has appealed to the Department again in connection with the expenses incurred at the school this summer.

The Deputy Superintendent General is prepared to give favourable consideration to some of these accounts, and I am asking you to return them to the Department, properly certified. If competitive prices were secured for the material, a memo should be attached showing the firms asked to quote and the prices quoted. The bill for labour should be supported by receipts signed by the men employed.

This Department will endeavour to select vouchers that are in order and will give serious consideration to their payment.

Your obedient servant,

DEPARTMENT OF INDIAN AFFAIRS

CANADA

Ottawa, Nov. 9, 1922.

Memorandum.

Mr. Scott:-

Some time ago the Principal of the Onion Lake R. C. Boarding School asked the Department to reimburse him for his expense in connection with building proper foundations and digging a large cellar under the school. Both the Agent and the Principal have stated that the work was absolutely necessary and, although we had turned down the initial request, you suggested that we have the vouchers sent in to the Department, with a view to paying part of the amount involved.

Vouchers are now to hand, properly certified and supported by the necessary receipts for labour, cement and freight - a total of $1730.15. The Principal has paid the accounts, and I am afraid has endangered the finances of the school.

The accounts for cement and freight amount to $769.15, and I would recommend that they be paid. Funds can be provided from the Vote for Indian Education.

Russell J. Steinel

Supt. of Indian Education.

OK

Ottawa, November 14, 1922.

Sir,-

Referring to letter to you of the 13th instant, I beg to say that upon examining Voucher No. 124 relative to alterations to the Onion Lake R. C. Indian Boarding School, it is observed that details required by the Auditor General in connection with Messrs. Hayward & Harris' accounts are not furnished. The Voucher in question is returned herewith and I have to request that you will kindly have the attached accounts amended by giving in detail the quantities furnished and prices charged for same on the several dates mentioned in this firm's accounts. Cheque for $769.14 in favor of the Rev. Principal is held pending receipt of Voucher made out in detail as requested.

Your obedient servant,

J. D. McLean,
Asst.Deputy & Secretary.

Sir,—

I have the honour to acknowledge the receipt of your letter of the 14th, instant, No. 115-8-5, with which you returned Voucher No. 124, relative to alterations at the Onion Lake (R.C.) Boarding School, in order that it be amended by the addition of detail as to the quantities of material purchased and the prices charged, on the different dates.

?

I have succeeded in obtaining this information, which, is embodied in Voucher No. 124 and resubmitted to you herewith. It will be noticed that the school apparently paid Messrs. Hayward and Harris .45¢ more than the price of the material purchased. I pointed out this to the principal.

Trusting that this Voucher will now be in order.

Onion Lake Agency

Cop

To L. Turner
Indian Agent.
Onion Lake Reserve

Dear Sir

As you have observed in your last visit to our school, it is imperative that we build a new chemney-
The old one is out-of order and is beyond repairing - It has been condemned by a man who is a speciality in chemney building, so that a new one has to be made
The cost would be approximatively, comprising the materials, freight and labor, $200 dollars -
Will you be kind enough to recommend an appropriation from the Department to defray the expenses -

With best regards

Yours truly

L. A. Thérien Ptre
principal.

IN REPLY REFER TO
No. 99-6
ALSO
TO DATE OF THIS LETTER

583136

Sir,—

I have the honour to enclose herewith a letter received from Rev. J.A.Therien, principal of the Onion Lake R.C. Boarding School, in which he asks me to make a recommendation to the Department for an appropriation of about $200.00 for the purpose of building a new chimney at the school.

A new and larger chimney is absolutely necessary at this school. One of the old chimneys, a small one, only 8" square inside, which rested on a bracket in the kitchen and which was fed by six stoves, caught fire a few weeks ago and for a short time it was feared that the whole building would take fire; as it was some of the interior woodwork was badly scorched.

Father Therien and I have gone into this matter with Mr. G.T.Hunter, builder, of Onion Lake, who recommended Father Therien to build a chimney with an inside measurement of 17"x21½" and 40' high, and also to have the small one built up from the basement, and the bracket in the kitchen done away with.

The large chimney would relieve the present congestion in the small chimneys, of which there are five in the main building and would add greatly to the safety of the buildings.

SCHOOLS BRANCH
MAY 8 1923

I do not think the cost will be quite as much as Father Therien has asked for. The following is my estimate :-

Bricks 2500 @ .3¢	$ 75.00
Freight 8000 lbs. @ .65¢ per 100	52.00
Labour	53.00
	$180.00

If the Department can properly authorize this expenditure I would be glad for it to do so, as the present conditions with respect to chimneys at this school is bad and, as I have already pointed out to Father Therien, should be remedied.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent.

The Secretary,
Department of Indian Affairs,

DEPARTMENT OF INDIAN AFFAIRS
CANADA

May 8th, 1923.

MEMORANDUM

Mr. Scott:

A request has been received from the Principal of the Onion Lake R. C. Boarding School, forwarded through the office of the Indian Agent, for a grant of $200 for the purpose of building a new chimney at the school. It is stated that this large chimney would relieve the present congestion in the small chimneys, of which there are five in the main building, and would greatly add to the safety of the buildings. I would point out that this school is the property of the Church authorities.

Last year we paid accounts to the amount of $769.15 for material and labour in putting in a new foundation and digging a large cellar under the school. This work was carried out by the Principal without referring the matter to the Department, and he subsequently asked that payment be made, which was done on your authority.

I shall be pleased to have your ~~recommendation~~ decision as to whether authority should be granted for the expenditure of $200 for the purpose of building a new ~~chimney~~.

Ottawa, May 17, 1923.

Dear Sir,-

Replying to your letter of the 30th ult., with reference to the building of a new and larger chimney at the Onion Lake R. C. Boarding School, I beg to inform you that you are authorized to have a new chimney built as outlined in your letter.

It is noted that the cost will not exceed $200.00.

In the purchasing of all materials, competitive prices must be obtained , and in the employment of labour, time sheets should be kept.

Your obedient servant,

(J. D. MCLEAN)

SCHOOLS
JAN

Sir:-

Desiring to comply with the wishes of the Indian Department and to co-operate with it in its endeavour to promote the interest of education among the Indians,I take the liberty to draw your attention to the fact that here in this Onion Lake'sAgency,notwithstanding the efforts of both the Agent and missionnaries,the problem of educating the Indian Children is still in abeyance.

Due to the lack of accommodation in our boarding school many children are therefrom deprived of the benefit of adequate education.

And,we,the Roman Catholic missionnaries feel it all the more,that most of the Indians under the management of this agency belong to our Church. Here at Onion Lake out of forty or forty-five Indian families,thirty-six belong to our church.

Frog Lake,out of twenty-five,more or less,fifteen are Roman Catholics t Kiyewin,or Long Lake,every family,twenty-five more or less,belongs o our Church,the same for Cold Lake Reserve.

much so,that the Boarding School under the management of the Church England,must get its pupils from the other surrounding agencies, Lake or Thunderchild. So that most of the problem rest on our- es and we are well aware that we cannot cope with it under the esent circumstances.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Pre[illegible]ly we have fifty-five children in our boarding school and owing to lack of room, we cannot take more, so that there are many children who should be in the school and who are not.

True, there are two day schools in operation in this agency, at Long Lake and Cold Lake. But, you are well aware, that notwithstanding the efforts made to have them effectives, it is utterly impossible owing to the inability of the parents to send their children regularly to school. The consequences are that many children do not receive the proper education such as the department and the missionnaries alike, would like to give them.

Under the circumstances I think that steps should be taken to remedy the situation, and the only way, is to have a larger school. Up to now, the Indians were satisfied with the way the education was given to their children, but for a certain time they show a great deal more of interest in the education of their children and desire to put their children in the boarding school when to our sorrow we have to refuse the admission of the children from lack of room.

As an exemple of this new tendancy, I may say that hitherto it was almost impossible to get children from Long Lake Reserve, and now we have twenty-one who belong to that reserve; and more could be taken had we the room to accommodate them. So, according to the missionnaries and those who are interested in the education of the Indian, a larger school should be built, and built as soon as possible.

A building that could accommodate one hundred children, the number of children belonging to the reserve under the management of this agency warrants this number. Had we the place right now, we could get easily this number.

It is out of question to put an addition to our old building. This should be discarded altogether and a new one built in an up-to-date fashion, so that we may have all the accommodations required by the Department.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

You are well aware, Sir, that we have the staff, well trained and well qualified to do the work, all that we need, is a larger building, built up in this agency to accommodate all the children who could be taken in, right now, if we had the mean to do so. We, the missionnaries of the Roman Catholic Church, are anxious that the department find its way through to comply with our demand as, I said already, most of the children belong to our church, and we consider it as one of our most sacred duty to lay the matter before the proper authority expecting a favourable answer as soon as possible.

I remain,

Yours faithfully,

O. M. J. Lecuyer Ptre

Dear Father Therien:

I have your letter of the 7th instant, in which you urge the erection at an early date of a new main building for the Onion Lake R. C. Indian Residential School. There are many pressing claims on Parliamentary Appropriation for Indian Education and the building program for 1924 has already been determined. I am pleased to have your letter emphasizing the needs of your territory and I wish to assure you that the subject matter of your communication will not be overlooked when our requirements are being presented to Parliament in the future.

Yours very truly,

Duncan C. Scott

ONION LAKE INDIAN RESIDENTIAL SCHOOL

RECONSTRUCTION

noted in Estimates

Reverend Father J. A. Thérien, O.M.I., Principal of Onion Lake Indian Residential School, with the approbation of Very Reverend Father Blanchin, O.M.I., Provincial, has forwarded to me in order to be included in the estimates a request for the reconstruction of the R.C. Indian Residential School at Onion Lake. The reasons set forth for such request are the following:

The School is too small for the number of children that could receive accommodation. The Principal has requested for nearly 100 children and can receive only 60. Moreover, the School is deprived of all comfort and improvements required by the Department. To put it in the words of the Principal: " We still have to use camp stoves, coal oil lamps and carry water in barrels. The School is rather in an inferior position."

Moreover, the Agent, after thoroughly visiting the School, told Reverend Father Thérien, that a request for immediate construction should be made, as in his opinion the School is the most backward in accommodation that exists in the Western Provinces. The Agent also noticed that part of the School is far from being solid and in fact may be a source of danger for the children.

Perhaps you would require a more fully detailed report from the Agent, but I am positive that this report would simply give greater strength to the present request. Therefore, if possible, kindly consider the advisability of constructing a new R.C. Indian Residential School at Onion Lake to accommodate 100 children.

J. D. Mc. Lean,

Secretary of Indian Affairs,

Ottawa.

Honorable Sir:-

Regarding Mary Pichaw, I beg to state that the child is not so well since the cold days have come, it must be due to the confinment. The sores are still running abundantly. When sitting the child is compelled to keep the same posture constantly, which causes her great pain and fatigue; if the poor crippled child had a small morris chair it would be a great relief to her sufferings, so I beg of your kindness to grant her this favor.

Yours truly,

Sister Superior

Sent to File

EXTRACT FROM COMMISSIONER GRAHAM'S LETTER,
his No. 309-7B, dated Oct. 16, 1925.

Original on 1926 E.

I beg to forward herewith the Estimates for the Onion Lake Agency.

I would draw your attention to the fact that I have made an entry for a school at this reserve. There is no point in the three prairie provinces that I know of where a school is more urgently needed than here. It is absolutely impossible to carry on work in a building such as we have at this point. This building is cold and unhealthy, and is nothing less than a fire-trap. The new school should be of the same capacity as that erected for the Anglican Church on this reserve. I cannot recommend this too strongly to the Department.

EXTRACT FROM LETTER OF AGENT TURNER, to Comm. Graham.
dated October 6, 1925.

Original on File 1926 E.

Residential Schools: New floors are badly needed at the Roman Catholic Residential School. However, I have not included an item covering this in the Estimates, as Father Therien, the principal, has informed me that he is confident of getting a new school next year.

Ottawa, Canada, October 30 1925

ONION LAKE RESIDENTIAL SCHOOL

RECONSTRUCTION

$70.000.

- Arguments in favour of the reconstruction of Onion Lake Residential School have been brought up before the Department in last year's list of requests in view of the Estimates. Those arguments are stronger than ever, and moreover, the construction of the Anglican Residential School calls for the same policy in favour of the Catholic Residential School.

The question of the site is not yet decided but I understand that Inspector Murison and Rev. Fr. Thérien, O.M.I., Principal, have examined a few spots and will probably agree for a favourable place.

$70,000 is the approximate amount required for the construction and equipment of a school building along the lines of the Anglican School, and at the request of Very Rev. Fr. Blanchin and Rev. Fr Thérien, I hereby ask for above amount to be made part of the appropriation intended for catholic school activities.

Sir:

Mr. Inspector Murison reports that the floor in the Boys' Dormitory, Roman Catholic Boarding School, Onion Lake, is so badly worn that it is unsafe. This floor should have been replaced two years ago but in view of the prospects for a new building, the expenditure was not asked for. As this was a matter of extreme urgency, I have authorised the Indian Agent to secure sufficient spruce lumber to make the necessary repairs and to employ Indian labour to put it down.

The cost will not exceed $75.00 and I trust that my action may be approved.

Your obedient servant,

W.M. Graham,
Indian Commissioner.

I have arranged to have a cheap flooring relaid here, c[illegible] about $75.00.

W.M.G.

ONION LAKE R.C. BOARDING SCHOOL. 115-8-5

I visited this school on the 9th inst. The children had just returned from their holidays a few days previously. I found the building scrupulously clean throughout. This building has been reported on before; it has surely fulfilled its purpose and a new school is badly required. I may say that it has not been considered wise to incur any great expenditure in repairing this building in view of the prospects of a new school. However, as I have already reported to you, some repairs will have to be made to the floors in order to render them safe.

There is no farming carried on in connection with this school. They have a large garden which provides an ample supply of vegetables for their use. They keep ten milch cows, seven of which were giving milk at the time. The Sister in charge informed me that they were poor milkers and they should have at least four more cows to provide for their requirements. They have a nice flock of poultry and they also raise pigs.

When in the sewing room the Sister pointed out that the Sewing Machine for tailoring work was over thirty years old and was pretty well worn out. I was asked to place before the Department their request for a new machine. There are 57 pupils in attendance at this school at the present time.

DEPT. OF INDIAN AFFAIRS
SEP 28 1926
RECORDS

Regina, Sask., Sept. 22nd, 1926.

Sir:

I am enclosing herewith a report on the schools in the Onion Lake Agency, which was made by Mr. Inspector Murison.

x x x

With regard to the condition of the floors in the R.C.Boarding school at Onion Lake. Apparently it would be impossible for them to carry on the work even for another year without some repairs and I have authorized an expenditure of about $75.00 to put down some cheap flooring for the time being.

x x x

W.M.Graham.

Indian Commissioner.

Ottawa, September 30, 1926.

Sir:

Mr. Inspector Murison, in a report on his recent inspection of the Onion Lake R. C. Indian ~~Day~~ School, states that he was requested by the Reverend Sisters to place before the Department their request to be supplied with a sewing machine for tailoring work. He states that the machine at present in use is over thirty years old and nearly worn out.

I shall be pleased to have your recommendation as to whether you would advise that a new tailor's sewing machine be supplied for this school or not.

Your obedient servant,

J. D. McLean,
Asst. Deputy and Secretary.

Lang Turner, Esq.,
Indian Agent,
Onion Lake, Sask.

October 11th, 1926

Sir,—

I have the honour to acknowledge the receipt of your letter of the 30th, ultimo, No. 115-8-5, and, in reply to inform you that I would strongly recommend that a new tailor's sewing machine be supplied the Onion Lake Roman Catholic Residential School. The Reverend Sisters feel the need of this machine badly, as most of the boy's clothing is made in the institution.

I would estimate the cost of this machine to be about $65.00.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent.

Ottawa, October 18th, 1926.

Gentlemen:

I have to request that you will arrange to supply for the use of the Onion Lake R. C. Indian Residential School, Onion Lake, Sask., 1 Tailor's Machine, No. 31-15, on Table No. 5231. Please notify Mr. Lang Turner, Indian Agent, Onion Lake, Sask., from your nearest branch office concerning who will furnish this machine and when it will be available. Mr. Turner will then give your local representatives directions for delivery.

The account for this machine should be made out in duplicate and should show the retail price and discount of 40% allowed "on which terms purchase is made". Please forward your account to Mr. Turner, who, upon receipt of the machine, will certify the account and submit it to the Department for payment.

Yours very truly,

Sgd F. H. Paget

Ottawa, October 18th, 1926.

Sir:

Referring to your letter of the 11th instant, I beg to inform you that we are today placing an order with the Singer Sewing Machine Company, Ottawa, to supply from their nearest branch office 1 Tailor's Sewing Machine, No. 31-15, on Table No. 5231, as described in their catalogue.

This firm have been requested to notify you from their nearest branch office concerning who will furnish the machine and when it will be available. You should then give them directions for delivery.

The account, in duplicate, for the machine wil be sent you. It should show the retail price and discount of 40% allowed "on which terms purchase is made". When this machine is received, if in good condition, you should certify the account and send it to the Department for payment.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

SCHOOLS BRANCH
FEB 6 1926

ATTENTION: MR. [illegible] MERRIER.

Dear Sir:-

In connection with the reconstruction of Onion Lake Residential School, Reverend Father Thérien has again requested that the construction for 120 children be considered and says that the agent and the doctor state that this school should be larger than that of the Anglicans and to confirm his request he sends me what he calls a serious census of the agency:

Onion Lake Reserve:	Catholic families: 36,	100 children.
	Protestant families: 10,	15 to 20 children.
Frog Lake Reserve:	Catholic families: 17,	20 to 25 children.
	Protestant families: 4 or 5.	
Long Lake Kiyewin Reserve:		
	Catholic families: 25,	50 children.
	No protestant families.	

Besides these there are the families of Island Lake and Cold Lake Reserves. If the children of those Indians were admitted to the school we would have a great number of children because they are quite numerous at those points, but if we take of that amount only the crees of Onion, Frog and Long lakes, it would be easy to have 100 to 120 children.

I leave the matter to your kind attention and ask you to discuss same with the Deputy Minister and give orders to the Architect about the size of the building.

Yours very truly,

Joseph Guy, o.m.i.

Ottawa, March 25, 1926.

Reverend Sir,-

I am sending you today, under separate cover, two blue print copies of a sketch plan that has been prepared for the proposed new Onion Lake Indian Residential School, and I would be glad if you would look this plan over and return one copy to me with your comments and criticisms.

In a previous communication from you you suggested that the building be built in accordance with the plans for the Duck Lake School. The Duck Lake School, of course, provides much more accommodation than is needed at the Onion Lake School, and it is impossible to follow exactly the plan of this school. The plan of the building sent you provides accommodation for 100 pupils, and it is proposed to build it of frame construction, the concrete foundation projecting far enough that it will be possible, if thought advisable, at some future date to brick veneer the building.

I would appreciate it if you will return one copy of the blue prints at your earliest convenience, in order that plans and specifications may be commenced at an early date.

Yours truly,

R. GURNEY ORR.
Architect for the Department.

General Clause

All mechanics, labourers, or other persons who perform labour in the construction of the work hereby contracted for, shall be paid such wages as are generally accepted as current from time to time during the continuance of the contract for competent workmen in the district in which the work is being performed for the character or class of work in which they are respectively engaged, and if there be no current rates in such district, then fair and reasonable rates, and shall work such hours as are customary in the trade in the district where the work is carried on, or if there be no custom of the trade as respects hours in the district, then fair and reasonable hours, unless for the protection of life and property, or for other cause shown to the satisfaction of the Minister of Labour, longer hours of service are required. The Minister of Labour may at any time and from time to time determine for the purposes of this contract, what are the current or fair and reasonable rates of wages, and the current or fair and reasonable hours, and may from time to time rescind, revoke, amend or vary any such decision, provided that his determination and any amendment or variation shall not be operative prior to the period of three months immediately preceding the date thereof. Where there are special circumstances which in the judgment of the Minister of Labour make it expedient that he should do so, he may, in the manner and subject to the provisions hereinabove set forth, decide what are the current or fair and reasonable rates of wages for overtime, and what is the proper classification of any work for the purposes of wages and hours. Immediately upon receipt of notice of any decision of the Minister of Labour hereunder the contractor shall adjust the wages and hours and classification of work so as to give effect to such decision. In case the contractor shall fail so to do, or to pay to any employee or employees for any services performed or for any hours of labour, wages according to the rates fixed therefor by the Minister of Labour, the Minister of Labour may authorize and direct the Minister to pay any such wages at the rates so fixed and to deduct the amount thereof from any moneys owing by the Government to the contractor and any such payment shall for all purposes as between the contractor and the Government be deemed and taken to be payment to the contractor, and the contractor shall be bound in every particular by any such authority, direction and payment as aforesaid. The powers of the Minister of Labour hereunder shall not be exercised as to any employee or employees where it is established to his satisfaction that an agreement in writing exists and is in effect between the contractor and the class of employees to which such employee or employees belong or the authorized representatives of such class of employees fixing rates of wages, overtime conditions and hours of labour.

Catholic Indian Residential School,

Onion Lake, Sask.

Further suggestions for the building of the new School.

BASEMENT.

Cement Roof over Coal Cellar, level with the ground, and two Coal Shutes.
Shop and Garage, at the end of Engin-Room.
Dairy to become Engineer's Room.
Sub-Cellar to be made under Stores and Toilet, and to become Dairy and Stores.
Doors and Porches to outside wall of both Recreation Rooms; inside Door to be on Floor level.

GROUND FLOOR.

Stairs to Gallery in Chapel.
Door, in Corridor, to Principal's Bed Room.

FIRST FLOOR.

Corridor giving access to Gallery in Chapel.
Do away with Bath Room near Boys' Dormitory; Convert Bed-room into Bath & Toilet Room with partition entire and up to Ceiling.
Room for Staff in Boys' Dormitory, with window opening on one side.
In all Dormitories: Wash-Tables as in the Dormitories in the Schools on the Blood Reserve.

FLAT ROOF also over the CHAPEL.

Engine to be sufficiently powerful, and if possible to be run with heavy crude oil instead of pure Gasoline, in order to reduce the great expenses of running same.

Transoms over Doors in the Corridors, for the sake of Ventilation.

All W.C.s in Dormitories to have Doors, also in Toilet for the Girls' Recreation Room.

Catholic Residential school, of Onion Lake.

1st. Building to accommodate from 100 to 120 children.

2nd Strongly advise oak or maple lumber for flooring in recreation rooms instead of concrete, the same also for the stairs.

3 - Doors for recreatio rooms and also doors at both end of the corridors for the sake of greater privacy and to dull the noise and as a protection against dust.

4 - Toilet doors opening and closing inside of dormitaries not outside ~~on the corridor~~ On the corridors.

5th Border of Burlap on the wall along side of the stairs and corridors for cleanliness sake and also linoleum carpet for corridors and rooms daily occupied. (pale or white color)

6 - Transom or window over rooms doors .

7 - Room in the boiler's room for the man in charge of the boiler as a protection against the (heat!) fire.

8 - Veranda in plce of balcony in every story.

9- Solarium room for the sicks.

10 - Toilet and room for the guardian in Boys and Girls dormitories,

I notice that there is no provision for that in two dormitories

11 - In the present sketch the dormitories will not give room for more than 80 ~~xx~~ or 90 children and if we have a fourth class as it will eventually come to that there will be no room for that class. Will suggest building of 155 feet long instead of 140.

Onion Lake April 7th. 1926.

R.Guerney Orr.

Architect for the Indian Department.

Ottawa.

Dear Sir.

I am sending you as requested in your letter one blue print copy of a sketch plan for our school,and I may say,that if the plan is entirely carried out,the building will be a credit to the Department and to the architect.

As to the interior of the building,very few suggestions are needed beside those previously made and which have been acted upon in the drawing of the sketch which at the present am returning to you.

However you will find attached to this sheet a list containing old suggestions and some new ones.

I beg to submit that on the Ground and first floor, doors be put up at both ends of the corridors at the place I have marked. I consider this suggestion very important as its adoption will, in a great measure, do away with many inconveniences complained against in such institutions as our. It will go a long way in dulling the noise which some time is almost unbearable and establish a sane and very desirable privacy between the visitors, the staffs and the children. Permit me, Sir, to lay stress on that point and draw your attention to it.

Furthermore I beg to call your attention to the fact that in the Boys First floor Girls Dormitories there is no provisions for Toilet and guardian's rooms. We consider that these accommodations are as much needed there as they are for the other dormitories provided with such utilities. The boys and the girls, sleeping there, will need as much watching,if not more,than those occupying the second floors dormitories. So for the sake of morality and greater efficiency,allow me ,dear Sir, to insist on that point.

In order to give the Boy's dormitory on the first floor its full capacity,I take the liberty to suggest that the bed room adjacent to the dormitory be converted into a toilet room. As for the girl's, I realy do not see how it could be done as there is no space around vacant.

You will remark that the corridor on the first floor give a free and easy access to the two dormitories, so that it would be easy for the boys and the girls to arrange secret meetings. This corridor should be shut up by doors to preclude such eventualities.

A Sun room is very desirable in such institutions,and I expect to get one. But where to locate it ? Of course it ought to face the south and

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

and as our building will be facing the south,how will it do to build two sun rooms one each side of the front balcony,provided of course these two rooms do not in any way disparage the outlook of the building. I leave to your artistic sense the solution of this problem.

I have shown this plan to my Superior and to the Indian Agent,and both of them are greatly elogious in their appreciations. But both of them also concur with me in the idea that it is too bad that the building be not a little larger,that is: instead of being 140 feet long,it is not 155. Then it willbe nearer as possible to perfection. As it is now it will be almost impossible to accommodate more than 85 or 90 children in the dormitories.
However I suppose you have your instructions and have to carry them out, Any way,if that last suggestion could be acted upon the Department would have built a shool that could be considered as a model in that line.

Your's truly,

J. A. Therien
Principal

DEPT. OF INDIAN AFFAIRS
JAN 3 1927
RECORDS

Catholic Rectory, Lachine.

Dec. 30th. 1926.

SCHOOLS BRANCH
JAN 4 1927

The Honorable D. Scott,

Super-intendent of Indian Affairs,

Ottawa.

Sir:

In the last interview I had the honor to have with you in company of Father Guy, you gave me to understand that the Department intends to build a Residential school at Onion lake in the course of the next summer.

Assuming that such would be the case,I take the liberty to humbly submit to your consideration the advisibility of erecting a school large enough to accomodate 120 children or more. I think that I am not asking too much and I believe that the following facts warrant my demand.

The Onion lake reserve is in the center of a large district extending seventy miles to the west and eighty miles to the east. In that district there are many Indian Reserves such as Long lake, Frog lake, and Onion lake in the west and the Little and Big Iland lakes, Thunder Child, Meadow lake,Water Hen, Jack Fish lake Sweet Grass, Poundmaker,Little Pine and Eagle Hills in the east.

In these Reserves there are only three Residentials schools..Two of these schools are under the managementof the Catholic church, one at Delmas and the other at Onion lake,the other being under the care of the Church of England. It is therefore obvious that unless the buildings be of a faily large size they would not meet the requirements of the situation.

In these Reserves a very large percentage of the Indians belong to the Catholic Church and we the missionaries who attend to their spiritual welfare are utterly satisfied that unless our two schools can accomodate each 120 children or more, a certain number each year would be deprived of the benifits derived from the Residentials schools.

I may state also that the Indian agent, Mr. Turner and Doctor Hill share my contention in this matter. It is imperative that the matter be given immediate at-

[redacted]tention as the plan such as it is, renders any addition to the building in the future impossible.

Further more I would say that the building of a Residential school at Cold lake would not in any way change the situation as the Crees will not send their children in a school where the majority of the children is Chipweyan. Our experience bears me out in this contention.

Hoping that my request will receive a favorable answer,

I am, Honorable Sir,

Your's faithfully,

(Father) J. A. Therien
Principal

January 10, 1927.

MEMORANDUM

DR. SCOTT.

In an effort to determine the amount of accommodation which should be provided in the new Onion Lake R. C. Indian Residential School, I have studied the census returns for the reserves which can be considered in this institution's regular recruiting district. There are a total of approximately 184 Roman Catholic children of school age in the area in question. 126 of these children are on the Onion Lake, Keeheewin, Frog Lake and Island Lake Reserves. Approximately 20 percent of these would be found physically unfit for residential school life. I, therefore, conclude that 100 children can be secured from these 4 reserves if a campaign is carried on with success. I might point out that over 50 of the 60 children at present enrolled in the school come from these reserves.

There is another group of Indians that must be considered in connection with the Onion Lake R. C. Indian School, - the Chipewyans, Cold Lake, etc., with a Roman Catholic school population of 37 - 30 of whom would likely be fit. The school, however, has not been popular with the Chipewyans, as there are but 2 enrolled at present, yet there is a potential pupilage of about 25.

There are 20 Catholic children of school age belonging to the Meadow Lake Band, and the Onion Lake School is closest for them, but I find that they are all enrolled at Thunderchilds.

I consider that a pupilage of not more than 110 should be allowed. Mr. Orr states that the plans can be altered slightly to care for this number and that the estimate already prepared will not need any change.

Sir,-

I beg to advise you that an advertisement is now appearing in the newspapers in Battleford and Edmonton inviting tenders for the proposed new R. C. Indian Residential School on the Onion Lake Indian Reserve Sask., and I am sending you today, under separate cover, two copies of the plans and specifications for this building. I would ask you to please provide facilities so that contractors wishing to tender may have ample opportunity to examine the plans and specifications.

I am also sending you tender forms which should be supplied to the firms wishing to submit a tender. Tenders are receivable up to noon of the 2nd day of May. After this date kindly return the plans and specifications to this office together with the unused tender forms.

Your obedient servant,

W. M. Graham, Esq.,
Indian Commissioner,
Regina, Sask.

J. D. McLean.

TENDERS WANTED

SEALED TENDERS addressed to the undersigned and endorsed on the envelope "Tender for St. Anthony's Indian Residential School on the Onion Lake Indian Reserve, Sask.", will be received up to noon of the 2nd day of May, 1927, for the erection of the above mentioned building.

Plans and specifications may be seen at the office of the Indian Commissioner, W. M. Graham, at Regina; the office of the Inspector of Indian Agencies, Winnipeg; at the offices of the Post Masters at Saskatoon, Edmonton, and Calgary; the offices of the Indian Agents at Battleford and Onion Lake, and the Department of Indian Affairs, at Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank of Canada for ten per cent of the amount of the tender, payable to the order of the undersigned (War bonds of the Dominion will also be accepted as security, or bonds and cheque if required to make up an odd amount) which amount will be forfeited if the person or persons tendering decline to enter into a contract, when called upon to do so, or fail to complete the work contracted for.

The lowest or any tender not necessarily accepted.

Re: Contract for Indian School & Chapel, Onion Lake Indian Reserve, Saskatchewan.

Mr. Duncan S. Scott,
Dept. of Indian Affairs,
Ottawa, Ontario.

Dear Sir :-

Will you kindly advise us whether or not it is your intention to include in your specifications for this Contract, a requirement that the contractor furnish Bid, Performance, and/or Maintenance Bonds of a Corporate Surety Company, and if so in what percentage of the Contract Price.

A stamped and addressed envelope is enclosed for reply which you might undernote.

Thanking you in advance for this information which will be greatly appreciated.

Yours faithfully,

W. B. Cooper,
MANAGER.

April 30 1927

Mr. Duncan Scott, D.M.
Dept of Indian Affairs
Ottawa , Ont.

Re- St Anthony's Indian Residential School.
... Onion Lake Reserve ,Sask.

Dear Sir :-

I have mailed you ,by registered mail, and parcel post, the plans and specifications of the St.Anthony's School at Onion Lake Sask, also my accepted cheque on the Banque Canadienne Nationale ,Winnpeg, Man, for $9,990.00.with my tender for the said school. according to the terms of tender.

Now, after having mailed my tender, I received new estimates for sub-contracts, and have also recheked my figures on the general contract. After careful figuring and fresh information I find that I can reduce the amount of this contract by $ 1.400.00 then making the final tender $ 89.590.00.

Please ignore thb fiert quotation andconsider only the last one ,namely $ 89.590.00

Enclosed please find the Tender Form duly signed.

Hoping to be favoured with the awarding of this contract and assuring you that I will do justice to my obligations

I remain , Sir,

Yours respectfully,

I find that the Bank made a mistake in the amount to be sent with the tender. Instead of $ 9.099.00 they sent $ 9.990.00.

J.L.G.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

May 4, 1927.

MEMORANDUM: Mr. Scott.

Plans and specifications were prepared and tenders invited for the proposed new R. C. School on the Onion Lake Indian Reserve, Sask. The tenders closed at noon on Monday, May 2, and the following have been received.

Messrs. Brown and Hudson, Winnipeg,	$79,891.00
Wyndels Construction Co., St Boniface, Man.	$84,000.00
R. N. Wyatt, Winnipeg, Man.,	$84,902.00
J. H. Simmons, Winnipeg, Man.,	$86,938.00
James Priel, Saskatoon, Sask.,	$89,000.00
J. L. Guay, Cravelbourg, Sask.,	$89,590.00
A. W. Heise Co. Ltd., Saskatoon, Sask.	$89,890.00
Traub and Spray, Regina, Sask.	$104,040.00

The tender of Brown and Hudson is the lowest but in view of the strong representations made against this firm by the representative of the Church for whom the building is being built, I would recommend for your consideration the acceptance of the tender of the Wyndels Construction Co., of St. Boniface, Man. as their's is the next lowest tender.

115-8-10

DEPT. OF INDIAN AFFAIRS
APR 26
RECD

Onion Lake, April 20th. 1927.

To the Honorable Duncan Scott,

Deputy Sup. General,

Ottawa.

Dear Sir,

I beg to acknowledge receipt of our proposed school's plan and specifications. Truly if the specifications are carried out to the letter the building will give entire satisfaction to all concerned. But will they be carried out? Undoubtedly it is the intention of the Department that the contractor complies with the specifications laid down. But you are well aware that they are not all reliable. Some are honests ,some are not . Who will get the contract? Nobody knows yet. But who-ever gets it, I hope he will be reliable.
But to be more secured against any fraud we hope that the Dept. will have a good honest and experimented inspector to supervise the work at the very outset. I was told by Father Guy that His Lordship Bishop Charlebois and father Ruault were both satisfied with their inspectors. And that either one or the other would give us entire satisfaction. We hope that the Dept. will see to it and appoint one of them as it is imperative that we should be protected.
It is a well known fact that green lumber has been used in the building of the School of the Church of England contrary,I am sure,to the specifications and to the prejudice of the school. And I am well aware that the same man who sold green lumber to the contractor expects to do the same this year with our school. The agent or the inspector should I think be instructed by the Dept. to not allow any thing of the kind.
This winter and right now, the Principal of the church of England's school has much trouble with the draining system as the pipes are frozen and cannot locate the place,so that they have to carry water in barils. The trenches as far I was told are only six or seven feet deep. Now in this country where there is not much snow the ground is liable to freeze eight or nine feet deep, so that the trenches ought to be not less than ten feet deep. I think that in Edmonton it is about the average depth of the trenches in the streets, if not more. I have not seen the specifications about the drainage but I hope that this fact is not overlooked. I humbly submit that you give your attention to that point as it is of a paramont importance. Imagine the predicament we should be in were the pipes getting frozen specially in a place like ours where experienced men are so scarce and hard to get.
I understand that Mr. Graham has wired the Dept. about the location of our school. It is a good place for cultivation and beside a good spring which well utilized would give a good supply of water. But I submit that an expert man ought to be charged with the working out of the spring so that all the water it can give shall be secured.
I thought dear Sir, that these informations might be of any interest to you and might help making a first class work of this building.

Your very truly,

J. A. Therien
Principal

COMMISSIONER'S OFFICE,

REGINA, SASK. April 25th, 1927.

Sir:-

On the 19th of April I wired you that the Contractors stated there were no basement plans of steam mains, drain or radiation and I asked for a reply. Not having received a reply on the 23rd, I wired again. Today I received a reply stating:-

"Radiation in basement shown on basement plan Onion Lake School"

I at once called up the Contractor, who made the statement that there were no plans, to bring over the plans, which he did, and the set that he had does not show any basement plan. It then occurred to me that the other set of plans, which was out at the time I sent the first telegram, might contain the drainage and I find that it does. This was my reason for wiring you. There is only one set of basement heating and drains for the two sets of plans.

Your obedient servant,

W. M. Graham
Indian Commissioner.

Wm Ferris

Dear Sir.-

Re.- Stable and Poultry House.

I presume that it is the intention of the Department to build a stable and poultry house for our new school right this summer as a matter of great necessity. Where the school is located there is no building of any kind that could be used for the purpose. In fact there is none whatever and it is imperative that the stable be built before we move in the new school. Very likely the work will be done and through in the middle of next winter and then if we have to move as we shall have to ,imagine the predicament we shall be in, having no building of any kind to stable our cattle and horses. As I said before it is of the utmost necessity that the stable and poultry house be built this summer so that next winter we shall have to move then we shall have the building to stable our stock.

Re.- Building for the Principal.

I have been told that the Department is willing to build a house for the pricipal only for the asking. I for one exceedingly desireof having a home for myself and my assistant. The prospect of having to live in the school with the children is to say the least, exceedingly contrary to my liking and inclination. And I think that only for the sake of save-guarding his influence over the children it is greatly desirable that the Principal should live apart of the school in his own house. And since the Department is not contrary to the idea, I do ask the same to build a house for the Principal right this summer.
The building will be about the same as was built for Mr. Ellis, only a little larger as we intend to have lay-Brothers to run our farm and ma-chineries and naturally the principal's house will be theirs also, ther-fore necessitating a larger building. If the Hon. Deputy Supt. Desires it I would be glad to forward him a skech of the building I would like to get.
I greatly wish that the house be built this summer in the same time as the school so that it would be easy then to arrange for the water sys-tem while the working men would be there on the spot working at the school.
Dear Sir, I would be exceedingly pleased were the Dept. in a position to gratify my demand which by the way is endorsed entirely by my Provincial, Father Beys, and you would do me a great favor which I will not easily forget were you using your influence in my behalf.
Thanking you for the anticipated favor,

I remain,

Your's truly.

May 18,1927.

His Excellency

The Governor General in Council.

The undersigned begs to report that the same being necessary, tenders were called for the construction of an Indian Residential School, on the Onion Lake Indian Reserve, in the Onion Lake Indian Agency, in the Province of Saskatchewan, for the Roman Catholic Church, the same to be receivable by the 2nd of May, 1927, and that the following tenders were received, together with the required deposit security:-

Messrs. Brown and Hudson, Winnipeg, Man.....$79,891.00

Wyndels Construction Co., St.Boniface,Man...$84,000.00

R.M.Wyatt, Winnipeg, Man.....$84,902.00

J.H.Simmons, Winnipeg,Man.....$86,938.00

James Priel,Saskatoon, Sask.....$89,000.00

J.L.Guay,Gravelbourg,Sask.....$89,590.00

A.W.Heiss Co.Ltd., Saskatoon,Sask.....$89,890.00

Traub and Spray,Regina, Sask.....$104,040.00

The disputed Engineer of the Department of Indian Affairs has reported that the lowest of the above tenders, namely that of Messrs. Brown and Hudson of Winnipeg, Manitoba, is fair and reasonable and the undersigned has the honour to recommend that it be accepted pursuant to the requirements of Sub-section 2 of Section 36 of the Public Works Act. Funds for this purpose are available from Parliamentary appropriation.

TENDERS WANTED

SEALED TENDERS addressed to the undersigned and endorsed on the envelope "Tender for St. Anthony's Indian Residential School on the Onion Lake Indian Reserve, Sask.", will be received up to noon of the 2nd day of May, 1927, for the erection of the above mentioned building.

Plans and specifications may be seen at the office of the Indian Commissioner, W. M. Graham, at Regina; the office of the Inspector of Indian Agencies, Winnipeg; at the offices of the Post Masters at Saskatoon, Edmonton and Calgary; the offices of the Indian Agents at Battleford and Onion Lake, and the Department of Indian Affairs, at Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank of Canada for ten per cent of the amount of the tender, payable to the order of the undersigned (War bonds of the Dominion will also be accepted as security, or bonds and cheque if required to make up an odd amount) which amount will be forfeited if the person or persons tendering decline to enter into a contract, when called upon to do so, or fail to complete the work contracted for.

The lowest or any tender not necessarily accepted.

DUNCAN C. SCOTT,
Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, March 26, 1927.

SOUMISSIONS DEMANDÉES

Des soumissions cachetées et adressées au sous-signé et portant endossement sur l'enveloppe "Soumission pour l'école résidentielle de St-Antoine, sur la Réserve d'Onion Lake, Sask." seront reçues jusqu'à midi le 2 mai, 1927, pour l'érection de la bâtisse mentionnée.

Les plans et spécifications peuvent être vus à l'office du Commissaire Indien, W. M. Graham, à Régina, à l'office de l'Inspecteur des Agences Indiennes, Winnipeg; aux offices des Maîtres de Postes à Saskatoon, Edmonton et Calgary; les bureaux des agents Indiens à Battleford et Onion Lake, et au Département des Affaires Indiennes à Ottawa.

Chaque soumission devra être accompagnee d'un chèque accepté tiré sur une banque chartrée du Canada au montant de dix pour cent du total de la soumission, payable à l'ordre du soussigné (les Bons de Guerre seront aussi acceptés, ou bons et chèque requis pour compléter un montant impair) ce montant devant être confisqué si la ou les personnes refusent d'entrer en contrat, lorsqu'on le leur demande, ou ne complètent pas l'ouvrage qu'elles auraient contracté.

La soumission la plus basse ne sera pas nécessairement celle qui devra être acceptée.

DUNCAN C. SCOTT,
Député Surintendant Général.

June 8, 1927.

Sir,-

As advised by telegram of yesterday your tender, amounting to $79,891.00, is accepted for the erection of the proposed new Onion Lake Indian Residential School, and I am enclosing herewith contract forms in duplicate, which I would ask you to please sign and return to the Department, and when executed by the Deputy Superintendent General a copy will be sent you.

I am also sending you, under separate cover, four blue prints of the plans and specification for this building. I will advise you in the course of a day or so the name of the person who will act as Inspector of Construction on this work.

I would particularly draw your attention to the fact that under no consideration will any extra work done in connection with this contract be paid for unless every item in detail has been authorized from here in writing. It is also expected that the contract will be completed within the time mentioned in the contract.

Your obedient servant,

A. F. MacKenzie.

PRIVY COUNCIL CANADA

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 27 th MAY 1927

DEPT. OF INDIAN AFFAIRS JUN 7 1927 RECORDS

The Committee of the Privy Council have had before them a report, dated 18th May, 1927, from the Superintendent General of Indian Affairs, stating that, the same being necessary, tenders were called for the construction of an Indian Residential School, on the Onion Lake Indian Reserve, in the Onion Lake Indian Agency, in the Province of Saskatchewan, for the Roman Catholic Church, the same to be receivable by the 2nd of May, 1927, and that the following tenders were received, together with the required deposit security:

Messrs. Brown and Hudson, Winnipeg, Man.	$79,891
Wyndels Construction Co. St. Boniface, Man	84,000
R.N.Wyatt, Winnipeg, Man., ...	84,902
J.H.Simmons, Winnipeg, Man., ...	86,938
James Priel, Saskatoon, Sask., ...	89,000
J.L.Guay, Gravelbourg, Sask., ...	89,590
A.W.Heiss Co.Ltd., Saskatoon, Sask.....	89,890
Traub and Spray, Regina, Sask., ...	104,040

Copied

The Engineer of the Department of Indian Affairs has reported that the lowest of the above tenders, namely that of Messrs. Brown and Hudson of Winnipeg, Manitoba, is fair and reasonable.

The Minister recommends, pursuant to the requirements of Sub-section 2 of Section 36 of the Public Works Act, that said tender be accepted. Funds for this purpose are available from Parliamentary appropriation.

The Committee concur in the foregoing recommendation and submit the same for approval.

Clerk of the Privy Council.

The Honourable
The Superintendent General of Indian Affairs.

June 15, 1927.

Sir,-

I beg to advise you that you have been appointed Inspector of Construction for the proposed new Onion Lake R. C. Indian Residential School, and you will be paid at the rate of $6.00 per day for your services. Kindly report at once to Indian Agent Lang Turner, Onion Lake, Sask., who will give you the necessary particulars as to the location of this building. The contract has been awarded to Messrs. Brown and Hudson, 791 Preston Ave., Winnipeg, Man. at their tendered price of $79,891.00. You will be expected to devote all of your time to this work, and to take particular care to see that the building is erected in strict accordance with the plans and specifications. I would particularly ask you to make sure that the lumber used in the construction of this building is well seasoned. I would also draw your attention to the fact that under no circumstances will the Department pay for any extra work performed in connection with this contract unless same has been authorized in writing by the Department, and this should be strongly impressed on the contractors when the work is commenced.

I am sending you, under separate cover, certificate forms, which should be issued in favour of the contractor when money is due on his contract. These should be forwarded to the Department in duplicate. I am also sending you diary sheets which should be kept by you and at the end of each month handed to Indian Agent Turner, who will forward a voucher to the Department for payment of your services. I would ask you to kindly submit a fortnightly report covering the progress of the work.

A copy of the plans and specifications are being sent you, care of the Indian Agent.

Architect

June 15, 1927.

Sir,-

For your information I am sending you herewith a copy of a letter which has today been sent to Mr. William A. Hamilton, advising him of his appointment as Inspector of Construction at the proposed new Onion Lake R. C. Indian Residential School. You will note that he is being paid at the rate of $6.00 per day for his services, and he has been requested to hand you a diary sheet at the end of each month. I would ask you to kindly forward a voucher in the regular way for payment of his salary, also give Mr. Hamilton whatever assistance he may require, and indicate to him the location of the proposed building.

The contract for this building has been awarded to Messrs. Brown and Hudson, 791 Preston Ave., Winnipeg. You will notice in the letter of instructions sent to Mr. Hamilton that I have drawn particular attention to the fact that the Department will not pay for any extra work performed by the contractors unless same has been authorized in writing by the Department here. I would ask you to impress this on Mr. Hamilton and also on the contractor, as the Department expects the building to be erected without any additional cost, outside of the contract price. No alterations or changes are to be made in the plans and specifications that will add to the cost of the building.

Your obedient servant,

J. D. McLean.
Asst. Deputy and Secretary.

DEPT. OF INDIAN AFFAIRS
JUN 16 1927
SCHOOLS BRANCH

Sir,—

I have the honour to request that I may be authorized to have telephone connection installed at the proposed new Roman Catholic School section on the Onion Lake reserve. This location is about six miles from the Agency and a telephone connection will be a great convenience during building operations.

I have spoken to Mrs. H. McCleneghan, the owner of the local telephone system, and she has informed me that she will make the necessary installation if the Department will supply the poles and erect them. As the new school site is about three-quarters of a mile from the nearest telephone line south of the reserve, I estimate that about 30 poles will be needed. The cost of these, together with labour, will be in the neighbourhood of $40.00.

Ottawa, June 17th, 1927.

Sir:

I have your letter of the 11th instant, relative to having telephone connection installed in the proposed new Onion Lake R. C. Indian Day School. It is noted that the local telephone system will make the necessary installation if the Department will supply the poles and erect them.

You may incur an expenditure of approximately $40 in supplying the poles and for the labour in erecting same. After this work has been completed, you should forward a certified voucher, in duplicate, covering the expenditure incurred.

Your obedient servant,

J. D. McLEAR

Dear Senator Lessard,

I have to acknowledge the receipt of your letter of May 7th, in which you support the request of the Rev. Father Therien for a separate residence for himself as Principal of the Onion Lake Roman Catholic Residential School.

Where we have constructed new schools, we have found it desirable to provide quarters for the principal within the building. There are only a few cases where the principal happens to be married with a young family where it has been considered desirable to provide a separate residence.

Yours sincerely,

Honourable P. E. Lessard,
Edmonton,
Alberta.

Gentlemen:-

Att'n. The Architect.

With reference to the Laundry Room in the proposed Indian School to be erected at Onion Lake, will you kindly advise us if this is the same size as the Laundry Room at the Indian School which was recently erected at Peigan Reserve.

Messrs Brown and Hudson of this City have the contract for the Onion Lake School and we are figuring on the Laundry equipment and we also wish to figure the Transmission which includes Belting, Pulleys, etc.

We believe that same Transmission would be necessary for this as the last two Schools which were built in Alberta.

Thanking you for advising us in this connection, we are,

Yours very truly,

WHB/T

TENDERS WANTED

Sealed Tenders addressed to the undersigned and endorsed on the envelope "Tender for St. Anthony's Indian Residential School on the Onion Lake Indian Reserve, Sask." will be received up to noon of the 2nd day of May, 1927, for the erection of the above mentioned building.

Plans and specifications may be seen at the office of the Indian Commissioner, W. M. Graham, at Regina; the office of the Inspector of Indian Agencies, Winnipeg; at the offices of the Post Masters at Saskatoon, Edmonton, and Calgary; the offices of the Indian Agents at Battleford and Onion Lake, and the Department of Indian Affairs, at Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank of Canada for ten per cent. of the amount of the tender, payable to the order of the undersigned (War bonds of the Dominion will also be accepted as security, or bonds and cheque if required to make up odd amount) which amount will be forfeited if the person or persons tendering decline to enter into a contract, when called upon to do so, or fail to complete the work contracted for.

The lowest or any tender not necessarily accepted.

DEPT. OF INDIAN AFFAIRS
JUL 14 1927

[redacted]e Honorable Duncan Scott,

Deputy Supt. General,

Ottawa.

Sir,

Yesterday the inspector, Mr. Hamilton and myself in looking over the plan for our new residential school agreed that some minors alterations were advisables, namely:

1.- One outdoor for the boys and one for the girls recreation rooms. You will kindly notice that the children have access to their respective recreation room by passing through a corridor therefore increasing the burden of watching them when they go out and come in . The guardian would have to be in the corridor most of the time to watch them. An out door will do away with that inconvenience.

2.- There is no provision for a sitting room for the indians when they come to see the principal on private bussiness. They have to stay in the corridor or get in his office five or ten at a time. I would suggest that the principal's office be made a sitting room for the indians and the present bed room for the principal be made his office and the next bed room be his own bed room. This alteration would be made by simply putting a door in the wall separating the principal's bed room and the next bed room.

3.- For the sake of privacy for the visitors, the pricipal and his assistant and also to dull the noise and escape the dust that comes from the class room and recreation room down below I strongly recommend that the corridor on the ground floor be closed at both ends by putting doors. I have heard many principal emphasizing the necessity of it and I strongly recommend it.

4.- I would suggest also to extend the verendah in order to give more room.

5.- To close the corridor leading to the girls dormitary by putting a door . Very important to prevent any undue access to the dormitary.

6.- A concrete reservoir for rain water.

7.- A 20 H. P. Engine at least.

Total: 6 doors 2 outside doors and 4 inside doors.
Extention of verendah
Reservoir for rain water
20 h.p.engine

These are the extras I beg to strongly recommend hoping that you would be kind enough to grant my demand entirely endorsed by the Inspector, Mr. Hamilton. Expecting a favorable answer,

Yours Truly. [illegible] Principal

DEPT. OF INDIAN AFFAIRS
JUL 12 1927
RECORDS

Dear Sir

In looking over the plans of the R C Mission School here I note that there is no mention of where the pressure tanks for the water system are to be located, if it is the same system as the one installed in the Anglican Mission here which was placed underneath the floor of the machinery room and had to be excavated to receive them after the walls were built I would suggest that the place be prepared for them while the other excavating is being done,and would be done far cheaper now than to leave it till after the basement walls were in place. if it is your wish that the above mentioned work be done I would ask you to wire me to that affect as the Contractors are working in that locality doing their excavating.

Regarding the water system and the Sewage disposal plant I would be pleased to receive your instructions as soon as possible so that the nessessary arrangements can be attended to.

Up to the present I have not received the Plans and Specifications, but as soon as I receive them I will look them over and any other information I may require I will take the matter up with you.

Awaiting your instructions re the above, I remain

Your obedient servant

W A Hamilton
Inspector

Mr. [illegible]

I think we should consider an elevated tank for water supply.

Sir,-

I beg to enclose herewith a copy of a letter which has today been received from the Rev. Principal of the Onion Lake School. The Department is prepared to give consideration to all of the items contained in this letter with the exception of the first and the fourth. It is not considered necessary to provide additional entrances to the recreation rooms or to enlarge the verandahs.

With reference to item No. 7 I do not understand for what purpose this 20 H. P. engine is required.

Regarding the balance of the items contained in this letter please obtain and submit to me a price from the contractor for each of the items. When I have received this information I will further advise you.

Your obedient servant,

DCL

J. D. McLean.

Dear Father Therien,-

I have your letter of the 1st instant, regarding certain changes in the plans for the new Onion Lake School. I will give consideration to all of the items with the exception of the first and the fourth. I do not think it necessary to provide entrances for the boys' and girls' recreation rooms as the ones now provided are quite close to these rooms.

With reference to the verandahs I am sure that you will find that the one on the side and on the front will give ample space.

Regarding the remaining items a letter is today being written to the Inspector of Construction asking him to report giving a price on same.

Yours very truly,

dcl

DEPT. OF INDIAN AFFAIRS
JUL 15 1927
RECORDS

Dear Sir

The Principal of the R C Indian Residential School here Father Therien took the matter up with me of several changes he wishes made from the way they show on the plans, so I promised to take the matter up with the Department at Ottawa.

The following is a list of the changes he mentioned.

(I) He wants an outside entrance from each of the Recreation Rooms the same as the C of E School here.

(2) He wants Doors at each end of the Corridor on ground Floor to close off Administrative Rooms from Class Rooms.

(3) The Office which connects with Entrance Corridor he wishes to use as a waiting room, and use the Principals Room as an Office and have a door put in partition between Principals Room and the Bed Room next to it.

(4) The Verandah at the end of the Building which is about one third the length of the end of the building, he wishes to have it extended the full length of the end.

(5) On the First Floor there is a door to close off the Corridor from the Boys Dormitory and he wants a similar door at the other end of the corridor to close it off from Girls Dormitory.

I would be obliged to you if you would have the matter looked into and inform me of your decision at your earliest convenience. I remain

THE CANADIAN FAIRBANKS-MORSE COMPANY, LIMITED

Regina, Sask.
July 15, 1927

Mr. W.M.Graham,
Commissioner of Indian Affairs,
Regina, Sask.

Dear Sir:-

We have pleasure in returning herewith blue prints and specifications for St. Anthony's Indian School at Onion Lake, Sask. In looking over the amount of outlets we find the following: Basement 70, Ground Floor 50, First Floor 35, Second Floor 14, making a total of 169 outlets. Further note that reading the specifications each outlet is to be built to carry a maximum at 120 watts, per pendent outlet and 60 watts, per bracket outlet, also that there will be a 36" x 54" Rotary Laundry Tub and also a 26" Extractor driven from the engine supplying electricity.

We would figure a safe capacity for the generator to be 60 watts, per outlet, making a total of 10.14 K.W. We would recommend for this service one 12½ K.W. 110 volt direct current two wire Fairbanks Morse generator, and one 20 H.P. Fairbanks Morse kerosene oil engine, one 12½ K.W. Switchboard containing volt and ammeter, main switches and fuses, together with rheostat and board wiring also.

We would connect up this complete outfit as enumerated above, sending our mechanic for the work to Onion Lake, paying freight to the nearest railway point, you to arrange transportation of the equipment from the railway station to the hospital and place upon your foundations at that point. Foundation bolts will be supplied by us.

We would connect up the engine and generator, supplying necessary belt for same, to be of best quality special Spartan Dynamo..

We would wire the generator and switchboard ready and connect the mains from the switchboard, which we understand will be run to the board by the contractor putting in the electric fixtures and wiring.

We would supply this complete outfit as enumerated above for Two Thousand One Hundred Dollars ($2100.00)

Thanking you for the opportunity of quoting and hoping to be favored with your order, which will receive our best attention, we are

Yours very truly,

THE CANADIAN FAIRBANKS MORSE CO.LTD.

Per (Sgd.) F.W.Miller
Manager.

P.S. If we are to transport engine from station to destination add $60.00 to above price.

Sir:-

I beg to enclose herewith copy of a letter that I have received from the Canadian Fairbanks-Morse Company, Limited, quoting a price for installing a lighting plant that I think would be ideal for the new Onion Lake Boarding School.

I think it wise to have a plant with perhaps a surplus amount of power and this specification calls for such a plant. I may say that Fairbanks-Morse outfits have given us good satisfaction in the past.

Yours obedient servant,

W. M. Graham,
Indian Commissioner.

Ottawa Ont

Dear Sir

Your wire received re geting prices for outside entrances to Boys and Girls Recreation Rooms, I have asked the Contractor to submit an Estimate for same and which will be forwarded to you as soon as I receive it.

I also notice on looking over the plans that there are no Transoms shown over the doors opening into the Corridors and if the doors are put in to close off the corridors from the class rooms and dormitories there will be no light whatever in the corridors, but if I might suggest the cheapest way to get over the dificulty would be to put obscure glass in top panel of doors leading to the long corridors on the Ground and First Floors.

Awaiting your instructions re the above I remain

Your obedient servant

W. A. Hamilton

Inspector

Dear Sirs

Referring to your letter of the I2th re procuring Estimates on alterations asked for by Father Therien from the Plans for the R C Indian Residential School here. I have taken the matter up with the Contractor and he is making out estimates for the several changes, & as soon as they are received I will forward same to you for decision in the matter.

Referring to item # 6 namely Reservoir for rain water, he is figuring out the Excavating and Cement work by the yard as there is no size given for the Tank. I would be pleased to have you specify the size of tank you consider they should require and a bulk estimate could be submitted for same.

Awaiting your further instructions I remain

Your obedient servant

W A Hamilton

August 4, 1927.

Sir,-

Replying to your letter of the fourth of July with reference to the proposed water supply system and sewage disposal installation for the R. C. School at Onion Lake, I beg to say that this work has not yet been given any consideration owing to the lack of data as to the type of installation which will best suit the local condition. I would ask you, therefore, to furnish me with a sketch plan of a sewage disposal system which would suit this institution, and to let me know if a pneumatic water supply system is to be adapted. If so the capacity of the pump and water tank should be mentioned in your report. I may say for your information that an elevated water tank has already been mentioned for this Institution, but no decision will be reached until I am in receipt of your recommendation.

aBm

Your obedient servant,

A. F. MacKenzie.

Gentlemen:

We note that your Department is building an Indian School and Chapel at Onion Lake Indian Reserve, Sask.

We are interested in learning if there is going to be an electric light plant installed in this institution. In this respect we got in touch with the General Contractors, Messrs Brown and Hudson, of Winnipeg, who stated that they do not know if this item is going to be included in the new school, and advised us to get in touch with you.

We would be pleased to received your advice concerning this at your earliest convenience.

Yours truly,

Dear Sirs

Father Lacombe and the Sisters of the R C Mission here called to see me about several changes they wished to have made in layout of the interior of the new School. and as I have received no authority to make any changes from the present layout without your consent, I will hereby give you a list of the changes they wish to have made.

Basement

The small Dining Room they want made larger by moving the partition over in line with partition in pupils dining room, then at the other end of the dining room there is two bath rooms with a door opening into the girls recreation room they want them done away with and the space put to the dining room which would make the size of dining room I4' X 29'

They want the partition between Recreation Room and wash Room moved back about six feet and put the wash tables in the space where the partition was moved from, and also move the drinking fountain from corridor to space near wash tables.

Ground Floor

Do away with partition between sewing room and clothes store room and move door from present location to about opposite to class room door across the corridor, in making this change they could turn the room into a class room at some future time. they ask for a small stairway from chapel floor to balcony at rear of chapel.

First Floor

Remove partition between sisters comunity and sister superiers rooms and have extra window put in and change location of door to room. they want a sash put in side of staff rooms in dormitories or a glass put in door and the sash moved from present location to the other partition.

The above list of changes could be made and an allowance should be made by the contractor to the department for material not required.

Attention Mr A F MacKenzie

Dear Sir

In answer to your letter of Aug 4th re Water Supply System and Sewage Disposal Plant for the R C Indian School being erected here.

Referring to the Water System I do not think that the System as installed in the Church of England here could be improved on as they tell me it is giving good satisfaction. you mentioned in your letter about an elevated water tank being suggested,but in my opinion it would not be satisfactory.

Regarding the Disposal Plant,I would suggest the same design as the system installed at the Church of England School here. the lay of the land here is about the same as the other but the piping from the disposal tank would not be quite so far in this one, and I should judge that the tank might be made a little larger. I have written to the Provincial Department of Health for pamphlets explaining the requirements for a school of this size when I could forward you a sketch.

The water system as installed at the C of E School requires a well at the spring and a pump house with a gasoline engine and a pump,with a pipe line about 650 ft long of 2½" pipe to storage tank near machinery room and also connected to two pneumatic pressure tanks about 4' x I8' with an automatic electric pump also a bouster pump to supply air to tanks when required.

If the above system is to be installed,the pressure tanks should be put in at once if they are to be put under the machinery room floor which would have to be excavated to receive them as per my letter of july 4th. the contractor will be raising the walls of that part of the building about the end of next week, and if the excavating is to be done it will have to be done before the walls are erected, so I would ask you to wire me if you want them there.

Thanking you in advance for a reply at your earliest convenience for it is time that this work was under way. I am

Onion Lake Augst. I5th. I927.

The Honorable Duncan Scott.

Deputy Superintendent Gener

Ottawa.

Dear Sir.

In my previous letter to you I laid stress upon the urgency of having our stable built up this year. To day I am sending a telegramto draw again your attention to this matter. I hope that the Department will see to it that our demand will be granted and that instruction will be given at once to go ahead with the building of the barn.

It will be almost impossible to move this winter in our new school if we have no barn to stable our stock,as there is no building of any kind around that could be used for that purpose. It is of the utmost importance that the building be put up this year while the building of our school is going on.

I take also the liberty to ask the department to build a house for our farmer who is a married man with a family. We shall need the service of that man as soon as we take possession of the school and a building should be provided for him and his family right this summer. Will you kindly take this matter into serious consideration and give instruction to that effect . The present contractor could do the work of the barn and the farmer's house in the same time he is building the school.

I beg to insist upon the urgency of these matters, and I hope that my suggestions will be acted upon as a failure to do so will put us in a very akward situation.

With my best regard and wishes for your welfare ,

I am,

Your's truly,

O. A. A. Therien

Principal

Dear Father Therien:

I have your letter of the 15th instant, with reference to a farmer's residence for the Onion Lake R. C. Indian Residential School. I am telegraphing to Mr. Indian Commissioner Graham, of Regina, asking him to make a recommendation. When a decision has been reached, you will be advised.

Yours very truly,

J. D. McLEAN

A. F. McKenzie,
Supt. Indian Affairs.

Dear Sir,

I wrote the Department some time ago re barn and residence to be built at Onion Lake.

The reply I received was that the Department thought of doing them day labor. I would like to m mention we have every facilities erected there for doing the work on the School besides a lot of material left over. We would be pleased to erect these buildings for you either by day labor or cost plus basis, or any way you would suggest. Kindly advise.

Yours truly,

BROWN & HUDSON

Department of Indian Affairs
Ottawa Ont

Dear Sirs

As Inspector of Construction at the new R C Indian Residential School being erected here I wish to submit to you the following Report on the progress made at the building since I arrived at the Site.

I arrived at the site June 24th and found the Contractor at work at the excavating and building the temporary buildings for offices and storehouses and quarters for the men employed.

The work is progressing very slowly, being partly due to wet weather. delays on material and shortage of labor. the cement work for the walls of main building and footings for columns and partitions are in place. the outside studding is also in place for basement and ground floor and sheeted with shiplap up to the ground floor joists.

They are pouring concrete for walls of rear building under chapel, and they should have them completed this week if not held up for gravel which has been the cause of considerable of the delay in the past.

Practically all the dimension lumber,shiplap,com boards flooring,siding and v joint are at the site. the flooring and siding though here is not according to the specifications,the flooring is a good grade but is 3¼" face but it calls for not wider than 2½"face and on taking the matter up with the contractor he got after the shippers and they said that it was a mistake in their office billing out the order, the siding is not up to the grade called for and I have refused to accept it unless it is culled out and the inferior material taken away from the job. the dimensions and shiplap is a good quality and the cement work is up to the standard.

Regarding the flooring referred to above I would be pleased to have your suggestion re the matter, the material is as good a grade as can be procured and it being drayed here a distance of over 30 miles it puts the contractoh in a bad box for he could not sell it around here in ten years there is so much of it.

I would be pleased hear from you as to the date the contract is supposed to be completed as they do not seem to be trying to push the job the way I think they should.

There are none of the sub contractors arrived at the job yet, but they expect the plumbing and heating men this week. the steel columns have all arrived at the site and the ones for the basement and ground floor are in place.

The above report is respectfully submitted for your consideration. I am

Your obedient servant

August 24, 1927.

Sir,-

With reference to your letter of the 15th instant I note that 3¼" face flooring has been delivered in place of 2½" as specified. This will be satisfactory to the Department under the circumstances and by allowing the contractors to use this flooring it will probably be of assistance to you in settling other matters which may arise during the course of the construction. The contract calls for the completion of the building by the 8th day of December and I would ask you to advise the contractors that the Department expects and will insist on the building being completed by this date.

Your obedient servant,

A.F.MacKenzie.

115-8015

Sept. 10, 1927.

Sir,-

I have your letter of the 1st instant, enclosing second certificate in favour of Brown and Hudsam for work on the new Onion Lake Indian Residential School. You will note by the specifications that the Department pays up to ninety percent only of the value of the labour and material in the building at the time that the certificate is issued. According to your certificate the full amount is being paid. As the first certificate does not show the deduction of the 10%, certificate No 2 has therefore been reduced to $9,134.57, which is 90% of the labour and material in the building as shown on your certificate.

With reference to your letter of the 29th ultimo enclosing a layout of the sewage disposal plant and the water supply system for this school the general arrangement appears to be satisfactory, with the exception that in the septic tank the manhole should be placed directly over the pipe leading into the septic tank in the syphon chamber. Please obtain and submit to the Department a price from the contractors for this work, and also state whether you consider their price fair and reasonable.

Your obedient servant,

A. F. MacKenzie.

DEPT. OF INDIAN AFFAIRS
SEP 19 1927
RECORDS

Department of Indian Affairs
Ottawa ont

Dear Sirs

As Inspector of Construction at the R C Indian Residential School being erected here wish to report as follows.

The work is progressing very slowly here at the present time, and has been the same since the excavation was completed, at the present time the outside structure of the main building is about closed in, the end portions of which are ready for the felt & gravel roof, and the centre part is being prepared and should be ready for roofing by the end of this week.

The rear wing of the building which includes the Chapel is being prepared to receive the ground floor joists, the rear wall of this wing has been held up for quite a while owing to the delay of the heating contractor in not having the boilers delivered and placed in position, the boilers have not arrived yet but one of them they expect will be at the job to-day and the other one is being unloaded from the car at Lloydminster, and without any mishap both should be in place this week. the plumbers have not arrived at the job yet but are expected to arrive to-day.

There has been considerable wind and rain in this district which has delayed the work somewhat, but when the building is closed in there should be no more delay in that way. there seems to be a shortage of carpenters in this district at the present time, the window frames are being put in place so that the building can be closed in.

I would recomend that the water system and sewage disposal plant be decided on as soon as possible so that the work may be put under way as the weather in this district cannot be depended on for outside work.

The contractors have received word from the shippers of the siding which has been refused that they are sending an inspector here to see what can be done about it, he is expected here on the fifteenth

I have taken the matter up with the contractor several times to submit estimates on the changes asked for by Father Therien, and referred to in your letter of july I2th. Mr Brown of Brown & Hudson has arrived on the job and has promised to let me have an estimate at once on the above mentioned work and will be forwarded to as soon as I receive it from them.

There has been several changes which Father Lacombe the new principal at the school wishes and he tells me that he has taken the matter up with you direct.

In my letter of july 26th I referred to the corridors in the school being very dark and suggested obscure glass in the top panel but have not had your decision on the matteryet.

The above is respectfully submitted, I am

Your obedient servant

Sept. 21, 1927.

Sir,-

I beg to acknowledge receipt of your report of the 15th instant, with reference to the progress of the work on the new R. C. Indian Residential School, and I note that the progress is slow. You should advise the Reverend Principal that if there are any changes he desires he should forward a list of them to the Department through you, and they should be accompanied by a price from the contractors and your recommendation.

With reference to providing glass in the door panels opening into the corridors you may authorize this change providing the contractor quotes you a satisfactory price.

I am enclosing herewith a letter which has been received today from Brown and Hudson with reference to some changes, and I would be glad if you would send me your comments on same as to prices, also some details should be given by the contractors as to how the prices are arrived at. I would ask you toadvise Brown and Hudson that in future all correspondence from them should pass through your hands.

Your obedient servant,

A. F. MacKenzie.

DEPT. OF INDIAN AFFAIRS
SEP 26 1927
REGISTRY

Mr.Duncan C.Scott,
Deputy Supt.Gen.of Indian Affairs,
Ottawa.

File No. II5-8-I5

Dear Sir:-

Refering to your letter of the I2th,July,to Reverend Father Théfien,my predecessor,Irespectfully beg to discuss over again with you the question of the verandahs to be built on our new school.

The Reverend Sisters are sorely disappointed at your refusal to have the side verandah extended to at least 40ft.long x 8 full feet wide.This verandah is for them pactically the only place where they can have together a little bit of recreation and fresh air. There will be I4 or I5 Sisters in the new school,how can you expect them to enjoy their verandah when they will be so crowded inside that 20ft. x 7ft. bit of a space ? The size of the verandah as shown on the plan is at least half too small to answer its real purpose.

Therefore,in the name of our devoted Sisters,I respectfully beg that you reconsider your decision,and that you issue orders immediately to have this change made.

Floors in the Basement.

Another matter,which we wish to ask you to reconsider,is the floors in the Basement.

Most of the Principals of our new Residential Schools,in the West,are dissatisfied with the cement floors. I am aware that in some of these schools,they had to do away with said floors.The objection is that these floors are about impossible to keep clean,free from dust,unsanitary,tiring,etc.We fail to understand why your Architect is so persistent in having that kind of floors put in our schools. In some of our own private Institutions,we had made the same sad experiment,and had to change that kind of floors.

Would it not be a wise thing to try and avoid mistakes made in some other schools ?

May I ask you to be so kind as to give this matter your most careful consideration,and to give orders accordingly ?

The flooring material that the Cotractors have on hand is not the kind called for in their contract,but it has been accepted by the Architect.Part of this cheaper flooring could be put in the basement,and real good flooring should be bought for the Ground Floor.

I would like this new school to be a credit to your Department,and beyond criticism.Listening to criticism against Indian Department is about as insulting to me as if it were adressed to me personally.

Trusting you will give this my first official letter your kindest consideration,

I remain,Dear Sir,your most devoted

E. Lacombe o.m.i.
Principal.

attention Mr A F MacKenzie File # II5-8-I5

Dear Sir

In answer to your letter of the I0th re Progress Estimate # 2 in favor of Brown & Hudson on Contract for the R C Indian Residential School here. if you will look up Progress Estimate # One you will find that I have taken off I0% as per Contract, then in Progress Estimate # Two which includes all Labor and Material used at Building, including the material as specified in Progress Estimate # One.

The total amount of material and labor to date of Progress Estimate # Two being $ 2I484.82 from which I deducted I0% namely $ 2I48.48, leaving a balance after deducting the amount of Progress Estimate # One of $ II068.20 which makes up Estimate # Two as my Certificate in favor of the Contractors show.

Hoping that the above explaination will be satisfactory to you and that an adjustment will be made to the satisfaction of all conserned, I remain

Your obedient servant

W. A. Hamilton

Inspector of Construction

1927
DEPT. OF INDIAN AFFAIRS
RECORDS

D.C. Scott,
Deputy Minister,
Dept.of Indian Affairs,
Ottawa.

Honorable Sir,

Although you have been informed that the work on the new School here does not progress as fast as it might be expected nevertheless I am glad to say that the Department is not slow in attending to the out-buildings.

Mr.Mayo, sent here by the Indian Commissioner, is now on the grounds and has started the building of the Barn, the only building for which he has any instructions so far. While Mr.Mayo is here, and has his men available, it seems to me that it would be most opportune to have him to erect the other out-buildings.

There is required an Implement Shed, which should be 60ft. X 24ft.-At theother new Schools the Implement Shed has proved to be inadaquate, and the size suggested is not out of proportion for all Machinery.

A Hen-House, 32ft.X16ft., is also required, without having to add any further comment.

Another building, which is absolutely necessary, is the house for the Farm-Instructor, who is a married man with family. And it seems to me that this house should be built this Fall, without delay, as we are expected to move into the new School in the beginning of the comming year or very early in the Spring. Now would be the proper time to have this house built. Mr.Mayo has already built such houses on different Reserves. In our case, I would suggest the Bungalow Style, 24ft.X34ft. giving an accommodation of five rooms.-I may add that in the new School building there is no accommodation available for the Farm-Instructor and his family. Please do take this particular item into serious consideration.

Mr. Mayo informs me that he will complete the building of the Barn in two or three weeks. Therefore if your Department decides to have the other buildings erected, be good enough to send your instructions to Mr.Mayo as soon as possible. The erection of these buildings at the present time and conditions would certainly prove to be a great economy to the Department.

Yours respectfully,

E. Lacombe o.m.i.
Principal.

RE: Indian School, Onion Lake, Sask.

Gentlemen:-

We are installing the electric wiring in the above school for Mr. S. Brown of Winnipeg, the General Contractor.

When estimating the work, we interpreted section fourteen of the specifications to mean that the conduit where occurring upon masonry shall be of rigid type, but elsewhere flexible conduit could be used.

We have shipped all the material required, and are about to send the electricians to install same and the question has now been raised as to whether this installation is entirely to your approval. We would point out that should it be necessary to install rigid conduits throughout the joists would have to be notched to allow of the installation, as the construction is of shiplap covered with metal ceiling.

We mention this as an added reason for permitting the use of flexible conduits, but speaking frankly, our main reason is that we estimated the job on this basis, have purchased material and have paid cartage on same to Onion Lake.

We would esteem it a favor if you would telegraph us your decision in the matter, so as to make as little delay as possible.

Yours very truly,

McDonald Willson Electric Limited

St Anthony's Indian Residential School,
Onion Lake, Sask.

October 10th 1927.

Duncan C.Scott,
Supt. Gen. of Indian Affairs,
Ottawa.

Dear Sir,

As Procurator for the Oblate Fathers, I have been visiting the R.C.Mission on the Onion Lake Reserve.And while here for the past three weeks, I had the occasion of seeing several times the new Shool now under construction.

Your Inspector for the works must have reported that this construction is progressing very slowly. Indeed the Contractor has lost a month, if not two months of very favorable weather during which he could have rushed the outside work, if he had employed a sufficient number of men, or paid the ordinary wages. The fact is that at the present only the boards have been put on the main part of the roof, and so far no pitch or gravel has been laid on same in order to have the inside of the building dry and fit to work inside. Even to-day very few men are on the job, and not very competent at that. I think something has to be done to compel the Contractor to move a little faster,if it is expected that the building will be ready for occupation in the spring.

Moreover it seems as if the Contractor is trying to evade many details of the Specifications and curtail the work. Fortunately the Inspector,Mr.Hamilton,a capable man,is constantly on the job and on the look out; in fact he scarcely dares to absent himself.

It appears even that the Contractor, wanting to pass over the head of the Inspector, claims to command influence with some Officials at Ottawa. So it might be advisable to follow up more closely.

I thought it my duty, Dear Sir, to call your attention to this matter, for the better interests of the Department, and for the sake of the School building itself which we are to occupy and manage.

Respectfully yours,

A. Naessens. O.M.I.
Procurator.

Sir,

The Department has been advised by the Church authorities that very poor progress is being made in the erection of the new Onion Lake Indian Residential School, and I would draw your attention to the fact that your contract calls for the completion of this building by the 8th day of December. It was on this understanding that your tender was accepted and a contract let, and you are hereby notified that the Department expects you to complete the building by the above mentioned date.

Your obedient servant,

J. D. McLean.

Dear Sirs

As requested by you in your letter of Sep 10th I herewith enclose Estimates on the water system and sewage disposal plant for the R C Indian Residential School here from the Contractors, also proposals re machinery suggested for water system and specifications tanks. wells pumphouse and sewer equipment for septic tank and sewer lines. their estimate which I consider is very high.

I took the matter up with two men in this district who did most of the work on the system at the Church of England Indian Residential School here in 1925. they gave me a price which I herewith enclose. they did not include in their tender the following material, the glazed tile for sewer, the fittings for the septic tank and the manhole covers as they could not get quotations here. on inquiry here I have been given to understand that the above would cost in the neighbourhood of 650.00

The Water supply machinery as quoted in Brown & Hudsons Tender was from the sub-contractor for the plumbing and heating at the school here and could be used for either tenders but which I consider is high too, and would suggest that prices be secured from Saskatoon and Regina re this work.

You will notice in Brown & Hudsons estimate they suggest that the work be done on a basis of Labor and Material plus 10% for supervision.

In my estimation the price given by Mr M Rhinhart & T Rivard is about the price the work should be done for.

I have written to Paulin & Swayze of Regina for a quotation as they installed the water supply system in the other school, but up to the present I have not received their quotation, and as the weather is not to be depended on this time of the year I thought it advisable to forward the inclosed estimates, and would ask your consideration of same and if you thought it advisable the excavating could be started & the rest could be arranged for later.

Awaiting your decision in the matter I remain

Your obedient servant

wattamillon

SCHOOLS BRANCH
OCT 10

Dear Mr. Scott:-

I am in receipt of a letter from Rev. Father Lacombe, Principal of the new R.C. Indian Residential School at Onion Lake, enclosing a copy of one addressed to you regarding outbuildings at that institution.

It would be impossible to put up additional buildings at this late date. By the time Mr. Mayoh finishes his work on the agency house and the school barn the season will be well advanced. Carrying on building operations in the winter season is not at all satisfactory and I am of the opinion that the matter of erecting these additional buildings should be left in abeyance until the early spring, which is the proper time.

Yours very truly,

W. M. Graham,
Indian Commissioner.

E&D.

October 10, 1927.

Dear Mr. Graham:

I have your 309-11A of the 5th instant, with reference to the request of Reverend Father Lacombe that additional outbuildings be provided this year at the Onion Lake R. C. Indian Residential School. I may say that the Department is not recognizing Father Lacombe as the principal of this institution and the Provincial of the Oblate Order has agreed to the retention of Father Therien after a short sick leave. I am not directing any answer to Father Lacombe's letter of the 29th ultimo, as on September 2nd I wrote Father Therien that the farmer's residence could not be erected this year.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

R

DEPT. OF INDIAN AFFAIRS
OCT 24 1927
RECORDS

Dear Sirs

I hereby submit the following report on the progress made in the construction of the R C Indian Residential School here.

The work is going very slow, and as you mentioned in your letter of Aug 24th that the school, according to the contract is to be completed by Dec 8th. I advised them to that effect but they do not seem to worry about it, they have not got half the number of men they should have, and when I objected to the delay they claimed they could not get suitable men for the work, and they promised to procure some men from outside of the district.

The main part of the building is closed in and the storm sash are mostly fitted. the rest of the building is not closed in yet owing to the delay of the heating boilers not being on the job and which has held up the cement work of boiler room. the heating boilers are now in place and the cement walls are about completed. the siding is being put on the main building and the painters are following up with their work. the plumbing work is being carried on as fast as can be expected under the circumstances. the weather during the past month has been very unfavorable for outside work as we have had some very cold weather and snow and there has been a lot of wind and rain. it will be some time yet before the lathing and plastering can be started, and as the weather may turn cold at any time now the heating plant should be in operation in case the weather should turn cold when the plastering is being done.

The sub contractor for the electric wiring shipped material here for their work and instead of sending rigid conduit they sent the flexible conduit. I objected to the change and took the matter up with the underwriters association, and they wired me that rigid was the best and carried a better rate of insurance, so I notified the contractors to that effect and they are getting after the sub contractors re same

The felt and gravel roofing contractors have not arrived yet but their material is all here, they are expected here next week. the material for the metal work has arrived and is being delivered to the site. the grading of the earth around the building is being done and should be completed in a couple of weeks.

The above report is respectfully submitted.

October 25th, 1927.

Secretary of Indian Affairs.
OTTAWA, Ontario.

Dear Sir:-

We beg to advise you, that Messrs Brown & Hudson a contracting firm here in Winnipeg, gave us an order in the month of June to supply them with the lumber required to build an Indian School at Onion Lake, Alta, about 40 miles North of Loydminister. We supplied nine cars of material, the last being supplied on Sept 28th.

Mr. Brown was in our office today, and disputes the balance of the account which is $1,924.49. We do not know whether he is just sparing for more time, or what his reasons are for disputing the account, and we would like, therefore, that we be protected until this account is settled. In the mean time if we should get any further settlement out of Mr. Brown, or any payments are made on this balance we will immediately advise you. We understand that all contractors working for the Government are never fully paid by the Government until they produce receipts to show; that all libilities against such work are paid. Wish you would let us know if this is a fact immediately, so we may proceed to place a lien if it is necessary to do so.

Yours very truly,

P.T. Roberts, Limited.

Dear Sirs

Your letter of the 2Ist received enclosing copy of letter sent to Brown & Hudson, and I may say that I am very pleased that you have done so and which I hope will be the means of getting them to rush the work ahead.

I have been after them ever since they started, to have the building rushed as the Mission was anxious to get moved and settled before the very cold weather.

The trouble seems to be that they would not pay the wages that the men could get at other jobs, as for carpenters they would only pay them from 40¢ to 60¢ per hour when other contractors were paying from 80¢ to I.00 per hour which makes it that a man will not work for them if he can get work elsewhere. at the present time they have only three carpenters and three helpers on the work at the present time when they should have at least fifteen. they have increased the rate for carpenters lately or they would not have any working now. Mr Hudson the junior member of the firm that has charge of the work, and I have had more trouble making them comply with the plans and specifications than I had in the last five years. I think the most of the trouble in trying to get out of work required by the specifications is caused by Mr Brown who seems to think that it is not nessessary to consider them when it suits their own ends. hoping that the above will explain some of the trouble I am having here and that it will be received in the spirit it is given. I remain

Your obedient servant

R

Dear Sirs

Your Telegram received in answer to mine of the 25th re Electric Wiring, and may say that I have notified the electrician accordingly but am sorry that it was decided to make the change from Rigid to Flexible Conduit.

The rigid conduit was used in the Church of England School here and the Rev Fathers of the R C Mission was very decided on having it the same in theirs as it is claimed to be more satisfactory and I had given the contractor instructions to that effect.

You would oblige by letting me have a copy of the letter sent you re the above from the electrical contractors for my file. I am

Your obedient servant

W A Hamilton

Nov. 8, 1927.

Sir,-

Replying to your letter of the 26th ultimo, with reference to the wiring at the new Onion Lake School, I beg to advise you that no changes have been made in the specifications for the electric wiring of the building. The specifications distinctly state that all conduit where occurring in masonry is to be of the rigid type. The contractor is therefore left the option of installing the balance of the conduit in rigid or flexible type. I may say, with reference to the Church of England School that the same specification was used, but the contractors chose to use the rigid type.

Your obedient servant,

J. D. McLean.

Department of Indian Affairs

Ottawa Ont

Dear Sirs

Acknowledging receipt of your wire of the 29th and also confirming my answer to you of the 30th, as follows, B X Armoured Cable is being used, not Flexible Metal Conduit, Electricians say only one grade

The B X Armoured Cable includes the wire complete and if anything goes wrong with it at any time it would be nessessary to remove the plaster and ceiling to get at it.

The specifications call for conduit installation and that the wires are not to be inserted till after the plastering is completed & the conduit must be arranged that the wires may at any time be inserted or withdrawn, and on the strength of this I objected to the material that was shipped here and notified the contractor at once to that affect

Hoping that the above will explain why I took the stand I did in the matter. I remain

Your obedient servant

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Nov. 9, 1927.

Memorandum: Approved DCI

Dr. Scott.

Detailed estimates have been obtained by Mr. W. A. Hamilton, Inspector of the new Onion Lake School, for the construction of a water supply and sewerage system in accordance with a brief specification prepared by him. One tender only has been furnished the Department, that is from the contractors for the building, Messrs. Brown and Hudson, amounting to $12,591.00, which price is considered by both the Inspector and myself to be unreasonable. It is suggested by the contractors that the work be carried out on a cost plus percentage basis, which course I do not recommend under the present circumstances.

It is not expected that this building will be ready for occupation before the spring, and in view of the advanced season I would strongly recommend that the Dominion Water Power Branch of Calgary be requested to prepare the necessary plans and specifications and obtain tenders for all work in connection with the above mentioned systems. I have already the assurance of their head office that they will consent to undertake this work at once, owing to the fact that they are not pressed with work of this kind at the present time.

I would suggest that alternative pricesbe obtained, that is a price for the execution of the work as soon as the tender is awarded, and one for its performance as soon as weather conditions permit next spring. This would enable the Department to proceed with the undertaking should the difference between the two contract prices justify this course.

Dear Sir:

Your letter dated Oct.21st. has been forwarded to me. In reply if the Church Authorities could understand the difficulties of doing work in almost continued wet weather they would probably make no complaint.

For your information, material had to be conveyed thirty miles. On several occasions roads were impassable two weeks at a time and the men could only get in two to three days a week owing to rain. You can see for yourself the difficulties in making progress under these conditions. However the building outside is finished and the plumbing contractor informs me he can turn on heat as soon as he gets a water supply. If there is no delay on the latter account good progress can now be made.

It is also reported to me you have a letter from P.T.Roberts to withhold his claim for lumber. The above firm was paid in accordance with their contract but their material was off-grade to 40% which had to be replaced. Balance of Four or Five Hundred Dollars is coming to them when adjustments are made and is available fot them any time.

Yours truly,

BROWN & HUDSON

Sir,-

In a letter received from Brown and Hudson today regarding their contract at the Onion Lake School, they state that the outside of the building is finished, and the plumbing contractors informs me that he can turn on heat as soon as he gets a supply of water. I have today written Mr. Brown advising him that Paragraph 11, Page 7, of the specifications provides that the contractor shall "heat the bu lding as required for the properand efficient carrying on of the work, and as may be required for the protection of same.", and he will have to supply water for this purpose.

I would also advise you, in reply to a telegram received from the contractors, that the Department will accept the laundry machinery as manufactured by either the Canadian Laundry Machinery Co. or the Beaver Laundry Machinery Co. The Department has used the machines manufactured by both these firms and has found them satisfactory.

Your obedient servant,

J. D. McLean.

MEMORANDUM: Hon. Chas. Stewart.

With reference to the letter from the Rev. Father Desmarais, of Prince Albert, regarding certain changes and additional work in the new Onion Lake Indian Residential School, now under construction, I have to state that the plans for the building were approved of by the Church authorities and they provide the accommodation that is usually allowed in buildings of this type erected by the Department. It is not thought necessary to add to the cost of the building by allowing the extra work and changes asked for by the Reverend Principal.

Nov. 21, 1927.

Sir,-

The Department has under consideration the construction of a water supply and sewerage system for the new Onion Lake Indian Residential School, now in course of erection on the Onion Lake Reserve, Sask. Specifications, briefly outlining the nature of the work, have been prepared by Mr. W. A. Hamilton, Inspector of Construction on this work, and prices were obtained in accordance with these specifications from local contractors for the entire prpposed work. The quotations received, after being examined by the Departmental Engineer, were found to be excessive. In view of the importance of the work I would like to know whether it would be convenient for your Department to undertake the preparation of the necessary plans and specifications, and obtain competitive prices in the regular manner, in order that the work might be proceeded with as early as possible. It is suggested that alternative prices be obtained, that is a price for the execution of the work as soon as a tender is awarded, and one for its performance as early in the spring as weather conditions will permit.

I am enclosing herewith for your information a copy of a tender submitted by the contractor for the building in connection with the above mentioned work. Any information that you may require will be furnished to your Engineer on the site of the work by the Inspector of Construction.

Your obedient servant,

J. D. McLean.
Asst. Deputy and Secretary.

Department of Indian Affairs
Ottawa Ont

Dear Sirs

As Inspector of Construction on the Roman Catholic Indian Residential School being erected here wish to make the following report.

The building is practically closed in , the main building is all sided and parts of it is first coated with paint, and some was 2nd coated when the weather turned too cold for painting.

The felt and gravel roof is completed on the main building and the chapel roof is ready to receive the felt. pitch and gravel. the Ist and 2nd floors are about ready for the plastering as soon as the heating plant can be put in operation, which is about ready, but the chimney is not built yet being held up waiting for bricklayers.

The galvanized iron workers are on the job and have practically all the galvanized iron roofing and coping in place with the exception of the verandahs which are not built yet.

The electrician is installing the armoured cable wire throughout the building.

I have been doing my best to have the school building rushed to completion, but the contractors do not seem to worry themselves in trying to get the work completed, there is no reason why they should not have the plastering completed by now if they had put on the number of men they should have for a building of this size.

The above report is respectfully submitted for your consideration by

Your obedient servant

Winnipeg, Man.

Dear Sir:-

We have received your cheque which you gave our Mr. Gibson for $676.09 which you asked us to accept as settlement in full of account. We regret to advise you that we are unable to do this.

We wired your Mr. Hudson at Onion Lake, asking how much shiplap he had on hand which he would not require, and he wired as follows;

" Hard to say so scattered perhaps two or three thuosand feet "

In our letter under date of July30th, we advised you that there was 7,297' over shipped, and that you were at liberty to dispose of the same at the local lumber yard, and we would allow you any difference. We will take the two or three thousand feet or what ever you have on hand out there, and will accept $25.00 per thousand feet for the shiplap which ran over the amount ordered, but which you have used in the construction of the building. We make this offer without prejudice.

There seems to be a very small difference between us, and we are anxious to get the matter settled up. We handled this order on a very small margin, and so we require to be paid for whatever lumber you mayhave used. Thanking you for prompt attention to this matter,we are,

Yours truly,

P.T. Roberts, Limited.

[redacted]
Department of Indian Affairs
Ottawa Ont

Dear Sirs

You will find herewith enclosed several changes which the Principal of the Roman Catholic Indian Residential School wishes to have made from what is called for in the Plans and Specifications.

The request was made some time ago by one of the Superiors from Headquarters but I have been unable to get Estimates on the cost of same till Today and in my estimation the prices are reasonable.

Referring to Item # 3 may say that the plans and specifications do not call for paper between Ceiling and Shiplap or Metal Roofing and Shiplap and which will make the building very cold in winter and very hot in summer.

Referring to Item # 4 all windows above Basement calls for Half Screens and all windows hung in Box Frames so that if they let the top half of the window down there is no way to keep the flys out.

Hoping to have your decision re the enclosed list of changes at the earliest possible date. I remain

Your obedient servant

W A Hamilton

Department of Indian Affairs

I have done all in my power to get the contractors to have the b[redacted]ing completed in the time specified in the contract and I took thevmatter up with Mr Brown and informed him that you insisted in having it completed by december 8th, and the only answer I could get was that there was no penalty mentioned in the contract but that they would complete the work as soon as they possibly could.

I received a telegram from you some time ago about having an engineer sent here from Calgary to lay out the Sewer and Water System and prepare plans for same but up to the present time there has been no one came yet. as the weather is very cold here just now it would be advisable to have the work started as soon as possible if it is to be done this winter. the rain water tank and sewer will need to be completed before the thaw and rain in the spring as the rain water down pipes from roof are connected and if the rain came it would flood the basement. in my estimation it would be better to have the excavating done now than in the spring as there is only about two feet of frost in the ground now but in the spring there will be over six feet. hoping to hear of your decision in the matter at your earliest convenience, I remain

R

Dear Sir

Your letter of the I4th received re information you received from Mr Brown, informing you that the outside of the school building is finished, which I may say is not correct and I would refer you to my report to you of the I6th which is the correct. at the present ti me the carpenters are putting the siding on the chapel and which will not be completed till late next week.

The heating plant for the building is about ready for operation as soon as the contractors get the chimney completed which will be some time next week. in referance to the water for the heating system I referred Mr Brown to the same clause in the specifications as you mentioned and I am very sorry that he still persists in writing to you about those matters after being notified by me of your instructions given in your letterto me dated sept 2Ist.

In connection with the Laundry Machinery referred to in your letter, Mr Brown took the matter up with me last september and I told him that the specifications were plain in the matter and that it was not nessessary to have Canadian Laundry Machinery Co machines as long as the other makes were equal in quality and size as mentioned in the specifications, the trouble with him was that he wanted to put in a smaller sized washer than the one specified as someone told him that it would be big enough for the school.

The work on the school is away behind where it should be,

Department of Indian Affairs

Ottawa Ont

Dear Sirs

Re Sub Contractor for the Electric Wiring for the Roman Catholic School here, their representative tells me that they are not installing the Main Switch Board as called for in the Specifications but are putting in switch boxes on the wall instead, I would like to know if they got permission from you for the change when they took the matter up about the wiring as they never mentioned it to me till I asked them where the switch board was, they seem to take a lot of things for granted.

I would be pleased to hear from you re Electric Lighting Plant and if you would wish me to get Quotations on same.

The Principal of the School asks to have a high pressure boiler installed to be used for laundry purposes the same as installed in the other schools, I have asked the heating contractor for an estimate on same and also a pump in the laundry room for the rainwater tank and as soon as I receive the price I will forward same to you.

Awaiting your reply re the above. I remain

Your obedient servant

W A Hamilton

DEPT. OF INDIAN AFFAIRS
DEC 21 1927
RECORDS

De[redacted]nt of Indian Affairs
Ottawa Ont

Dear Sirs

I hereby wish to submit to you the following report on the construction of the Roman Catholic Indian Residential School here.

The weather has been very cold since the begining of the month which has delayed the outside work considerably. the siding is all on with the exception of the rear end and the west side of the chapel, the siding which is in place has all received the first coat of paint and some of it has been seconded coated. there has not been anything done to the front and side verandahs yet except the cement piers. the inside work is going slowly, the first and second floors are about ready for plastering and the plasterer has started work at the first floor. the heating plant has been in operation since Dec 3rd, the plumbing is well advanced, the electrical work is keeping ahead of the lathers. the several sub contractors are doing their best to keep from holding up any of the work.

At the present time there are six carpenters and three helpers, three laborers, one electrician, two lathers, two steam fitters, one plumber and helper, two plasterers and three laborers,

The heating boilers should be washed out by this time but as the sewer has not been put in yet it is almost impossible to have it done under present conditions. in connection with the sewer it is very nessessary to have it put in at the earliest possible time as I understand from the residents that there is generally a thaw about the middle of january, and if it comes this year and the rainwater pipes connected the water from the roofs will all go into the basement and will have a tendency to injure the foundation.

There has been nothing heard of the engineer who you notified me was coming in connection with the sewer and water system at the school.

The above report is respectfully submitted from

Your obedient servant

W A Hamilton
Inspector of Construction

Dec. 22, 1927.

Sir,-

Replying to your letter of the 15th instant, I beg to say that no permission has been given to the electrical contractor to make any changes in the switch board, as specified for the Onion Lake School, and you should advise them that the work must be carried out in accordance with the specifications, otherwise it will not be accepted. You might submit a price and recommendation for an electric lighting plant.

Your obedient servant,

A. F. MacKenzie.

Sir,

Your file number: 115-8-15.
Attention: Departmental Architect.

In further reference to your letter of November 21 regarding the water supply and sewage system of the Onion Lake Indian residential school we are advised by the Commissioner of Irrigation at Calgary that owing to the unusually cold weather and the amount of snow on the prairie this year it would seem undesirable to undertake an examination and survey for this particular purpose at this time. He states that arrangements can be made immediately for an inspection of the site so as to get a general idea of winter conditions and he asks to be advised by wire if such is desired. Will you kindly advise me whether this inspection should be made now as he suggests, or if it would be better to wait until conditions of travel are more normal.

At the time the Commissioner wrote the road north from Lloydminster to Onion Lake, a distance of about forty miles, was blocked with snow but it is probable that this has now been reopened.

Dear Sir,

Your telegram received. I have just received copy of Estimate No. 5 from the Inspector.

Re time of completion. I would have answered Mr. McLean's letter before but was waiting for more definite information from Onion Lake. I am informed that owing to the lateness in the season getting started which was the latter part of June and also to the unusual wet weather which prevailed all over the west this past summer it was ~~im~~ utterly impossible to complete the building by Dec. 8 th.

I am also informed that severe winter weather set in the first part of November which retarded progress to a certain extent. The latest report however shows good progress now being made.

Yours truly,

S. Brown

JAN 14 1928
RECORDS

Mr Duncan C Scott Esq
Deputy Supt General
Dept of Indian Affairs
Ottawa Ont

Dear Sir

I hereby take the liberty of writing you asking to have the following matters takenup with the parties in charge of that branch of the work.

There are a number of changes and extras referred to your Department for consideration in connection with the Roman Catholic Residential School here, and which if any of them are to be carried out it would be nessessary to have your instructions so that the work could be done while the tradesmen are at the job, as the prices were quoted on that understanding.

The items which I refer to are as follows, and as for the price and details of same you will find on file.

The Rain Water Tank to receive the water from the roof,and the way it is now there is no place for the water to go but in the basement

The Sewer from the boiler room which will be nessessary to take care of the overflow from the rainwater tank and also to take the water from the heating boilers when same are being cleaned out which should have been done before this,but there is no place for the water to go but into the basement which would not do as it would be impossible to keep a certain amount of the water from soaking in around the footings which would be injurious and might cause a settlement of the building at that point.

The Principal and Sisters are very anxious to have wood floors in the dining rooms. recreation rooms. kitchen and serving rooms.

The Screen Windows are specified as half screens and they ask for full screens as the top part of the window requires to be opened about as often as the bottom,and in that case it would make the half screens not of much effect.

They also ask for partitions at each end of the corridors on ground and first floors to seperate the class rooms and dormitories from the executive and staff quarters with a door in each partition.

In the specifications it does not call for paper under metal roof or ceilings which have a tendency of making the top floors very hot in summer and cold in winter, and the principal asks for one ply of paper and a ply of thin lumber between the shiplap and metal ceilings which come directly under the roofs in top floors and the chapel also the one story parts.

There are some changes asked for in the plumbing but the price for same I considered was too high and asked the contractor to reconsider it but up to the present time I have not received his decision.

You will greatly oblige by having the above looked into and for particulars you will find on file # II5-8-I5 and let me know by

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

Onion Lake Jan 16th/28

Department of Indian Affairs
Ottawa ont

EXD.

Dear Sirs

I hereby submit the following report as Inspector of Construction at the Roman Catholic Indian Residential School here.

The first two days of the month was very cold,registering 54 below zero on sunday and 42 below monday,then turning milder on tuesday and continued so till the 12th then turning colder with no change up to the present time.

The plastering is well advanced,the second floor is finished plastering,the first floor is completed with the exception of the two dormitories which is not quite in shape for the finish coat the chapel is ready for the carpenters to put the finish on, the ground floor is receiving the finish coat of plaster where the first coat is in shape to receive it,the basement has not been first coated yet but they expect to start the begining of the week.

There are no cement floors put in yet,the electrical contractor is well advanced with their work also the plumbing and heating contractor.

Since the mild weather set in the carpenters have been erecting the front verandah and which is well advanced.

At the present time there are six carpenters,two plasterers and a helper,one metal worker,one electrician,one plumber and helper four laborers,one truck driver and the general foreman.

Although the contractors are away behind the time that they were supposed to have the building completed they are going ahead as fast as they can at the present time under the circumstances.

The Sister Superior in charge of the mission school here made a request to the department some time ago for an extension to the verandah at the east end of the school, the request being turned down they have taken the matter up with the contractors who gave an estimate on the work, so they have asked the contractor to proceed with the work and for which they are paying for themselves and which is hoped will meet with your approval.

The above report is respectfully submitted by

Your obedient servant

W A Hamilton
Inspector of Construction

P S You will oblige by forwarding some stationery to me as I have none on hand.

MEMORANDUM:-

Mr. Orr.

A telegram today advises the Department that the old Onion Lake R.C. School building was completely destroyed by fire and that the pupils and staff are being temporarily housed in the unused old C. of E. building, which is quite close. Of course, this is a most unsatisfactory arrangement and I have to urge that the new building and the furnishings therefor be rushed.

Onion Lake Feb I5th/28

Department of Indian Affairs

Ottawa Ont

Dear Sirs

I hereby wish to submit the following report re progress made in the erection of the Roman Catholic Indian Residential School here.

The Ironworkers and Painters arrived Feb Ist and have made satisfactory progress since,the painters are following up the ceiling men. at the present time the ceiling is in place at the ground.first and second floors,also the chapel ceiling and they are well advanced at basement ceiling.

The woodwork is also well advanced,the interior finish and doors is nearing completion and the painters have most of the work stained. some of the tradesmen are working overtime.

The contractor is making arrangements to have the cement floors put in the basement. the main stairs are being erected also the finish floor is being laid in second floor.

The heating men are at work putting radiators in their permanent position wherever the work is advanced enough to allow them.

The plumbers have all their material prepared and in readiness to be installed when the carpenters and painters are advanced enough to allow them.

There is considerable outside work to be done yet but on account of the cold weather lately they have not been able to advance very fast.

The old Roman Catholic Mission School Buildings at Onion Lake were burnt to the ground Friday night Feb I0th, their church was also burnt and they are now without a school.

There has been no word received yet of the Engineer who is supposed to come here to lay out the sewer and water system and prepare plans for same, if possible this work should be rushed as the Mission is very anxious to get moved into the school and they ask that immediate steps be taken re the sewer and water system as they want this work done before they move in.

They ask for shelving in store rooms.kitchen.bakery & laundry also lockers in dormitories.seating in chapel also seats in the recreation rooms. there is no mention of this work in the specifications but if it is the intention of the department to have this work done for the mission I could have a list of the material for their requirements and get quotations on the material so that the work may be attended to as soon as the contractors had their work completed.

The above report is respectfully submitted and I await your further instructions. I remain

Your obedient servant

Wa Hamilton

Jamary 30th, 1928.

Mr. W. A. Hamilton,
Inspector of Construction,
Department of Indian Affairs,
Onion Lake, Sask.

Dear Sir:-

With further reference to our letter of January 19th with reference to an electric lighting plant for the new Roman Catholic Indian Residential School being erected at Onion Lake, we have had our electrical man look over the plan for this building and we feel sure that 15 H.P. engine with a 10 K.W. generator will furnish you with sufficient current for your requirements. We note that you ask that we should quote you on this plant installed ready to turn on the lights, but there are so many conditions involved, of which we have no knowledge, that it is not possible for us to quote you in this way. For instance we have no means of arriving at how much it would cost us to have the plant transported from the freight sheds at Onion Lake to the School, or do we know what facilities there might be for getting the necessary gravel, sand and cement for foundation work, and we are sure that you will realise that it would be impossible to quote you a price without having sufficient information upon which to base our figures. We are therefore offering you the complete equipment, f.o.b. the cars at Onion Lake. If you have a contractor on this building he will no doubt be able to give you a price on the transportation of the plant to the school, and also on the necessary foundation work. Our price does include the services of our expert to check over the installation, and start the engine, and we have assumed that you can make some arrangement for board and lodging for him while he is at Onion Lake.

Our quotation is attached herewith, and we are offering you our type "Y" style "H" horizontal modified Diesel Fuel Oil Engine, in the special electric modification, which we have found to be a most

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

www.collectionscanada.gc.ca

satisfactory prime mover for electric light plant work. It is simple in construction, and extremely economical in operation and in maintainence. As an instance we might mention that three years ago last July we sold a 15 HP engine and 10 K.W. generator to Mr. W. H. Bagot at Manor, Sask., and we reported to us this summer that after three years of operation, he had not missed one nights run, and his total cost for repairs on his engine was less than $2.00, while he had not found it necessary to touch the generator at all. There are many other installations in Western Canada giving just as good service, and if you wish we should be pleased to give you the names of a number of users.

We trust that you will find our quotation satisfactory and hope that we may have the privilege of furnishing this equipment for you.

Yours truly,

THE CANADIAN FAIRBANKS MORSE CO.LTD.

CONDITIONS APPLYING TO ALL QUOTATIONS

All quotations by reliable business firms must necessarily be subject to certain trade conditions. These are often taken for granted by Buyer and Seller, but sometimes misunderstandings arise because the Buyer was not reminded when placing the order. Believing that a frank understanding with our customers insures us their esteem, we beg to remind them as follows:—

PRICES

Prices have been set according to present market values and with only a fair margin of profit. Consequently we cannot guarantee them for any length of time, but we will try to protect the prices quoted providing order is received within a reasonable time.

TARIFF ON FOREIGN GOODS

Many of the articles sold by this Company are manufactured in Canada, either in our own factories or elsewhere, and our policy is to encourage Canadian manufacture. For some time to come, however, it will be necessary to import certain lines from England and the United States, and such articles of foreign make are priced at present duty rates and values, and are subject to revision, up or down, in the event of any change taking place in the tariff which may be in effect at the time of the importation into Canada.

WARRANTY

The articles herein quoted are warranted to be made of good material and in a workmanlike manner, and if any article or part of such article show defective material or workmanship within one year from date of shipment, the Company agrees to replace such defective part free of charge f.o.b. original shipping point but will require direct evidence of the defect claimed. No liability, however, is assumed, nor is the Company responsible for damages or delays caused by such defective material or workmanship, nor will any allowance for repairs or alterations be made unless same is made with the written consent of the Company.

SHIPMENT

Owing to the uncertain conditions prevailing, the shipping time named is approximate only. Our heavy stocks and wide factory and agency connections, however, enable us to serve our customers to the best advantage, and all our facilities are at their service.

Onion Lake, Sask.

Dear Sir:-

With further reference to our quotation of January 30th covering 15 HP engine, with generator, switchboard and storage battery, we note on checking over this quotation that we have inadvertently quoted you on the L-2 switchboard to control the generator, but this is not suitable for battery charging, and in order to furnish you with a switchboard for battery charging, it will be necessary to use the type 100 BBP, which would increase our price by $160.00, making our total net price f.o.b. the cars Lloydminster $3420.00. We regret that it was necessary for us to make this revision, because of an error which should have been detected before our quotation went out.

Yours truly,

THE CANADIAN FAIRBANKS MORSE CO.LTD.

Mr. J. W. Hamilton
R. C. School
Onion Lake, Sask.

Dear Sir:-

We beg to submit tender on required electrical lighting plant for the school under construction at Onion Lake, Sask. We find it difficult to include in our tender the complete cost of installing the engine and generator as we have no means of quoting on the concrete foundations required. For this reason we have furnished you with the necessary blue prints from which the contractor could estimate this work. We also have no facilities for transporting the plant from Lloydminster to the school so our tender is based on delivering the shipment at Lloydminster but includes the work of alignment of the generator etc. which would be undertaken by the manufacturer.

Our tender on this equipment would be $2500.00 which will include Fairbanks Morse 15 H. P. engine with Centrifugal Pump outfit and cooling tank. The generator would be of a capacity of 10 Kilowatts connected to the generator by 5" belting. The switchboard for control would be the standard equipment used with this plant. All to be installed to your satisfaction.

We would like to point out that additional to the above amount would be the transportation from Lloydminster to the school, setting up of the engine and plant and installing the concrete foundations for same.

For the addition of batteries to make it possible to use the plant when generator is not in use the additional cost would be $900.00.

Dear Sirs

I am herewith enclosing two quotations on Electric Lighting Plants suitable for the Roman Catholic Indian Residential School here. one from McDonald Wilson Electric the firm who has the sub contract for the wiring of the building, the other from Canadian Fairbanks Morse Co, both of Winnepeg.

I am also enclosing a quotation from Brown and Hudson the general contractor for hauling plant from Lloydminster to the site building cement footings, excavating and setting engine and generator in place.

McDonald Wilson price	F O B	Lloydminster $3400.00
Fairbanks-Morse Co	"	" 3420.00

the general contractors price which can be used by either price 400.00

the price given by the general contractor is on the understanding that the work is carried out while the men are here and the hauling is done before the ice leaves the river. I remain

Your obedient servant

Feb. 23, 1928.

Sir,-

With reference to your Report of the 15th instant, on the progress of the work at the Roman Catholic School at Onion Lake, I beg to say with reference to the layout of the sewerage and water systems that if you will communicate direct with Mr. Attwood, District Engineer, Dominion Water Power Branch, Winnipeg, he can probably advise you when they propose to make the survey.

With reference to the shelving and cupboards, etc. required in the school, I would ask you to please make a list of the requirements, obtain prices and submit them to the Department for consideration.

Referring to your letter of the 16th instant, enclosing quotations on the electric lighting plant for the school, I note that the general contractors' price for the installation is $400.00. This quotation is considered high, and I would ask you to please furnish me with details as to how this figure is arrived at, also if you can procure more reasonable prices from other sources. When this information has been received instructions will be sent you regarding the installation.

Your obedient servant,

A. F. MacKenzie.

present. Those children whose homes are on the Onion Lake reserve have already been taken away by their parents.

With regard to the origin of the fire, nothing seems to be known. A strange circumstance is that earlier in the same day a fire was discovered in another part of the building, quite remote from where the fire later in the day broke out. It appears that about noon the girl's dormitory was seen to be full of smoke, and on the Sisters investigating this, one of the beds was discovered to be on fire. The only way the Sisters can account for this fire is that, perhaps, a spark had flown from the stove to the bed earlier in the morning when the fire was lighted; and then when the bed had been made up, had been covered up, and had smouldered and later broken out in flame. The bed found afire was not far from the stove. This small fire was completely put out and I do not think can have any connection with the main one. It is possible that one, or more, of the school boys could have sneaked up into the attic where the fire broke out, and perhaps have smoked there, but I cannot find that any did so. I do not think the fire can have originated from a spark from the chimney, which, although an old one, appeared sound. Most of the best clothing belonging to the institution was kept in the attic, and was a total loss.

After the children are taken away by their parents, I do not suppose there will be more than twenty left for the Sisters to look after; these will be quite comfortable in the old Anglican buildings, and can stay there until the new school is ready for occupation, when they can remove into it; and the other children can be brought back from their homes.

As the old Anglican buildings are the property of the Anglican Diocese, after placing the children and staff in them, I wired for Bishop Lloyd's approval of this action, and received the following reply :-

" Bishop says certainly. Only ordinary Christian courtesy."

I have the honour to be

Sir,—

I have the honour to confirm my telegram of the 10th., yesterday, reading as follows :-

" Old Roman Catholic Residential School completely destroyed by fire this evening. Children and staff all safe. Children are being housed temporarily in old Anglican school. Am writing."

and to report that at about 6.0 p.m. last evening an Indian passing the school noticed smoke issuing from the roof of the building and at once informed the Sisters in charge, who immediately alarmed the whole neighbourhood. I hurried to the building, summoning all the help I could We found the fire burning in the attic over the boy's dormitory, close to the chimney. At first it seemed possible that the building could be saved, but it was so difficult to get water to where it was needed, it having to be carried by hand up four flights of stairs inside, and up a long ladder on the outside, that the flames gaxx gained upon us, and the attempt to save the building had to be given up, and the energy of the workers directed to saving as much of the contents as possible; and by this means we managed to save a lot of the bedding and clothing, and most of the lighter articles of value. In the meantime the flames had spread rapidly and we soon had to beat a hasty retreat from the main building. Our efforts were then directed to trying to save the church, about 50 feet west of the school, and the laundry and store buildings, about 50 feet north of the school. As the flames were driving westward the attempt to save the church had to be abandoned and the building was soon ablaze, but we were successful in saving the laundry and store buildings to the north; the Principal's residence was also saved.

I then spoke to the Rev: Father Balter, the principal, and the Sister Superior, with respect to how we should arrange to house the children and staff, and offered them the use of the old Anglican School buildings for the time being, which they gratefully accepted, and we have since removed all the bedding, and other belongings saved, to that place.

As it appeared that the situation would be relieved considerably if the children could be taken to their homes, at the request of the Principal I have sent word to the outlying reserves for the parents to come to Onion Lake for their children and take them home for the present.

MARSHALL OIL ENGINES

AND THEIR APPLICATION

THE MARSHALL OIL ENGINE is a high-grade self-contained power generator on thoroughly practical lines, and is scientifically constructed for the effective and economic utilization of crude, refined and residual fuel oils. The high standard of excellence which characterizes these engines assures buyers that the Marshall Engine represents all that wide investigation and experience deem best to attain economic and reliable operation. At the same time they present that pleasing symmetry of design which has long been a notable characteristic of Marshall Engines.

Marshall Oil Engines are widely and successfully employed as prime movers in all parts of the world for industrial and agricultural duties of all kinds, including driving machinery in factories, sawmills, brickyards, flour mills, elevators, launderies, creameries, and other places where space, cleanliness and economy are considerations. The engines are also particularly suitable for electric lighting work, irrigation and drainage pumping, sewage disposal work, refrigerator plants, etc.

The engines are constructed in various sizes from 16 b.h.p. to 300 b.h.p. The sizes up to 25 b.h.p. are of horizontal design, and can if desired be mounted on trucks to form portable units. The models of 30 b.h.p. and upwards are all of vertical design, being constructed with one, two or four cylinders according to the horsepower.

Any of the following fuels can be successfully used with these engines: American, Argentine, Peruvian and Texan Crude Petroleums, Russian Naphtha, Gasoleum, Diesoleum, Resoleum, Admiralty Fuel Oil, Anglo-Mexican Fuel Oil, Scotch Shale Oil, Lucigan, Solar, Russian Vaporizing Oil, Russian and American Refined Petroleums, Mazoot, Astatki, Gas Oil, Palm Oil, etc.

R·A·LISTER & COMPANY (CANADA) LIMITED

MARSHALL OIL ENGINES

TYPE "S"

HORIZONTAL STATIONARY MODEL

Among marked advantages obtainable with a Marshall Stationary Engine for permanent installation, is the small ground space required compared with that necessitated for a steam plant of corresponding power, and only inexpensive foundations are necessary. Brief instruction to any man of average intelligence suffices to enable him to run the engine and give it the small attention it needs; and owing to ease of starting, it can be worked intermittently as required. This model is arranged to run with the fly-wheels rotating away from the cylinder, but special engines with reversed rotation can be supplied if specially ordered.

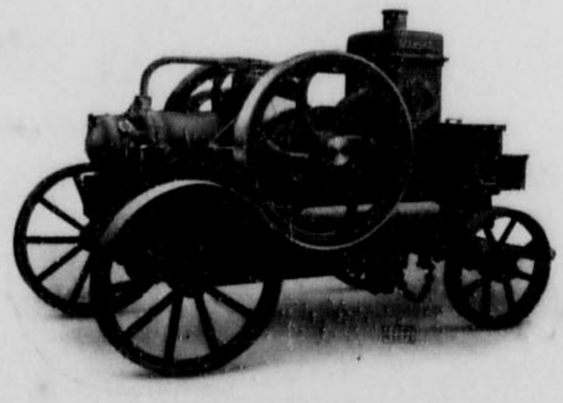

We quote for this engine. Ltr B.

Brake Horse Power	Revs. per Min.	Cylinder Bore	Cylinder Stroke	Flywheels Dia.	Flywheels Width	Pulley Dia.	Pulley Width	Overall Dimensions Length	Overall Dimensions Width	Approximate Weight, Lbs. Unp'k'd	Approximate Weight, Lbs. Packed

R·A·LISTER & COMPANY (CANADA) LIMITED

MARSHALL OIL ENGINES

TYPE "S"

PORTABLE MODEL

The construction of the portable model follows generally the specifications given on pages 9 and 10. The engine is mounted on a steel frame truck of rigid design, with strong axles, undergear and wrought iron travelling wheels. Shafts or pole for horse draught can be supplied at customer's option. Suitable chocks for holding the engine in proper working position are supplied in the standard equipment.

Water and fuel tanks of ample capacity are fixed to the frame. A belt-driven centrifugal pump ensures circulation of water for cooling the engine cylinder. An atmospheric cooler is provided, the circulating water being kept at a suitable temperature by meeting cold air currents drawn through the cooler by the action of the engine exhaust. Portable engines are arranged to run with the fly-wheels rotating towards the cylinder.

MARSHALL OIL ENGINES

TYPE "SV"

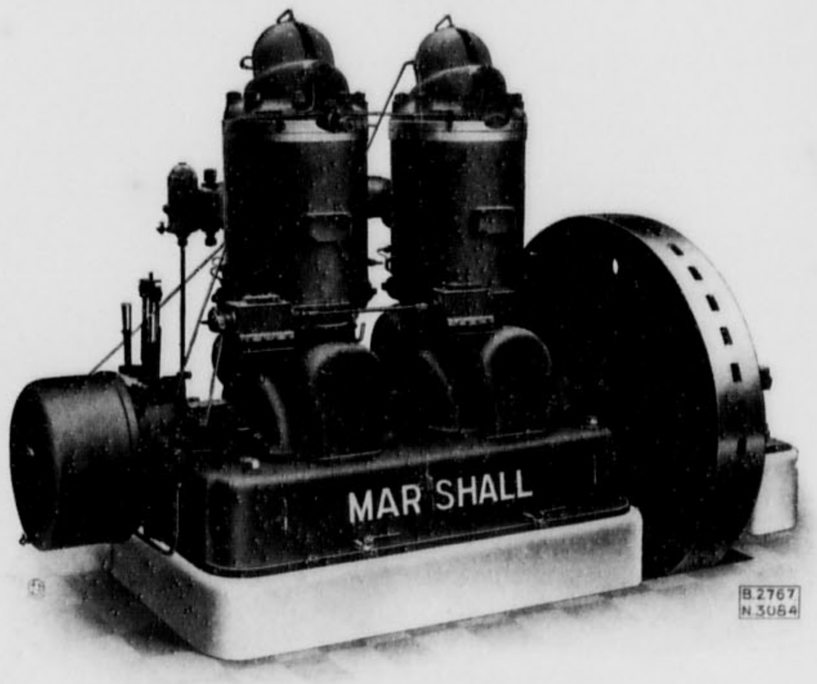

VERTICAL MODELS

The illustration shows a standard Marshall Vertical Oil Engine which can be supplied in a range of powers from 30 to 300 brake horsepower, in models with one, two or four cylinders, according to the power required. These engines are particularly suited for heavy industrial power purposes for factories, mills, pumping stations, electricity stations, etc. They operate on any of the crude oils mentioned on page 1, and are capable of making continuous runs of long duration. No gases, fumes or products of combustion can escape into the engine room, which can thus be kept clean, hygienic and business-like. They provide economy of floor space, running costs and labor.

MARSHALL OIL ENGINES

CYCLE OF OPERATION

The Marshall Oil Engine Works on the Well-known Two Cycle Principle, Namely Every Other Stroke is a Power Stroke and the Degree of Cyclic Regularity is Very Marked.

The air for the cylinder "A" is silently drawn into the crankcase "B" through the air-valve "C" by the suction of the piston "D." During the power stroke, the air in the crankcase attains the required degree of compression. Just before the termination of the power stroke the piston "D" uncovers the exhaust ports "E" at the lower end of the cylinder, and the air ports "F" on the opposite side of the cylinder. Air under pressure from the crankcase rushes through the ports "F" and sweeps out the products of combustion through the exhaust ports and leaves the cylinder full of pure air.

The top of the piston is shaped to distribute the air to all parts of the cylinder, and this ensures efficient scavenging.

The piston then commences the compression stroke. At about the end of this stroke, the fuel is injected into the vaporizer "G" through the sprayer "H" in a fine spray which mixes thoroughly with the compressed air. A combustible mixture is thus formed and it is fired by the heat of the vaporizer and the compression pressure.

The combustion is so complete that practically no deposit is formed; therefore the vaporizer and cylinder interior need very little cleaning.

The engine is so designed that water injection to the cylinder is not necessary under any conditions of working. The governor accurately times the moment of ignition as well as proportions the quantity of fuel injected. The vaporizer will remain sufficiently heated to ensure perfect ignition without the aid of the lamp even when the engine is running on light loads and no adjustment is required.

No air or exhaust valves are required in the cylinder head or the cylinder of the Marshall Oil Engine. By the elimination of such valves and their intricate operating gear, the chief trouble experienced with oil engines has been avoided. Moreover the number of working parts has been reduced to a minimum, with a consequent reduction in the wear and tear on the engine.

The cylinder is fitted with easily removable liners, which can be renewed if necessity should arise without the large expenses that would be incurred in replacing the complete cylinder.

The Two Cycle Operation enables a regular turning effort to be obtained. The Flywheel receives an impluse every revolution which is given without shock, consequently very smooth working results and an even torque are obtained. This combination of ideal conditions in the MARSHALL ENGINE ensures remarkable smoothness of running, reliability, and capacity for making steady runs of long duration, with little attention.

www.collectionscanada.gc.ca

MARSHALL OIL ENGINES

SYSTEM OF WORKING

MARSHALL OIL ENGINES operate on the successful and well-established two-stroke cycle, which is fully explained on page 6. To start the engine the vaporizer cap at the top of the cylinder must be heated for a few minutes with the lamp provided—a sufficiently high temperature for starting is quickly obtained. As soon as the engine is running at normal speed the lamp is no longer required. The vaporizer is correctly proportioned so that the combustion temperature is maintained at all loads.

A charge of air is compressed in the cylinder at a pressure of approximately 150 lbs. per square inch. This is sufficiently high to ensure maximum economy in working, but is not great enough to make starting a difficult operation. Self-starting apparatus is supplied with all the larger models.

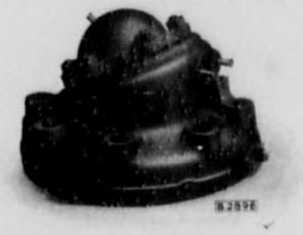

At the correct moment oil fuel is injected in the form of a finely atomized spray. The temperature of the vaporizer, due to the heating lamp, or to previous explosions, suffices to fire the mixture. This simple method is so automatic in action that complicated ignition gear and continuous lamp heating are unnecessary.

The design of the Marshall Engine on the two-stroke principle successfully obtains the economy of the high compression oil engine, and with other advantages pertaining to the reduced pressures of the low compression engine, it possesses a marked superiority over both types as regards simplicity in mechanical detail and operation. In the Marshall Engine there is no complicated ignition system and there are no valves—two sources of great trouble with many engines of other design.

The Marshall Engines will work on most mineral oils up to .92 specific gravity, but the best results are obtained from fuels with specific gravity of from .85 to .9 and a calorific value of not less than 19,000 B.T.U.'s per lb. With good crude oil, fuel consumption at full load is less than a half-pint per brake horsepower per hour, the consumption varying slightly according to the size of the engine, i.e., the larger the engine the greater the economy. (On three-quarter load the consumption would be increased about 6% and by about 20% on half-load.)

MARSHALL OIL ENGINES

GENERAL SPECIFICATIONS

Cylinder Head

THE MARSHALL OIL ENGINE is of massive proportions, all the working parts and bearing surfaces are of liberal dimensions, all components are readily accessible, and the engine is specially designed for heavy duty and for making long continuous runs. The engine is of totally enclosed design, and is capable of developing its rated load when running at the standard speed, using suitable crude or refined oil. The engine will also carry an overload of 10% for short periods.

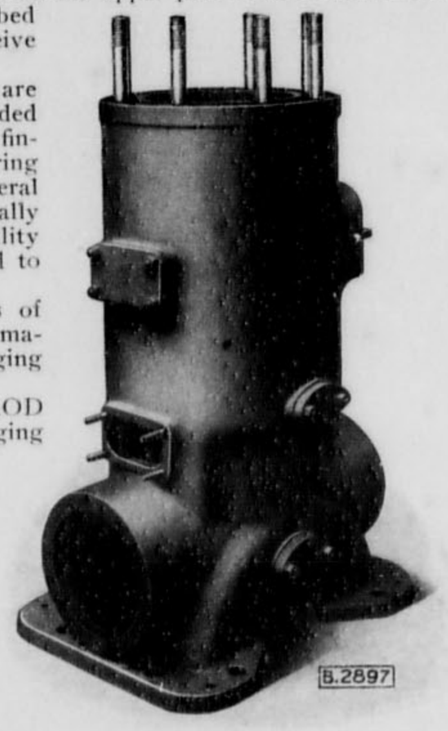

The ENGINE BED is a massive and well supported casting with an oil channel at its base. The top facing is machined to take the cylinder trunk which forms the upper part of the crankcase and cylinder jacket. Also the bed is accurately bored to receive the main bearings.

The MAIN BEARINGS are of the vertical type, provided with adjustable steps of the finest grade anti-friction bearing metal, and are of most liberal dimensions. They are specially designed to ensure accessibility and perfect lubrication and to prevent leakage of oil.

The CRANKSHAFT is of substantial proportions, machined from mild steel forging and accurately balanced.

The CONNECTING ROD is a solid mild steel forging carefully machined and fitted with adjustable bearings at both ends.

The PISTON is made of close grained cast iron, of ample strength, provided with five "Ramsbottom" rings; it is fitted with a specially hardened steel pin to receive the connecting rod.

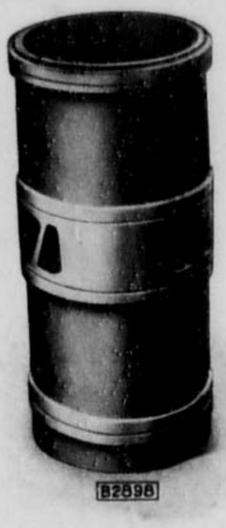

TRUNK

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

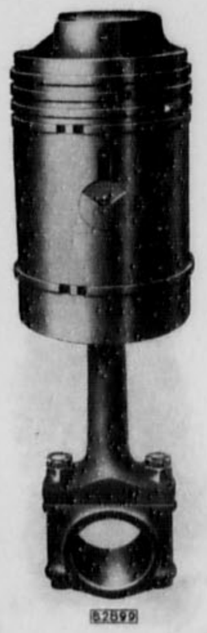

The CYLINDER is fitted with a detachable liner, formed of a separate casting of special close-grained metal, accurately bored and finished. This liner is easily removable, and is fitted into the cylinder casing in such a way as to make it water-tight, and at the same time allow freedom for expansion and contraction as its temperature changes. The ports are arranged so that the piston correctly controls the periods of air admission and exhaust.

Cylinder Liner

The bed and cylinder trunk together form an air-tight chamber and our own special air inlet valves are fitted at front and back of the trunk. No other valves are needed in the engine.

The VAPORIZER is of special design, carefully proportioned to ensure complete combustion, and the engine can be worked continuously for long periods without cleaning. The cylinder head is of simple construction. No air or exhaust valves are required and the stresses due to unequal expansion are thus avoided. Ample facilities are provided for cleaning the water-jacketed spaces.

Piston

The SHAFT GOVERNOR is of the centrifugal spring-loaded type, and highly sensitive. It operates by altering the length of the fuel pump stroke and the time that the fuel is injected; thus giving an explosion in the cylinder every revolution. The speed can be varied about 10% when the engine is running, i.e., about 6% below and 4% above normal.

The FUEL PUMP is of our own design, simple in construction, positive in action and adjusted to deliver the correct supply of fuel to the vaporizer on what is known as the solid injection principle; thereby dispensing with the use of compressed air for fuel injection. A distinct feature of the Marshall Engine is that the governor and fuel pump are completely encased and work in an oil bath.

The LUBRICATING ARRANGEMENTS are exceptionally efficient, economical and complete in every respect. The system comprises: Oiling Rings to give automatic and continuous lubrication to the main bearings; forced lubrication for the piston and pin; combined forced and centrifugal lubrication for the crank pin. All working parts not specially mentioned are provided with suitable means of lubrication.

The BALANCED FLY-WHEEL is of cast iron, of sufficient weight to ensure steady running, machined on face and edges of rim, and securely fixed on the crankshaft. The standard rotation is clockwise when viewing the engine from the governor end.

The PULLEY is of sufficient width to drive on to fast and loose pulleys for the smaller sizes and on to a friction clutch pulley on the larger sizes, and is keyed to the crankshaft, which is provided with an outboard bearing and sole plate.

The FUEL TANK is of mild steel and fitted with cover and fine gauze strainer. It has a capacity for about six hours run on full load. It is arranged in two compartments so that when very heavy and thick fuel is used, the engine can be started up and shut down on a lighter grade of oil which flows readily through the suction pipes to the fuel pump.

An exhaust-heated chamber is provided for heating the oil to accelerate its flow to the fuel pump. The chamber can be arranged so that it is cut out of circuit in warm climates, or when using light fuel oil.

STARTING APPARATUS—A reliable lamp is supplied for heating the vaporizer until the engine has started, after which the heat from the vaporizer is sufficient to ignite the fuel charge. A combined starting and charging valve with the necessary piping, pressure gauge, etc., is fitted, enabling the engine to be started by compressed air, stored at a pressure of 150 lbs. per square inch in a suitable air receiver, which is recharged by the engine when running.

Adequate COOLING is assured by means of a centrifugal pump belt-driven from the crankshaft circulating the water through the cylinder jackets.

A cast iron EXHAUST SILENCER is supplied to reduce to a minimum the noise of the exhaust. A short length of exhaust piping, suited to the standard arrangement of the engine, is supplied.

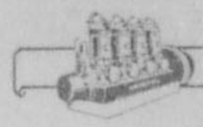

ACCESSORIES AND SPARES include a Starting Lamp, Oil Can, complete set of Wrenches, two Piston Rings, Nipple for Starting Lamp Burner, Ignition Tube, set of Joints and Packing Washers, two Air Valves for Crankcase, and set of Springs. An Instruction Book giving full information for the erection, working and management of the engine is supplied.

All the materials are the best of their respective kinds; the engine is thoroughly painted and finished in first-class style; and the workmanship throughout is of the highest standard.

LISTER GASOLINE ENGINES

MODELS 2 H. P. TO 16 H. P.

The Lister Engine is manufactured in our own works at Dursley, England, which is recognized as one of the best and most up-to-date small engine works in the British Empire. It is essentially a high quality engine, but is nevertheless produced at a price very little higher than many of the engines of vastly inferior design and workmanship. The principal features of the Lister Engine are Efficiency, Reliability with freedom from trouble and a long life of service, and Economical Running Costs.

The engine is of the vertical type designed on the four-cycle principle, with automatic lubrication and sensitive throttle governing. Every part is machined to very great accuracy, cylinders, pistons, crankshafts, etc., being ground to a perfect finish. All wearing parts are of special selected metal, case hardened to resist wear. The bearings, which are adjustable, are of special white metal ground to perfect accuracy, and are readily interchangeable.

All Lister Engines are fitted with a high tension magneto, of the same make as that standardized by the British Air Force during the Great War. The fuel consumption can be guaranteed not to exceed ¾ pint of gasolene per brake horsepower per hour when running on full load under normal conditions, and on the larger models the consumption is usually well under this figure.

Lister Engines have been found by thousands of satisfied users to be the ideal small power unit for industrial or agricultural work, as they will work under any conditions and require no skilled attention. They are guaranteed to develop their full rated horsepower for long continuous periods, and the slow speed at which they run reduces wear to a minimum.

Models Available

2 h.p.	Single Cylinder.	8 h.p.	Twin Cylinder.
3 h.p.	Single Cylinder.	12 h.p.	Twin Cylinder.
4 h.p.	Single Cylinder.	16 h.p.	Twin Cylinder.
6 h.p.	Single Cylinder.

Mr Duncan C Scott Esq
Deputy Superintendant General
Dept of Indian Affairs
Ottawa Ont

Dear Sir

As the Roman Catholic Indian Residential School here is nearing completion I take the liberty of writing you to enquire if there will be any chance of further employment in your department when this building is completed, and as for the location of the work I am not particular where the position would require me to go.

I have been given to understand that there is likely to be more Indian Schools erected this coming season, and if so I would be very pleased to have you consider me when appointing an Inspector of Construction.

In case there should not be any Schools being started by the time I am through at this one I could take on the erection of any smaller buildings you might require as I have a thorough knowledge of construction, also taking off bills of material and estimating costs of buildings having spent four years at that kind of work in the head office of the Saskatchewan Grain Growers Associa[illegible] in Regina.

I have served as Inspector of Construction also Superintendant of Construction for the last seventeen years with the exception of the four years I served with Grain Growers and I feel sure that I could give you satisfaction in the construction of buildings.

Your consideration of the above request would be very much appreciated, and if you can see your way clear to give me further employment with your department it will be my aim to give entire satisfaction. I remain

Yours respectfully

W A Hamilton

Dear Sirs

Referring to your letter of Feb 23rd re quotation from the general contractors for putting in cement foundations for the Electric Lighting Plant also unloading plant from cars at Lloydminster and hauling to school and setting same in place on foundations. I have taken the matter up with them and they have given me the quotation in detail which is as follows.

Excavating in machine room for Engine & Generator Foundation	I5.00
Building forms, making template for Engine bed and Generator base, and cement work	2I0.00
Unloading Equipment at Lloydminster & hauling to site which is about 33 miles	I20.00
Unloading at site & placing same in position	55.00
	400.00

As for procuring a better price from other source I inquired before submitting their quotation but could not locate any one who cared to figure on the work.

Hoping that the above explaination will be satisfactory to you. I remain

Your obedient servant

Onion Lake 27th Feb 1928

To Mr. D. McLean Esq.
Acty Deputy Superintendant General.

Dear Sir,

Our esteemed Indian Agent Mr Barnes has informed you of the destruction of our old School by fire, and has given you all the details about the disaster.

We are now anxious to see the building of the new school finished as soon as pomible.

The Inspector Mr Hamilton, since the burning of our School is pressing on the employes with the work and he would expect that all would be completed in five or six weeks but nothing yet has been done for the installation of the water system, and we would be most thankful if you would be so kind as to urge on the Contractor of this work to begin at once the installation of the said system. Useless to tell you how urgently we need the work completed You realize that by yourself.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

In case of fire it would be impossible to fight against the flames for lack of water

On the other hand should there be a rainy Spring Season we will greatly be embarrassed to drain the water falling on the roof, which will certainly cause a great damage to the new building.

The water used at present is far from being pure it leaves a deposit in the boilers. These boilers have to be cleaned out, and on this account too, the water system could not be differed any longer.

Other works also need to be completed such as the building of the farmer's house. The farm work will begin with the early Spring, and at present there is no house wherein to lodge this hired man and family. Consequently this building should now be commenced so as to be completed in time.

Hoping that this request will meet with your kind approval, and that you will soon take the necessary step to have the work completed to the great satisfaction of the whole staff who is now so anxious to take possession of the new School.— I remain, dear Sir,

Your obedient servant

L Gates

March 19, 1928.

Memorandum:

Mr. Orr.

In addition to the prices already received for the installation of an electric lighting plant complete for the Onion Lake Indian Residential School, will you kindly ask for quotations from the following firms :-

1 Canada West Electric Ltd.
2 Espley Electrical Co.
3 Sun Electric Co.
4 Northern Electric Co. Ltd.
} Regina.

The firms that have already quoted prices should be asked to tender on the new specifications, namely:-

5 Canadian Fairbanks Morse Co, Winnipeg
6 McDonald & Wilson, Winnipeg.
7 Norris & Beairsto, Regina.

COMMISSIONER'S OFFICE,
REGINA, SASK., March 26,1928.

Sir,-

Re painting Onion Lake Agency House and R.C. School barn.

I beg to refer to my letter of February 27th in which I informed you that the painter had undertaken to do the above mentioned work for $215.00 and $110.00 respectively and asked for an advance of $150.00 to pay for work already completed. As the balance of the painting cannot be completed before the end of March I should like instructions regarding this matter. If the payment is to be made from the past year's appropriation would it be in order to have the balance of $175.00 sent to me to be paid to the contractor as early in April as he is able to complete the work? The painter has done some work on both house and barn and has received $150.00 on account, but I do not know how much of this should be applied on each building, and it would probably take more than three weeks to get the necessary information from the Indian Agent. It would be much more satisfactory if a further advance of $175.00 could be made as suggested above.

Your obedient servant,

W. M. Graham

Dear Sir :-

Messrs. Brown & Hudson, who were the Contractors for the School recently put up at Onion Lake, got some Fire Brick from my stock of materials at the Reserve, which had been lying there since I completed my contract.

The bill for same was only a matter of about $13.00, but I can get no acknowledgement of any kind from Brown & Hudson.

Will you kindly advise me if they have been paid up in full for their work, if this is not a breach of confidence.

Failing that, I shall be much obliged if you will advise me where I can get in touch with them by mail.

Yours truly,
(Sgn) James Priel.

S. BROWN

GENERAL CONTRACTOR

791 PRESTON AVENUE
WINNIPEG March 21st. 1928.

Immediate

Mr. J. F. McKenzie,
Department of Indian Affairs,
Ottawa, Ont.

R

Dear Sir:- Your telegram of March 21st. received, But it throws no light on the question involved.

I am sorry to bother you directly and would prefer to deal through your inspector but owing to slow mail service up.Time will not permit . Our trouble is the Plumbing Contractor disputes the work of metal covering as he claims only slop sinks are specified in his specifications.It don't appear as covered under Galvanized Iron specifications.

We allowed for the carpentry of these tables as we realized no other tradesmen would have carpenters employed, but we did not make any allowance for metal covering as we naturally expected,when same was not included inour portion of the specifitions/ it would be specified under the Plumbers or the Gal. Iron specifications.

If this was only a question of a few dollars we would not bother you,but owing to the high price of Copper the best estimate is $300.oo providing it isdone immediately before the tradesmen get away. If a special trip had to be made it would cost considerable more.

However I will make it clear to you we are not soliciting extras. If you can verify the fact this work is covered under Plumbers or Gal. Iron specifications we will have same executed and charge against their Contract.

Wire immediately on receipt of this letter as any extra expense can be avoided.

Yours truly,

S. Brown

Dear Sirs

As per your request of Feb 23rd re Sewage and Water System I wrote to Mr Attwood District Engineer of Winnipeg, and he forwarded my letter to Mr J S Tempest Commissioner of Irrigation, Calgary who wrote me march 9th to say that he would have an Engineer come here as soon as he received word from me, so I answered his letter march I5th the day I received it.

It is to be hoped that as soon as he gets the particulars that he will rush the plans and specifications so that the work can be got under way at the earliest possible moment as the school principal is very anxious to get moved as they are practically without a home.

Yours respectfully

W A Hamilton

DEPT. OF INDIAN AFFAIRS
MAR 24 1928
REGISTRY

Depa[illegible]ent of Indian Affairs

Ottawa ont

Dear Sirs

I hereby wish to submit the following report on the progress made by the contractors in connection with the erection of the Roman Catholic Indian Residential School here.

The work has been progressing fairly well lately, the carpenterwork at the second floor rooms is completed with the exception of the window stops which have just arrived from the factory,the painter has the floors oiled first coat and other woodwork stained and one coat of varnish, the ceilings are completed.

The first floor carpenterwork is completed with the exception of the window stops.the hanging of the sun room sash and the steps from corridor and toilet rooms to dormitories.the painter has dormitory floors oiled and other room floors first coated,the other woodwork is stained and first coat of varnish on,the ceilings are nearing completion.

The ground floor carpenterwork is well advanced,the flooring is in place with the exception of the corridors,all the room floors are finished and first coated,the other woodwork is mostly in place and stained,the chapel woodwork is about completed and stained,the gallery rail has not arrived yet,the ceiling is about completed painting.

The basement work is not as far advanced as the other part of the building,the cement floor is being put in,the finish coat is placed in one of the recreation rooms.both toilet and bath rooms. kitchen.bakery.two store rooms and corridors,the toilet and bath room partitions are in place in the girls side. there is nothing done yet at cement floors in the machinery room.boiler room. fuel room.laundry room and pupils dining room, other rooms are ready to receive the finish coat,the cement base work is well advanced, the majority of the woodwork is to be done yet in the basement.

There is considerable carpenterwork to be done on the outside,and about two thirds of the painting to be done which cannot be done till the weather turns warmer,there is also some cement work and plastering to be done on the outside which cannot be done till the frost is out of the walls.

The plumbing fixtures are being put in place and at the present time are all in place on ground.first and second floors. & heating radiators are put in their permanent positions on above floors.

The above report is respectfully submitted by
Your obedient servant

W A Hamilton

DEPARTMENT OF INDIAN AFFAIRS

CANADA 115-8-15

April 2, 1928.

Memorandum: Acting Deputy.

In accordance with instructions contained in your memorandum of the 19th ultimo regarding the installation of an electric lighting plant at the Onion Lake Roman Catholic School, the firms listed in your memorandum were asked to submit a price, and in response the following have been received.

Canadian Fairbanks Morse Co., Winnipeg, Man. $3382.00

McDonald Wilson Electric Ltd., Winnipeg, Man. $3268.00

Norris & Beairsto, Regina, Sask., $3064.50

As the last named price is the lowest I beg to recommend that it be accepted.

Approved
H. Rees.

DEPT. OF INDIAN AFFAIRS
APR 7 1928
RECORDS

Dear Sirs

This is to inform you that Mr R H Goodchild the Engineer sent from Calgary by the Commissioner of Irrigation arrived at the school yesterday to lay out the water and sewage system. he took the levels and got whatever information he required and left for home to-day but he could not give any information as to when we might get word about the layout of the system.

I took the liberty of having a space excavated under the machinery room floor while the contractors were putting in the concrete walls last fall in that part of the building on the strength of your letter of sept I0th last in answer to mine of aug 29th and the floor cannot be put in the machinery room till after the pneumatic tanks are in place.

I would be pleased to hear from you at your earliest convenience re lighting.water and sewage system as it is impossible to get the machinery room completed till the base for the lighting plant is put in so that part of the work is held up pending the information and if the pressure tanks for the water system are to be installed in the machinery room they should be here now and it is the only place in the building that I can locate that would suit

Regarding the sewer from the boiler room it is very nessessary to have laid before the spring rains come. I remain

Your obedient servant

W A Hamilton

Inspector of Construction

115-6-15

April 11, 1928.

Sir,-

Referring to your letter of the 22nd of December, concerning the preparation of the necessary plans and specifications and the obtaining of competitive prices by one of your officers for the new Onion Lake water supply and sewerage systems, I shall be obliged if you will advise me as to when the above mentioned tenders are to be expected. It is important, according to the report recently received from the Inspector of Construction that the work be proceeded with as early as possible in order not to delay the progress of the construction of the building.

Your obedient servant,

A. F. MacKenzie.
Acting, Assistant Deputy and Secretary.

Sir,-

I beg to advise you that an order has today been placed with Messrs. Norris & Beairsto of Regina, Sask. for the following equipment for the Onion Lake School.

1 - 15 H. P. Fairbanks Morse type "y" style "h" horisontal modified Diesel fuel oil engine, special electric modification as illustrated and described in bulletin 1000A with equipment listed on page 18 of the bulletin.
1 - set of foundation bolts.
1 - cooling water tank with necessary cooling water pipe and fittings for standard installation.
1 - centrifugal circulating pump outfit.
1 - 10 K. W. Fairbanks Morse type DH ball bearing 125 volt compound wound direct current generator, speed 1400 RPM, with pulley, base and field rheostat.
1 - L2 Switchboard to control above generator with Hoyt 3½" voltmeter and ammeter, fused main switch drilled for rheostat.
1 - five inch double leather belt made endless for 12 foot centres.
1 - Globelite type No #W - 11 Willard, Hart or Exide, 200 ampere hour, 56 cell, 110 volt, storage battery.

For your information I am enclosing herewith a copy of the letter sent them. When same has been delivered kindly arrange to have it installed.

April 11, 1928.

Sir,-

I beg to advise you that your price of $3,064.50 is accepted for the following equipment, required for the new Onion Lake Indian Residential School, and the equipment should be shipped addressed to the school via Lloydminster. Please advise Mr. Hamilton, the Inspector of Construction, at the School when shipment is being made.

1-15 H. P. Fairbanks Morse type "Y" style "H" horizontal modified Diesel fuel oil engine, special electrical modification as illustrated and described in bulletin 1000A, with equipment listed on page 18 of the bulletin.

1- set of foundation bolts.

1- cooling water tank with necessary cooling water pipe and fittings for standare installation.

1- centrifugal circulating pump outfit.

1 - 10 K.W. Fairbanks Morse type DH ball bearing 125 volt compound wound direct current generator, speed 1400 RPM with pulley, base and field rheostat.

1 - L2 Switchboard to control above generator with Hoyt 3½" voltmeter and ammeter, fusedmain switch, drilled for rheostat.

1 - five inch double leather belt made endless for 12 foot centres.

1 - Globelite type No W - 11 Willard, Hart or Exide, 200 ampere hour, 56 cell, 110 volt, storage battery.

The accounts in duplicate for this material should also be forwarded to Mr. Hamilton, in order that he may certify to same.

With reference to the note attached to the bottom of your tender, regarding the switchboard, I have been advised by the Canadian Fairbanks Morse Co. that the L 2 switchboard is in every way suitable for the plant using batteries.

Your obedient servant,

A. F. MacKenzie.

Sir,

Your file number:115-8-15.

I have received your letter of the 11th instant regarding plans and specifications for the water supply and sewerage systems at the new Onion Lake school, and immediately wired the Commissioner of Irrigation at Calgary to enquire when the report with tenders was to be expected. In reply he advises me that the plans are under preparation and he expects the report and estimates to be ready by the 18th.

With respect to Mr. Orr's telephone message on Saturday regarding temporary arrangements to prevent flooding the building by rainwater pending the construction of drainage system, a reply has been received from Mr. Tempest as follows:-

> "Have no plans building here but would seem necessary intercept water from roof before reaching basement and divert it outside to draw east of building inspector of construction Hamilton should be able take care this if instructed."

From this reply it may be possible to give instructions to the building inspector but if not I shall be glad to know in what further way we can assist you.

Your obedient servant,

J. T. Johnston,
Director.

115-4-5

Onion Lake, April 12th. 1928.

To the Honorable Duncan Scott,

Deputy minister of Indians Affairs,

Ottawa.

Dear Sir.-

Allow me to refer you to a letter I wrote to you last yearconcerning the advisibility of providing a house for the Principal of our Residential School at Onion Lake.
To the reasons brought forth in my previous letter in favor of this project, I will take the liberty to add some others which I consider worthy of your attention.

The Principal should have a residence of his own, on the ground that being a missionary in charge of the Indians on the Reserve, his activities therefore are not exclusively limited to the administration of the school, but also to the spiritual welfare of the Indians of the Reserve on which the school is located. This fact necessitates on his part almost daily relations with the Indians in matters out of his concern as Principal.

This situation emerging from this double ministry is inherent to the syatem in vogue in every school built on every Reserve. In the Indian Reserves where the school is erected, and it is the case for almost of the Residential schools, If I am well informed the situation is the same for the clergymen of every denomination. Besides being the Principal of the shool the clergyman is more-over in charge of the spiritual care of the Indians.

As I said this double charge imposes upon the Principal, duties which have nothing to do with the govern of the school. You will readily understand that in such a situation the Principal "be far better, had he a house of his own in order to attend to matters quite irrelevant to his duties as Principal. It would certainly do away with all kinds of inconveniences and render his position more suitable to his calling as minister of the Gospel.

Further more I will take this opportunity to point out to you another consideration which cannot too easily be discarded, thatis, that the Father in charge of the School is living under the same roof as the Sisters. Needless for me to stress this point, except to make you aware of the wishes of the Episcopate, that the Fathers should live in a separate building. The fact that this point has not been heretofore strongly emphasized by the Bishops, does not in the least alter its importance.
For these reasons added to those in my previous letter, I take the liberty to renew my demand for an appropriation for the building of a residence for the Pricipal of Onion Lake's Residential School.
Two thousand dollars would cover the expenses and we, ourselves, could attend to the plan and construction of this residence, if the Department consent.
Hoping that you will consider our demand favorably and thanking you for this and past favors,

I am,
Your'struly,

J. A. Thérien O.M.I.

April 18, 1928.

Dear Father Therien,-

Replying to your letter of the 12th instant, with reference to the advisability of providing a house for the Principal at the Onion Lake Indian Residential School, I beg to say that I cannot alter the decision made last year, to the effect that a separate residence cannot be provided for the Principal.

Suitable accommodation is provided in the new building for the Principal, and it is thought that, particularly on account of discipline, it is necessary for the Principal to reside in the building.

Yours very truly,

Deputy Superintendent General.

115-8-5 Regina, Sask., April 4th 1928

INDIAN AFFAIRS BRANCH APR 18 1928

ONION LAKE R. C. RESIDENTIAL SCHOOL.

As you are aware, the old school building was burnt down completely, together with their church on February the 10th. The cause of the fire, which started about six o'clock in the evening in the attic, is unknown. The Sisters and seven of the pupils are now occupying the building formerly used by the boys at the old Anglican School. They were busily engaged while I was there in preparing clothing and bedding material to replace that which was burnt. I looked over the new school building and noted that a great deal of work will have to be done before it will be ready for occupancy. Nothing had been done towards installing water or sewerage. There was a great deal of finishing to do to the interior of the building and more than half of the cement floor in the basement had to be laid. I examined the new barn and found that it is very well built, proper ventilation provided and stanchions are properly installed. It is a real good building. This is the only outbuilding, so far, which has been erected.

The foregoing report is respectfully submitted.

I have the honour to be,
Sir,
Your obedient servant.

Dear Sir:-

re Indian School Onion Lake.

You will remember us calling your attention under date of October 25th, 1927, of us supplying Messrs. Brown & Hudson the material for the constructions of the school building, which they contracted to build, advising of their indebtness with us which they apparently dispute. You replyed under date of October 29th, and suggested us to take the matter up with the Inspector of Construction, Mr. W.A. Hamilton, at the site of the building, which we did.

We are addressing you at this time, to ascertian if we are as yet protected, and would be pleased to here from you.

Yours truly,

P.T. Roberts, Limited.

Messrs. Gurney Ore,
Architect,
Ottawa.

Dear Sir,-

Re Residential School.Onion Lake.Sask.

As we are just completing the plumbing and heating in the above building, and your engineer, has already been there laying out the system of water supplying,etc.

Some time ago we submitted a price to your Mr Hamilton,Inspector of Works, on the ground.This price was based on work layed out by Mr Hamilton. We presume if there has been no changes in this layout, that you will soon be in a position to let this work. Might we ask if we are in line for same, as I am quite certain that the Inspector, Sister, and all concerned are very well pleased with the work we have already done, and if our estimate that we believe Mr Hamilton has already forwarded to your department, is satisfactory, would you be kind enought to let us know at your very earliest convenience, so as we could hold our men at Onion Lake.

You of course realize that our plant is at Onion Lake and if we find it necessary to move same, it would mean quite a difference to what precentage or profit we would expect to make on the work.

Thanking you in anticipation, we rerain,

Yours very truly,
Beairsto;Ltd,

Sirs,-

Replying to your letter of the 19th instant, with reference to the electric lighting plant required for the new Onion Lake Indian Residential School, I beg to advise you that an order for this equipment has been placed with Messrs. Norris & Beairsto, of Regina, and Mr. Hamilton, Inspector of Construction, has been authorized to have same installed when delivered at the School.

Your obedient servant,

A. F. MacKenzie.
Acting, Asst. Deputy and Secretary.

Ottawa, April 20, 1928.

Dear Father Therien,-

I have your letter of the 12th instant in reference to the provision of a residence for the Principal of the new Onion Lake School.

In reply I beg to say that when the plans for accommodation at this institution were under preparation the Church Authorities were consulted and the final plans met with their approval. As I understand it ample provision has been made for the Principal's lodgings in the building and the Department is of opinion that the Principal, who is responsible for the conduct of the school, should be resident in the institution. My Deputy for Indian Affairs is writing you again to the effect that the present arrangement should be adhered to.

Yours faithfully,

DCI

(C Stewart)

DEPT. OF INDIAN AFFAIRS
APR 24 1928
RECORDS

Department of Indian Affairs

Ottawa Ont

Dear Sirs

I hereby wish to submit the following report on the progress made by the contractors in the construction of the Roman Catholic Indian Residential School here.

The interior woodwork is nearing completion,the first and second floors are practically complete with the exception of the wash tables in the dormitories and some touching up on the walls and floors the finish coat of varnish is on the woodwork and floors.

The ground floor woodwork is about completed,the finish coat of varnish is on the centre part of the building also the chapel. the basement woodwork is nearing completion and the painters are well advanced with their work.

There is no cement floor put in the machinery room as the work cannot be done till the foundation for the electris light plant is put in. the laundry machinery is not set up yet and the shafting is not in place awaiting the location of the engine. .

There is considerable work to be done at the outside of the building.the cement walls are all to be plastered from the grade line up to the top of the wall. the outside painting is held up on account of the unfavorable weather conditions,some parts of the building have not even received the priming coat.

The plumbing work is nearing completion and the heating system is well advanced, the sub-contractor on heating claims that it is impossible to wash out the boilers and give them the proper test till the sewer and water system is installed.

Mr Hudson.of the firm of Brown and Hudson who handled the work here left the job on april 7th leaving one carpenter on the job to finish the work. at the present time there are three painters.two plumbing and heating men and one carpenter at work.

Mr R H Goodchild,the engineer from the Dominion Water Power Board of Calgary visited the site on march 30th and took the levels and whatever other information he required in connection with the water and sewage system for the school and left for calgary on march 3I st, and I am in hopes that something will be done immediately, especially with the sewer for it will be serious if the sewer work is not done before the spring rains come.

The above report is respectfully submitted by
Your obedient servant

W A Hamilton

R R

DEPARTMENT OF INDIAN AFFAIRS
APR 30 1928
RECEIVED

Dear Sirs

Your wire re temporary drainage received, I procured IO feet of 6" soil pipe and 2 bends from the sub contractor on plumbing to connect to the outlet from the building from the rainwater down pipes and which will take care of any water from the roof of the school & when the rainwater tank is put in the above mentioned soil pipe can be used to carry the rain water to the tank. as the location of the school is lower than some of the surrounding land there is bound to be some water lay around the building till the drains are laid and the earth is properly graded up to the walls, some parts of it being left low to take care of the earth to be taken from the excavation of the storage and rainwater tanks.

Hoping that the above explaination will be satisfactory to you and that you may sanction the liberty I took in procuring the soil pipe mentioned above without first receiving your authority, but my reason for sodoing was that I was afraid of a heavy rain which might do some damage to the building. I remain

Mr A.F.McKenzie,
Acting Asst.Deputy and Secretary,
Department of Indian Affairs,
Ottawa,

Dear Sir,-

We thank you for your letter of April 24th, in reference to water supply at the R.C. Indian Residential School. Onion Lake.Sask.

We took this matter up with the Engineer of the Water Power Branch, Calgary, and received reply, a copy of which is inclosed.

Apparently, so far, they have had no instructions from your Department, re this water supply. We would appreciate it very much, if you would advise us as to the time when something will be done on this, as we feel quite certain that our estimate, on the water service is a reasonable one.

Thanking you in anticipation, we remain,

Yours very truly,
Beairsto;Ltd,

COPY.

Gentlemen;-

This will acknowledge receipt of your letter of the 26th instant advising me that you have just completed the plumbing and heating in the Indian School at Onion Lake;Also,that you have submitted a tender in connection with the water supply systems and asking to be advised in regarding to the letting of the contract for this work.I may say that, as far as I know, the Department of Indian Affairs has not yet awarded any contract for this work, and I would therefore suggest that you get in touch with the head of the department at Ottawa.

For your information I may say,that this office merely furnished the engineering services in connection with the surveys,plans and specifications for the water supply and sewage disposal plants.

Signed. P.J.Jennings.

REPORT

on

Proposed Water Supply and Sewage System

Onion Lake (R.C.) Indian School,

Onion Lake Indian Reserve

near Lloydminster, Sask.

Prepared for The Department of

Indian Affairs.

by

R.H.Goodchild,

Dominion Water Power and
Reclamation Service,
Calgary, Alta.

GENERAL

The new Onion Lake R.C.School, now nearing completion, is situated about thirty miles north and five miles west of the Town of Lloydminster, Sask., on the Onion Lake Reserve, some eight miles north of the North Saskatchewan river.

It is a frame building, designed to accommodate 80 pupils, and when completed will have a value of approximately $80,000.

The builder's contract does not call for a water supply nor sewage disposal system and it is the purpose of this report to outline such systems and to estimate the cost of the completed works.

As intimated, the School has been designed to accommodate eighty pupils, and it is therefore considered

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

desirable to design a plant capable of serving one hundred persons.

WATER SUPPLY SYSTEM.

Water Requirements for domestic purposes.

The amount of water required per day on a basis of 40 U.S.gallons per capita per day will be

40 x 100 = 4,000 U.S.gals. per day.

It is considered that a supply of 30 gals.per minute will supply the maximum demand.

Water Requirements for Fire Protection Purposes.

On account of the value of this building, its purpose, and its construction a very adequate system of fire protection should be installed.

To successfully cope with a fire in the building it is considered that at least four streams of about eighty gallons per minute each at a pressure of not less than 50 lbs. playing simultaneously would be necessary, and that it should be possible to maintain this flow for an hour.

It is considered that if the fire could not be conquered in one hour that the building could not be saved.

Water Requirements for Laundry Purposes.

It is proposed to conserve the rain water from the roof by means of a concrete tank fed from the roof drain and to use this rainwater in the laundry. The amount of water required will be large and the tank has been designed accordingly.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

SOURCE OF SUPPLY.

For domestic and fire fighting purposes the only possible supply is a small spring situated in a draw about four hundred feet south of the School. This spring has a flow of about fifteen gallons per minute.

The water is clear and cold and not too hard for ordinary washing purposes.

A lake about half a mile in diameter lies about three hundred yards from the School to the South west, but on account of its low elevation and distance the cost of using this lake as a source of water for fire fighting purposes would be prohibitive.

The cost of the pumping plant necessary would be nearly seven thousand dollars.

Proposed Works Water Supply System.

Domestic Supply.

As the flow of the spring is so small and, as it is the only sure supply of usable water for all purposes, it is considered necessary to construct a sizable well or tank at the spring from which well to pump to a reservoir at the School.

This well will be of reinforced concrete and will measure - at the bottom 16'x10', and it will be 12' deep. A manhole will be placed in the top and over the north end of this structure, a pumphouse 8'x13' and 8' high will be erected to house the pumping machinery necessary to raise the water to the upper reservoir.

The details of construction are shown on the

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

plans, and the details of all machinery are shown in the estimates appended hereto. This building is to be provided with a stove for winter use. The upper reservoir will also be of reinforced concrete construction, and it will be located 12' east of the building, opposite the engine room.

From this reservoir, by means of a small pump electrically driven, water will be pumped to two pressure tanks - placed in series - situated inside the building and this plant will have an automatic control, which will keep the pressure between 20 and 40 lbs. at all times.

These pressure tanks will be coupled to the plumbing system already installed.

The combined capacity of these two tanks is about 1700 U.S.gals.

FIRE PROTECTION SYSTEM.

To adequately protect the building from fire an independent pumping plant will have to be installed and coupled to the standpipe system, already in place.

It is, as has been stated, considered desirable to have at least four effective fire streams available for use simultaneously, each throwing a stream of about 80 gals. per minute.

In order to ensure safe operation of the pumping plant required, it will be necessary to house it outside the School building, and it is proposed to erect the necessary pumphouse just south of the upper reservoir from which the supply will be drawn.

The plant recommended will have a capacity of 336 U.S.gals. per minute and to maintain this flow for an hour, a

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

supply of 336 x 60 or 20,160 U.S.gals. will be required.

The tank designed by the writer has a capacity of 21,500 U.S.gals.

It may be added that the actual supply for fighting a fire will be augmented by the amount which the pump at the spring can deliver to the reservoir in one hour,i.e. about 2,500 U.S.gals. making a total of 24,000 U.S.gals. available for immediate use.

It is also proposed to couple the pressure tanks to the stand-pipe system, and so make the contents of these tanks available for instant use to quench an incipient blaze and so preventing loss of time pending the starting of the outside plant.

As a further safeguard, it is recommended that three soda and acid fire extinguishers be placed, one in the boiler or engine room, one in the laundry and one in the kitchen, as these are the three places in which fire is most likely to break out, and the number suggested might well be doubled.

RAINWATER SYSTEM

To conserve the rainwater from the roof and to create a supply which would carry over the dry season it is proposed to construct a reinforced concrete tank reservoir, of the same design and size as the well at the spring.

This tank will have to be set 5' below the surface to prevent freezing during the cold weather. The roof drain will, of course, drain directly into this tank and the overflow from the tank will flow into the sewer from the boiler room.

The equipment to serve the laundry from this tank will

www.collectionscanada.gc.ca

consist of a small pumping plant, electrically operated, so designed that the turning of a faucet will automatically start the motor and pump, causing an almost instantaneous flow.

It is considered that the system outlined above will meet all the requirements and it is recommended that it be adopted.

REPORT

on

SEWAGE DISPOSAL SYSTEM,

Onion Lake Indian (R.C.) School.

GENERAL

This school is situated on high ground which slopes rapidly away from the School on three sides, and the design of a suitable sewage disposal system is therefore comparatively simple.

Plans and profiles of the proposed works together with estimates of cost accompany this report.

To the west of the School the land slopes to a short but steep draw and it is considered that this draw presents an excellent site for the sewage disposal bed and the system is designed with that point in view.

This School when completed will house some 100 persons, and the plant has been so designed as to care for that number of persons.

GENERAL DESIGN.

As shown on the general plan the 2 sewers from the school come together at the upper side of the disposal beds at a point 350' from the school.

The sewage from the toilets,baths,etc., passes through a septic tank, some 160' west of the School before being passed out to the disposal bed.

Pipe Lines.

The piping proposed for the sewer lines is 6"

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

glazed tile and that for the disposal bed 4" open tile drain pipe.

SEPTIC TANK.

The septic tank proposed is made up of two chambers, the settling chamber or septic tank proper and the syphon chamber. To render the structure as nearly permanent as possible it is of reinforced concrete throughout.

The affluent enters the septic tank a foot below the surface in order to prevent disturbance of the scum.

From the septic tank the sewage flows first through a set of grids, placed so as to intercept any sizable solid, and then over the dividing wall between the two chambers; two baffle boards are carried below the surface thus preventing undue disturbance.

Two three inch Anthes syphons designed to operate under an 18" head take care of the effluent from the chamber and deliver it to the discharge pipe.

It is estimated that this syphon chamber will carry about 450 imperial gallons before discharging.

DISPOSAL BED.

A manhole is proposed at the end of the two sewers where they lie side by side in the same trench, and from each side of this manhole it is proposed to lay a line of 4" open tile drain to a distance of 30 feet.

These branches will be so located as to have a

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

good fall. It is proposed to lay this pipe on a 3' deep trench, leaving the trench open.

From this upper line of drain it is proposed to open up four straight trenches running obliquely down the slope for a distance of 50 ft. and to lay 4" open tile drain in these trenches. It is proposed to leave these trenches also open.

All the points of these tile drains will be covered with gravel to protect them from debris,etc.

The advantage in leaving these drains open is that when they become no longer serviceable they may be easily filled in and new ones opened up.

MANHOLES.

One manhole only will be required and this will be small and inexpensive.

It will be of concrete and will be provided with a cast iron cover.

It is recommended that the system outlined above be adopted as being the most suitable.

(sd) R.H.GOODCHILD.

INFORMATION FOR BIDDERS

(1) G E N E R A L :-

Tenders will be received until 10.00 a.m. on April 23rd at the office of the Commissioner of Irrigation at Calgary, Alberta, for providing all labour, material, and equipment required in connection with a water supply system and a sewage disposal system at the Onion Lake Indian School and which is located on the Onion Lake Indian Reserve.

(2) T E N D E R S :-

Tenders must be made out by filling in the blank spaces in the tender form. The total amount of tender will be determined by the extension of all the items. If there be any discrepancy between the item prices and the total amount, the item prices shall be considered as representing the intention of the bidder.

(3) GENERAL DESCRIPTION OF WORK TO BE DONE:-

(a) To provide a water supply system, complete with pipelines, reservoirs, engines, compression tanks, pumps and necessary buildings, etc., which will connect up the piping now installed in the building for domestic and fire protection purposes, and a spring which is the source of supply and which is located some 500 feet south of the building.

(b) To provide a sewage system complete with tile pipeline, septic tank, man holes, open tile grid system, etc., which will connect with the sewage lines as installed in the building.

(c) To provide a soft water reservoir and pipe connections from the down pipe now installed in the building and pipe connection with pump to connect reservoir with the soft water system line now in building, also an overflow connection from the reservoir to the boiler room drain.

(4) LOCATION OF WORK:-

A general plan showing the approximate location of the above work may be seen at the office of the Commissioner of Irrigation. The site may be generally described as 35 miles north of the town of Lloydminster which is the nearest point on a railway and which will be the point from which all material and equipment will require to be freighted.

It is understood that gravel and sand is available approximately three miles from the site of the work but the department does not assume responsibility that such gravel will be found suitable for the class of work required and if gravel at this three-mile point is not found suitable, the department reserves the right to have the contractor supply suitable gravel and sand from any other point either nearer to or farther from the site of the work as determined by the engineer

www.collectionscanada.gc.ca

in charge. The cost of the extra or decreased length of haul to be adjusted by taking into consideration the difference in the ton-mile haulage.

(5) CONTRACT

Immediately upon notification of acceptance of tender, the contractor will be required to execute a contract with the department and be prepared to commence the work and carry it through to completion within ninety days.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

GENERAL SPECIFICATIONS.

1.0 The work to be done and the material and equipment to be supplied includes the following:

1.1 Excavate for and erect a wall and footing of mass concrete which is to act as a holdup or dam for the discharge of the spring. The west 15 feet of the dam to be carried down to the extra depth as shown on plan. To excavate to depth shown on plan, a sump on the north side of dam which will extend for 10 feet along the dam and back from the dam a distance equal to the length of the reservoir. This sump to be filled in for a depth of 6 feet with clean gravel which is to act as a filter for the water entering the reservoir.

1.2 Excavate for and erect a reinforced concrete reservoir at the west end of the stop wall as shown on plan. Erect over the north 8 feet of the reservoir a building for housing pumping equipment. Reservoir wall to be backfilled when completed and the unhoused portion of the top to be back-filled to the natural ground level.

1.3 Excavate and lay a 3" galvanized wrought steel pipe line, at the grades and depths shown on profiles, from the reservoir at east side of building. This line to be provided with a valve and connections to enable the entire line to be drained. The portion of the line extending from the pump house at spring to a point where seven feet of cover is obtained to be protected as shown on plans. Entire line to be backfilled when laying of pipe has been completed, to the level of the natural ground surface.

1.4 Excavate for and erect a reinforced concrete reservoir on the water supply line at a point 12 feet east of building as shown on plan. When complete back fill to the elevation of the natural ground surface, spproximately 6.0 feet.

1.5 Excavate for and lay a 1-1/4 inch galvanized pipe line from the reservoir to the typhoon pump in the basement of the building. Portion of this line which is outside of building to be laid at a depth of 7 feet below the surface of the ground and when completed this portion of line to be back-filled to the level of the natural ground surface.

1.6 To excavate and lay a five inch Cast Iron pipe line 7 feet below the ground surface from the reservoir to connection with the #4 Rumsey Pump which is on the line provided and shown for fire protection. On completion of line, trench to be backfilled to the natural ground surface.

1.7 Excavate and lay a five inch Cast Iron pipe line from the Rumsey Pump to the building and connect with the fire protection line installed in the building. Portion of this line which is outside of building to be laid at a depth of

feet below the surface of ground and when completed the trench utside of building to be backfilled to the natural surface of he ground.

o erect at point shown on plan a building to house the fire rotection pumps and engines.

o provide, install and connect with the reservoirs and water upply lines the following equipment, or equipment of similar apacity and efficiency:

(a) In building at Spring -

1-6 H.P.Fairbanks-Morse type "Z" Kerosene engine with type "R" megneto, and closed cylinder with condensing radiator.

1-Typhoon Pump capacity 2500 U.S.Gallons per hour, fitted with 16x4¼" tight pulley.

1-4" Graknight Endless Leather Belt for 6 foot belt centers.

ith necessary piping foot valve strainer,etc., as shown on plan.

(b) In building at Upper Reservoir -

1-25 H.P. "Fairbanks-Morse " -type "Y" Style 'HB' Standard Horizontal Oil Engine as illustrated and descrived in bulletin 3900 herewith, complete with the regular equipment as listed on page '18' of this bulletin.

1 -Set foundation bolts for ditto.

1-Centrifugal circulating pump outfit.

2-Cooling Water tanks with necessary cooling water pipe and fittings for standard installation.

1-Rumsey Fig.Q198½ iron fitted Rotary Power Pump size #4 capacity 336 U.S.gallons per minute at 200 R.P.M.,pump to be complete with air chamber,etc., for fire service.

1-6" Graknight Dynamo Double Leather Belt made endless for 12 foot Belt centres.

ith necessary piping foot valve strainer,etc., as shown on plan.

(c) Engine Room of building-

2 - 42"x18' Black Hydro Pneumatic Tanks,

1- Fairbanks-Morse Self Oiling Typhoon Pump capacity 1000 U.S.Gallons per hour, fitted with 16x2¾" tight pulley.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

1-1 H.P.Peerless 110 Volt 1750 R.P.M.Direct Current Motor with pulley, base and starter.

1-#2927 Diaphragm Pressure Regulator to automatically start and stop the 1.H.P.motor from predetermined pressures in pneumatic tanks,

with necessary piping gauge glass and all mountings complete.

(d) In basement at or near the Laundry inside the building.

1-Fairbanks-Morse 210 Gallon per hour (U.S.) Automatic Electric Water System with 110 volt direct current motor,

with necessary piping, foot valve strainer to connect up with the rain water tank outside the building.

2.0 Excavate and lay where and at the elevations and grades shown on plans and profiles a six inch tile drain from the drainage line at present installed in the building to connect up with the septic tank as shown on plan. When completed, trench to be backfilled to the natural surface of the ground.

2.1 Excavate, erect and equip with syphons and all necessary connections a reinforced septic tank as shown on plan. The whole work when complete to be backfilled to the natural surface of ground.

2.2 Excavate and lay a six inch tile drain from the septic tank to Manhole "A", the portion of trench which extends from manhole to be excavated sufficiently wide to take care of drain line from boiler room and laundry. Drain pipe to be laid at the elevations and grades shown on profile. When complete the trench to be backfilled to the natural ground surface.

2.3 Excavate, erect mass concrete Manhole "A" at location and elevations shown on plans and profiles. The manhole to be supplied and fitted with top door and frame and pipe connections as shown on detail plan of Manhole. When completed the structure to be backfilled to the natural ground surface elevation.

2.4 Excavate and lay where and at the elevations and grades shown on plans and profiles a six inch tile drain from the drain line installed in the building and which is from the laundry and boiler room, to Manhole "A". The trench when line is completed to be backfilled to the natural groumd surface.

2.5 Excavate trenches to a depth of 3.0 feet and at grades to be determined by Engineer in Charge for open tile drains which extend from Manhole "A" along top of slope for a distance of 30 feet on each side of Manhole and excavate four additional trenches each fifty feet in length which are spaced at 20 foot centres and extend down the slope of the bank to form a grid system as shown on plans. These trenches will also be excavated to a depth of 3 feet with side slopes of 1/2 to 1.

2.6 To provide and lay 4 inch open tiles in this grid system of

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

trenches, tiles make connection with Manhole "A" and provide the necessary T's to permit the proper distribution of effluent through the whole of the open tile system. Joints of the open tile system to be covered to a depth of 4 inches with clean gravel to prevent the clogging up of the system through sloughing off of open trench banks.

.0 Excavate for and erect a reinforced concrete tank for soft water, at a point indicated on general plan and as shown in details on plans. Excavate and lay, at elevations as shown on plans a 3/4" galvanized pipe line from the reservoir to the soft water system installed in the building and connected with pumping equipment shown under 1.9. Excavate and lay a 4 inch cast iron pipe line, or other size similar to the drain pipe from roof of building now installed in building, connecting the installed drain pipe to the soft water tank as shown. Excavate and lay a 6" tile pipe from the soft water reservoir to the sewer line from boiler room and laundry. When completed the reservoir and all trenches connecting with the reservoir to be backfilled to the natural ground surface.

SUPPLY OF MATERIAL AND EQUIPMENT -

.0 The contractor will supply all material and equipment which enter into and form part of the finished structures, and all material required for the construction and maintenance of forms and the like.

.1 Transport: The contractor will transport all material and equipment from the Railway station to the site of the work. The cost of transport will be included in the contract price for "Material Supplied" and "Equipment Supplied".

.2 Care of Material: All material must be properly stored and cared for at all times. It will be subject to inspection before being used and if any is found to be damaged or in any way rendered useless or unsuitable it will be condemned and must immediately be removed from the work and replaced by suitable material by the Contractor at his sole expense.

SNOW, ICE AND DEBRIS -

.0 Snow, Ice and Debris and foreign matter must be removed from the work whenever ordered by The Engineer, such removal being at the Contractor's expense.

FORMS -

.0 Forms, where necessary, will be furnished and built by the Contractor and included in the contract price per cu.yd. of concrete.

.1 Materials in forms may be used repeatedly but if so used shall be thoroughly cleaned after each time used and before setting up again. Before any concrete is poured

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

against them the moulding surface must be smeared with mineral oil or grease, or soap, in order to prevent the concrete from adhering to the forms.

Forms must be left in place until the concrete has set sufficiently to be safe from damage, either in process of removal, or from lack of support or from any other cause. The method employed in removal of forms must be such as to offer the minimum possibility of damaging the soft concrete; using soft concrete as a fulcrum for prying forms loose is specially forbidden.

REINFORCEMENT-

The contractor will provide, fabricate and fix in place all reinforcement shown on the drawings or required by reason of the methods of construction adopted by him. He must take whatever precautions are necessary, or are ordered by the Engineer, to maintain such reinforcement in its proper position while pouring concrete and afterward until the concrete is set.

Material: Unless otherwise shown on the drawing or permitted by the District Engineer all reinforcement will be round steel bars meeting the requirements of the Standard Specifications of the American Society for Testing Materials for "Billet Steel Concrete Re-inforcement Bars (Serial designation A-15)" as adopted 1911 with all subsequent revisions.

Fabrication: The Contractor will do all work necessary in connection with cutting, bending, erection, tying,splicing and anchoring.

Bending: Wherever bars are shown on the drawing as bent to any shape, such bars will be bent cold (except anchors),using a suitable tool or appliance for the purpose.

Maintenance: All reinforcement must be so supported that it cannot be displaced before during or after the operation of pouring the concrete.

CONCRETE-

Materials, plant, labour, tools and appliances for proportioning, mixing, transporting, placing and finishing concrete will be supplied by the Contractor.

Materials: All material supplied will be tested and if defective must be immediately removed from the work and made good at the contractor's expense. Rejected material, if not removed within four days, may be destroyed or rendered useless by the Engineer.

Aggregate: The aggregate for concrete will consist of sound particles of silicious or calcareous rock. The

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

particles must be free from hard adhering films or coatings of deleterious matter, such as clay, salts or vegetable acids.

Cement: All cement must comply with the requirements of the"Specification for Portland Cement" of the American Society for Testing Materials, as adopted September 1st, 1916," and all subsequent amendments or the Standards of the Engineering Institute of Canada. Cement may be shipped in bags or barrels at the option of the Contractor.

Transport and Storage: Cement must be protected from the weather during transport and at all times. It must be stored as directed by the engineer in charge and be subject to inspection at any time. If found defective the whole or such part as the engineer may direct must be immediately removed from the work and replaced with new cement at the contractor's expense.

Reinforced concrete (which for this purpose is defined as all concrete members in which steel is employed, to take certain definite stresses which the concrete itself is incapable of taking)will be mixed in the proportion of one part of cement to two parts of fine aggregate and four parts of coarse aggregate, measured dry. Each bag of cement will be considered as one cubic foot and each barrel as four cubic feet and the volume of aggregate adjusted accordingly.

Mass concrete (which for this purpose is defined as all concrete members in which all direct stresses are borne by the concrete unaided although steel may be employed for temperature, shrinkage or other reasons) will be mixed in the proportion of one part of cement, two and one half parts fine aggregate and five parts of coarse aggregate. Packages of cement will count for volume as above specified.

Maximum sizes of aggregate in reinforced work will not exceed one and one half inches in greatest dimension. For mass concrete no particle may be used greater in longest dimension than two tenths (2/10) of the least dimension of the member for which the concrete is intended.

Consistency: Sufficient water will be used in mixing concrete to give a mixture which will flow (not slide) readily on a plank surface inclined at 25 degrees to the horizontal. For reinforced work, especially in vertical members such as walls, slabs, counterforts, and columns,the concrete must be mixed sufficiently fluid to flow readily into corners and angles and about the reinforcing steel and to fill all voids.

Finish: After removal of forms, the surface will be carefully examined for exposed reinforcement. All holes, open voids, or pockets will be filled with stiff mortar mixed one to one and rammed in hard. Tie wires will be clipped off neatly flush with the surface. Bolt holes will be carefully cleaned out by a jet of water, air or steam under pressure, and filled with stiff mortar. The whole surface of all members, except floors, will be painted with neat grout.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Excavation of Trenches: The trenches in which the pipes are to be laid shall be excavated on the lines shown on the plan. There shall be no bends or undulations made other than those shown on plan or permitted by the Engineer.

All trenches shall be of sufficient width to permit of proper jointing of the pipes. Bell holes at joints shall be excavated below the bottom of the trench, of sufficient size to allow ample room for the proper caulking of the joints, and so that the body of the pipe shall rest on solid ground throughout its length.

All necessary shoring and bracing shall be done by the Contractor to prevent movement in the sides of the excavation and all timber required as well as all necessary labour in connection with it shall be furnished by the Contractor as part of the Contract.

All water shall be removed by the Contractor from the trenches by pumping or other means, and the trench must be kept perfectly free from water when the jointing of the pipe is being done.

Backfilling Trenches: No backfilling shall be done until the pipes laid and jointed have been inspected and approved of by the Engineer.

After permission has been given, the trench shall be filled with selected earth free from stones and rubbish to a depth of at least two feet above the top of the pipe, thoroughly consolidated and compacted by ramming with suitable tools.

After the pipes have been covered with two feet of filling as specified, the remainder of the trench may be filled by hand, team or machinery. No large stones shall be allowed to be placed in the trench.

Coating Pipes: All galvanized pipes will have a heavy coating of hot coal tar or pitch applied before being jointed.

Joints: All vitrified tile drain pipes are to be laid from lower end up and the contractor will see that each length of pipe is clean before being laid. A gasket of hemp or jute of sufficient size will be inserted between the hub and spigot and properly rammed so that a space 1" in depth shall remain for cement mortar, to be inserted. The space between the spigot and hub shall be completely filled with mortar thoroughly pressed in all around and every precaution taken to secure a water-tight joint. The mortar shall be applied with a rubber mitten and rammed or compacted with a wooden caulking tool. Joints shall be finished all around with a neat level. The interior of each pipe joint shall be scraped clean of all projecting material.

FORM OF TENDER ONION LAKE INDIAN SCHOOL

The Commissioner of Irrigation,

Calgary, Alta.

Sir,-

The undersigned

of

hereinafter called "The Bidder" hereby declares that the Plans and Specifications for the proposed "Onion Lake Indian School" Water Supply and Sewage Disposal systems are understood. The Bidder hereby proposes and agrees that if his tender be accepted he will when required enter into a Contract to perform all the conditions mentioned and will accept in full payment therefor the following sums:-

(1) Excavate, supply all material, erect and leave complete Dam or stop wall..... $

(2) Excavate, supply all material,erect and leave complete Reservoir at spring.....

(3) Supply all material, trenching,laying backfilling, complete the 3½" galvanized wrought steel pipe line from reservoir at spring to Reservoir at building .....

(4) Supply all material, excavate, erect and leave complete concrete reservoir east of building.....

(5) Supply all material, trench, lay and back-fill complete 1¼" galvanized pipeline from reservoir to typhoon pump .....

(6) Supply all material, trench, lay and backfill complete 5" Cast Iron pipe line from reservoir to the #4 Rumsey Pump and from the #4 Rumsey Pump to the fire line of building.....

(7) Supply all material and erect building for fire protection.....

(8) Supply, install and connect up with the

reservoirs and supply lines the following equipment:-

1-25 H.P."Fairbanks-Morse" type 'Y' style "HB" Standard Horizontal Oil Engine, with 1 Set foundation bolts and 1 Centrifugal circulating pump outfit and 2 Cooling Water Tanks with necessary cooling water pipe and fittings for standard installation.

1-Rumsey Fig.Q198½ iron fitted Rotary Power Pump size #4 capacity 336 U.S.Gallons per min. at 200 R.P.M.,pump complete with air chamber.

1-6" Graknight Dynamo Double Leather Belt.

3-Fairmorse 2½ gallon Soda and Acid type Fire Extinguishers,
2-42" x 18 ft. Black Hydro Pneumatic Tanks

1-Fairbanks-Morse Self Oiling Typhoon Pump capacity 1000 U.S.Gallons per Hour, fitted with 16x2¾" tight pulley.

1-1 H.P.Peerless 110 Volt 1750 R.P.M.Direct Current Motor with pulley, base and starter.

1-#2927 Diaphragm Pressure Regulator to automatically start and stop the 1 H.P.Motor from predetermined pressures in pneumatic tanks.

1-Fairbanks Morse 210 Gallon per hour (U.S.) Automatic Electric Water System with 110 volt direct current motor.

1-6 H.P.Fairbanks-Morse type "Z" Kerosene engine with type "R" magneto,and closed cylinder with condensing radiator.

1-Fairbanks-Morse Self Oiling Typhoon Pump capacity 2500 U.S.gallons per hour, fitted with 16 x 4¼" tight pulley,

(9) Supply all material, trenching, laying and backfilling,6" glazed tile drains from present installed drain pipes in building to Manhole "A"
.....

(10) Excavate, supply all material, erect, connect with main sewer line, and backfill reinforced concrete septic tank complete.....

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

FORM OF TENDER ONION LAKE INDIAN SCHOOL

The Commissioner of Irrigation,

Calgary, Alta.

Sir,-

The undersigned, JOHN TOWERS, of Calgary, Alberta, hereinafter called "The Bidder" hereby declares that the Plans and Specifications for the proposed "Onion Lake Indian School" Water Supply and Sewage Disposal systems are understood. The Bidder hereby proposes and agrees that if his tender be accepted he will when required, enter into a Contract to perform all the conditions mentioned and will accept in full payment therefor the following sums:-

(1)	Excavate,supply all material, erect and leave complete Dam or stop wall.....	$563.78
(2)	Excavate, supply all material, erect and leave complete Reservoir at spring	1,257.15
(3)	Supply all material, trenching,laying backfilling, complete the 3" galvanized wrought steel pipe line from reservoir at spring to Reservoir at building.....	1,207.75
(4)	Supply all material, excavate,erect and leave complete concrete reservoir east of building.....	1,737.27
(5)	Supply all material, trench, lay and back-fill complete 1¼" galvanized pipeline from reservoir to typhoon pump.....	26.50
(6)	Supply all material,trench, lay and backfill complete 5" Cast Iron pipe line from reservoir to the #4 Rumsey Pump and from the #4 Rumsey Pump to the fire line of building.....	123.74
(7)	Supply all material and erect building for fire protection.....	195.50
(8)	Supply, install and connect up with the reservoirs and supply lines the following equipment:

Calgary, Alta.
April 25, 1928.

Commissioner of Irrigation,
Calgary, Alberta.

Dear Sir: Amended Estimate.

As suggested by you yesterday, by reducing the depths of Items #2-4 and 13 it reduces the first estimate from $15,452.10

to 14,386.01

a saving of $ 1,066.09

Trusting this will be satisfactory,

Yours truly,

Sgd. John Towers.

GENERAL AND SPECIAL CONSTRUCTION WORK

Res.Phone R504 Calgary

P.O.Box 1842
Calgary, Alta.
April 24th, 1928.

Commissioner of Irrigation,
Calgary.

Dear Sir:

My estimate for water supply and sewage disposal system for Onion Lake R.C. Indian School as per Plans and Specifications is Fifteen thousand four hundred fifty two Dollars 10¢ ($15,452.10). As the tanks are at considerable depth from the natural surface, the probability of getting into Rock is likely to occur. Should this be so, the work for this should be put in as unclassified work.

Yours faithfully,

Sgd. John Towers.

File 4617

Calgary, Alberta.
April 27, 1928.

Memorandum re Tenders - Onion Lake School

Tenders for water supply and sewage disposal systems received from the following bona fide contractors on dates specified:-

Brown and Hudson, Winnipeg	- $12,591.00	on October 8, 1927.
Bennett & White Co., Calgary	- $18,250.00	" April 25, 1928.
John Towers, Calgary	- $15,452.10	" " 24, 1928.
Subsequent tender for alternative plan from John Towers	- $14,386.01	" " 25, 1928.

The first tender; i.e., that of Brown and Hudson, was not based on plans and specifications used by the two Calgary firms and the chief differences are listed below:-

1. No pumping plant nor pump-house to house such plant for fire fighting purposes called for in original specifications.

2. Size of storage tank in first specifications was 12' x 12' x 12' (inside), and in recent plan, 19' - 10" x 12' - 10" x 12' - 0".

3. Disposal bed in first scheme was single trench, in later scheme a system of trenches designed to spread the effluent from the sewers.

4. The construction of the reinforced concrete walls and slabs in the tanks in the later design, is superior to that of the first.

5. No man-holes specifically mentioned in first scheme. To compare Brown and Hudson's figures and tender with the later ones, additions to cover the foregoing items must be made and these would approximately be as follows:-

For:	Item #1.	Pumping plant, freight, etc. .	$3,282.00
	" #2.	Larger reservoir	700.00
	" #3.	Disposal beds	65.00
	" #4.	Superior design and construction of all concrete structures	500.00
	" #5.	Man-hole	
		Total	$4,547.00
Original tender of Brown and Hudson			12,591.00
			$17,138.00

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

A fair comparison would therefore be obtained by showing these figures:-

Brown and Hudson	.....	$17,138.00
Bennett and White	.....	$18,250.00
John Towers	.....	$15,452.00

As an alternative design the well at the spring and the rain-water tank were reduced in size and a second tender was received for the alternative scheme from John Towers for $14,386.01.

This would effect a saving of $1,066.09.

(Sgd) R. H. Goodchild.

File: 4617.

Dominion Water Power and Reclamation Service

Calgary, Alta.,
April 27, 1928.

Sir:

40782 W.R.

In further reference to the plans and specifications prepared in this office in connection with the water supply and sewerage disposal scheme for the Roman Catholic Indian Residential School at Onion Lake, Alberta.

We wired you on the 25th instant that tenders had been received from Messrs. Bennett and White and from Mr. John Towers, both of this city, giving you the figures submitted. We have since revised the plans submitted and are now submitting an alternative scheme which includes a revision of the original plans in that the capacity of the tanks has been considerably reduced. The storage reservoir at the springs is reduced in capacity from 15,700 U.S. gallons to 5,000 U.S. gallons. The rain-water tank originally shown on the plans previously submitted as having a capacity of 15,700 U.S. gallons has been altered to show a capacity of 10,600 U.S. gallons. These changes, if carried out, will mean a saving on the estimated figures of the lowest bidder; i.e., Mr. John Towers, of some $1,066.09.

I am also submitting for your information a memorandum which has been prepared by Mr. Goodchild and which analyzes the tenders submitted by Messrs. Brown and Hudson of Winnipeg and those submitted by the Calgary firms. From this analysis it will be noted that certain essentials were omitted from the original specifications and therefore from the tender submitted by Messrs. Brown and Hudson. These omissions have been estimated for and a new figure prepared, which brings the bid of Messrs. Brown and Hudson to $17,138, which very closely approximates the average of the other bids received. The lowest tender is still that of Mr. John Towers of Calgary.

Encs.

We are also forwarding two copies of the tenders submitted by Mr. John Towers and Messrs. Bennett and White; also one copy of the "Specifications" and "Information for Bidders", which were omitted from our letter of the 20th inst. An independent estimate prepared by Mr. Goodchild in duplicate which was asked for in your telegram of the 25th instant, is also enclosed.

An alternative bid has also been received from Mr. John Towers, which covers the proposed reduction in capacity of the tanks referred to in the first part of this letter. Copy of this bid is likewise attached.

The Director,
Water Power & Reclamation,
Department of Interior,
Ottawa.

Indian Affairs. (RG 10, Volume 6324, file 659-5, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

In our wire to you of the 25th instant we stated the amount of Mr. Towers' second tender was $14,326.00. This should have read $14,386.00.

For your information we might say that, from our personal knowledge and from inquiries made, Mr. John Towers is the more experienced bidder of the two Calgary firms, having had considerable experience with this particular class of installation. Mr. John Haddin, a local consulting engineer, has had considerable experience with Mr. Towers on small contracts of this nature and very highly recommends him for a job of this kind. We have no knowledge of the experience or suitability of Messrs. Brown and Hudson for this work; neither do we know whether they are still on the ground and in a position to submit a bid.

Two blue-prints of the alternative scheme are also enclosed; likewise a further blue-print of the detailed plan of the water supply and sewerage systems, showing an amendment in the pumping plant at the well. The capacity originally given in error as 1,000 gallons per hour is now changed to 2,500 gallons per hour.

Your obedient servant,

(Sgd.) P..J. Jennings,
Acting Commissioner of Irrigation.

Sir,

Your file number: 115-8-15.

In further reference to my letter of January 4 with regard to the proposed construction of a water supply and sewerage system at the new Onion Lake residential school, I enclose herewith a report on the scheme received from Mr. Tempest, Commissioner of Irrigation at Calgary, with plans of the proposed work and an estimate of cost totalling $16,035.46. There is also enclosed a copy of Mr. Tempest's letter of April 27 which describes the project and the tenders which have been received, together with the following material mentioned in Mr. Tempest's letter,-

Encl.

Memorandum re tenders by Mr. Goodchild, who prepared the report herewith;
Tender by the Bennett and White Construction Company, amounting to $18,250.;
Tender by Mr. John Towers of Calgary, amounting to $15,452.10; and
Amended tender by Mr. Towers, amounting to $14,386.01.

The blue prints of the alternative scheme referred to in the last paragraph of Mr. Tempest's letter are enclosed with the plans attached to the report.

We have received only copies of the tenders submitted, the originals having been retained by Mr. Tempest, but these of course can be obtained if you so desire; and I shall be glad to have your instructions with regard to those submitted.

Your obedient servant,

J. T. Johnston,
Director.

May 9, 1928.

MEMORANDUM: Dr. Scott.

Plans specifications and tenders have been obtained through the office of the Dominion Water Power Branch at Calgary, for the construction of a water supply and sewerage system for the new Onion Lake Indian Residential School, Sask., the plans and specifications having been previously examined here and approved of by this Department. According to the report recently submitted by the Dominion Water Power Branch, the Department will be justified in accepting the amended tender of Mr. Towers of Calgary, which amounts to $14,386.01. In view of the explanation given in the accompanying reports I would recommend that the tender of Mr. Towers be accepted, and that the work be proceeded with as early as convenient under the immediate supervision of an officer of the Dominion Water Power Branch.

Memorandum:

DR. SCOTT.

With reference to the Dominion Water Power Branch proposal for the water supply and sewage disposal at the new Onion Lake R. C. Indian Residential School, I have to report that, after discussion with both Mr. Chene and Mr. Orr, there is nothing unnecessary recommended. The reason the estimate of the cost amounts to such a large sum is that all necessary work of this character is lumped in the one proposal.

Whereas the school should be finished at the earliest possible date, so that it could be occupied, I wish to recommend that immediate steps be taken to accept a tender for the work.

Supt. of Indian Education.

Memorandum:

HONOURABLE CHARLES STEWART.

The new building for the Onion Lake R. C. Indian Residential School is practically completed. It was necessary to wait for the spring to secure a recommendation of the Dominion Water Power and Reclamation Service in connection with a water supply and sewerage system. The Director has now forwarded a recommendation, which involves a well, reservoirs, rain water tank, engine, pumps, pressure tanks and all necessary piping;and septic tank with the necessary sewers and disposal beds. The cost is approximately $14,400 and funds are available in the Vote for Indian Education.

As this new building cannot be occupied until the water supply and sewerage systems are ready, I should be pleased to have your authority to ask the Dominion Water Power Branch to accept without delay the lowest tender they have received for this work. The activity will be under the supervision of one of their officers.

Duncan C. Scott

Dear Sirs

I hereby submit the following report re the construction of the Roman Catholic Indian Residential School here.

The plumbing and heating work is completed with the exception of the testing of the plant,the men has left for home but will return for the test as soon as the sewer is in.

The painting is going very slow owing to a dispute between the general contractor and the sub-contractor re the painting contract and at the present time the sub-contractor is in winnipeg trying to arrange a settlement.

Mr Hudson arrived here from winnipeg may the 3rd & brought a plasterer and cement worker to have some work done over which was unsatisfactory.

The plans of base for the electric lighting plant arrived and I am having the excavations made and the concrete put in. the plant is expected in Lloydminster any day now and have made arrangements to have it hauled to the school.

The staff of the Roman Catholic Mission have moved in to part of the building as they have a lot of work to do which cannot be attended to as their temporary quarters are so far away from here

I am doing all that is possible to have the contract completed and from what I cansee there is only about ten days work to do to complete the work if the contractor would see that the sub-contractors got their work cleaned up.

The electrician is here installing the fixtures which will be completed early next week providing there is no delay in the arrival of the ballance of the material.

There has been no word lately in referance to the sewer and water system and the mission folks are very anxious to know what is being done,so if you could give any information re the above it would be greatly appreciated.

The above report is respectfully submited by

Your obedient servant

Sir,-

Referring to your letter of the 2nd instant, advising me of the tenders received by your office at Calgary, for the construction of a water supply and sewerage system for the new Onion Lake Indian Residential School, I beg to confirm the instructions already given your office yesterday to accept the amended tender of Mr. John Towers, of Calgary, amounting to $14,386.01.

The work can be proceeded with as early as possible in accordance with the project which has been tendered on. I would request that you furnish the Department copies of signed agreement and other documents as has been done in other cases similar to this carried out by your officers on behalf of this Department.

Progress payment will be sent to the Engineer in charge of the work upon the receipt of a periodical report on the progress of the work.

Dear Sirs

Referring further to your letter of may 4th re Cupboards. Shelving.Tables etc, I wrote to the Western Mfg Co and Cushing Bros Co for prices on the Chapel Seating but as I had not the sketches of the Cupboards,having enclosed them with quotation to your office I could not get prices till I received them back,but as soon as you return them I will get prices and have the order placed.

Re shelving.tables.lockers and cupboards for the school I purchased the lumber for same at Lloydminster and engaged 5 carpenters who are on the job,most of whom have been working since the I6 th. I have also had the excavation made and concrete footings put in for the electric lighting plant. I have had the plant brought out from Lloydminster and expect to have it set in place by monday the 28th.

I am also having figured glass panels put in 8 doors opening into the corridors to give light when doors are closed as authorized by yuo re your letter of september 2Ist/27.

As requested by you in your letter of may 4th re estimate of cost of labour for the above mentioned work I judge it will run about I200.00 but if it is suitable to you I would suggest that say 600.00 be forwarded which would cover the cost of labour to the end of the month and when completed I could send you a full statement of the work.

The men at work will be expecting to receive their wages about the first of the month so I would be pleased to have you make the nessessary arrangements at the earliest possible date.I remain

Dear Sir,

In the new St. Antony School, I would suggest the setting of solid iron screens to protect the windows against breakage from inside in the playing rooms.

Whithout those screens it would almost be impossible to prevent daily smashing of panes, especially in the boys recreation hall. Therefore I think the suggestion will meet with the approval of the Departement.

Yours very truly,

Recommended

Dear Sir,

I beg to draw your attention to the fact that the construction of the School building being terminated and all the inside water ducts ready for Connection with the water supply system, the work for the installation of the water supply system the septic tank and drainage system outside of building should begin at once.

Very likely this work will take about two months and as the entry of the children is supposed to happen at the end of August, it seems to me advisable to draw the attention of the Department on this matter, as we are anxious to see every thing ready for the new School term.

Yours very truly,

L Ballen

DEPARTMENT OF LABOUR
CANADA

Ottawa, June 21, 1928.

Dear Sir,

Referring to the conversation which I had with you by telephone yesterday, I am enclosing herewith copy of a letter which has been addressed to the Minister of Labour by Mr. H. J. Skinner, 584 Spence Street, Winnipeg, in which it is stated that this man was employed as a painter for a sub-contractor on the Onion Lake Indian School and that an amount of $384.14 is owing him for wages. You will observe from his letter that Mr. Skinner requests the assistance of the Government in collecting this amount.

On behalf of the Minister of Labour I would ask that you be good enough to have enquiry made into this matter in order that a settlement may be made of Mr. Skinner's claim if the same is found to be in order. You will observe from the labour conditions of the contract that authority is given to the Government to pay wages to workmen in default of payment by a contractor. Ordinarily, however, it is not necessary to resort to this course and the matter is usually adjusted by bringing it to the attention of the contracting firm concerned.

Yours very truly,

Gerald H. Brown

(COPY)

H. J. Skinner,
584 Spence Street,
Winnipeg, Man.

Minister of Labour,
Ottawa, Ont.

Dear Sir,

I wish to make claim for $384.14 wages due to me for work on the Onion Lake School at Onion Lake, Sask., contracted for by Brown and Hudson of Winnipeg. I am a painter and worked for Mr. A. Cloughton who sub-contracted the painting of the school. He has broken his contract and Brown and Hudson are finishing his work. But where do I get my money from? I worked hard all winter and now, according to Mr. Brown of Brown and Hudson, I am just out the sum due me for wages. Cloughton says he will pay me when he gets a settlement from the job. Brown says he hasn't anything coming to him. According to the specifications Clause D, page 13 and Clause F, page 13, I figured I had no need to worry at all but now it looks different. I need the money bad and must get it at once if at all possible. My wife is in the hospital and I am financially sunk unless I get this. Cloughton admits the correctness of this amount, $384.14. So I will leave this matter in your hands, trusting you to see it through or to advise me at your earliest convenience what other course I have to follow if this one is not correct.

Mr. Cloughton's address is 125 Kennedy Street, Winnipeg, Man.; Mr. Brown's of Brown and Hudsons is 791 Preston Ave., Winnipeg, Man.

Yours very truly,

(Sgd.) H. J. Skinner.

JUN 25 19[illegible]
RECORDS

Dear Sirs

Following up my telegram of this date as follows

Being offered a position with the City of Regina I would ask to be released from this position as I must report there next monday. could come back here later and make final inspection and issue final estimate if required and also make settlement of extras wire answer.

I tried to arrange with the City of Regina to hold the position till the school here was completed and final settlement made with the contractors,but conditions were such that they asked me to report on monday june 25th.

I wish at present to say that I appreciate the kindness & confidence you have placed in me while in your employ and I hope that I may have the pleasure of serving you again. I would have been delighted to have continued with your department in any province in the dominion,but as you mentioned in your letter of march the sixth that there was no buildings being erected this year by your department in this province which would require the services of an inspector and I took it for granted that you did not make a practice of sending an inspector from one province to another.

I wish to say that I am prepared to look after the adjustment of accounts and extras re the contract and also check up all accounts re the work being carried out at present by day labour and estimates received on material and any other assistance I can give re the school will be carried out if you wish me to do so. I have a statement about ready of the labour on the lockers.tables & shelving and the amount paid on same and the amount of money yet required to pay the ballance. with kind regards I beg to remain.

DEPT. OF INDIAN AFFAIRS
JUN 25
RECORDS

Dear Sirs

I hereby wish to submit the following report on the progress made in the construction of the R C Indian Residential School here.

The work on the school is nearing completion, the contractor has six painters and one carpenter on the job and five at work on the shelving. tables. cupboards and lockers and I expect that the contract will be completed by the 22nd if the weather is favorable for outside painting.

There has been no word of the expert to connect up the lighting plant and I wired Norris & Beairsto to have the plant put in operation.

There has been nothing done yet in connection with the sewer and water system and the rains lately has been causing considerable trouble. I wired to Mr Tempest of Calgary the Commissioner of Irrigation to find out if he knew what the delay was but up to the present time I have received no reply from him.

The above report is respectfully submitted by

Ontario.

Dear Sir:

In reply to your wire June 20th , the policy expiring April 15th was renewed for two months which was considered ample time to finish painting. Unfortunately the Inspector issued certificates to the Painting Contractor to the extent of $ 3000.00 when only $ 1800.00 worth of work was done. I had no alternative but pay sub contractors the amount of Inspector's certificate less ten per -cent. The painting contractor took advantage and quit the job. We were compelled to send painters from here to finish up at double the cost including loss in time.

From yesterday's report everything should be finished now. I might also point out that the Inspector will not pass Heating plant until boilers are tested which cannot be done until water pressure is established which is not part of our contract although boilers have functioned all Winter. It would appear very unfair for us to keep building insured until such times as boilers are tested also several carpenters have been working in the building for six weeks or more while the building was covered by our policy. doing work not in our contract.

Sir,-

Replying to your letter of the 19th instant, as already advised by telegram your resignation is accepted as Inspector of Construction for the Onion Lake Indian Residential School, but I would ask you to kindly make what arrange and inspections you think necessary in order to wind up the contract for this building. I would also ask you to kindly issue the necessary certificates and check all extras. All extra work should be indicated on the final certificate. Please advise Brown and Hudson, the contractors, that you will issue the final certificate when the building is completed.

Your obedient servant,

A. F. MacKenzie.
Acting, Assistant Deputy and Secretary.

Sir:-

I have a request from the Rev. L. Balter, Principal at the Onion Lake R.C.Residential School, forwarded through the Indian Agent, that the new barn built last fall be wired for lighting. I have also had a price submitted for installing the pole line from the school to the barn, connecting same with the switch board and providing 12 lights, at a cost of $145.00 with the wiring in conduit. I have also a quotation of $160.00 for the above work using B.X. armoured cable instead of the knob and tube installation. This type of wiring would, I am told, conform with the wiring in the school building.

I would be glad to know if the Department will authorize this work to be proceeded with.

Your obedient servant,

W. M. Graham

Ottawa Ont

Dear Sirs

In answer to your letter of the 22nd re claim for wages due Mr H J Skinner from the Sub-Contractor on Painting at the R C Indian Residential School at Onion Lake. I may say that I received a letter from Mr Skinner some time ago and took the matter up with Brown & Hudson,notifying them that the matter would have to be adjusted before they could get their final estimate.

The sub-contractor on painting quit the job owing to a misunderstanding about some extras he claimed from the contractor as they gave him the quantities to figure on and which he claims is not anything near the amount that is in the building,so they could not come to any settlement and he quit the job.

Brown and Hudson sent up men from Winnipeg to complete the job and which they have completed and the men have gone back to Winnipeg.

I expect that all the work will be completed on the School contract by the end of this week and if you wish I could arrange to go up and make the final inspection and issue the final estimate when they have complied with the requirements of the specifications.

Awaiting your decision in the matter I remain

Your obedient servant

W A Hamilton
2259 Lorne Street

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Under the circumstances, it would appear to be the only choice we have.

With reference to the rain-water tank, it now develops that the original intention was to place this tank on the east side of the building (not on the west as laid out by the writer) and, in accordance with this idea, both the supply pipe from the roof drain and an overflow pipe (the latter connected under the boiler room floor with the boiler room sewer) to handle the overflow from this tank, were carried through the foundation and now project some four feet on the east side of the north wing of the building, some 6' underground.

This, of course, necessitates a change in location of the rain-water tank, and the writer authorized (in writing) the contractor to locate the soft water tank to the east of the building, and staked out its position.

This change involves no additional expense.

The writer is now on his way to Prince Albert to obtain a flood measurement of the N. Saskatchewan river now at a very high stage, also Carrot and Melfort creeks, and he proposes to revisit the school about June 28th.

The heavy rains made it necessary to leave car #76 at Lloydminster, and to travel by rail.

The trip from Onion Lake to Lloydminster this morning; i.e., thirty-five miles, took the writer four hours.

Your obedient servant,

(Sgd) R. H. Goodchild.

(COPY) File 4617

Saskatoon, Saskatchewan.
June 19, 1928.

The Commissioner of Irrigation,
Department of the Interior,
Calgary, Alberta.

Sir:- Re: Onion Lake School Sewer.

I wired you today to the effect that it is very desirable to extend the sewage disposal system a distance of one hundred and fifty feet, so that the disposal beds will be at "the foot of the slope."

Mr. Towers agree with me that this should be done and you may remember--or Mr. Jennings will, I think, that the layout originally proposed by me called for such a location for the disposal beds.

I may say that Mr. Towers, as soon as he saw the proposed location, expressed the opinion that the system would work far better at the bottom of the steep slope, at a place where the fall is comparatively gentle, and the writer has always felt that this was so.

In order that this work may be done without delay I wired you setting Monday morning as a time limit, as Mr. Towers will be ready to begin the work at this point at that time.

I discussed the question with Mr. Hamilton, the Superintendent of Construction, and he expressed the opinion that one hundred dollars was a very reasonable figure for the extra work; i.e., 150' of trench (covered) and 150' 4" weeping tile drain pipe.

With reference to the grades of the sewer lines, it has been found necessary to alter them very materially due to the fact that the information supplied previously to the writer was not correct; and there are no plans in existence which show the elevations of piping, sewer outlets, etc., according to Mr. Hamilton.

The boiler room sewer with which the new sewer must be c onnected is eleven feet underground and this will mean much heavier work than was expected and calculated for.

Mr. Towers, of course, cannot take this extra cut out for the contract price, and the sewer must of necessity be placed at the depth mentioned.

Towers has generously offered to excavate up to a depth of seven feet at contract price and to take out the additional cut in excess of that figure on a cost / 15 per cent basis.

I may say that the excess over seven feet is for a distance of 175' only, so the extra cost will be small.

Will you kindly take the necessary steps to have this arrangement approved and advise both Mr. Towers and myself if you approve and can so arrange it.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

Re R. C. Indian School at Onion Lake.

Dear Sir:

We are in receipt of a letter from W.A. Hamilton stating he cannot issue the final certificate until P.T.Roberts claim is settled. Regarding this claim it is settled and we have receipt in full. There are two claims for wages against the Painting Contractor which resulted from Inspector's certificate being far in advance and access of work done. However we are trying to effect a settlement.

We also beg to inform you when estimating on the above build the official information we received concerning the site was fo a school to be erected at Onion Lake. We were also informed g was available at no greater distance than one mile also that was right on the job. The building erected is approximately e miles from Onion Lake. Gravel had to be hauled four miles. Wat to be hauled three quarters of a mile from a lake also camps h be erected and all supplies transported from Onion Lake. You reallize the extra dosts incurred. This will notify you we demand the difference in costs.

Yours truly, BROWN

Ottawa, July 7, 1928.

Attention - Mr. H. D. Wilshire,
Sales Department, Commercial Division.

Gentlemen:

I have to acknowledge, with thanks, receipt of your letter of the 3rd instant, relative to the issuing of a fleet owner's card to Rev. L. Balter, Principal of the Onion Lake R. C. Indian Residential School. We are requesting the reverend gentleman to forward to you information respecting the model and serial number of his car.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

Ottawa, July 7, 1928.

Sir:

Replying to your letter of the 15th ultimo, relative to the request of the Principal of the Onion Lake R. C. Indian Residential School for a fleet owner's card for his Ford car, I beg to say that we have taken this matter up with the Ford Motor Company of Canada, Ltd., Ford, Ont., and they state they will be pleased to issue this card to Rev. Father Balter on receipt of information respecting the model and serial number of the car. You should request Rev. Father Balter to forward the information asked for, addressing his communication to the Ford Motor Company of Canada, Ltd., Ford, Ont., and marking same for the attention of Mr. H. D. Wilshire, Sales Department, Commercial Division. The Principal should refer to departmental letter dated June 27th.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

C O N T R A C T.

THIS CONTRACT made this 5th day of June, nineteen hundred and twenty eight

BY AND BETWEEN

THE COMMISSIONER OF IRRIGATION of the Department of the Interior, of the Dominion of Canada herein termed "the Commissioner"

OF THE FIRST PART

-and-

JOHN TOWERS of Post Office Box 1842 of the City of Calgary in the Province of Alberta herein termed "the Contractor"

OF THE SECOND PART

WHEREAS the Contractor has under date the 25th day of April nineteen hundred and twenty-eight made a satisfactory tender for the construction of a water supply and sewerage disposal system to be constructed on Onion Lake Indian Reserve for the Onion Lake Indian Residential School situated in township fifty-four (54), range twenty-seven (27) west of the third (3rd) meridian in the Province of Saskatchewan.

AND WHEREAS the Commissioner did award to the Contractor the contract for the material necessary to the work required to install and complete the above mentioned water supply and sewerage disposal system, hereinafter called "the work", or "the works."

NOW THIS CONTRACT WITNESSETH:

1. Wherever in this Contract, the words: Province, Commissioner, Engineer, or Contractor may appear they shall be defined as follows:

"Province" shall mean the Province of Saskatchewan.

"Commissioner" shall mean the Commissioner of Irrigation, of the Water Power & Reclamation Service, Department of the Interior.

"Engineer" shall mean the officer appointed by the Department of the Interior to examine and check the work under construction from time to time.

"Contractor" shall mean John Towers of Post Office Box 1842, of the City of Calgary, in the Province of Alberta.

2. The Contractor, for himself, his heirs, executors, administrators and assigns, for and in consideration of certain payments to be made to him as hereinafter specified, hereby covenants and agrees with the Commissioner and his successors to perform and execute the whole of the work mentioned herein, to thesatisfaction of the Engineer in strict accordance with the provisions of

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

this agreement, the Information of Bidders, the Tender and Schedule of Quantities, the Specifications, General Conditions and Plans referred to, all of which are made part of this contract as if embodied herein, and thereafter maintain the same as therein provided.

AND FURTHER COVENANTS AND AGREES to and with the said Commissioner to carry out, perform and observe and be bound by all the covenants, agreements, stipulations, provisoes, and conditions, to the same extent and as fully as if each of them were set out specifically in this Contract.

3. In consideration of the performance by the Contractor of his covenants and agreements, as herein set forth, the Commissioner hereby covenants and agrees to pay the Contractor the amounts set forth in the said Tender, at the rates, and in the manner and subject to the drawbacks, and penalties set forth in the said Schedule of Quantities, Specifications and General Conditions.

4. The Contractor delcares and agrees that the Contract is made and entered into by him for the consideration herein named solely on his own knowledge, and upon information derived from sources other than the Commissioner, his officers or agents, of and respecting the nature and formation of the land upon which the works are to be performed, or the character, quantity or location of the material to be removed; and that he does not rely on any statement made to him by the Commissioner or his officers or agents. No agreement with or statement by any officer, agent or employee of the Commissioner after the execution of this agreement shall affect, waive or modify any of the terms or obligations herein contained.

5. If the Contractor fail to complete the work within the time specified, and if the Commissioner shall nevertheless permit the said Contractor to proceed and continue, and complete the same as if such time had not lapsed, such permission shall not modify nor waive in any respect any forfeiture or liability of the Contractor for damages arising from such non-completion of said work within the time specified, and covered by the "Liquidated Damages" clause of the Specifications; but such liability shall continue in full force against the said Contractor as if such permission had not been granted.

IN WITNESS WHEREOF the parties hereto have hereunto set their hands and seals.

DATED the day and year first herein written.

GENERAL SPECIFICATIONS.

1.0 The work to be done and the material and equipment to be supplied include the following:-

1.1 Excavate for and erect a wall and footing of mass concrete which is to act as a holdup or dam for the discharge of the spring. The west 15 feet of the dam to be carried down to the extra depth as shown on plan. To excavate to depth shown on plan, a sump on the north side of dam which will extend for 10 feet along the dam and back from the dam a distance equal to the length of the reservoir. This sump to be filled in for a depth of 6 feet with clean gravel which is to act as a filter for the water entering the reservoir.

1.2 Excavate for and erect a reinforced concrete reservoir at the west end of the stop wall as shown on plan. Erect over the north 8 feet of the reservoir a building for housing pumping equipment. Reservoir wall to be backfilled when completed and the unhoused portion of the top to be back-filled to the natural ground level.

1.3 Excavate and lay a 3" galvanized wrought steel pipeline, at the grades and depths shown on profiles, from the reservoir at east side of building. This line to be provided with a valve and connections to enable the entire line to be drained. The portion of the line extending from the pump house at spring to a point where seven feet of cover is obtained to be protected as shown on plans. Entire line to be backfilled when laying of pipe has been completed, to the level of the natural ground surface.

1.4 Excavate for and erect a reinforced concrete reservoir on the water supply line at a point 12 feet east of building as shown on plan. When complete back fill to the elevation of the natural ground surface, approximately 6.0 feet.

1.5 Excavate for and lay a 1-1/4 inch galvanized pipe line from the reservoir to the typhoon pump in the basement of the building. Portion of this line which is outside of building to be laid at a depth of 7 feet below the surface of the ground and when completed this portion of line to be backfilled to the level of the natural ground surface.

1.6 To excavate and lay a five inch cast iron pipe line 7 feet below the ground surface from the reservoir to connection with the #4 Rumsey Pump which is on the line provided and shown for fire protection. On completion of line, trench to be backfilled to the natural ground surface.

1.7 Excavate and lay a five inch cast iron pipe line from the Rumsey Pump to the building and connect with the fire protection line installed in the building. Portion of this line which is outside of building to be laid at a 7 feet below the surface of ground and when completed the trench outside of building to be backfilled to the natural surface of the ground.

1.8 To erect at point shown on plan a building to house the fire protection pumps and engines.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

1.9 To provide, install and connect with the reservoirs and water supply lines the following equipment, or equipment of similar capacity and efficiency:-

(a) In building at spring -

1-6 H.P. Fairbanks-Morse type "Z" Kerosene engine with type "R" magneto, and closed cylinder with condensing radiator.

1-Typhoon Pump capacity 2500 U.S. Gallons per hour, fitted with 16 x 4½ tight pulley.

1-4" Graknight Endless Leather Belt for 6 foot belt centres.

with necessary piping, foot valve strainer, etc., as shown on plan.

(b) In building at Upper Reservoir -

1-25 H.P. "Fairbanks-Morse" type "Y" Style "HB" Standard Horizontal Oil Engine as illustrated and described in bulletin 3900 herewith, complete with the regular equipment as listed on page '18' of this bulletin.

1-Set foundation bolts for ditto.

1-Centrifugal circulating pump outfit.

2-Cooling Water tanks with necessary cooling water pipe and fittings for standard installation.

1-Rumsey Fig. Q198½ iron fitted Rotary Power Pump size #4 capacity 336 U.S. gallons per minute at 200 R.P.M., pump to be complete with air chamber, etc., for fire service.

1-6" Graknight Dynamo Double Leather Belt made endless for 12 foot Belt centres.

with necessary piping, foot valve strainer, etc., as shown on plan.

(c) Engineroom of Building -

2 - 42" x 18' Black Hydro Pneumatic Tanks.

1 - Fairbanks-Morse Self Oiling Typhoon pump capacity 1000 U. S. gallons per hour, fitted with 16 x 2¾" tight pulley.

1-1-H.P. Peerless 110 volt 1750 R.P.M. direct current motor with pulley, base and started.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

1-1 H.P. Peerless 110 volt 1750 R.P.M. direct current motor with pulley, base and starter.

1-#2927 Diaphragm Pressure Regulator to automatically start and stop the 1 H.P. motor from predetermined pressures in pneumatic tanks,

with necessary piping gauge glass and all mountings complete.

(d) In basement at or near the Laundry inside the building.

1-Fairbanks-Morse 210 gallon per hour (U.S.) Automatic electric water system with 110 volt direct current motor,

with necessary piping, foot valve strainer to connect up with the rain water tank outside the building.

2.0 Exacvate and lay where and at the elevations and grades shown on plans and profiles a six-inch tile drain from the drainage line at present installed in the building to connect up with the septic tank as shown on plan. When completed, trench to be backfilled to the natural surface of the ground.

2.1 Evcavate, erect and equip with syphons and all necessary connections a reinforced septic tank as shown on plan. The whole work when completed to be backfilled to the natural surface of the ground.

2.2. Excavate and lay a 6-inch tile drain from the septic tank to a man-hole "A", the portion of trench which extends from man-hole to be excavated sufficiently wide to take care of drain line from boiler room and laundry. Drain pipe to be laid at the elevation and grades shown on profile. When complete the trench to be backfilled to the natural ground surface.

2.3 Excavate, erect mass concrete Man-hole "A" at location and elevations shown on plans and profiles. The man-hole to be supplied and fitted with top door and frame and pipe connections as shown on detail plan of man-hole. When completed the structure to be backfilled to the natural ground surface elevation.

2.4 Excavate and lay where and at the elevations and grades shown on plans and profiles a six-inch tile drain from the drain line installed in the building and which is from the laundry and boiler room, to manhole "A". The trench when line is completed to be backfilled to the natural ground surface.

2.5 Excavate trenches to a depth of 3.0 feet and at grades to be determined by Engineer in Change for open tile drains which extend from man-hole "A" along top of slope for a distance of 30 feet on each side of man-hole and excavate four additional trenches each fifty feet in length which are spaced at 20-foot centres and extend down the slope of the bank to form a grid system as shown on plans. These trenches will also be excavated to a depth of 3 feet with side slopes of $\frac{1}{2}$ to 1

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

2.6 To provide and lay 4-inch open tiles in this grid system of trenches, tiles make connection with man-hole "A" and provide the necessary T's to permit the proper distribution of effluent through the whole of the open tile system. Joints of the open tile system to be covered to a depth of 4 inches with clean gravel to prevent the clogging up of the system through sloughing off of open trench banks.

3.0 Excavate for and erect a reinforced concrete tank for soft water, at a point indicated on general plan and as shown in details on plans. Excavate and lay, at elevation as shown on plans a ¾" galvanized pipe line from the reservoir to the soft water system installed in the building and connected with pumping equipment shown under 1.9. Excavate and lay a 4-inch cast iron pipe line, or other size similar to the drain pipe from roof of building now installed in building, connecting the installed drain pipe to the soft water tank as shown. Excavate and lay a 6" tile pipe from the soft water reservoir to the sewer line from boiler room and laundry. When completed the reservoir and all trenches connecting with the reservoir to be backfilled to the natural ground surface.

SUPPLY OR MATERIAL AND EQUIPMENT -

4.0 The contractor will supply all material and equipment which enter into and form part of the finished structures, and all material required for the construction and maintenance of forms and the like.

4.1 Transport: The contractor will transport all material and equipment from the Railway station to the sire of the work. The cost of transport will be included in the contract price for "Material Supplied" and "Equipment Supplied".

4.2 Care of Material: All material must be properly stored and cared for at all times. It will be subject to inspection before being used and if any is found to be damaged or in any way rendered useless or unsuitable it will be condemned and must immediately be removed from the work and replaced by suitable material by the Contractor at his sole expense.

SNOW, ICE AND DEBRIS -

5.0 Snow, Ice and Debris and foreign matter must be removed from the work whenever ordered by the Engineer, such removal being at the Contractor's expense.

FORMS -

6.0 Forms, where necessary, will be furnished and built by the Contractor and included in the contract price per cu. yd. of concrete.

6.1 Materials in forms may be used repeatedly but if so used shall be thoroughly cleaned after each time used and before setting up again. Before any concrete is poured against them the moulding surface must be speared with mineral oil or grease, or soap, in order to prevent the concrete from adhering to the forms.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

6.2 Forms must be left in place until the concrete has set sufficiently to be safe from damage, either in process of removal, or from lack of support or from any other cause. The method employed in removal of forms must be such as to offer the minimum possibility of damaging the soft concrete; using soft concrete as a fulcrum for prying forms loose is specially forbidden.

REINFORCEMENT -

7.0 The contractor will provide, fabricate and fix in place all reinforcement shown on the drawings or required by reason of the methods of construction adopted by him. He must take whatever precautions are necessary, or are ordered by the Engineer, to maintain such reinforcement in its proper position while pouring concrete and afterward until the concrete is set.

7.1 Material: Unless otherwise shown on the drawing or permitted by the District Engineer all reinforcement will be round steel bars meeting the requirements of the Standard Specifications of the American Society for Testing Materials for "Billet Steel Concrete Re-inforcement Bars (Serial designation A-15)" as adopted 1911 with all subsequent revisions.

7.2 Fabrication: The Contractor will do all work necessary in connection with cutting, bending, erection, tying, splicing and anchoring.

7.3 Bending: Wherever bars are shown on the drawing as bent to any shape, such bars will be bent cold (except anchors) using a suitable tool or appliance for the purpose.

7.4 Maintenance: All reinforcement must be so supported that it cannot be displaced before during or after the operation of pouring the concrete.

CONCRETE -

8.0 Materials, plant, labour, tools and appliances for proportioning, mixing, transporting, placing and finishing concrete will be supplied by the Contractor.

8.1 Materials: All material supplied will be tested and if defective must be immediately moved from the work and made good at the contractor's expense. Rejected material, if not removed within four days, may be destroyed or rendered useless by the Engineer.

8.2 Aggregate: The aggregate for concrete will consist of sound particles of silicious or calcareous rock. The particles must be free from hard adhering films or coatings of deleterious matter, such as clay, salts or vegetable acids.

8.3 Cement: All cement must comply with the requirements of the "Specification for Portland Cement" of the American Society for Testing Materials, as adopted September 1st, 1916, and all subsequrnt amendments or the Standards of the Engineering Institute of Canada. Cement may be shipped in bags or barrels at the option of the Contractor.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

8.4 Transport and Storage: Cement must be protected from the weather during transport and at all times. It must be stored as directed by the engineer in charge and be subject to inspection at any time. If found defective the whole or such part as the engineer may direct must be immediately removed from the work and replaced with new cement at the contractor's expense.

8.5 Reinforced concrete (which for this purpose is defined as all concrete members in which steel is employed, to take certain definite stresses which the concrete itself is incapable of taking) will be mixed in the proportion of one part of cement to two parts of fine aggregate and four parts of coarse aggregate, measured dry. Each bag of cement will be considered as one cubic foot and each barrel as four cubic feet and the volume of aggregate adjusted accordingly.

8.6 Mass concrete (which for this purpose is defined as all concrete members in which all direct stresses are borne by the concrete unaided although steel may be employed for temperature, shrinkage or other reasons) will be mixed in the proportion of one part of cement, two and one half parts fine aggregate and five parts of coarse aggregate. Packages of cement will count for volume as above specified.

8.7 Maximum sizes of aggregate in reinforced work will not exceed one and one half inches in greatest dimension. For mass concrete no particle may be used greater in longest dimension than two tenths (2/10) of the least dimension of the member for which the concrete is intended.

8.8 Consistency: Sufficient water will be used in mixing concrete to give a mixture which will flow (not slide) readily on a plank surface inclined at 25 degrees to the horizontal. For reinforced work, especially in vertical members such as walls, slabs, counterforts, and columns, the concrete must be mixed sufficiently fluid to flow readily into corners and angles and about the reinforcing steel and to fill all voids.

8.9 Finish: After removal of forms, the surface will be carefully examined for exposed reinforcement. All holes, open voids, or pockets will be filled with stiff mortar mixed one to one and rammed in hard. The wires will be clipped off neatly flush with the surface. Bolt holes will be carefully cleaned out by a jet of water, air or steam under pressure, and filled with stiff mortar. The whole surface of all members, except floors, will be painted with neat grout.

9.0 Exacvation of Trenches: The trenches in which the pipes are to be laid shall be excavated on the lines shown on the plan. There shall be no bends or undulations made other than those shown on plan or permitted by the Engineer.

All tranches shall be of sufficient width to permit of proper jointing of the pipes. Bell holes at joints shall

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

be excavated below the bottom of the trench, of sufficient size to allow ample room for the proper caulking of the joints, and so that the body of the pipe shall rest on solid ground throughout its length.

All necessary shoring and bracing shall be done by the Contractor to prevent movement in the sides of the excavation and all timber required as well as all necessary labour in connection with it shall be furnished by the Contractor as part of the Contract.

All water shall be removed by the Contractor from the trenches by pumping or other means, and the trench must be kept perfectly free from water when the jointing of the pipe is being done.

10.0 Backfilling Trenches: No backfilling shall be done until the pipes laid and jointed have been inspected and approved of by the Engineer.

After permission has been given, the trench shall be filled with selected earth free from stones and rubbish to a depth of at least two feet above the top of the pipe, thoroughly consolidated and compacted by ramming with suitable tools.

After the pipes have been covered with two feet of filling as specified, the remainder of the trench may be filled by hand, team or machinery. No large stones shall be allowed to be placed in the trench.

11.0 Coating Pipes: All galvanized pipes will have a heavy coating of hot coal tar or pitch applied before being jointed.

12.0 Joints: All vitrified tile drain pipes are to be laid from lower end up and the contractor will see that each length of pipe is clean before being laid. A gasket of hemp or jute of sufficient size will be inserted between the hub and spigot and properly rammed so that a space 1" in depth shall remain for cement mortar, to be inserted. The space between the spigot and hub shall be completely filled with mortar thoroughly pressed in all around and every precaution taken to secure a water-tight joint. The mortar shall be applied with a rubber mitten and rammed or compacted with a wooden caulking tool. Joints shall be finished all around with a neat level. The interior of each pipe joint shall be scraped clean of all projecting material.

13.0 Payments: Payments will be made at the time and in the manner following:-

The Contractor shall be entitled to eighty per centum (80%) of the value of the finished work at the end of every month after its commencement on the certified estimate of the engineer, approved by the Commissioner.

All the permanent equipment to be installed in accordance with the plans and specifications approved and forming part of this contract is to be

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

paid for on an eighty per centum (80%) basis when laid down on the property on the certificate of the engineer.

The remainder of the amount of the contract price with the exception of any deductions required to be made in accordance with this contract, shall, on the completion of the work, be paid to the Contractor, on the certificate of the Engineer, approved by the Commissioner, that the work has been satisfactorily completed in accordance with the terms of the contract.

14.0 In the event of solid rock being encountered in any of the excavations the same will be paid for on a cost basis plus fifteen per centum (15%).

15.0 The works specified herein are to be completed ready for use within a period of ninety (90) days of the signing of the contract.

File 4617

(COPY)

Calgary, Alberta.
June 30, 1928.

The Commissioner of Irrigation,
Calgary, Alberta.

Sir:-

In accordance with your instructions I visited the work being undertaken under contract to Mr. John Towers at the Onion Lake Indian Residential School on the 27th and 28th instants and beg to report as follows:-

Sewerage Disposal Plant:-

Good progress has been made on the sewerage system, the trench having been excavated and a 6" drain pipe laid for some 100' above and 80' below the septic tank. The septic tank is well advanced, concrete for the floor and some 3 to 4 feet of wall having been poured. Excellent sand and gravel has been found for this work at a distance of some three miles from it.

The extension of the sewerage disposal line which was recommended in our letter of the 26th instant was investigated and it was found that the proposed extension was desirable for the following reasons:-

(1) It places the disposal beds at a more suitable and desirable distance from the school buildings.

(2) The extension places the beds on an area more suited topographically for efficient distribution.

In addition to the cost mentioned in our letter of the 26th instant there will also be a small extra for the construction of a concrete chamber at the point where the boiler room sewer line intersects the septic tank line.

Excavation for the boiler room sewer line revealed the fact that the outlet elevation at the concrete wall of the building was 11 feet below the ground level. This is considerably deeper than originally estimated and entails a deeper trench, which will be partly in solid rock. Arrangements were therefore made with the contractor to take out the difference between estimated depth and actual depth required on a cost plus 15% basis. When the outlet pipe at this point was uncovered it was also found to be obstructed with concrete and debris and an examination of the sump in the boiler room revealed further obstruction which should be cleared out by the contractor for the building. The possibility of obstruction of this pipe within the building indicated the necessity of an inspection chamber at a point outside the building, as shown in red on attached plan. An inspection chamber at this point will enable the plant engineer to determine whether any future obstructions lie within or without the building.

On the sewerage line which takes care of the toilet, baths, etc., a similar inspection chamber should be constructed. On this line obstructions are even more likely to occur than on the line from the boiler room and laundry, owing to the open flush type of toilets installed for the children and the tendency to dispose of undesirable refuse through the toilets. The necessity of this inspection chamber was so apparent that instructions were left with the contractor to instal same on

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

the cost plus 15% basis. As only some 2 cubic yards of concrete are required for each chamber and a simple wooden cover will be quite sufficient, the added expense will not be a very serious matter.

Water Supply:-

An inspection of the trenches excavated for the sewerage disposal plant revealed the fact that frost penetrated the ground to a depth of 9 feet. In preparing the original cost estimates it was presumed that 8 feet of cover would be sufficient protection for this line. This depth of cover was based upon the assumption that some protection would be afforded by the winter snowfall. We are now advised that this cannot be depended upon in this locality as it often happens that in some years only a very light snowfall is received. In view of this information and the serious consequences which would result from a frozen water supply main, it was decided to place this main approximately 1 foot deeper than was originally estimated. An adjustment will be made with the contractor for the added depth.

Fire Protection Plant:-

In Mr. Goodchild's original report he stressed the desirability for an adequate system of fire protection, particularly so in view of the value of the building and its equipment. It was considered that provision should be made for at least four streams of 80 gallons per minute each at a pressure of 50 pounds playing simultaneously. From an examination of the fire fighting equipment which has been installed, I do not think it would be advisable to use the full discharge of the big fire pump directly into this system. My reason for this statement is that it is most unlikely that a fire would break out on two or more floors at the same time and to endeavor to concentrate the full discharge through the 2½" or even the 2" fire appliances on the various floors of the building would be dangerous to the whole system. I would therefore recommend that provision be made for installing at the discharge end of the pump a "T" piece with valve and short length of 5" pipe to the reservoir. This will permit operator to adjust his pressure on the discharge line and return balance of the flow to the reservoir.

The present location of the fire fighting pump house is far too close to the main building and as it is merely a frame structure, it might easily be endangered by a fire in the main building and rendered useless for the purpose for which it was installed. I therefore propose changing the location of the reservoir and pump house and placing them some 40 feet to the east of the main building, as shown on attached amended plan of the layout.

It is also considered desirable that a length of some 150 feet of 2½" fire hose be on hand at the pump house for immediate use. With a direct service from the pump an incipient fire in or around the buildings could be very effectively dealt with. The additional cost for extra equipment in this case is being obtained, and will consist of:-

1 hose hanger .....
150' - 2½" canvas hose .....
1 - 5" "T" piece .....
1 - 5" value .....

In order to utilize all of the storage water in case of fire a slight change has been found desirable in the plan of the

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

www.collectionscanada.gc.ca

reservoir. This entails provision for a 2-foot sump for the 5-inch suction line as shown on the attached blue-print of the changes recommended in this report.

Rain-water Tank:-

The position of the rain-water tank originally shown on the west side of the building will now be constructed on the east side and will adjoin the fire protection reservoir. This change will entail no additional cost and was necessitated by the fact that the outlet point provided by the contractors to connect with the rain-water tank was presumed to be on the other side of the building.

Remarks:-

It is rather unfortunate that our engineer was not provided with a plan of the building at the time the original survey was made. Had he been furnished with a plan of the general layout, showing the position of fire protection pipe-lines, sewer outlet points and elevations, much time and a great deal of the changes now found necessary could have been avoided.

I am attaching a blue-print of the changes recommended in this report.

Your obedient servant,

P. J. Jennings

Sir,

Re Onion Lake Indian Residential School.

With reference to the construction of the water supply and sewage disposal system for the Onion Lake Indian Residential School, I have received from the Commissioner of Irrigation at Calgary the following material for transmission to you:-

1. Contract, dated June 5, between the Commissioner of Irrigation and John Towers for the construction of this work.

2. General specifications on which the contract is based.

3. Report by Mr. Jennings, of our Calgary staff, describing the progress of the work.

4. Certificate No. 1 authorizing payment of $1,776.70 on account of material supplied and labour furnished to date.

One of each of the foregoing is enclosed herewith for your information. You will notice that Mr. Jennings makes certain recommendations regarding slight changes which are required, and I shall be glad to have your approval of his proposals. Attached to his report are two blueprints, one showing a general layout of the school buildings and the other giving some details of the changes which he has suggested. I trust these will show that the work is being carried out in a satisfactory manner.

Your obedient servant,

Encls.

Sir,

Your file number: 115-8-15.
Attention: Departmental Engineer.

In further reference to my letter of the 10th instant regarding the construction of the water supply and sewage disposal system for the Onion Lake Indian Residential School, I beg to refer you to the foot of page 2 of Mr. Jennings' report, where he recommends that the length of some 150 feet of 2½" fire hose be on hand at the pump-house for immediate use. The necessary items are listed in the report but the prices are not given. To-day, however, I have heard from Mr. Tempest, the Commissioner of Irrigation, that the additional cost of installing this fire-fighting equipment will be as follows:-

1 hose hanger	$ 11.60
100' of 2½" fire hose in 50' lengths .... (Underwriters' approved type)	100.00
1 15" fire nozzle	6.35
1 5" "T" piece	2.55
1 5" gate valve	19.25
Total	139.75

Mr. Tempest, in his letter, requested that the approval of the Indian Department should be obtained as soon as possible, in order that the material required could be shipped with the car of machinery leaving Winnipeg shortly for the school. Mr. Tempest has, accordingly, been advised that this expenditure is approved, the approval having been given verbally by your Departmental Engineer. I shall be glad, however, to have this confirmed in writing as well as the other recommendations referred to in my letter of the 10th instant.

R

Dear Sirs,

re; ONION LAKE SCHOOL.

We have been in touch with Mr. Brown since receiving your letter of the 20th ulto. and understand that he has written to you today explaining that his work has been completed for some time, and accepted, with the exception of the testing of the boilers, which cannot be done until the Department supplies water, which work is not completed, and may not be for sometime.

He feels that under the circumstances it is not reasonable to expect him to carry the insurance, and as there is only $10,000 under the two policies remaining in force, the position would appear to be unsatisfactory unless the Government immediately takes care of the matter.

We are enclosing Lost Policy vouchers, and would ask that these be signed and returned to us as quickly as possible and as soon, at least, as the matter is disposed of.

The position at the present time is that we have refunded the premium to Brown and Hudson for these cancellations. The insurance was placed at their request and cancelled by them, so that in the event of a loss, it is questionable whether the insurance would stand or not in any event.

Yours very truly,

SIMPSON & MITCHELL

GENERAL CONTRACTOR

DEPT. OF INDIAN AFFAIRS
JUL 17 1928
RECORDS

791 PRESTON AVENUE
WINNIPEG July 12th. 1928.

Duncan C. Scott,

Re Onion Lake School

Dear Sir,

We cannot understand your attitude in refusing to take over this building, when same has been occupied for nearly three months by the Sisters. Also several other workmen doing other contract work, and without our consent to occupy. We know of no reason why it should not be taken over and if there are reasons we feel we are entitled to know.

We have Inspectors letter dated June 27th. accepting work as satisfactory excepting boiler testing, which cannot be done until water pressure is established but we have the Plumbing Contractors guarantee that he will complete anything in his line as soon as notification is given when same can be done.

We cannot surmise why we should be expected to carry insurance and wait settlement for minor things we have no control of. We are also informed no precautions whatever are now being taken against fire, such as preventing smoking and so forth in the building. This coupled with the fact no water supply is available to quench a fire, we now urge you to place your own Insurance on the building immediately as we take no further responsibility through loss by fire. But we are willing to contribute any just share of Premiums.

Please advise when we can expect settlement and if delay is through any fault of ours.

Yours truly,

per S. Brown

Sir,

Your file number: 115-8-15
Attention: Departmental Engineer.

With further reference to the construction of the water supply and sewage disposal system for the Onion Lake Indian Residential School, I am today in receipt of the following telegram from Mr. J. S. Tempest, Commissioner of Irrigation:-

"Re Onion Lake Roman Catholic Indian School Contract Stop Main rain water outlet pipe from roof placed by contractors for building is three feet below sewer outlet system Stop This greatly complicates the situation as sewage system as now constructed cannot be utilized for surplus rain water Stop Only possible solution is to utilize trench now excavated for the three inch water main and install a separate four inch vitrified tile drain from rain water reservoir total length approximately five hundred feet Stop This will necessitate an additional expenditure of some eight hundred dollars and should be carried out on a cost plus fifteen per cent basis Stop Instructions issued to Towers to carry out this change letter follows."

You will note that it has been found necessary to construct a separate drain from the rain water reservoir owing to the sewer outlet system being at too high an elevation to use for this purpose. The cost of this work is estimated at approximately $800. I should be glad to have your approval of this change in the plans and of the additional expenditure.

MY FILE G.F.23.

Dear Sirs:

RE. THE ROMAN CATHOLIC MISSION, ONION LAKE.

I am acting for one Mr. Shinehart who did considerable work as a laborer in painting the above mentioned school. He has a claim of $180.00 of which he has been unable to obtain payment. The Contractors are Messrs. Brown & Hudson of Winnipeg, who claim that they sublet the work upon which my client was employed to one Cloughton, who is responsible for payment of my client's claim. It would look as though we are going to have trouble in securing payment, and I have been instructed to file a Lien against the building. Incidentally it appeared to me policy to take the matter up with your Department, and I shall be obliged if you will write me as soon as possible as to the prospects of securing your assistance in obtaining payment of this claim.

Yours truly,

Regina July I4th/28

Department of Indian Affairs

Ottawa Ont

Dear Sirs

In answer to your telegram of June 27th re installation of lighting plant at the R C Indian School Onion Lake.

I took the matter up with the manager of the Fairbanks Morse Co here about sending an expert up to the school and he informed me that the switchboard which was sent and which was specified was not suitable for the style of plant shipped to Onion Lake which is equiped with storage batteries. I notified him that the matter had been taken up with their firm and that they informed you that the L 2 switch board was in every way suitable for the plant using batteries.

They quoted me the cost of an expert to connect up the plant would be I50.00 and any material required in the work would be extra, so I would ask you to either take the matter up with them direct or if you wish I could take the matter up personally with them here in Regina.

Awaiting your decision in the matter I remain

Your obedient servant

Dear Sir*:-

re Union Lake Indian School

We are addressing you at this time to ascertain if your final estimate has been made to the Contractors of constructing the building, Messrs. Brown & Hudson.

You will remember that we have had some correspondence in this connection, and we were given to understand that you would have to get a clearance from us before the final estimate would be made. As they are still indebted to us, we would be glad to here from you if we are protected.

An early reply will be appreciated.

Yours truly,

P.T. Roberts, Limited.

Bonnar Hollands & Philps
601 Somerset Block
Winnipeg Man
attention Mr Hollands

Dear Sirs

Your letter of June 30th just received and am very much surprised to receive such instructions from you in Mr Browns behalf.

I have done my best to help this firm to get their contract completed and which is not completed at the present time and until it is completed there will be no final certificate issued.

Referring to the painting contract the estimates were put through by me and turned over to Mr Hudson the representative of the firm of Brown & Hudson; and if they paid more than they should have done it was their fault, and the last certificate I issued to them I held back enough money to complete all work in connection with the school, therefore I have no cause to worry. and untill the work is completed according to the plans and specifications the final estimate and certificate will not be issued by me.

As far as the P T Roberts account is conserned I received no receipt from Brown & Hudson in regard to this account. Mr Hudson of the firm of Brown & Hudson claimed to have a receipt in full from P T Roberts about the begining of the year and I asked him to turn it over to me which he refused to do, and three months after that I received a letter from P T Roberts dated april 13th stating that they had not received a settlement so far which will show where I stand in the matter.

I think that the best thing for Brown & Hudson to do is to get buisy and get the sub-contracts cleaned up and get their own part of the work done and there will be no trouble in getting a settlement as the government is as anxious as they are to get a settlement as the contract was given to Brown & Hudson on the understanding that it would be completed by Dec 8th/27 which leaves them seven months behind the 8th of this month.

Yours truly

Dear Sir:--

We have been consulted by Messrs. Brown & Hudson with respect to your Certificate for the balance of the payment to them of the amount coming on the contract for the Indian Residential School.

Mr. Brown informs us that you gave a certificate for the payment of $3000.00 for the painting of this school. According to his contract he had to honor and pay the certificate and it now appears that certain parties are making claim for not having been paid by the sub-contractor who received the $3000.00. It would further appear that at the time this certificate was given anywhere near $3000.00 worth of painting had not been done. We have advised Messrs. Brown & Hudson that you are personally liable with respect to this matter and before taking the matter up with the authorities at Ottawa, we are writing you this letter so as to give you an opportunity to arrange matters and issue final certificate.

We are informed that with respect to the account of Roberts, our clients presented to you a receipt in full signed by Roberts.

Yours truly,

DEPT. OF INDIAN AFFAIRS
JUL 21 1928
RECORDS

Dear Sirs

I received a letter from Brown and Hudsons Solisitors demanding a final estimate on contract for the Roman Catholic Indian Residential School. I am herewith enclose the letter & also the copy of the letter which I sent to them in answer to theirs. I am also enclosing a letter which I received from P T Roberts Limited.

On july 7th I went to Onion Lake for the purpose of paying the men who were making the fittings for the school and also to make the final estimate and final inspection, but on arrival I found that the work was not in a condition to give the final estimate as the plumbing and heating systems were not tested out and the automatic damper controls are not there yet and the boilers have to be washed out, there is also some painting to be done. the pulleys to drive the shafting in the laundry room are not there.

There are several leaks in the roof and I consider it will be nessessary to have the roofers go there to make the job satisfactory.

There are several accounts for labour and material used in the erection of the school and which they have asked me to protect them in the final estimate to Brown and Hudson I have written to them asking that they make an adjustment re those accounts but up to the present I have received no reply from them.

I would be pleased to hear from you advising me what you consider is best to be done in the matter. and if you wish I will be pleased to go to Onion Lake as soon as they get the above mentioned items adjusted. I remain

DEPARTMENT OF THE INTERIOR
CANADA

File No. 4617

Dominion Water Power and Reclamation Service

Calgary, Alta., July 16, 1928.

Sir,

I wired you on the 14th instant in regard to some proposed changes which are required in connection with the work of the water supply and sewage disposal system at the Onion Lake Catholic Indian Residential School.

Mr. John Towers, the contractor, made a special visit to Calgary on the 14th instant, as he was greatly worried when he found the conditions which existed in connection with the outlet elevation for the rain-water system. As I pointed out to you in my wire, the contractor for the building placed the outlet for the rain-water system some 3.1' lower than the sewage outlet pipe. It is therefore impossible to connect the two systems. The solution of the problem was outlined to you in my telegram and this method of dealing with the overflow from the roof will be more clearly brought to your attention by a perusal of the attached blue-print, whereon we have shown the proposed changes. Mr. Towers, who realized the importance of taking some immediate action in order to safeguard the department's interests, at once instructed his foreman to widen the trench of the 3" service water supply line so that the overflow from the rain-water reservoir could be taken to a suitable outlet near the spring and the line carried in the same trench. It is considered that a 4" vitrified tile pipe some 500' in length will be required and in order to save expense and not hold up the contractor, instructions have been issued for this work to be undertaken. It is hoped that our action in this regard, which appeared to us to be the only alternative in a very unsatisfactory situation, will meet with the support of the Indian Department.

Encl.

Mr. Towers advised us that on July 5th last they experienced an exceptionally heavy rainfall lasting over four hours--in fact, practically a cloud-burst. This downpour flooded the boiler-house and caused a great deal of inconvenience generally. Fortunately, however, by getting his men to work late that night, he was able to relieve the situation by cutting a hole through the wall of the boiler-house and connecting with the sewer line, which had already been constructed. He also reported that the roof of the building caused considerable trouble and inconvenience due to leakage.

We are advised that it is the intention of the Indian Department to install a small steam heater and tank in the boiler-house to be used in connection with the laundry. This has not yet been installed and we should be glad to be informed as to whether it is still the intention to install this plant, as there is no method at present by which the soft water from the rain-water tank can be heated. It could, however, be connected with such a heating plant and thereby render a double service.

The Director,
Water Power & Reclamation,
Department of the Interior,
OTTAWA.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

The work generally is progressing satisfactorily and the septic tank is to be in use in the very near future, Mr. Towers wishing to give the concrete walls and floor a few more days to set before connecting up with the building.

In order to save expense, we instructed the contractor on the 14th instant to include in his carload of equipment being shipped from Winnipeg on Wednesday, the 18th, the additional items of fire fighting equipment which were referred to you in my letter dated the 7th instant. We trust this action will duly receive your approval.

Your obedient servant,

(sgd) J.S.Tempest

Commissioner of Irrigation.

Sir,

Re Onion Lake Indian Residential School - Your file: 115-8-15.

With further reference to my letter of July 16th, I am attaching herewith a copy of a letter from our Commissioner of Irrigation giving further details of the necessity for the change in plans, at an additional expenditure of $800, to provide a separate drain from the rain water reservoir. I should be glad to have your approval of the Commissioner's action in authorizing the contractor to proceed with this construction.

Encl.

I should also be pleased to have your instructions in regard to the fourth paragraph of the Commissioner's letter, in which he wishes to be advised if it is the intention to install a steam heater and tank in the boiler-house in connection with the laundry, in order that provision may be made to connect such a heater with the rain-water tank.

Your obedient servant,

July 26, 1928.

Sir,-

I am in receipt of your letter of the 20th instant, together with copy of a communication sent in by your Commissioner of Irrigation, concerning the advisability of installing a separate drain from the rain water tank at the Onion Lake Indian Residential School at an estimated cost of $800.00.

In reply I beg to say that in view of the necessity of this additional work you may arrange to have it carried out in the manner suggested in the Commissioner's report.

With reference to the installation of a steam heater and tank in the boiler house to be used in connection with the laundry, I beg to say that the matter will be taken into consideration at a later date.

Your obedient servant,

A. F. MacKenzie.

(Copy) File 4617

North Battleford, Sask.
June 30, 1928.

The Commissioner of Irrigation,
Department of the Interior,
Calgary.

Sir,-

Re Onion Lake (R.C.)Residential School.

I beg to report as follows on the progress made in connection with the construction of water supply and sewage disposal systems at the above school up to June 30.

Sewage Disposal System:

Excavation	about 80% done
Concrete reinforcement	" 20% in place
Pipeline laid	" 45% " "
Backfilling	" 20% done
Material on the job	" 95% "

Water Supply System:

No work begun as yet. Pumping and pumping equipment not yet delivered.

Cement is now on the job.

Piping all on the job.

Rainwater Supply System:

No work done yet.

Material and equipment not on the job yet.

As the most urgent requirement is the drainage system work was first begun on this part of the work and it will be rushed to completion.

With reference to the class of work being done by the contractor I wish to say that good and careful work is being done. The forms erected are strong and well braced, the reinforcement has been accurately spaced and placed, due regard having been paid to the proper position of the wall reinforcement with relation to the face of the wall, usually a good test to show the care which has been used by the contractor. If the rest of the work be carried out with equal care - and there is no reason to doubt it - a good job is assured.

Your obedient servant,

(Sgd) R. H. Goodchild

District Engineer in Charge.

TENDERS WANTED

SEALED TENDERS addressed to the undersigned and endorsed on the envelope "Tender for Indian Agent's Residence at Manitowaning, Ont.", will be received up to noon of the 20th day of July, 1928, for the erection of the above mentioned building.

Plans and specifications may be seen at the office of the Indian Agent, at Manitowaning, and at the Department of Indian Affairs at Ottawa, Canada.

Each tender must be accompanied by an accepted cheque on a chartered bank of Canada for ten per cent of the amount of the tender, payable to the order of the undersigned. (War Bonds of the Dominion or Canadian National Railway Bonds will also be accepted as security, or Bonds and cheque if required to make up an odd amount), which amount will be forfeited if the person or persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for.

The lowest or any tender not necessarily accepted.

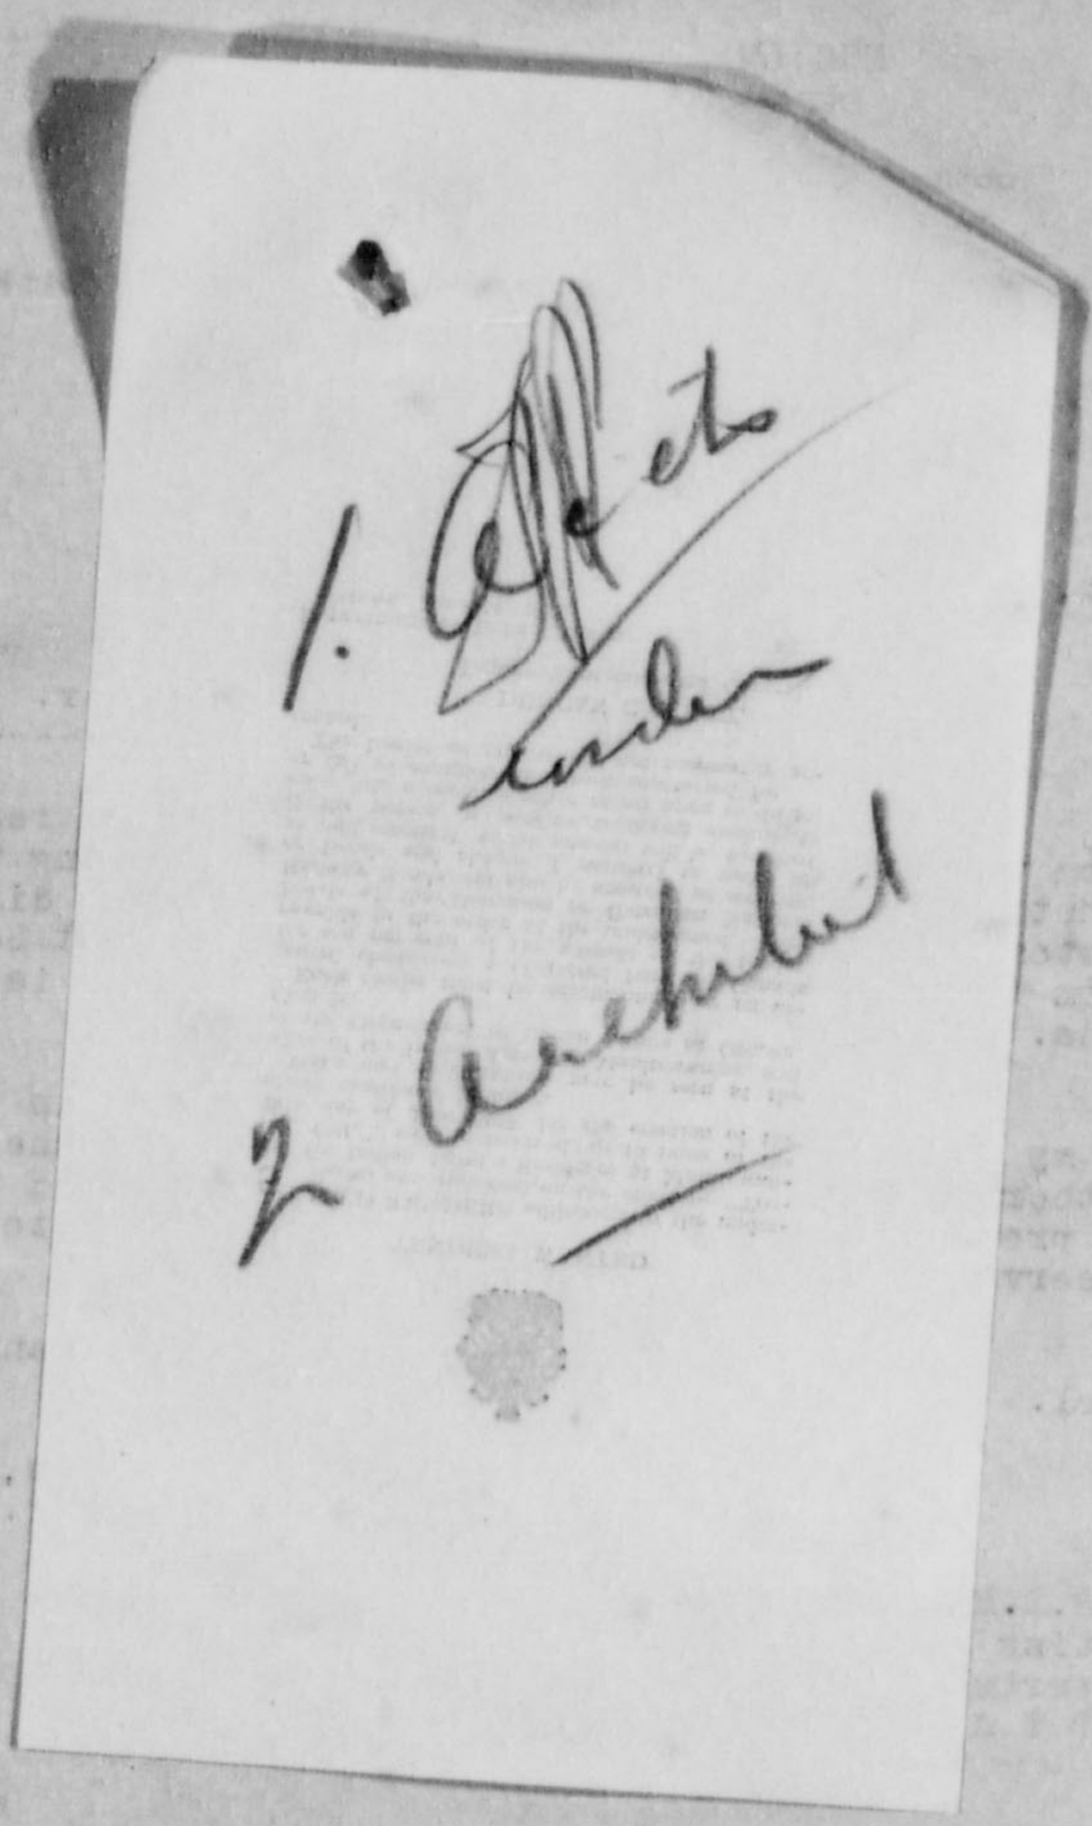

DUNCAN C. SCOTT.
Deputy Superintendent General.

Winnipeg,Man.

Dear Sirs,-

Before leaving for Winnipeg,Mr T.Soba informed me that you asked him to get my O.K. on the plumbing and heating before he left, but you will understand that I could not give him that till the work was completed and tested.But I will say this much that as far as the work is concerned from observation I consider it good and well up to the standard,but as far as the working of the plant is concerned, it will have to be put to the regular test as called for in the specifications, and I feel sure that it will not be found wanting.

As for Mr Soba staying here, I think he was considering you when he decided to go into Winnipeg as any of the worki to be completed, I feel sure that Mr McLeod can carry it through, and thus save the expense of Mr Soba staying.

The General Contractor, and the Sub-contractor on painting and the electricians are the ones which I would like to see getting their work cleaned up.

Yours very truly,

signed. W.A.Hamilton.

Ottawa.

Dear Sirs,-

Re Onion Lake, Sask. R.C. Indian School.

Mr Sa, Brown, general contractor for the above building called at our office some few days ago, and informed us that he had received a letter from your inspector, Mr Hamilton, stating that there was some little thing gone wrong with the Automatic damper control, in connection with the boilers.

We wrote Mr Hamilton regarding this, but to date have had no reply.

Do you think that it is fair, that they used our boilers all winter, and every thing was working to Mr Hamilton's entire satisfaction when our men left the job this Spring. We have a letter on our files confirming this, a copy of which is inclosed. Surely if it is only some simple little thing that your engineer on the works could attend to it, and make it unnecessary to send a man all that distance.

Trusting to hear from you by return regarding this, we remain,

Yours very truly,
Beairsto; Ltd.

Sir,-

Replying to your letter of the 17th ultimo, with reference to the communication received by you from Messrs. Bonnar Hollands & Philp of Winnipeg, I beg to say that the Department considers that you took the right action in the letter you wrote to this firm. The final certificate is not to be issued until the contractors have satisfactorily completed their contract. As soon as all of the work has been satisfactorily done, and the accounts adjusted, I would ask you to make a final inspection and issue the final certificate for payment on their contract.

Replying to your letter of the 14th ultimo, with reference to the switch board, I would ask you to please take this up with the local representative of the Canadian Fairbanks Morse Co., and advise them that the Department will expect them to supply the proper switch board, as they gave assurance before the order was placed for this equipment that the I-2 switchboard would be suitable for the plant using batteries.

Your obedient servant,

A. F. MacKenzie.

Dear Sir,- Re Onion Lake School

You will find enclosed statement showing extras on above Contract.

Iunderstand Mr. Hamilton disputes item of $273.92 and only admits part of it. I might say Mr. Hamilton was absent part of the time this work was being done,but Mr.Hudson maintains the time is correct and entered in time book each night. I can vouch for this as I was present at the time and don't think the costs unreasonable under the conditions the work was done.

I am prepared to furnish you with futher details if you wish.

Hoping to hear from you as this account is long overdue.

Yours truly,

SCHOOLS BRANCH
AUG 10 1928

August 8, 1928.

Memorandum:

MR. ORR.

I was at the new Onion Lake R. C. Indian Residential School during July. There are two or three matters that should be brought to your attention before the final certificate is issued. The roofing is leaking very badly in several places. I am satisfied there was a very poor job done in this connection. In the boiler room the cement floor is lower in two or three places than at the drain, and the management has considerable difficulty getting rid of the water. The Principal understands that final balanced iron stairs are to be supplied for the fire escapes. These are not in place.

Then, there is a matter that should be attended to immediately, if you consider it should be allowed. The Principal would like a water connection for the barn. This can be made from the outside stand pipe at the school, a ¾ inch pipe to a cement cistern which is in the barn. This pipe line can be drained by a valve in the cellar of the main building. The total cost, if Mr. Agent Turner is authorized to do the work, will be in the neighbourhood of $250.

I may say that on the -12 file I am authorizing the Agent to engage a carpenter to brace the dining room tables and benches. These were very poorly done and can be wrenched apart by hand.

MEMO FOR FILE:

When I visited the Onion Lake R. C. Indian Residential School this year, the question of a truck was brought up by the management. I intimated that the most the Department would consider would be one-half the cost. They are to correspond if anything is to be done.

There is urgently required a cold storage beside the laundry door on the south side. This should be constucted of cement and Mr. Indian Agent Turner and I have estimated the cost at $600. I have noted the requirement for next year's estimates.

EXD.

Ottawa, August 8, 1928.

Sir:

Pursuant to Mr. Ferrier's visit with you to the Onion Lake R. C. Indian Residential School, I have to authorize you to purchase siding for the two small outbuildings that have been erected by the school management. You may also arrange to have this placed on the buildings, provided the school management cannot supply the necessary labour.

Your obedient servant,

A. F. MacKenzie.

Re Onion Lake
Architect

Dept. of Indian Affairs,
Ottawa, Ont.

Gentlemen: Attention: Mr. A. F. McKenzie.

Some time ago we supplied the Dept. of Indian Affairs at Onion Lake with a 15 H.P. engine, generator and an L 2 switch board for the R.C. Indian School at Onion Lake, Sask. When the order was taken we advised Messrs. Norris & Bearisto the L. 2 switch board would not be suitable for a battery charging equipment.

Mr. Hamilton called at our office this morning and advises that Can. Fairbanks Morse Co. advised the Department at Ottawa that the L. 2 switch board would be quite suitable. Will you please send us a copy of the letter also the parties signature who recommended to you the L. 2 switch board for battery charging plant.

We would appreciate it very much if you would give this immediate attention , as the plant can not be put in operation until we have this information, as we understand an L. 2 switchboard was supplied, and until a suitable switch board is forwarded to Onion Lake we do not think the plant can be operated. Trusting to hear from you by return, we remain,

Yours very truly,

Dear Sir:-

With further reference to our quotation of January 30th covering 15 H.P. engine, with generator, switchboard and storage battery, we note on checking over this quotation that we have inadvertently quoted you on the L-2 switchboard to control the generator, but this is not suitable for battery charging, and in order to furnish you with a switchboard for battery charging it will be necessary to use the type 100 NBP, which would increase our price by $160.00, making our total net price f.o.b. the cars Lloydminster $3420.00. We regret that it was necessary for us to make this revision, because of an error which should have been detected before our quotation went out.

Yours truly,

THE CANADIAN FAIRBANKS MORSE CO.LTD.

August 25, 1928.

Mr. A. F. MacKenzie,
Actg. Asst. Deputy & Secretary,
Dept. of Indian Affairs,
Ottawa, Ontario.

Dear Sir:-

Your telegram of August 24 addressed to our Regina Office has been referred to us and we have wired you today as per confirmation attached.

We are extremely sorry to learn there has been some misunderstanding about this installation. While it is true that our quotation of January 30th., addressed to Mr. Hamilton, Inspector of Construction offered an L-2 Switchboard, this was a typographical error which we corrected in a letter dated February 4th., copy of which we attach.

When your Contractors placed their order with us they did not order a Storage Battery, which led us to believe that this part of the equipment was not being installed, especially as we had quoted Norris & Beairsto on Boards both Battery Charging, and for operation without Storage Battery when quoting on the Engine and Generator.

Under these circumstances we do not feel that we should accept any responsibility in the matter and would be pleased to hear from you furthar.

Onion Lake Agency

Onion Lake, Sask.
Aug. 15th. 1928.

Copie

Lang Turner Esq.
Agent, Onion Lake Indian Agency.
Onion Lake, Sask.

Dear Sir;

Some time ago I requested a supply of tools and material for the maintainance of the buildings water and lighting plants, which was allowed, but the amount of money made available for that purpose was insufficient, a further sum of about forty eight dollars being required to complete the purchase.

It is evident to me that in order to make full use of the materials already purchased, this further amount is nescessary.

In connection with this matter of tools, may I quote from a letter now at hand from a member of our staff who will have among other duties, the repair of all boots and shoes of the staff and student body---"A complete set of shoe repair tools, including a foot power sewing machine, lasts, Etc., recently purchased by the Gov't. for a returned soldier at a cost of $198.00, is now for sale in Edmonton for $125.00. The outfit is good and servicable in every way, and is what is needed at the school for the maintainance of the footwear."

May I ask that you consider our needs in this, an expensive item for us, and consider our application for this, or a similar outfit, that our cobbler may keep in repair, the good supply of shoes we have provided for the students here, as well as providing us with the means of teaching interested students something of this trade.

Yours Truly,

L Balter

OFFICE OF
INDIAN AGENT

DEPT. OF INDIAN AFFAIRS
AUG 25 1928
RECORDS

99-19

Onion Lake, Saskatchewan
August 20th, 1928

Sir,

I have the honour to enclose herewith a letter received from Rev. L. Balter, principal at the Onion Lake Roman Catholic Indian Residential School; asking the Department to expend a futther sum of $40.00 for tools, etc. for the water and lighting plants. The articles now asked for are extra valves, unions, packing and welding compound. As will be seen from his letter, the Reverend Principal is also asking for a complete set of shoe repair tools.

I have also been requested to ask the Department to supply strong iron screens for the windows in both the boys' and girls' recreation rooms, and also a screen door for each of these rooms. I estimate that this work will cost, approximately, $80.00. The iron screens for the windows were spoken of at the time of Mr. Ferrier's visit to the school.

I have the honour to be,
Sir,
Your obedient servant,
Ray Jervis

Indian Agent.

The Secretary,
Department of Indian Affairs,

Onion Lake Agency

Onion Lake, Sask.
Aug. 10th. 1928.

Mr. Lang Turner, Agent,
Onion Lake Indian Agency.

Dear Sir;

Calling to your attention the matters discussed by Mr. Ferrier at the time of his inspection of the R. C. Residential School here, I take the liberty of enumerating them in what to us seems the order of their importance, although their proper order is hard to determine, as we consider the following additions to the establishment all nescessary.

Formost possibly in importance, is the talked of storage quarters for the food supply. We have nothing in the way of frost-proof storage for the vegetables Etc. which form an important part of our food.

An outside root cellar is possible to construct quickly, but is not accessible during cold weather, and the scheme outlined by Mr. Ferrier seems to be the logical solution of this important feature, consequently, we ask for its construction.

The matter of the cement floors seems next in importance, not only as a matter of econemy to the Dep't. by making the floors give much longer service, or the very considerable difference in the amount of labor required to keep them in the condition nescessary to a clean house, but the matter of the health of the entire student body may easily be affected by dusty, crumbly cement floors during the long winter months when so much time must be spent by all the occupants indoors.

We ask, therefor, that this matter be given due consideration.

Next, the water supply to the stable. This, I will submit, is a reasonable addition to the water supply which the Dep't. is installing at the present time.

The stable contains a water trough for the stock, and the pipes extend outside of the stable walls, so that the trench from the main building to the stable, with the connecting pipe line is all that is required to complete the installation.

If this request is granted, might I request that arrangments be made as soon as possible, as the contractor installing the water system here at the present time is in a position to complete the line to the barn probably quicker and cheaper than if another man has to bring in his outfit just for this job.

Yours truly,
L Balter

DEPT. OF INDIAN AFFAIRS
AUG 25 1928
OTTAWA

Sir.

With reference to the recent visit of Mr.Ferrier to the residential Schools at this Agency, I have the honour to enclose herewith, a letter received from the Principal of the R.C.School.

With respect to the frost-proof storage for vegetables etc. I believe an excavation could be made adjoining the stores quarters in the basement at this school and a room built in the excavation made entirely of concrete and fitted with bins etc.for the sum of approximately $525.00.

With respect to the painting of the concrete floors, I have obtained a tender from Mr.G.Blower.a painter in this neighbourhood, for this work. Mr.Blower to supply the material and do the work for the sum of 27.50.

With respect to the water supply to the barn, I have already received authority from the Department to proceed with this work.

I have the honour to be,

Sir,
Your obedient Servant.

Indian Agent.

The Secretary.
Department of Indian Affairs.
Ottawa.

115-8-5.

Ottawa, August 28, 1928.

Sir:

I have your 99-19 of the 20th instant, with reference to tools and screens for the Onion Lake R. C. Indian Residential School. In reply I have to authorize you to expend the sum of $40 for valves, unions, etc. You may also have iron screens placed in the recreation rooms at an approximate cost of $80. If the Reverend Principal needs a shoe repair outfit, it should be purchased from the per capita grant or other receipts.

I have also your second letter of the same date, enclosing a communication from the Rev. Principal, concerning the cold storage beside the laundry door on the south side. There are no funds available for this improvement at the present time; but a note has been taken for next year's estimates.

I note that you have secured a price for painting the concrete floors. I may say that the building specifications call for one coat of an approved brand of concrete hardener. Please let me know if this was applied. You should also inform me if an additional coat of hardener is required before the floor is painted. I may add that the ordinary paint is not at all suitable for concrete and that an approved concrete paint only should be used. When you have determined just what is required, you might let me have a further estimate of the cost. If you report that one coat of hardener was not applied, it will be necessary for me to take the matter up with the contractors.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Ottawa ? Ont.

Dear Sir,- Re Onion Lake School.

I forwarded W. A. Hamilton the Inspector all the requirements asked on Aug.13th. and which he said upon receiving same He could issue final certificate. I understand the plumber is now at Onion Lake testing the boiler,so that everything in our contract is now complete as far as we know.

I am also enclosing you some details of the extras as I am informed the Insector disputes a portion of the item $273.92. You will find G. H.Hudson's affadavit enclosed covering this item.

Re item for costs in difference of site is as follows,

Building and furnishing camps.....	$ 1800.00
Hauling water	1400.00
Difference in costs of gravel	1200.00
Hauling lumber and Camp supplies from Onion Lake	850.00
Total	$ 5250.00

At Mr. Hamilton's request I forwarded two pulley's to Mr. E. R. Rose for the engine at a cost of $12.71 plus ten per. cent $1.39. Will enclose the Bill .

Hoping to hear from you,

Yours respectfully,

BROWN & HUDSON

Dear Sir:-

We beg to acknowledge receipt of your night letter of yesterday's date reading as follows. "Reference your wire re switch Board Onion Lake please arrange immediate installation for proper switch board."

We enterprete this telegram to mean that you wish us to furnish a Battery charging Switch Board for this job, and we accordingly telegraphed you this morning as per the attached confirmation, asking you to advise the number of cells, ampere hour capacity, and make of storage battery for which this board is required.

Upon receipt of this information we shall be glad to enter your order and will do everything possible to get this board delivered as quickly as possible.

Upon receipt of this letter would you please advise us if it is your wish that we should furnish the board only, or do you also wish us to send a man to Onion Lake to wire this board to the generator.

Yours very truly,
THE CANADIAN FAIRBANKS MORSE CO.LTD.

2 letters re This

Dear Sir;

A very unfortunate situation has developed here in connection with our sewerage system. A kitchen drain, which was found stopped up, upon being cleaned disclosed the fact that the main sewer drain has parted, evidently from settling, and that the waiste from the kitchens, wash basins Etc. is being deposited under the floors of the basement rooms, between the foundation walls, and is not being carried outside of the building at all.

Acting on the report of our engineer here, we took the matter up with the contractors in Winnipeg, and they have a man on the job here now, who is not, however a plumber, and has simply wired in his report to the contractor, and is awaiting a reply.

The excavation for parts of this building was made too deep, and filled in again. This filled dirt has settled, leaving portions of the floor unsupported underneath, and the boilers are endangered as well. Water from recent rain storms has washed completly under the building, from which fact you may judge of the condition underneath.

This sewer repair, if left to the devices of an unscrupulous plumber, might be made after a fashinn by simply joining the ends of the broken pipe together with an additional length, thus forcing the sewerage out through its proper outlet, but forming a sump in the sunken pipe which would be a constant source of trouble and expense, as well as a menace to the health of all occupants of the building.This sort of a repair, even under the adverse conditions prevailing here, could possibly be made for $100.00, while the job of putting it back in the position specified by your architect would undoubtedly cost several times that.

Where the responsibility for this condition will rest, we may not judge. Neither are we in any position to insist on Immeadiate action, which you will see is vitally nescessary, as the children are now coming in, and we are without any sewer at all.

May we ask, therefor, that you will see that we get action on this ?

May we suggest, also, that the matter requires the presence of an inspector with authority to see that the repair is properly made.

With the latter request comes the thought that a member of our staff would be personally interested in the matter, and could act in that capacity for the Dep't. more economically than any other, so as to end this matter for all time, and our engineer, knowing of these things, would seem to us to be the logical person for that job. May we therefor, suggest his appointment for this sewer matter? Would you care for a detailed report from him as to the condition of the building generally ?.

See also later letter

Very Respectfully,

L. Balter, O.M.I.

Onion Lake, ask.
Aug. 30th. 1928.

Russell T. Ferrier, Esq.
Sup't. of Indian Education,
Ottawa, Can.

Dear Sir;

There is a letter in the mail for you mailed at Onion Lake, so this one may reach you first, in which case you will have the full explanation of this one, which is being written in haste.

The sewer mess, which was the subject of the above mentioned letter may be in the process of being solved, as a wire to Bearisto Ltd. Winnipeg, the contractor, brought the reply that " Hamilton knows where the extra outlet for that sewer is".

We have wired Hamilton, the Dep't. inspector who was on this job, for the location of this outlet, as it is not in the plans, or any note of it anywhere that we can find. The Dep't. of Water and Power, who are putting the outside sewer and water connections know nothing of it, and it seems be be a brain child of Mr. Hamilton, and kept a dark secret.

If this hidden outlet is found, and it is in working order, most of the trouble will be at an end as far as that is concerned, but when all the known connections were made, and the sewer was put in use, all the waste mentioned in the other letter was being dumped under the floors, and is now one miserable mess.

In view of the above, the other letter will not prove to be altogether a false alarm, and as soon as there is anything definate known or done, we will inform you fully, since we have taken the matter up with you personally.

Resp'y.

COPY

File 4617

Progress Report for July, 1928, Onion Lake (R.C.)
Residential School.

Sewage Disposal System.

Sewer Lines.

Boiler Room Sewer.- Completed from manhole at building to Manhole "A", trench back-filled and line in working order.

Main Sewer.- Completed from manhole at building to septic tank and from septic tank to manhole "A", trench back-filled and line in working order.

Sewer from Manhole "A" to Manhole at Disposal Beds.- Trench dug but line not completed.

Piping for this line not yet delivered.

Disposal Beds.

Trenches completed.

Manholes.

Manholes (four) all completed, connected with pipe-lines, and all in working order.

Manholes at the building not yet backfilled.

When system is in working order and thoroughly tested, these manholes will be covered over.

Septic Tank.

With the exception of the manholes this structure is completed and in running order.

In place of wooden walls for these manholes the writer recommends four-inch concrete walls with plank covers.

This will ensure a permanent wall and avoid the danger of rotting woodwork with the consequent danger of dirt and debris falling into the tank and impairing its efficiency.

It would also make for greater safety.

The contractor assured the writer that the extra cost would be practically nil.

It is recommended that this work be ordered done as suggested.

Water Supply System.

Pipe line to Spring from Reservoir.- Trench dug and supply pipe laid.

The 4" vitrified tile overflow pipe back to the spring has not yet been delivered so it is not laid nor the trench backfilled.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

<u>Pool and Dam at Spring</u>.

Excavation for tank completed. Tank to be completed first, then dam.

<u>Reservoirs at School</u>.

Excavation about 40% completed.

The above details show all the work done to date.

A considerable amount of rock has been encountered and, as has been already emphasized, circumstances and contingencies have arisen which have caused changes in design and arrangement and layout and these have somewhat delayed operations.

On the whole, however, excellent progress has been made, and the school authorities are highly pleased with the progress made and the obvious quality of the work done.

Another month will see the job practically completed barring accidents or any serious and unforeseen obstacles to the proper completion of the work.

<u>Recommendations</u>.

1. The writer is of the opinion that the water in the rain-water tank should be made available for use in case of fire or for the domestic uses of the school. This can be done very simply by placing a connecting pipe - say 4" - in the wall between the two tanks, at the bottom of the rain-water tank.

This should, of course, have a valve, spindle, and wheel to control the flow, the latter carried up through the roof of the tank into the pumphouse.

2. The writer is also of the opinion that means (a valve, spindle and wheel, the latter properly braced) of draining the pool above the dam at the spring should be made available, so that work inside the tank may be possible, if such be at any time necessary.

3. A third recommendation is that the contractor be authorized to extend the deep 10' section of the dam to a distance of 25' from the tank, instead of 15' as on place, in order to permit the dam to rest on solid clay bottom at the lower side of the pool.

Sir,

Your file number: 115-8-15.
Attention: Departmental Engineer.

I enclose herewith in duplicate report received from the Commissioner of Irrigation dealing with the progress of the water supply and sewage disposal works for the Onion Lake Indian residential school for July, together with certificate in duplicate for the payment to the contractor, Mr. Towers, of $6120. The Commissioner requests the approval of this estimate and asks to have a cheque forwarded to Mr. Towers, c/o Canadian Bank of Commerce at Lloydminster, or to this office for transmission to him.

You will notice certain recommendations in the progress report which I endorse and will be glad to have your approval of them.

Satisfactory progress is now being made with this work and a further report covering the month of August should be available in a short time.

Regina Sept 8th/28

Department of Indian Affairs
Ottawa Ont

Dear Sirs

I received word from Brown & Hudson Contractors for the erection of the R C Indian Residential School at Onion Lake Aug I3 saying that the contract was completed except some minor items, so on the strength of that information and waiting a couple of weeks I proceeded to Onion Lake Sept Ist. I found on arrival that there had been practically nothing done by them since I had visited the school July 8th.

The sub-contractors were trying to make arrangements with men in the locality to do the work but up to the present time they have failed to get any one to do the work.

They told me in their letter that they took the matter up with Mr Gurney Orr when he was in Kenora and he suggested that I issue the final estimate and hold what I considered was enough to cover the work which is incomplete,but seeing that at the present it is so hard to get action from them now it would be moreso if they received what was coming to them except the amount covering the work to be done. but if you wish it done that way I will make arrangements to have the estimate issued.

They wrote me about trying to have it arranged to cancel the insurance on the building and under the circumstances I should judge that as the mission have occupied the school that Brown and Hudson should be relieved of carrying the insurance,and I would ask your opinion re same.

They are also asking for an extra of $5250.00 as they claim that when they figured on the school they understood that it was to be erected in Onion Lake alongside of the old one. and in my opinion I consider if that was the case it should be the other way as the old school is over six miles further away from the railway than where it is now located,and they told me that they were given to understand that the distance from the railway to the school was 35 miles and I took the trouble to get the milage registered on the truck they hauled their material with which gave it a little less than 30 miles to the present site and over 36 miles to where the old school was located,so if there was any adjustment to be made it would be in favor of the Department of Indian Affairs instead of to Brown and Hudson.

There were several items I wished to take up with Dr Scott when he was in Regina and asked Mr W M Graham to arrange for an interview and he promised he would when Mr Scott was here but for some reason he never phoned to let me know but perhaps they were too busy while they were here.

I am figuring out some adjustments of several changes in the layout which were requested by the mission,and I think the reductions will more than cover the extras apart from the recreation

room entrances and the Partitions in the Corridors which were authorized from Ottawa.

I am herewith enclosing some estimates which were sent to me here and asked me to forward same to you. one is for staining and varnishing the Chapel Pews. the other is for painting the cement Floors and which they claim was taken up with Mr Ferrier when he was at Onion Lake.

I am also enclosing an account from The W H Cushing Co for Chapel Pews which is in accordance with estimate forwarded to you re same. the Cupboards which were ordered from The Western Mfg Co were shipped from here the last of the month and as soon as the account is received will be checked an forwarded to you.

I remain
Your obedient servant

The Department of Indian Affairs Canada,
Mr. H. C. McLean, Ass't. Deputy & Sec'y.
Ottawa, Ontario.

Dear Sir:-

We thank you for your letter of September 1st, in which you state you believe it advisable to have one of our Engineers proceed to Onion Lake to properly install the switchboard which you have order from us, and to make sure the complete lighting plant is in proper working order.

We are now in receipt of information for our Regina Office advising that the battery purchased for this job is a Globeliete Storage Battyer, type W-11, 56 cells, 200 A.H, serial No. 4039 having a maximum charging rate of 30 amperes.

Our Regina Office point out that this matter is now most urgent, and we are taking the necessary steps to obtain a suitable switchboard for this plant with all possible dispatch. It is necessary for us to bring this forward from Chicago, and our order has been placed with the factory, with instructions to advise us how soon shipment can be made, and to have this shipment traced thru' to Winnipeg, when it is made. When the switchboard is shipped from Winnipeg, we will arrange to have the Railroad Company notify us when the shipment has reached Lloydminster, so that our Engineer will then proceed from Winnipeg immediately to complete the work.

Yours very truly,
THE CANADIAN FAIRBANKS-MORSE CO.LTD.

Dear Sirs

In answer to your letter of Aug 21st re Bellward and Jenkinsons account for oil supplied to Brown & Hudson I received a copy of the account some time ago and also an account from the Imperial Oil Co for gasoline amounting to 107.00 supplied to Brown & Hudson and I took the matter up with Mr Hudson & he told me he would have a cheque sent forward,but on investigation I find that they only paid the Imperial Oil Co account so I inquired personaly when in Lloydminster on sept 4th with Bellward & Jenkinson also with the truck driver who worked with Brown & Hudson and he informed me that the account was o k so I have written Brown & Hudson to have the account attended to at once and forward me a clearance before I issue the final estimate.

There are several other accounts for wages that I have been unable to get adjusted and also one for lumber which was supplied for the school. I remain

(COPY) File 4617

North Battleford, Saskatchewan.
September 15, 1928.

The Commissioner of Irrigation,
Calgary, Alberta.

Sir:-

Herewith I beg to hand you August estimate for Onion Lake School, together with particulars for extras for July estimate and also for August.

With regard to the matter of payments to the contractor, I wish to point out that only one cheque (i.e. for $1,776.70) had been received by Mr. Towers up to this morning, and he informed me that unless he very soon received a substantial sum he would be obliged to close down the work.

Further comment on my part is unnecessary.

Regarding the matter of extra valves and stems for tanks as per our telegrams I wish to say that prices of $25.00 each were based on 3" valves, not 4" and 6" as per your wire of today's date.

It is considered that a 3" valve at the dam at spring is amply sufficient and as the depth of the soft water tank is 4 feet less than that of the main reservoir a valve of 3", or at most, 4", is large enough at this point.

Were the two reservoirs of the same depth, the capacity of the valve orifice would need to more closely approximate the capacity of the pump.

The contractor has a 3" valve and spindle on the job, and has left a hole in the dam to take it if it is decided to place it.

Enc.

The writer would urge that he be so instructed, as it is his opinion and also that of Mr. Towers', that a 3" valve is amply sufficient at that point and it can be done for $25.00.

The contractor would probably install a 4" valve at the reservoir for $35.00, and the writer thinks it most desirable that a connection be established between the two tanks, since they have been built side by side.

A progress report will be prepared and forwarded as soon as possible.

Your obedient servant,

(Signed) R. H. Goodchild.

Department of the Interior
Canada

DOMINION WATER POWER AND RECLAMATION SERVICE

Calgary, Alberta,
September 22, 1928.

Sir,

I am enclosing in duplicate details of extras in connection with the July and August estimates for Contractor J. Towers; also, the August certificate for $6,398.27 in connection with the contract for the water supply and sewerage works at the Onion Lake (R.C.) Indian Residential School. I should be glad if you would be good enough to forward these statements to the Department of Indian Affairs for approval and early payment.

In regard to the second paragraph of Mr. Goodchild's report, I may say that the delay in connection with forwarding the July certificate was explained in my letter of August 28.

In reference to the installation of a 3" valve for emptying the small reservoir created by the dam, should occasion arise. Mr. Jennings discussed this question with Mr. Towers during his recent visit to Onion Lake and as provision has already been made through the concrete for the installation of this outlet, and as the cost is estimated at only $25.00, instructions were issued to the contractor to install the control valve. It is considered that this is very desirable as it will undoubtedly be necessary, for various reasons, to be able to empty the reservoir from time to time.

Encl.

In regard to connecting the spring water reservoir with the rainwater reservoir, it is not considered that this is necessary or desirable and the additional expense is therefore not recommended.

Mr. Jennings reports that no provision was made in the original tender for painting buildings and has instructed Mr. Towers to submit an estimate of cost for this work. It is considered that two coats of a brick red with dark olive trimmings would be suitable for the buildings. However, if there is any particular color scheme which the Department of Indian Affairs wishes to follow, we should be glad to receive instructions respecting same. It has been found necessary to enlarge the pumphouse at the reservoir near the building. This is due chiefly to the fact that two large water tanks for cooling purposes had to be installed near the 25 h.p. engine. These large tanks necessitate a different type of roof and the contractor has therefore been instructed to enlarge the building to provide sufficient accommodation for the tanks and a stove for heating purposes and will be paid the difference between the original estimate and the actual cost of the addition plus 15%.

The contractor has been somewhat concerned about the installation of the 25 h.p. engine, particularly so as the method of connection shown in the drawing submitted cannot be followed out on the ground due to the presence of a large muffler on the engine which was not shown on the drawing, and prevents the drive being taken off as shown on the plans. In order to correct this condition, it will be necessary to move the engine over to one side and enlarge the concrete foundation to provide for this change. Mr. Jennings reports that there was no alternative in this case and therefore instructed the contractor to proceed at once with the large engine base and to charge the additional concrete required, as an extra.

The Director,
Water Power & Reclamation,
Ottawa.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

www.collectionscanada.gc.ca

From Mr. Jennings's verbal report regarding his visit, it would appear that considerable improvement could be made to the condition at the dam by installing a few drain pipes with open joints covered with loose gravel. These are considered necessary in order to collect the water and lead it to the filter bed adjoining the well at the pump-house. In this connection, I may say that the spring water supply at this point needed a great deal more work to insure the collection of the various small seepages than was originally contemplated; in fact, Mr. Towers opened up numerous little channels by hand digging and collected these various little streams,--thereby greatly improving the supply. It is now considered that by installing the drain pipes in the manner indicated and covering them with brush and earth, the supply will be protected during the very cold weather. In order to compensate the contractor for the work already done in this connection and also for the additional work contemplated, I would recommend that an expenditure of $25.00 be approved. The work of covering up with brush and earth to afford protection against frost will be done by the engineer and directions have already been given him in this regard.

Mr. Jennings has further advised me that he considers a further expenditure at the distribution beds from the septic tank would greatly improve conditions at this point. The distribution channels, which have been constructed in accordance with the plan, are working satisfactorily, but by cutting down the ends of the channels to ground level and extending these in one or two places a very much better distribution would be made. As the cost of doing this work is estimated by the contractor at $10.00, I would recommend that he be instructed to carry out same. Mr. Jennings has drawn my attention to the unsatisfactory delivery of material which the contractor has experienced. Various items of plant and machinery have been delivered with parts missing or not in accordance with the original orders. This has caused considerable delay in erection and has been costly to the contractor. The pumphouse and engine were not assembled at the factory prior to shipment and in both cases, pullies required changing and other minor parts were in many instances missing.

I would like to mention at this time the fact that the contractor has on many occasions been of great assistance to the staff at the school. During the month of July, when the building was flooded, his men worked at night to help relieve the condition. At other periods, when furniture and equipment was being delivered, his men helped to carry same into the building in order that it might not be damaged by rain and storm, During Mr. Jennings's visit, he found the contractor's men were being used for operating the steam plant for heating the school owing to the fact that the caretaken was indisposed. These are only some of the many ways in which the contractor has been of great assistance to the staff at the school and on no occasion has he made any charge for these services. The job on the whole has been a difficult one owing to the fact that the conditions found at the building in regard to outlet pipes, etc., were not in accordance with the drawings prepared by this office based on the information which was available. Furthermore, owing to the rainy season and the bad state of the roads between Lloydminster and the school, additional cost of freighting has been unavoidable.

your obedient servant,

(Sgd.) J. S. Tempest,
Commissioner of Irrigation.

File 4617

Prince Albert, Sask. Sept.19,1928.

The Commissioner of Irrigation,
W. P. & R. S.,
Calgary.

Sir,-

I beg to report progress made on Onion Lake School contract as follows - as on Sept.14.

Dam and well at spring.-

Dam complete except for opening at base of wall left to take outlet pipe, if such be decided upon.

As previously reported a 3" valve, stem, etc., are on the job and this part of the work can be completed in a day or two when the contractor is notified to go ahead. The writer considers the 3" valve quite adequate for the purpose.

Well.- This concrete tank is completed.

Machinery.- On the spot but not hooked up.

Pumphouse.- Practically completed but not yet floored.

Water Supply Line.- Trenching, pipe laying and backfilling done.

Reservoir and Soft Water Tank.- Concrete tanks completed. Backfilling around sides completed.

Machinery at reservoir.- Pump and engine bases complete.

Machinery on the spot and suction pipe was being connected with pump which was in place at time of visit.

Engine had not been set on its base on Sept. 14 but was on the spot and ready.

Sewage Disposal Plant.- Completed and ready for use; in fact being used in so far as possible without water in the building.

Plant for Pumping Soft Water.- Not yet installed.

Pressure tanks & machinery for engineroom.- On the spot but not in place.

From the foregoing it will be seen that the work is nearing completion; in fact, the contractor figures that the first week in October will see it completed.

No further delays are anticipated and the work remaining is mainly the installation of the machinery, piping, etc.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

As you well know, the lack of any plans or information as to the layout of plumbing, drain pipes, etc. has delayed progress and increased the cost, but in spite of these holdups the Contractor has made excellent progress and done good work.

The workmanship is of a high order and when finished the job may be considered a permanent one. No serious troubles may be expected to develop.

It is the writer's intention to keep in touch with Mr. Towers to know just when the work is finished so as to make only one more trip necessary. He also wishes to suggest that Mr. Jennings make the final inspection with him so that he may also see the plant in operation and be able to judge of its satisfactoriness.

Your obedient servant,

(Sgd) R.H.Goodchild.

" C O P Y "

Department of the Interior
Canada

Dominion Water Power and Reclamation Service

Calgary, Alta.,
September 24, 1928.

Sir,

We have now received Mr. Goodchild's report on the progress made on the Onion Lake Indian (R.C.) Residential School contract as at September 14, two copies of which are enclosed for your information.

In regard to Mr. Goodchild's remarks dealing with the dam and well at the spring, we would point out that Mr. Jennings has already given instructions to Mr. Towers, the contractor, to install the 3" valve in the dam so that the reservoir can be emptied at any time it should become necessary.

Pumphouse:-

The pumphouse at the dam and spring is completed with the exception of a small strip of concrete flooring which still remains to be done owing to the fact that the pumphouse was slightly enlarged and the additional piece of concrete flooring will therefore become an extra charge. This is a very small item and the contractor was instructed to complete the flooring before leaving the work.

As you will note from Mr. Goodchild's report, the work is progressing satisfactorily and the contractor expects to have the plants in operation by the first week of October. The whole of the contract has been carried out in a workman-like manner and as Mr. Goodchild points out, it is of a high order and when finished may be considered permanent, so that no serious troubles whatever should develop. The extras which have been necessary have been due entirely to the fact that the plans prepared in this office were based upon an inspection of the building made in the winter months and without any detail plans of the building showing drain pipes, outlets and other connections installed by the contractor of the building. It is therefore considered that the additional items which have been recommended were under the circumstances unavoidable and necessary expenditures.

Encl.

Your obedient servant,

J. S. Tempest,
Commissioner of Irrigation.

DOMINION WATER POWER AND RECLAMATION SERVICE

OTTAWA, ONT., September 29, 1928.

Sir,

Your file number: 115-8-15.

I enclose herewith copies of two letters received from Mr. J.S. Tempest, the Commissioner of Irrigation, with reference to the water supply and sewage system now being installed at the Onion Lake Indian residential school, to which are attached certificate in duplicate for the payment to the contractor, Mr. J. Towers, of $6,318.00 on account of the contract with extras amounting to $80.27, or a total of $6398.27, this being the third monthly certificate on account of this particular contract.

You will note that the estimated sum to complete the contract is $1150.31.

I am also enclosing a copy of the resident engineer's August estimate for the Onion Lake school with particulars as to the extra work carried out during July and August, together with a progress report as at September 14. From this material you will see that the work is now nearly completed and according to Mr. Tempest's report has been carried out in a workman-like manner , which should give satisfaction when completed.

I beg to draw your attention to the extras which have been carried out and those which are recommended to be made. As Mr. Tempest points out these extras have been necessary due to the fact that the plans prepared in our Calgary office were based upon an inspection of the building made in the winter months and without any detail plans of the building showing drain pipes, outlets, and other connections installed by the contractor of the building. From the information now before me I am of the opinion that the extras recommended are necessary and I shall be obliged if you will give your authority to have them completed in accordance with our engineer's recommendations.

I shall be glad also if you will send me a cheque for the third payment to the contractor amounting to $6398.27, for transmission to Mr. Towers.

Your obedient servant,

J. T. Johnston,
Director.

Dear Sir:

At your request I have gone over the roofing work which has been in progress here, and as far as I can see the work has been done in thorough and workman like manner, and I see no reason able chance of there being any leaks.

The cornice work has not been touched, and the responsibility for that condition may be a matter to be settled later, as well as the condition as to whether or not rain and snow can beat in there and get down between the walls, wetting the plaster

However, I have no doubt but what the roofs are water tight now, and have been accompanied on the inspection by the house engineer here, who agrees with the above.

RECORDS

791 PRESTON AVENUE
WINNIPEG Oct. 3rd. 1928.

Department of Indian Affairs.

Dear Sir,- --Re Onion Lake Contract.

You will find enclosed copy of letter from Onion Lake.

As far as I know this completes everything Mr. Hamilton wanted excepting in his last letter he said he was informed the boiler room floor was not properly graded. This is a very minor defect as there is no occasion to have water on the floor as boilers operating under low presure don't require cleaning very often.

I am sorry the roofing men delayed so long in finishing up their work ,but I did my best to have it done sooner.

I have also a letter from Mr, Ross The Engineer that other incidentals that were not finished are done.

I have a quarantee from both the Plumber and Sheet Metal men quaranteeing their work for a period of one year as per.specifications.

Hoping we can now obtain a final settlement.

Yours truly,

BROWN & HUDSON

File 4617.

Saskatoon, Sept. 27/28.

The Commissioner of Irrigation,
Calgary, Alberta.

Sir,

With further reference to the Residential School at Onion Lake, I should like to point out that in order to safeguard the supply of drinking water from pollution by wandering animals, the neighbourhood of the spring above the dam should be fenced, and this fence should be of a kind that even small animals, dogs, cats, etc., will be excluded from the area fenced and it should extend for a considerable distance above the spring and on each side of the bottom of the draw.

It is a job that could well be done by Mr. Towers but as the time is getting on authority for extra expense might not reach him before he is ready to leave Onion Lake.

However, I beg to recommend that the matter be brought to the attention of the Department of Indian Affairs, and that the importance of having this fence erected be impressed upon them, since the matter vitally concerns the health of the users of the water and our system can hardly be considered complete without such fencing.

Your obedient servant,

(Sgd.) R. H. Goodchild.

Dear Sir:-

Further to our letter of Sep. 10th with reference to the Lighting Plant at the Indian Residential School, Onion Lake, Sask.

We were very much surprised to receive the following Telegram this morning from our Engineer who is now at Onion Lake.

"Absolutely nothing done to installation of Engine or Batteries stop No floor in Engine Room and no support for Battery stop looks like about fourteen days work have no instructions to install Engine do you want me to stay until installation is completed is the Engine installation up to us."

It was our understanding that we were to send a man to wire up the Switchboard and start the Engine only.

In view of the fact that nothing has been done to the installation and since Onion Lake is rather inaccessable and an expensive point to reach, we were prompted to instruct our Engineer to remain and carry the work to its completion.

We trust that this will meet with your approval and that it will be in order for us to bill you

DEPT. OF INDIAN AFFAIRS
OCT 16 1928
RECORDS

Department of Indian Affairs
Ottawa Ont

Dear Sirs

I have just received a letter from Fairbanks Morse Co saying that the expert had arrived at the R C Indian School.Onion Lake and wired them that the electric lighting plant was not set up or the floor of the machinery room put in.

I wish to say that the concrete base for the engine and generator was put in before I left there and the engine and generator was in place ready for the belting to be put on.

The floor of the machinery room over the pit where the pressure tanks were to be placed for the water system was not put in and the contractor agreed to put in the floor as soon as he got the tanks in place. and as soon as I received word that the floor was not completed I wired Mr Turner to have someone do the work and I have received word from him that the expert would be through about saturday.

Mr Brown of the firm of Brown & Hudson came to Regina last saturday to see me re the adjustments of the extras and deductions in connections with the R C Indian School but we could not see the matter in the same light. he has asked me to go to Ottawa with him but I would not give him any answer to the proposition as I consider some of his claims are unreasonable,and I would like to have your suggestion in the matter before I give him any answer.

There was two accounts sent in to your office for cartage on lumber from Lloydminster to the school,the material was for the lockers.cupboards.tables and benches, one was sent in about june 2 nd and the other was about july IIth and Mr Taylor writes me that he has not received the cheque yet. The W H Cushing Co called me up by phone to say that they had not received a cheque for their account yet.

You will oblige by letting me hear from you re the several items referred to above and anything I can do to help you to have the matters cleaned up will be gladly done. I remain

Your obedient servant

Onion Lake, Sask.
Oct. 5th. 1928.

Lang Turner Esq.
Indian Agent,
Onion Lake, Sask.

Onion Lake Agency

Dear Sir;

The contractor has finished the buildings that shelter the two pump plants for the school here, and both have been arranged for stove heat by the addition of tin roof jacks only, and as the buildings are sealed inside with lumber, it constitutes a fire hazard.

We will be oblidged to keep both places from freezing, and with the stove pipe going through the roof and ceiling, a very large opening would be required to make them safe from fire, and as a consequence it would take much more heat to keep them above the freezing point, and a freeze would be disasterous in the fire house especially.

For the protection from both frost and fire therefor, we submit the proposition of putting a small brick chimney in each place, when the brickmason comes to erect the chimney for the farmer's house now under construction here, when the work could be done for the minimum cost.

Yours Truly,

L Balter

(COPY) File 4617

Saskatoon, Saskatchewan,
October 3, 1928.

The Commissioner of Irrigation,
Calgary, Alberta.

Sir:-

Re: Progress at Onion Lake (R. C.) Residential School

Since the writer's last visit, good progress has been made at the above school, and the work is fast nearing completion.

At Spring:-

All that remains to be done here is the cleaning of the surface of the gravel filter (which will be done as soon as the leaves cease falling), the covering of the flooded area or pond with brush, etc., to protect from frost, and the painting of the pump house.

The engine and pumping plant are in place, and ready for operation.

Water Supply Line:-

This line is completed and ready for operation.

Upper Tanks:-

Completed and connections with supply line and outside pumping plant (for fire fighting) all made, soft water supply pipe carried into building.

Upper Pump House with Contained Plant:-

Machinery all in place and connections with reservoir and building complete.

Suction pipe from Rumsey pump yet to be securely braced and supported.

Pump house yet to be painted.

Inside lining (1" boards) not yet completed.

Backfilling and Surfacing:-

This work is not yet completed, but a few days' work will finish it.

Inside School Building:-

Pressure Tanks in place and connected together. Small motor and pump for their operation were being installed at time of visit.

Small Automatic Water System:-

Not yet installed, but pipes carried into laundry for connection with it.

Sewage Disposal System:-

Completed and ready for operation. Disposal beds have

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

been completed satisfactorily and well. Boiler room and laundry drains have been functioning for some time.

Remarks:-

The lighting system for the school and the necessary power plant have not yet been completed.

The motor to operate pump supplying pressure tanks, as well as the motor for the automatic water system, cannot be hooked up until the above plant is in operation and, in the writer's opinion, it would not be fair to ask Mr. Towers to hold his men at the school if the power plant be not ready when his work is done and he, ready to connect up the machines he has installed.

I would suggest that a wire be sent to the Department of Indian Affairs through our director, to the effect that our work will be ready to be hooked up with the school electric system in a week's time, but that there seems to be no assurance that their system will be ready by that time.

Mr. Towers has other work in view, and he will be put to considerable inconvenience and expense if he be obliged to spend days or weeks waiting around.

Your obedient servant,

(Sgd) R. H. Goodchild.

"C O P Y"

Department of the Interior
Canada

Dominion Water Power and Reclamation Service

Calgary, Alta., Oct. 9, 1928.

Sir,

40,782 W.R.

I am attaching for your information two copies of a report which has been received from Mr. R.H. Goodchild in connection with the work being undertaken at the Onion Lake (R.C.) Indian Residential School.

You will note from a perusal of this report that the work has now progressed to a point where it is anticipated that the plant will be in operation in the course of a few days. One important feature, however, which may delay operation of the plant is that in connection with the lighting system for the school, the necessary power plant for which is not yet ready for operation. Mr. Towers is now ready to make a final test of that portion of the water supply system within the building. The motors to operate the pressure plant and the automatic water system obtain their power from the lighting plant and unless this is in operation with the next week it is hardly thought that this portion of the installation will be tested out. I have therefore wired you to this effect so that you may advise the Department of Indian Affairs and thus enable them to take immediate action.

I am also enclosing in duplicate certificate No. 4 for $1,546.94, being the amount due the contractor for the month of September. Of this amount, you will note that $746.63 is for extras. A certificate from our engineer is also enclosed,
Enc. giving details concerning the extras.

In regard to the recommendation contained in my letter of the 22nd instant regarding the painting of buildings, I have now been advised by Mr. Towers, the contractor, that he has received a very satisfactory tender from a local painter for the painting of the two pump houses, each to have two coats. The price submitted is $140.00 and Mr. Towers points out that, as the season is closing in, he deemed it desirable and in the best interests of the department to close this offer and the work is now in hand. It is hoped that under the circumstances you will support the contractor's action in this regard, as it appeared most desirable that the buildings be painted before the contractor left the site. We consider the price submitted as reasonable and would recommend that the necessary approval for payment thereof be obtained.

Your obedient servant,

(Sgd.) J. S. Tempest,
Commissioner of Irrigation.

Oct. 22, 1928.

Sir,-

Replying to your letter of the 11th instant, with further reference to the Onion Lake School, I beg to say that it is not considered necessary for you to come to Ottawa, regarding the adjustment of Mr. Brown's claims. If the building has been completed you should forward a final certificate together with a full report with your recommendations regarding the payments or deductions for extra work. For your information I would advise you that on the 2nd of October a further payment of $5,000 was made to Brown and Hudson, and this amount should be taken into consideration when making out your final certificate.

In order to wind up this contract, if you think it advisable and also agreeable to Mr. Brown to deduct an amount from his contract to cover the cost of carrying out whatever work is required to complete the building, you may give this consideration when making out your final certificate.

Regarding the accounts for material and cartage, etc. for the lockers, cupboards, tables, and benches, if these have not already been paid, the accounts will be given immediate attention.

I am enclosing herewith a copy of a letter which has just been received from the Fairbanks Morse Co. of Winnipeg, with reference to the electrical installation. In reply to this letter the Department has advised the Fairbanks Morse Co. to complete the installation.

Your obedient servant,

J. D. McLean.
Assistant Deputy and Secretary.

Dear Sir:-

Further to our letter of Oct. 10th with reference to the Lighting Plant in the new Roman Catholic School at Onion Lake, we are now in receipt of a report from our Engineer, and we regret to note in his report a statement to the effect that the foundation for the Engine is made of poor concrete, and is not made in accordance with the dimensions shown on our Foundation Plan for this Engine. Under the circumstances, it is possible that the vibration may develop, although our Engineer states that when the Engine the vibration was not noticeable, however we felt that this matter should be brought to your attention at this time.

Butterworth Form No. 116—Statutory Declaration. The Grange Stationery Co., Ltd., 173 McDermot Ave., Winnipeg

CANADA:
PROVINCE OF MANITOBA
To Wit:

In the Matter of

HOWARD JAMES SKINNER

I, Howard James Skinner
of the City of Winnipeg
in the Province of Manitoba Painter do solemnly declare that

1. In or about the month of October A.D.1927 I was hired by Andrew Cloughton of Winnipeg, Manitoba, to do painting work for him on Indian School, being constructed at Onion Lake, Saskatchewan, by the Government of the Dominion of Canada.

2. The said Andrew Cloughton was a sub-contractor under Brown and Hudson, of Winnipeg aforesaid, who held the contract for the construction of said School from the said Government of Canada.

3. I commenced said work on the 11th of October A.D.1927, and completed same on the 30th of April A.D.1928 in accordance with my verbal agreement with Mr. Cloughton, and I worked in all H.J.S. 302 3/4 hours at said painting work at 45 ¢ an hour, and so earned and became entitled to $586.26, on which the said Andrew Cloughton paid me the sum of $202.00 leaving a balance of $384.26 unpaid.

4. The said Andrew Cloughton admitted the said balance of $384.26 to be correct and promised to pay same to me, but has failed to do so to date.

5. The said Andrew Cloughton has not nor has anyone on his behalf paid me the said sum of $384.26 and the whole of the said sum remain owing and unpaid to me.

6. I hold no security of any kind for the payment of the said sum of $384.26 or any part thereof.

And I make this solemn declaration conscientiously believing it to be true and knowing that it is of the same force and effect as if made under oath and by virtue of "The Canada Evidence Act."

DECLARED before me at the City
of Winnipeg
in the Province of Manitoba
this 31st day of October

Dear Sir:-

We have been consulted by Mr.H.J.Skinner of this City with reference to an amount owing to him by A.Cloughton for painting work done at Indian School under construction at Onion Lake ,Sask. last year and early part of this year.

Mr. Skinner did work under this man at painting and the total amount worked for was $586.26 of which there is still unpaid the sum of $384.26 which he is now claiming.

On perusing a copy of your specifications in connection with this building we notice that the Minister will pay moneys direct for wages on proof of claim where the contractor or,sub-contractor neglect to do this. . This is in Clause 17 (3) d,of agreement dated March 26th, 1927.

We are enclosing herewith declaration of this party as to the amount owing him etc., and request you to look into this matter, and if there are surplus moneys not yet turned over to the contractors to pay them over to our client, and credit same under your agreement with the contractors, in accordance with the stipulations in your agreement with them.

We should be pleased to hear from you by return mail with reference to this.

Yours verybtruly,

(COPY) File 4617

Onion Lake, Saskatchewan.
October 24, 1928.

The Commissioner of Irrigation,
Department of the Interior,
Calgary, Alberta.

Sir:-

Report on the Installation of the Water Supply and Sewage Disposal Systems at Onion Lake (R. C.) Residential School

General Remarks:-

The installation above referred to is now complete and the plant installed is in good condition and in operation.

The contractor, Mr. Towers, had the pumps put into operation for inspection purposes and the writer found them to work smoothly and efficiently.

The construction work and the installation of the machinery has been done in a workmanlike manner, it has a good appearance and, in the writer's opinion, with proper handling and care, will give excellent satisfaction and be as permanent as such things can be.

Works at Spring:-

The works here can do, and are doing, the work required efficiently and well; and the water supply is more than sufficient to supply the demands of an institution several times larger than the one which it is intended to serve.

Upper Tanks and Pumphouse:-

The changes in design have all been carried out, and everything in connection with these works is in good order.

The pump was operated, the fire hose was connected and a stream thrown over the school building, demonstrating the value and importance of this addition to the fire fighting equipment.

Recommendations:-

In connection with the equipment of the 25 H.P. engine, a very serious omission was made. This engine is so cumbersome and the fly-wheels so heavy, that it is quite impossible for one man to start the engine and, as it is now equipped, it takes two strong men from twenty minutes to one half hour or more to start the engine.

An air starter must be installed here; otherwise, the plant for fire fighting purposes would be quite useless.

The writer is informed that such an apparatus, suitable for the starting of this engine, can be purchased for approxi-

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

mately one hundred and fifty dollars; that it can be very easily installed and connected, and that it is capable of starting this engine in thirty seconds or so.

It will be obvious that this is a very necessary equipment. It is suggested that this starter be purchased from the Fairbanks-Morse people and installed under their supervision, as this is considered the only safe and satisfactory way of having this installation done, since Mr. Towers will not be here when it arrives.

As a further protection of a valuable barn and outbuildings, and to enable the west side of the school building to be reached in case of fire, it is recommended that another three hundred (300') feet of 2½" fire hose, with couplings, be sent to the school. It is considered that this protection is necessary.

In the matter of additional protection against fire inside the school building and barn and pumphouses, it is urged and recommended that fourteen (14) more soda-acid fire extinguishers be purchased for placement in the corridors in the main building and in the barn and in each pumphouse.

For the quenching of an incipient blaze, these apparatuses are handy, efficient and inexpensive, and their presence here might easily save the school from destruction or check a fire until the fire hose could be brought into play.

With the improvements as suggested, the writer is of the opinion that the fire protection afforded would be as complete as it can reasonably be made.

Water Supply in Building:-

The pressure tanks, small typhoon pump, motor with automatic control, as well as the automatic supply for soft water, are all connected up, in working order, and in operation. The systems are in operation and are efficient.

The writer saw the Diaphragm Regulator in operation, also the automatic water system, which is directly connected with the soft water tank, and in each case the operation was smooth, quiet and efficient.

Sewage Disposal System:-

Since the writer's last visit on the first of the month, the water supply system has been put into operation, and the septic tank used for the first time.

This system is functioning very satisfactorily, and will easily take care of the work for which it was designed.

The disposal beds are caring for the effluent from the tank and there is as yet no offensive odour therefrom.

The soil here is very nearly pure sand and this is, of course, a very satisfactory condition.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

Concluding Remarks:-

About the middle of the present month an expert in electrical equipment and pumping machinery from the Fairbanks-Morse firm at Winnipeg visited the school.

This gentleman was of considerable assistance to Mr. Towers, who was at that time getting his equipment hooked up and ready to operate.

The writer has been informed that this gentleman complimented Mr. Towers and his chief mechanic upon the excellent work and careful installation which had been accomplished. He also stated that everything was satisfactory and in first class working order.

As it has not been possible for this branch to have an engineer resident on the job this comment by an outside competent judge is very gratifying, and the writer would suggest that Mr. Towers be commended for the conscientious and thorough manner in which he and his staff have carried out the work entrusted to them.

Your obedient servant,

(Sgd) R. H. Goodchild,
.....
District Engineer in Charge.

" C O P Y "

Department of the Interior
Canada

Dominion Water Power and Reclamation Service

Calgary, Alta.,
October 31, 1928.

Sir,

I am attaching for your information two copies of a report received from Mr. R.H. Goodchild dealing with the final inspection of the works constructed in connection with the installation of a water supply and sewage disposal plant at the Onion Lake (R.C.) Residential School.

From Mr. Goodchild's report you will note that the works have now been installed in a very satisfactory manner and a complete test of the entire installation has been made.

Certain recommendations have been made by Mr. Goodchild in regard to the desirability of a further small expenditure in connection with the large 25 H.P. engine which operates the fire fighting equipment. This additional equipment entails an air starter and it is estimated the cost would be approximately $150.00. In view of the fact that there is only one man at the plant, who acts as an engineer and caretaker, it would seem to be highly desirable and necessary to be able to start this engine at very short notice. Prices will therefore be obtained from the Canadian Fairbanks-Morse Company in regard to the cost of this equipment, together with the cost of installation, and as soon as these are received, I will again communicate with you.

Encl.

A further recommendation is also made by Mr. Goodchild in connection with the protection of the barn and outbuildings by the purchase of an additional 300' of 2½" fire hose with couplings. He has likewise recommended the purchase of an additional 14 soda-acid fire extinguishers for use within the school building. These would appear to be most desirable additional requirements and we are therefore obtaining an estimate on the cost of this extra equipment and will embody same in our letter to you when it has been received.

In regard to Mr. Goodchild's concluding remarks commending Mr. Towers on the quality of the work which he has done for the department, we would suggest that in sending Mr. Towers his final cheque, a suitable letter be forwarded to him along the lines suggested by Mr. Goodchild.

I am attaching two copies of the final estimate certificate, together with two copies of the details of extras, all of which are recommended for payment.

Your obedient servant,

(Sgd.) J. S. Tempest,
Commissioner of Irrigation.

The Director,
Water Power & Reclamation,
Department of Interior,

OTTAWA, ONT., November 6, 1928.

Sir,

Your file number: 115-8-15.

Encl.

I enclose herewith copy of a letter received from Mr. Tempest, Commissioner of Irrigation, with reference to the water supply and sewage disposal system at the Onion Lake school, together with a report from Mr. Goodchild, the Resident Engineer, a certificate of the extras included in the contract, and final certificate in duplicate for the sum of $1659.87.

Several additional items are recommended by Mr. Tempest which appear to be necessary for the proper functioning of the system and for fire protection. I shall be glad to have your instructions with regard to these recommendations.

The work covered by the contract is now completed and appears to have been satisfactorily carried out, as Mr. Tempest expresses his entire satisfaction with Mr. Towers' handling of his contract.

I shall be glad, therefore, if you will send me a cheque in favour of Mr. Towers for the amount of the final certificate, namely $1659.87, for transmission to Mr. Towers.

Re: Brown and Hudson. and Indian School
at Onion Lake, Sask. My ref. 532.

Dear Dr. Scott,-

Mr. S. Brown of 791 Preston St., Winnipeg, of the firm of Brown & Hudson, (which is in my Constituency) saw me on Monday with regard to their contract for the construction of the Indian School near Onion Lake, Sask., and asked me to write to you with regard to the matter. The Contractors completed the job about the 1st of June and the premises have been occupied by the Department since about that time. Subsequently the contractors were advised that certain repairs were necessary. They completed these repairs and finished the job entirely about the end of September.

They have paid all their sub-contractors and are anxious to receive settlement of their account with the Department as early as possible. Mr. Brown has, I believe, sent you statements with regard to the amount coming to him.

Mr. Brown tells me that he wrote to you about two months ago with regard to settlement and with regard to fire insurance and although he received $5000.00 on account, he has had no reply from you to the letter which he wrote to you and cannot understand what the reason for this is.

Mr. Brown tells me that he interviewed the Inspector some two weeks ago and was told that everything was in order and complete. He has paid out his own money to the sub-contrators and is naturally anxious that he should receive settlement of his account with the Department immediately. I would very much appreciate it if you would look into the matter at once and expedite settlement of the account. I would appreciate an early reply from you.

JTT:P

Yours truly,

J. T. Thorson.

Dear Mr. Thorson:- October 31,1928.

I have your letter of the 26th instant with reference to Mr. Brown's contract for the Onion Lake Indian Residential School.

The delay in making final payment to Mr. Brown on this building is due to the fact that the work has not been completed to the satisfaction of our Inspector of Construction, and until all the work has been done in accordance with plans and specifications, it will not be possible to make any further payments on the contract. The Inspector was written to last week with a request to see Mr. Brown and endeavour to have the work completed. I expect to hear from him in the course of a few days, and if he has made satisfactory arrangements with Mr. Brown, the balance on the contract can then be paid.

Yours very truly,

dcl

Ottawa, Nov. 20, 1929.

Dear Mr. Thorson,-

Replying to your letter of the 7th instant, with reference to Brown and Hudson's contract for the new Onion Lake Indian Residential School, I find that nothing has been heard further from Inspector Hamilton since my Deputy wrote you on the 31st ultimo. A night lettergram has been sent to Indian Commissioner Graham at Regina asking him to interview Inspector Hamilton, and see what can be done to wind up this contract.

When a reply has been received from the Indian Commissioner I have asked my Deputy to advise you.

Yours faithfully,

DCL

Re: Messrs. Brown Contract for
Onion Lake School. File 532.

Dear Dr. Scott,-

I acknowledge receipt of your letter of the 31st ult., with regard to the above. Mr. Brown has been in to see me several times recently and tells me that the Inspector has not called on him nor has he had any letter from him.

ACCOUNTANT
NOV 29 1928
BRANCH

On the 7th inst., I wrote to the Hon. Chas A. Stewart with regard to this contract and advised him that Mr. Brown had told me that he saw Inspector Hamilton at Regina early in October and that Inspector Hamilton told him that everything was finished as far as he knew. There has been apparently some complaint with regard to the grading of the cement in the basement of the school. Mr. Brown has made arrangements to have this work gone over so there will be no complaint on this ground. Recently Mr. Brown has been advised that the heating apparatus is not entirely satisfactory and he has taken this matter up with his sub-contractor here in Winnipeg who has undertaken to put the work in order. This would have been attended to long ago if the water had been available at the School when the plumbing and heating apparatus was put in.

In any event, the amount required to complete this work and the cement floor will be comparatively small. I would imagine that if $300 or $400 was kept out that would be ample protection to the Department. Mr. Brown has paid out large sums of money in connection with this contract and feels that settlement with regard to it should be made now. Mr. Brown put up a deposit of $8000 which has been with the Department since April 1927. There is also a large sum coming to him with regard to his contract. He has had no notification from the Inspector since early in October and is quite willing to allow you to keep back a certain sum until you are completely satisfied that everything is done in accordance with the contract. I would appreciate it

DEPT. OF INDIAN AFFS
JUN 16 1927
RECORDS

Agreement made in duplicate the **eighth day** day of

June, 1927. A. D.

Between His Majesty King George the Fifth, represented by the Superintendent General of Indian Affairs of Canada (hereinafter called the Superintendent General);

And

Messrs. Brown and Hudson,

of **791 Preston Ave., Winnipeg, Man.** (hereinafter called the Contractor).

The Contractor for himself, his heirs, executors, administrators and assigns, agrees to do in the most workmanlike manner all works and provide all the materials of the best kind shown in the drawings and described in the specifications marked "A" and "B" respectively and signed by the Contractor, and to complete, furnish and hand over to the Superintendent General or to some person by him appointed for that purpose, the

erection and completion of,-
Indian Residential School at Onion Lake, Sask.

and all other work and labour incidental to and necessary for the entire completion thereof, whether specified or shown in the drawings or specifications or not, by the

eighth day of **December, 1927.** A. D.

AND in consideration of the above agreement on the part of the Contractor, the Superintendent General hereby agrees to pay the said Contractor the sum of **Seventy-nine thousand eight hundred & ninety-one dollars.** dollars, provided always that the Superintendent General may at any time during the progress or after the completion or alleged completion of the work, appoint an Architect, Engineer or other officer, in which case the certificate of such Architect, Engineer or other officer, that the work is duly completed and of the amount, if any, due to the Contractor, after making such allowances for penalties and for defective or incomplete work, or for extras and deviations as the Architect, Engineer or other officer shall think fair, shall be a condition precedent to any claim by the Contractor under this contract.

AND the Contractor for himself, his executors, administrators and assigns, further covenants and agrees:—

1. That the wages to be paid in the execution of this contract shall be those generally accepted as current in each trade for competent workmen in the district where the work is carried on. If this condition is violated, the Superintendent General may cancel the contract and refuse to accept any work done thereunder.

2. That if the Contractor fails at any time to pay any account for any goods or materials supplied, or money advanced by anyone to the said Contractor for the purposes of this agreement, or to pay the account of any sub-contractor for any work or materials done or supplied for the said works to be constructed under this agreement, and such

account is in either of such cases one month overdue, the Superintendent General may notify the Contractor to pay such account, and if a week elapse and the same be not paid in full, the Superintendent General may pay such account and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

3. That if the Contractor fails at any time in paying salaries or wages of any person employed by him upon or in respect of the said works, or any of them, and any part of such salary is one month in arrear, or if there be due to any such person one month's wages or salary, the Superintendent General may notify the Contractor to pay such salary or wages, and if two days elapse and the same be not paid in full up to date of payment, or to such other date as may be in accordance with the terms of employment of such person, then the Superintendent General may pay to such person his salary or wages from any date to any date and to any amount which may be payable, and may charge the same to the Contractor, and the Contractor covenants with the Superintendent General to repay at once any and every sum so paid.

4. That pursuant to the Statute in that behalf, this Agreement is made subject to the express condition that no member of the House of Commons of Canada shall be admitted to any share or part of this Agreement or any benefit to arise therefrom.

5. That the Contractor shall not assign, transfer or set over this contract or any interest therein to any person or persons whomsoever, without the consent, in writing, of the Superintendent General of Indian Affairs first had and obtained.

IN WITNESS WHEREOF the said Superintendent General of Indian Affairs, acting as aforesaid, and the said **Messrs. Brown & Hudson,** have hereunto set their hands and seals the day and year first above mentioned.

His Excellency

The Governor General in Council.

The undersigned has the honour to report that plans and specifications were obtained through the office of the Dominion Water Powers Branch of the Department of the Interior for the construction of a water supply and sewage system required for the Onion Lake Indian Residential School, in the Onion Lake Indian Agency in the Province of Saskatchewan, and that the following tenders were received:-

Bennett and White Construction Company, Calgary, Alberta.....$18,250.00

Mr. John Towers, Calgary, Alberta.....$14,386.01

The Engineer of the Department of Indian Affairs has reported that the lower of the above tenders, namely, that of Mr. John Towers of Calgary, is fair and reasonable, and the undersigned has the honour to recommend that it be accepted pursuant to the requirements of Sub-section 2 of Section 36 of the Public Works Act. Funds for this purpose have been provided in the vote for Indian Education.

INSPECTION REPORT ON SCHOOLS ONION LAKE AGENCY.

Dear Mr. Graham,-

x x x

ONION LAKE R. C. RESIDENTIAL SCHOOL.

I visited this school on three ocassions during my stay at Onion Lake. All the details in connection with the construction of this school had not been completed. The electric lighting plant was installed at the time of my visit and the water system was also completed. It appears that there has been a great deal of difficulty experienced in getting the contractors to complete their work. I examined the plumbing system and the heating and lighting plant, and the work in connection with these appears to have been well done. There appears to have been no provision made for a chimney for the laundry and bake oven. They require a stove in the laundry for the purpose of heating irons. The laundry floor has not sufficient fall to carry off the surplus water. As a matter of fact, the fall appears to be away from the drain instead of to it. This is a detail that was pointed out by the Sisters and is not being mentioned here with a view to fault finding.

The fire fighting equipment consists of 2 sets of hose on each floor attached to the water supply system. This equipment, being new, is in first class condition. I noted that there were no fire extinguishers and would point out that all our residential schools, in addition to the hose, we have 2 fire extinguishers on each floor. Access to the fire escapes is obtained through rooms occupied by members of the staff.

The school has been very nicely equipped with new furniture. The Rev. Father Balter, O.M.I., is in charge as Principal. Mr. Balduc is the Farming Instructor and Mr. Rose is Engineer. There are 6 Sisters of Charity, 3 of whom are teachers. The Sister Superior is the business manager of the institution and appears to exercise supervision over the outside operations as the present Principal is not a practical man being more of a student.

FARMING.

This year they had their first crop. 30 acres of wheat produced 573 bushels; 45 acres of oats yielded 2300 bushels. Their garden produced 400 bushels of potatoes, not sufficient for their requirements. The wheat was a good quality of Garnet and will make excellent seed. They will realize a good price for this.

Their stock consists of 13 cattle, including 8 milking cows, 7 horses, 16 pigs and 75 hens. Mr. Balduc appears to be a good farmer and a careful man with stock.

I was very unfavourably impressed with Rose, the Engineer. He had a great deal of fault to find with the plant which he is expected to operate and has succeeded in getting the Principal and the Sister Superior very much dissatisfied. He found fault with the plumbing, the boilers, the electric lighting plant and the water supply system. Even the engine wasn't properly constructed. Everything was wrong. I was presented by the

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

www.collectionscanada.gc.ca

ONION LAKE R. C. RESIDENTIAL SCHOOL (CONTINUED)

I was presented by the Principal with a typewritten list of all the imperfections in connection with this plant and came to the conclusion, after examining the plant, that Mr. Rose was making a big noise to hide his own incompetence. This man is a trouble maker pure and simple, in my opinion, and I think the wrong class of man to have associated in any way with an institution of this kind. The outside dwelling for the Farming Instructor, as well as the poultry house and implement shed, were nearing completion at the time of my visit.

There are 92 pupils enrolled, 50 boys and 43 girls. The children looked well nourished. There were a few cases of whooping cough and 2 children were sent to the hospital while I was there being typhoid suspects.

This being the first summer that this school has been occupied and as work has been under construction during the whole period, very little has been done towards beautifying the grounds, but as soon as the construction work and buildings are completed, the premises can be put in shape.

The foregoing report is respectfully submitted.

W. Murison,
Inspector of Indian Agencies.

1 - Mr. Scott
2 - Schools

Commissioners Office, Sask.
Nov. 29th, 1928.

Dear Mr. Scott,-

x x x

~~You will note what Mr. Gravil, the Engineer at the Onion Lake C. of E. School asks for in the way of hose for fire protection. This might be authorized.~~ You will also note what the Inspector says regarding the completion of the contract at the new R.C. Indian Residential School. He states that no provision was made for chimneys in the laundry and bake-oven. This may or may not have been an oversight, as they may have had some other scheme in view when the plans were drawn. He also complains about the manner in which the laundry floor has been built. I do not know whether this was in accordance with the details of the plans or not.. Mr. Hamilton has gone to this school to make a final report and the Department will then be in a position to know just how the matter stands. One matter, however, I think should not escape the attention of the Department and that is that the I nspector says he was not impressed with the Engineer. I do not know whether this man has the proper qualifications or not, but if he has not he should be replaced. It is absolutely wrong to have an imcompetent man handling a plant of this kind, as he can do more damage in a few months that we should expect to occur in ten years. I would ask the Department to look carefully into this man's qualifications. The Inspector remarks that he has a great deal to say. I found this to be the case when I was at this school.

Yours very truly,

W. M. Graham,
Indian Commissioner.

Dear Sir:-

Re Howard J.Skinner

On the 31st of October 1928 we wrote to Mr.Duncan Scott Superintendent of Indian Affiars, at Ottawa, with reference to a claim of the above party for work done on Onion Lake Indian School as painter from October 1927 to April 1928. We also sent him a Statutory Declaration setting for details of the claim.

Details of the claim were as follows:

To 302 3/4 hours painting at 45¢ per hr during said period	$586.26
To payment on account	202.00
Balance claimed	384.26

The contractor of the Government was Brown & Hudson. These hired a sub-contractor one A.Cloughton, and Cloughton hired our client to do this work.

There is a balance owing to our client of $384.26 which A.Cloughton has not paid him or anyone else.

In making final payments under the contract we shouldbe pleased to obtain settlement of this balance from you direct, if possible, the contract with the Government provides in clause 17 and elsewhere for such manner of settlement.

Please let us hear from you by return with reference to this matter, and oblige,

Yours truly,

COSTIGAN & CO.

Dear Sirs

I received a phone call from Mr W M Graham here in reference to the final estimate on the construction of the R C Indian Residential School at Onion Lake, he having received a wire from your office re same.

I notified him that I would proceed to Onion Lake this week but on inquiry I found out that owing to the mild weather in that district I would not be able to get across the north Saskatchewan river as the ice was not safe. if all is well I will leave for Onion Lake next friday and will make the final inspection and make an estimate of what it will cost to complete contract according to specifications and will issue final estimate accordingly.

There is also some claims against Brown & Hudson for wages and material which I have been asked protection on and have written to Mr Brown to see those parties and get an adjustment of the claims.

I received a letter from Doyle Costigan & Christopherson Solicitors for Howard J Skinner which I am enclosing herewith.

I remain

Your obedient servant

Wm Hamilton
2259 Lorne Street

COMMISSIONER'S OFFICE,
REGINA, SASK., November 27th, 1928.

Sir:-

I beg to forward for payment the vouchers shown below from the Onion Lake Agency, for the Farmer's cottage at the R.C. Indian Residential School. Abstract of Tenders accompanies the building material and hardware vouchers, except for dimension lumber, which was bought from a local mill, and E. Rotherham's tender for wiring the cottage is attached to Voucher No. 219.

The cottage has pleased the school authorities and is finished except for interior painting and tinsmithing.

No. 214	Superior Lumber Yards, Lloydminster, Sask.	$41.78
No. 216	G. T. Hunter, Onion Lake, Sask.	466.70
No. 217	J. Harris, " " "	36.80
No. 218	A. Venning, Lloydminster, Sask.	153.00
No. 219	E. Rotherham, Onion Lake, Sask.	70.00

November 29th 1928

Mr. J. D. MacLean,
Asst. Deputy Secretary
Dept. of Indian Affairs,
Ottawa, Ontario.

Dear Sir:- Re: Your File 115-8-15

With reference to the work done by our Engineer wiring up the Switchboard and Generator in the new Roman Catholic School at Onion Lake, the writer has just learned that while there our Engineer ordered to go forward from Winnipeg some Porcelain insulators, some fuses, and some wooden screws, the total cost of which amounted to $6.31, as per the attached Invoice in triplicate, on our file No. 44285.

On taking this matter up with Mr. Pedersen who did the work at Onion Lake, he tells us that the Porcelain Insulators were to be used on the wire fromthe Battery to the Switchboard and from the Switchboard to the Distribution board. The Plug fuses and the 6b Ampere Cartridge fuses were for spare parts for the Switchboard andthe90 Ampere Cartridges were required for the Distribution board.

These goods were shipped to Onion Lake without an order number, or without an order from your department and we would be glad if you could arrange to pass this Invoice for us. We understand that this would probably have to be referred to Mr. Hamilton at Regina and we are arranging to have a copy of this latter sent to him.

Yours truly,

THE CANADIAN FAIRBANKS MORSE COMPANY LTD.,

Returned to Ottawa

Duncan C. Scott, Esq., L.L.D.,
Department of Indian Affairs,
Ottawa.

Dear Dr. Scott,

You will remember that at the time you visited the new R.C.School here, the Sisters spoke to you about a mail delivery for them, as they are situated about six miles from the nearest postoffice. You then told me to write and remind you of this after you returned to Ottawa. Early in September I mentioned to the Rev: Father Balter, the Principal at the School, that I would write you on the matter, and he then asked me not to trouble you about it, as he had the matter well in hand and that the school was going to have a mail delivery. However, a few days ago he informed me that his negotiations had fallen through, and asked me to write you requesting that you use your influence to obtain this concession for the school.

Father Balter also handed me a copy of an agreement (enclosed) which he had obtained from Mr. Taylor, the Onion Lake mail carrier, offerring to collect and deliver the mail at the school for the sum of $100 annually. The whole thing is this - Taylor would have to go about two ~~xixs~~ miles out of his regular route, four times a week, to pick up or drop a bag at the school; and he offers to do this for $ 100 per year.

With kind regards to Mrs. Scott and yourself, in which Mrs. Turner joins.

Yours very truly,

Geo Turner

Regina Dec I2th/28

Department of Indian Affairs

Ottawa Ont

Dear Sirs

Having taken the matter up several times with Brown & Hudson re completing the contract of the Roman Catholic Indian Residential School at Onion Lake, it seems almost impossible to get them to take any action in getting the matter cleaned up, so when I received your request through Mr W M Graham I went up to Onion Lake Friday Nov 30th arriving at the School Monday Dec 3rd. I went over the building and made a thorough inspection and find the conditions as follows.

The heating plant is not completed and in its present condition is not giving satisfaction. there is one boilers out of commission as there seems to be trouble with the wet return, they claim that when they put up steam to about one pound the water leaves the boiler and will not come back till the pressure goes down, the matter has been taken up with Brown & Hudson and the Sub Contractor several times but they do not seem to want to do anything,so I asked the Engineer at the School if he could put the plant in working order, and he assured me that he could so I have notified the Contractors that unless the repairs are completed within thirty days that the changes would be made and the expense would be charged against the contract.

In the final estimate I have allowed 450.00 of a hold back till the work is made satisfactory. there is some cementwork & other adjustments which were taken up with Mr Brown and he made a deal with Mr Rose the Engineer at the school to do the work for 55.00 &

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

www.collectionscanada.gc.ca

that amount is also held back from final estimate, and the both amounts as mentioned above to be paid over as soon as the work has been done to the satisfaction of the Principal of the School.

You will find herewith enclosed the Final Estimates & also the Final Certificate which I hope you will find in order.

When I was at the School the Sister Superior took the matter up with me about a chimney for the laundry and bakery as you will notice by the plans that there is a room between the bakery and the kitchen which is a store room and at the present time they put a pipe through the partition and into the store room vent flue and in so doing it makes the storeroom too warm and no way to ventilate it

They also require a stove in the laundry for heating the irons for ironing the laundry. I went into the matter while there & in case you decided to have one built it could be erected in the laundry room and extend up on the outside wall of the chapel which would require about 35 feet of chimney. I took the matter up with a bricklayer at Lloydminster to submit a price for the above and as soon as I receive it I will forward it for your consideration, it is greatly needed from what I saw when there last week. the one chimney would suit for both the laundry and the bakery as the pipe could cross the corridor to the laundry which would do away with the heat in the storeroom. awaiting your further commands I beg to remain.

Your obedient servant

file 115-8-15

Dec. 20, 1928.

Dear Mr. Thorson,-

Referring to past correspondence regarding the balance due Mr. Brown for work on the Onion Lake School, I have today received a report from the Building Inspector, together with a certificate amounting to $3,065.39. This leaves a balance still owing Mr. Brown of $978.00. The Inspector has reported that this amount should be held back on account of work still to be done on the heating system also some concrete work, together with an amount required to protect the F. T. Roberts Ltd. for lumber supplied and not paid for amounting to $60.75 and J. H. Skinner for painting amounting to $304.26.

Yours very truly,

DC

DEPT. OF INDIAN AFFAIRS
DEC 20 1928
RECORDS

Department of Indian Affairs
Ottawa Ont

Dear Sirs

You will find herewith enclosed,five accounts for material and labor which was used at the Roman Catholic Indian Residential School. Onion Lake.

The material as supplied by G T Hunter of Onion Lake. was used in the construction of the floor over the pit which was made to receive the pressure tanks for the water system.

The corrugated fasts as supplied by Bridgmans Hardware of Winnipeg were used in the construction of the doors for the lockers and cupboards which I had erected for the school.

The glass as supplied by A F Miller Hardware Co of Lloydminster was for the glass doors of the cupboards in the class rooms for supplies.

The account of the McDonald Willson Electric of Winnipeg I authorized the first items namely 2 bracket lights in the chancel of the chapel,which the principal said was nessessary. the rest of the wiring was authorized by Mr Turner. Indian Agent there at the request of the Sister Superior. the material as specefied left at the job was at the request of the Principal and the Engineer. the material shipped to the school as specified on page two of the account, I did not know that it was ordered and when I received their account I forwarded a copy to the principal for information & they notified me that the material had not been received by them I then took the matter up with the firm and they notified me that the material was shipped from Winnipeg Nov 8th and when I was in Lloydminster the begining of this month I found it there and checked it off by the account.

The account of the Fairbanks Morse Co. the work was done by them since I left the school so I took the account up with me & had it checked over by the engineer at the school who assured me that the account was O K. while I was there I found that the switch board that had not been used being replaced by one suitable for the plant I had it shipped back to the Fairbanks Morse Co at Winnipeg for which there will be a credit for same coming to you.

In making the above explaination is to explain my position in the matter as it seems to be a little out of the regular way of ordering.

You will notice in the final estimate that there is some extras which I did not receive instructions from you to have done but in asking to have the work done the Sister Superior asked to have the deductions as specefied in the final estimate to cover the amount of the extras which was not authorized by you.

I hope when you have looked into my explaination as above you will overlook anything you may think was not quite in order and that my action may meet with your approval. I remain

Your obedient servant

Dear Sirs

The work in connection with the Roman Catholic Indian Residential School at Onion Lake being about completed I take the privelege of writing you in reference to the basis of settlement of my salary and expenses.

I never sent in my report for june and in that case have not received my salary and expenses. I have also handled the work by correspondence with the several contractors in connection with the completion of the work, I have made three trips to the school averaging five days to each trip on inspection duties and have paid all my expenses in connection with same, as there were no arrangements made for those extra services and expenses I would like to have your suggestions as to what you consider I should charge.

I appreciate the confidence you have placed in me while in your service and hope that I may have the privelege of serving you further.

The contract is not fully completed yet but I will see it through to a satisfactory finish, and any further assistance I can be to you will be cheerfully given. I beg to remain

Your obedient servant

Dear Sirs

In checking over the contract and the work required to complete same I overlooked one item when making out the final estimate (namely) the swinging steps from the fire escapes.

I took the matter up several times with the contractors and they promised to have the matter attended to by the sub-contractor for the iron work but up to the present the material has not arrived at the school, so I would ask you to take the above into account beforefinal settlement is made, I have also notified Brown & Hudson of the error.

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 22 nd DECEMBER 1928

DEPT. OF INDIAN AFFAIRS
DEC 28 1928
RECORDS

R

The Committee of the Privy Council have had before them a report, dated 3rd December, 1928, from the Superintendent General of Indian Affairs, submitting that plans and specifications were obtained through the office of the Dominion Water Powers Branch of the Department of the Interior for the construction of a water supply and sewage system required for the Onion Lake Indian Residential School, in the Onion Lake Indian Agency in the Province of Saskatchewan, and that the following tenders were received:

Bennett and White Construction Co., Calgary, Alta..$18,250.
Mr. John Towers, Calgary, Alta $14,386.01

The Minister recommends, pursuant to the requirements of subsection 2 of section 36 of the Public Works Act, the acceptance of the lower of the above tenders, namely, that of Mr. John Towers of Calgary, the Engineer of the Department of Indian Affairs having reported that it is fair and reasonable. Funds for this purpose have been provided in the vote for Indian Education.

The Committee concur in the foregoing recommendation and submit the same for approval.

E. J. Lemaire
Clerk of the Privy Council.

Dec. 5th. 1928

Mr. W. A. Hamilton,
2259 Lorne St.
Regina, Sask.

Dear Sir;

Mr. S. Brown, the contractor for this building has sent up the required amount of money to fix the boiler room floor and the steps leading to the boys recreation room, which you had arranged to be fixed.

This work will be done under the supervision of our engineer, and I see no reason why it will not be satisfactory, nor any reason, on our part, for holding up that part of the settlement.

I also take this means of telling you how well pleased I am at your recent inspection here. We needed just such a complete and thorough going over as you gave it, and takes a lot of worry off my mind, as I know now that you will be able to make your report comprehensive, and on the strength of such a report, the Dep't. will, I feel sure, straighten the matters out.

Thank you again, and the compliments of the season to you and yours'.

Yours Truly,

Rev. L. Balter, O. M. I.

Dear Sirs

I have just received word from the principal of the Roman Catholic Indian Residential School at Onion Lake, informing me that the heating plant has been made satisfactory, also that the contractors Brown & Hudson have forwarded the amount agreed upon to have the cement work made satisfactory to the school authorities.

I am herewith enclosing letters which I received from the principal of the school. I am also enclosing a guarantee from the contractors as called for in the specifications and which I omited to forward with the final estimate.

With the above mentioned work being done completes the contract with the exception of the swinging steps for the fire escape as mentioned in my letter of Dec I8th. I am pleased to be able to say that the finish of the contract is in site at last.

I have just received word that the switch board which was replaced by one suitable for the lighting plant has been shipped to Fairbanks Morse Co.Winnipeg so there will be an adjustment to be made between the costs of the two, the cost of the cartage from the school to Lloydminster is I.20 which I am forwarding them. awaiting your further comands. Dominion Water Power and Reclamation Service

Calgary, Alta. Dec. 18, 1928.

Sir,

In further reference to our letter of October 31 forwarding two copies of Mr. Goodchild's final inspection report of the Onion Lake (R.C.) Indian Residential School. In this letter we referred to the recommendations which were made by Mr. Goodchild regarding the installation of an air starter for the twenty-five H.P. engine, an additional 300' of 2½" fire hose with couplings and fourteen soda acid fire extinguishers. We have now obtained quotations for supplying and installing the air starter and also, for the hose, details of which are submitted hereunder:

Air Starter	Tender from Canadian Fairbanks-Morse Company.
1 - 2/2 H.P. engine with belt 1 Curtis 3 x 3½" air compressor 1 - 16 x 60" vertical tank (suitable for 200 lb. pressure) All valves and fittings for installation including 1 length ¾" and 1 length 1" pipe 1 air starting burner for quick heating	- $475.00
Price of installation	175.00
	$650.00

Fire Hose	Price submitted by Messrs. Bell and Morris- Calgary.
300' - 2½" linen hose - 31¢ ft. net =	$ 93.00
Brass couplings - $6.00 set - 6 requ'd.	36.00
Price F.O.B. Lloydminster	$129.00
300' rubber lined "Millyard" fire hose, 45¢net ..	$135.00
Couplings $6.00 set - 6 required	36.00
	$171.00

Fire Extinguishers Required 14	Messrs. Bell and Morris - Calgary.
2½ gallon soda acid fire extinguishers	------
$15.00 each F.O.B. Lloydminster	$210.00

We would recommend that the air starter be installed at Lloydminster and the price submitted by the Canadian Fairbanks-Morse Company accepted.

In regard to the fire hose which has been recommended for the protection of the barn, we would in this case recommend that the inexpensive linen hose be purchased as it is not likely it will be used very often and it is thought the rubber hose would perish after three or four years' storage.

The fourteen soda acid fire extinguishers should be purchased as they will act as an additional factor of safety in case of fire. The price submitted by Messrs. Bell and Morris is satisfactory and we would recommend its acceptance.

Your obedient servant,

(Sgd.) P. J. Jennings,
Acting Commissioner of Irrigation.

Dear Sir:

Re- Indian School, Onion Lake.

Mr. S. Brown, Contractor, advises us that he has been informed that the swinging steps were missing on the fire escapes on this school, and on looking into this matter, we find that these fire escapes were supplied in accordance with the enclosed drawing F41-2569-S8 and S9.

These drawings are the details made from the general plans which we had here at the time we furnished the steel and iron work for this building. These details of ours were approved by the Department in Ottawa. Thus, it would seem that the contract has been fulfilled.

May we ask you to please look into the matter and advise us.

Yours truly,

MANITOBA BRIDGE & IRON WORKS LIMITED.

Winnipeg Man

Att Mr K B Schioler

Dear Sir

Re R C Indian Residential School. Onion Lake.

Your letter of the 22nd received with enclosure of blue prints of fire escape. in reference to the enclosed blue print I may say it is not the fire escape which I wrote to Mr Brown about. the fire escapes which are not complete is at the front of the building & calls for swinging steps from the lower landing.

I have taken the matter up several times with Mr Hudson of the firm of Brown & Hudson and he promised to have the matter attended to and as for you saying that those details were approved by the department, I think you must be mistaken as the details were sent to Brown & Hudson at Onion Lake and they asked me to O K the figures which I refused to do and I do not think that the department would approve of it without informing me of their action in the matter.

The detail which you enclosed in your letter is for the fire escape at the rear of the building and lands on the roof of the one story extension and does not require swinging steps but the ones at front does require them.

Hoping that the above explaination will be satisfactory to you and that the swinging steps will be forwarded without delay. I remain

The Department of Indian Affairs,
Ottawa, Ont.

Gentlemen:

Re. Onion Lake School.

With regard to the two fire escapes for the front of the above school, we were informed a short time ago by the contractor Mr. Brown, that your Inspector, Mr. W.A.Hamilton had advised him that these were not complete as he was still waiting the swinging steps, from the lower landings.

We advised Mr. Brown that our design was what was shown on the plans and that this design had been approved by your Department before we began fabrication.

He asked us to write Mr. Hamilton and we did so, but in his reply he expresses doubt as to our having had our details approved by your Department.

We noticed when detailing these escapes that the plans did not agree with the specification, and we figured that when you showed a short flight of stairs and the last balcony so close to the ground that you intended doing away with the swinging stairs, which is quite a common practice.

To make sure that this was your intention we sent our details with our letter of June 23rd. 1927, and on July 4th. we received them back duly approved and initialled by someone in your Department.

You have no doubt in your files our detail sheet S9 which shows these, and you will notice that from the way the hand-rail is shown on the lower balcony and from the width of this balcony this was the end of the escape, and that no further stairs were intended.

We would ask you to kindly check this over and advise us as we are anxious to have this matter cleared up as quickly as possible.

Yours truly,
THE MANITOBA BRIDGE & IRON WORKS LIMITED.

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE.
REGINA, SASK., January 9th, 1929.

Sir:-

In connection with the buildings which were erected at the new R.C.Residential School in the Onion Lake Agency, viz:- a Farming Instructor's cottage, implement shed and chicken house, I wish to inform you that the painting is not completed. The Agent estimated that the paint and labour would cost approximately $375.00, work which he was authorized to go on with, but owing to it getting too late in the season, it was deemed unadvisable to go on with the work and only $55.00 was spent. It will therefore be necessary to provide for approximately $325.00 in the spring to complete this work. I am bringing this matter to your attention now so that provision can be made for this expenditure.

a note for later month

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Mr. S. Brown,
791 Preston Avenue,
Winnipeg, Man.

Dear Sir,-

In reply to your enquiry of the 5th instant, I beg to inform you that the site for the new school is about 30 miles due north of Lloydminster, C. N. Ry., and the Saskatchewan river has to be crossed by ferry. The roads are usually in good condition excepting in the early spring. Water is right on the job, and I do not think the gravel haul will be more than a mile. Common boards and dimensions can be purchased locally; I will ask the owner of the mill to write to you re Prices. For the sand and gravel you would be expected to make a small payment to the Indian band funds, say 25¢ per load.

Yours truly,

"Lang Turner"

Indian Agent.

Re: P. T. Roberts' claim, $88.75.

This item referred to in Final estimate No. 10 is disputed by Mr. Brown. He says that he had no dealings at all with P. T. Roberts Limited; that he placed his order with James Gibson for all lumber and that he has a receipt in full from Mr. Gibson for all claims signed by Mr. Gibson in the presence of a witness. This item therefore should not be held back and should certainly not be paid to P. T. Roberts Limited without further investigation.

Re: Claim of H. J. Skinner, for labor, as a painter.

This is disputed by Mr. Brown. Mr. Brown gave the painting sub-contract to a man called Cloughton, who quit before the job was finished and Brown had to finish the job himself. Skinner admits that he knew Cloughton was getting his estimates regularly but he gave no intimation to Brown that he was not getting his wages until about 3 weeks after he had quit the job although he met Mr. Hudson immediately after he quit work at Lloydminister and said nothing to Mr. Hudson at that time. If he had advised either Mr. Brown or Mr. Hudson that he was not being paid, they could have protected him. Mr. Brown contends that Skinner's claim is a sham and that he has been paid. Neither Mr. Brown nor Mr. Hudson have had any statement up to this time from Skinner as to the particulars of his claim. They have had some notification with regard to it from Mr. Hamilton. / Certainly this amount should not be paid out to Skinner without further investigation./

The information contained in this letter is submitted to you for your consideration. If there is any further information on any of the points involved, that I can get for you, I shallbe very glad to obtain the same. If there are any such points, I should be glad if you would let me know what they are, so that I may take them up with Mr. Brown before I leave for Ottawa.

I am advised that everything is now in order in the school with perhaps the exception of one item regarding fire escapes which is in dispute.

JTT.:P

Yours truly,

J. T. Thorson

P. 5.
Dr. Scott Re: Onion Lake School-File 532.

3. Extra pulleys. These were used in connection with the washing machines and were ordered by Inspector Hamilton. The price of them was $12.71, which together with an additional 10% makes $13.98.

4. Extra electrical work. Inspector Hamilton knows all about this account and copies of it were sent to him. This was extra electrical work required and I understand that the account of Messrs. McDonald Wilson Electric Co. Ltd., has been forwarded to the Department. It stands at $107.15. This together with an additional 10% makes up the item of $117.86.

5. Brass clips to door. This is an extra which ought to have been included in the final estimate.

6. Extra excavation and concrete work for machinery room. This item is in dispute as between the contractors and the inspector. Mr. Brown wrote to you in August with regard to this item and stated that Mr. Hamilton was absent for part of the time during which this work was done but that Mr. Hudson took the time and entered it in his time book each night. Mr. Hudson's affidavit covering this item was sent forward to you on the 23rd of August. Mr. Brown was on the job at the time himself and states that he is prepared to take an affidavit that Mr. Hudson's statement as to this item is correct.

Re: Deductions

Mr. Brown contends that this item of $298.29 which appears as a deduction in final estimate No. 10 should not be deducted. Inspector Hamilton says that this item is based on Mr. Brown's own figures but he forgets that Mr. Brown's figures included all the overhead which was buried in the whole job and in any event no deductions were contemplated for months after all the material was placed on the job. Mr. Brown was unable to realize anything at all on the material that was left over, since the cost of transporting the material back would have been as much as it was worth. Mr. Brown contends that $75.00 would be ample to cover the deductions.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

House of Commons
Canada

4. Hauling Lumber and camp supplies. Mr. Brown used about 125,000 feet of lumber and it cost him $6.00 per thousand for hauling it from Onion Lake to the site of the school. This accounts for the $750.00. In addition to that, he had to haul all his camp supplies and the sum of $100 would be a very reasonable estimate for this additional expense. When Mr. Brown went up to the site of the school in September, he found the state of affairs very different from that intimated by Mr. Turner in his letter of April 11th, and very different from that regarding which he had been advised by the man whom he and the Western Steel Products sent up. Mr. Turner's letter is consistent with the school being built at Onion Lake itself and quite inconsistent with its being built on the present site, 8 miles from Onion Lake. It seems to me that Mr. Brown was perfectly justified in assuming that the school was going to be built right at Onion Lake and that he ought to be recompensed for the additional cost to him due to the erection of the school at the present site. He made his estimates on the basis of the school being built at Onion Lake and the Department has received the benefit of that estimate. The Department in paying Mr. Brown the additional expense is not paying twice. May I also stress the point that the contract itself calls for the erection of an Indian Residential School at Onion Lake, not 8 miles from Onion Lake. In view of the circumstances, outlined above, there is a very great difference between the two.

With regard to the other disputed items in extras:

1. Balance for verandah extension and stairs to chapel, $301.00.
This item was authorized by Inspector Hamilton and his statement of $86.34 takes into account only the stairs and does not take into account the verandah extension. The item should stand at $301.00 instead of $86.34.

2. Copper for wash tables.
The plans for wash tables in the basement show that they were to be covered with copper but the plans for the wash tables elsewhere do not so specify and there is no mention in the specifications of copper covering. Mr. Brown tells me that he made no account in his tender for copper covering and that the Department would not be paying twice for it, if it were now allowed as an extra, as he says it should be. Mr. Brown received a telegram in March, 1928 from A. F. McKenzie to the effect that Inspector Hamilton had been requested to advise him that all wash tables were to be covered with copper as indicated in the basement plans. Accordingly, copper covering was used and should be paid as an extra $200.00.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

House of Commons
Canada

on the present site, Mr. Brown has been put to considerable expense not contemplated by him when he made his tender. The items of this additional expense are as follows:

1. Building and furnishing camps, $1800.00. If the site had been at Onion Lake near the old school, Mr. Brown could have used certain buildings at Onion Lake belonging to the Hudson's Bay Co., which were available and vacant and convenient to the job. Instead of that, he had to erect certain buildings near the job some 8 miles away including a bunk house, a cook house, an office for the inspector and an office for Mr. Hudson and himself. Mr. Brown did not figure on these buildings in view of the situation which had been disclosed to him at Onion Lake itself; so that there is no question of the Department paying twice for this item.

2. Hauling water, $1400.00. At Onion Lake itself, water was available right on the job and could have been taken out of the well near the old school. You will note that Mr. Turner in his letter of April 11th states that water is right on the job. It would certainly appear that at the time, Mr. Turner wrote this letter, he had in mind that the site would be right near the old school at Onion Lake. As a matter of fact, all the water had to be hauled a distance of over three-quarters of a mile uphill, and water was hauled this distance right from the commencement of the job until its completion and wages were paid at the rate of approximately 45¢ per hour for hauling water. Mr. Brown tells me that his Estimate of $1400 for this item of expense which would not have been necessary if the site had been at Onion Lake near the old school, is very conservative.

3. Difference in costs of gravel, $1200.00. Mr. Turner says in his letter of April 11th, 1927 that he does not think that the gravel haul will be more than a mile. As a matter of fact, Brown had to haul gravel a distance of about 4 miles instead of 1 mile. He had considerable difficulty in finding gravel and had to open up a pit himself. The cost of hauling gravel a distance of a mile would have been about $1.00 per yard for hauling. The government was constructing a barn not far from the school and was paying $1.75 per yard for gravel whereas Mr. Brown estimated this item at $1.00 per yard and did so on the strength of Mr. Lang Turner's letter. Mr. Brown had to pay $1.75 per yd for hauling instead of $1.00 as contemplated

House of Commons
Canada

The specifications intimate that for all information with reference to the site of the proposed building, contractors should refer to Indian Agent, Mr. Lang Turner, Onion Lake, Sask. Pursuant to this, Mr. Brown communicated with Mr. Lang Turner and received from him a reply dated April 11th, 1927, copy of which is attached to this letter. Mr. Brown also made arrangements with the Western Steel Products Ltd. to send a man up to Onion Lake in order to look over the ground. These arrangements were made in April, 1927, and the man sent up was told that the site was to be right beside the old school at Onion Lake. I am not quite certain whom this man sent out under this joint arrangement between Brown and the Western Steel Products saw. It may have been the priest in charge of the school at Onion Lake. At any rate the tender sent in by Mr. Brown was based upon the information he obtained from the Indian Agent as per the enclosed letter and upon the information he obtained from the man who went up to Onion Lake under the arrangement above mentioned.

May I also point out that the contract itself dated the 8th day of June, 1927, calls for the erection of an Indian Residential School at Onion Lake, Sask.

As a matter of fact, the school was actually built about 8 miles from Onion Lake Post Office. Mr. Hudson went up to the job in June 1927, shortly after the contract was let and started building. Mr. Brown did not go up to the site until about September, 1927 and was very much surprised at the location of the school. He spoke to Inspector Hamilton about the site then and as far as I am advised, Inspector Hamilton told Mr. Brown that a Saskatoon contractor had told him that the site was to be near the old school and that when he was named Inspector of the job, he wrote up to Onion Lake engaging rooms there and was very much surprised when on his arrival at Onion Lake he learned that the school was about 8 miles away. Mr. Brown was also told that the present site of the school had been decided upon towards the end of May, 1927. The tenders closed on the 2nd of May, 1927. Contract was awarded in June of 1927 and no notification was given to Mr. Brown of the change in the site. Certainly Mr. Brown understood from the information he had obtained, that the site was to be at Onion Lake near the old school. As a result of the school being built

Re: Brown & Hudson and Onion Lake School.
$532.

Dear Dr. Scott,-

I acknowledge receipt with thanks, of your letter of the 20th ult., herein. I also have a copy of the Inspector's Final Estimate No. 10. Some time in August, Mr. Brown sent you a memorandum of the extras claimed by him. These are as follows:

2 extra doors	450.00
Corridor partitions,	156.00
Paper for ceiling.	44.00
Balance for verandah extension and stairs to chapel	301.00
Copper for wash tables	200.00
Brass clips to doors	15.00
Extra excavation and concrete in machinery room	273.92
Extra pulleys	13.98
Extra electrical work	117.86
Difference in cost owing to site of school	5250.00

The first three items are admitted in final Estimate No. 10 submitted by the Inspector. With regard to the other items, I should like to submit the following facts for your consideration with a view to the adjustment of this account.

Difference in costs due to site, $5250.00.

Mr. Brown sent you particulars in regard to this item in a letter dated August 23rd, last, as to how the amount was made up, namely:

Cost of building and furnishing camps	$1800.00
Cost of hauling water	1400.00
Difference in costs of gravel and hauling same	1200.00
Hauling lumber and camp supplies from Onion Lake	850.00
	$5250.00

Memorandum:

Dr. Scott.

With reference to Mr. Brown's claim for extras other than those allowed by Inspector Hamilton, I beg to submit the following,-

With regard to the extra of $5,250.00 asked for for the difference in cost due to the moving of the site I beg to submit the following facts,- In the specifications it is stated that before submitting a proposal the bidder shall visit the site of the proposed work and fully inform himself as to all existing conditions. There is also a paragraph in the specifications which states that for all information with reference to the site of the proposed building the contractor shall refer to Indian Agent Lang Turner. In the letter submitted hereunder there is a copy of a letter received by Mr. Brown from Mr. Turner in which he states that the site for the new school is about 30 miles due north from Lloydminster, on the C. N. R.

The following is an extract from a letter dated Sept. 8th signed by Mr. Hamilton,-

> "They are also asking for an extra of $5,250.00 as they claim that when they figured on the school they understood that it was to be erected in Onion Lake alongside of the old one, and in my opinion I consider that if that was the case it should be the other way as the old school is over six miles further away from the railway than where it is now located, and they told me that they were given to understand that the distance from the railway to the school was 35 miles, and I took the trouble to get the milage registered on the truck they hauled their material with which gave it a little less than 30 miles to the present site and over 36 miles to where the old school was located, so if there was any adjustment to be made it would be in favour of the Department of Indian Affairs instead of to Brown and Hudson."

It would appear from Mr. Hamilton's statement that the building site is located a distance of exactly 30 miles from Lloydminster. It is also apparent from correspondence that Mr. Brown did not personally visit the site of the proposed building.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

With reference to the other items which Mr. Brown claims as extras I would recommend that Mr. Hamilton, the Inspector of Construction be asked to submit a further report on these items. When this information is received it will assist in deciding as to whether these items should be allowed.

88.15

With reference to the amount held back re the P. T. Robert's claim it would be well to write to this firm and find out if this claim has been settled.

384.26
473.01

Regarding the claim of H. J. Skinner for labour there is an affidavit on file signed by Mr. Skinner to the effect that there is still an amount of $384.26 owing to him. There is also a letter on file from the Department of Labour asking for protection for Mr. Skinner. This is a case where, I think, an agent of the Department of Labour should investigate before the amount is paid over to Mr. Brown.

In the last certificate issued in addition to the amount held back to protect the P. T. Roberts Co. Ltd. and H. J. Skinner was an amount of $505.00 to cover the necessary repairs and adjustments to the heating plant and also some cement work. The Department has been advised that this work has been satisfactorily completed, and it would, therefore, be in order to make a payment to Mr. Brown of $505.00, which will leave a balance due him on his contract of $473.01, plus whatever amount is allowed for extra work not included in Mr. Hamilton's final statement.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Jan. 16, 1929.

MEMORANDUM:

DR. SCOTT.

With further reference to my memorandum regarding claim made by Messrs. Brown and Hudson for the moving of the site at the Onion Lake School, I beg to give you the following facts which I have taken from the site file.

On June 15th, 1926, Commissioner Graham was asked to arrange for the selection of a suitable site for the proposed new School.

On March 30th, 1927, you telegraphed Graham asking what arrangements had been made regarding the site.

On March 31st Graham wired stating that excellent situation for school chosen by Inspector and Principal approximately 1½ miles north of south-west corner of Seesaskooch, good spring, good farming land and a lake. This telegram was confirmed in a letter of the same date from Mr. Graham. In this letter he further states that Mr. Murison advised him that the Reverend Principal had selected the site mentioned in his telegram some two years ago, and it was situated in the best farming land of the reserve. The site was to be approximately 4 miles from where the present school is located and 53 miles north of the town of Lloydminster, and the Reverend Principal strongly favoured the site.

On April 6, 1927 Graham was requested to arrange for suitable property for the school farm and to obtain a resolution from the band setting aside the land.

Cost awarded June 7/27

On May 10th, 1927 a letter was received from Mr. Graham enclosing a resolution from the band setting aside 640 acres of land to be used for educational purposes.
On May 27th, 1927 Indian Agent Turner was authorized by telegram to arrange for the fencing of the section for the new school and for the breaking of 75 acres, and on August 11th a voucher was received from Mr. Turner for $85.00 to cover the cost of breaking the 75 acres of land for farming.

Tenders solicited sent up to May 2nd – rec'd March 26th

On June 27th 1928 a voucher was received from Agent Turner and a cheque issued to cover the cost of the fencing.

Nowhere can I find any correspondence mentioning placing the new school opposite the old building.

January 19, 1929.

Dear Mr. Thorson,-

I beg to acknowledge the receipt of your letter of the 7th instant dealing with claims preferred by the contractor under his contract for building the Onion Lake school. All the claims allowed by Inspector Hamilton have been settled and the security deposit has been returned to the contractor.

We are holding back $88.75 for P. T. Robert's claim and will write to the firm to ascertain if they have received a satisfactory settlement.

As the Department of Labour has been appealed to by Mr. H. J. Skinner with reference to his claim $$384.26) I propose to ask that Department to investigate it.

The extras, a list of which follows, have been allowed in part by Inspector Hamilton. I am submitting Mr. Brown's claim to him in full detail and I am asking him to report immediately.

Balance for verandah extension and stairs to chapel.....	$ 301.00
Copper for wash tables.....	200.00
Brass clips to doors.....	15.00
Extra excavation and concrete in machinery room.....	273.92
Extra pulleys.....	13.98
Extra electrical work.....	117.86

Mr. Brown has no claim whatever for "Difference in cost owing to site of school $5250.00." The location of this school was decided on before the tenders were asked for and there was never any intention of placing the school on or near the old site. You state the specifications intimate: "That for all information "with reference to the site of the proposed building "contractors should refer to Indian Agent Lang Turner, "Onion Lake, Sask.;" this is not part of the specifications

J. T. Thorson, Esq., M.P.,
Winnipeg. Man.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

but is an extra note giving the contractors the address of the Indian Agent. The important note in the specifications is the following : -

" Before submitting a proposal, the bidders "shall carefully examine the drawings and specif- "ications, visit the site of the proposed work, "and ascertain for themselves the nature of the "soil to be excavated and the amount of excavat- "ing required, and fully inform themselves as to "all existing conditions. "

The description given by Mr. Lang Turner to Mr. Brown on April 11 is an accurate description of the site on which the school was to be erected. I take the following extract from a letter dated September 8, signed by Inspector Hamilton : -

" They are also asking for an extra $5250.00 of "as they claim that when they figured on the school "they understood that it was to be erected in Onion "Lake alongside of the old one, and in my opinion "I consider that if that was the case it should be "the other way as the old school is over six miles "further away from the railway than where it is "now located, and they told me that they were "given to understand that the distance from the "railway to the school was 35 miles, and I took "the trouble to get the mileage registered on the "truck they hauled their material with which gave "it a little less than 30 miles to the present "site and over 36 miles to where the old school "was located, so if there was any adjustment to "be made it would be in favour of the Department "of Indian Affairs instead of to Brown and Hud- "son. "

It will be quite impossible to consider favourably Mr. Brown's claim.

Yours sincerely,

Duncan C. Scott

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

www.collectionscanada.gc.ca

Jan. 21, 1929.

Sir,-

With further reference to the extra work claimed by Messrs. Brown and Hudson in connection with their contract for the Onion Lake R. C. School, I beg to give you the following particulars regarding the claims made by this firm for extras in addition to those which you have allowed.

"1. Balance for verandah extension and stairs to chapel, $301.00. This item was authorised by Inspector Hamilton and his statement of $86.34 takes into account only the stairs and does not take into account the verandah extension. The item should stand at $301.00 instead of $86.34.

2. Copper for wash tables. The plans for wash tables in the basement show that they were to be covered with copper but the plans for the wash tables elsewhere do not so specify and there is no mention in the specifications of copper covering. Mr. Brown tells me that he made no account in his tender for copper covering and that the Department would not be paying twice for it, if it were now allowed as an extra, as he says it should be. Mr. Brown received a telegram in March, 1928 from A. F. McKenzie to the effect that Inspector Hamilton had been requested to advise him that all wash tables were to be covered with copper as indicated in the basement plans. Accordingly, copper covering was used and should be paid as an extra $200.00.

3. Extra pulleys. These were used in connection with the washing machines and were ordered by Inspector Wilson. The price of them was $12.71, which together with an additional 10% makes $13.98.

4. Extra electrical work. Inspector Hamilton knows all about this account and copies of it were sent to him. This was extra electrical work required, and I understand that the account of Messrs. McDonald Wilson Electric Co. Ltd., has been forwarded to the Department. It stands at $107.15. This together with an additional 10% makes up the item of $117.86.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

5. Brass clips to door. This is an extra which ought to have been included in the final estimate.

6. Extra excavation and concrete work for machinery room, This item is in dispute as between the contractors and the Inspector. Mr. Brown wrote to you in August with regard to this item and stated that Mr. Hamilton was absent for part of the time during which this work was done, but that Mr. Hudson took the time and entered it in his time book each night. Mr. Hudson's affidavit covering this item was sent forward to you on the 23rd of August. Mr. Brown was on the job himself at the time and states that he is prepared to take an affidavit that Mr. Hudson's statement as to this item is correct."

Will you please let me have a full report giving your opinion on the above claims.

Mr. Brown also contends that the item of $298.29 which appears as a deduction in the final estimate should not be deducted, and his reasons are as follows,-

"Mr. Brown contends that this item of $298.29 which appears as a deduction in final estimate No 10 should not be deducted. Inspector Hamilton says that this item is based on Mr. Brown's figures but he forgets that Mr. Brown's figures included all overhead which was buried in the whole job and in any event no deductions were contemplated for months after all the material was placed on the job. Mr. Brown was unable to realise anything at all on the material that was left over, since the cost of transporting the material back would have been as much as it was worth. Mr. Brown contends that $75.00 would be ample to cover the deductions."

Will you kindly let me know if the materials were delivered on the job before the changes were made. I will be glad to have your report at your earliest convenience.

Your obedient servant,

W. A. Hamilton, Esq.,

Jan. 21, 1929.

Sir,-

I beg to refer to your letter of the 21st of June of last year, with reference to a claim by Mr. H. J. Skinner, 584 Spencer St., Winnipeg, for wages owing to him in connection with work on the Onion Lake Indian Residential School, the contract for which was awarded to Messrs. Brown and Hudson, 791 Preston Ave., Winnipeg, Man.

This claim is disputed by Mr. Brown, who states that he gave the painting sub-contract to a man called Cloughton, who quit before the job was finished, and Mr. Brown had to finish the job himself. "Skinner admits that he knew Cloughton was getting his estimates regularly but he gave no intimation to Brown that he was not getting his wages until about three weeks after he had quit the job, although he met Mr. Hudson immediately after he quit work at Lloydminster, and said nothing to Mr. Hudson at that time. If he had advised either Mr. Brown or Mr. Hudson that he was not being paid, they could have protected him. Mr. Brown contends that Skinner's claim is a sham and that he has been paid. Neither Mr. Brown nor Mr. Hudson have had any statement up to this time from Mr. Skinner, as to the particulars of his claim. They have had some notification with regard to it from Mr. Hamilton. "

Mr. Skinner still claims that there is a balance of $384.26 due him, and I am enclosing herewith a copy of a letter received by the Department in connection with this claim, also a copy of a declaration accompanying the letter. Will you please arrange to have this claim investigated by one of your fair wage officers and advise me as to what settlement should be made. In the final settlement with the contractors an amount is being withheld to cover this claim.

Your obedient servant,

Gerald Brown, Esq.,
Dept. of Labour,
Ottawa.

Jan. 21, 1929.

Sir,-

I beg to enclose herewith a copy of a letter from P. T. Roberts, Ltd., in reference to a bal..ce which they claim is owing to them for lumber supplied to Messrs. Brown and Hudson in the building of the Onion Lake R. C. School.

Mr. Brown claims that he had no dealings with the P. T. Roberts Co., that he placed his order with James Gibson for all lumber, and that he has a receipt in full for all claims signed by Mr. Gibson in the presence of a witness.

The Department is holding back $88.75 on Mr. Brown's contract to cover this claim, and I would ask you to please investigate and advise me if their claim is correct. Mr. Brown's address is 991 Preston Ave., Winnipeg.

JAN 30 1929
RECORDS

Regina Jan 26th/29

Department of Indian Affairs
Ottawa Ont

Dear Sirs

Your letter of Jan 2Ist received and contents noted. I am surprised at Brown and Hudson making such a claim,but I will do my best to explain the matter to you in the order as the items show in your letter.

Item #I

Verandah extension and Stairs to galary in Chapel. I authorized the stairs to the galary in the chapel,and which item I have allowed them 86.34 in the final estimate, and in reference to the verandah I refused to have anything to do in the matter on receiving your letter of july I2th/27 and I notified the Sister Superior of your decision. she then took the matter up with the contractor who gave her a price for the work and which she accepted and authorized the work to be carried out,which they did and when completed Mr Hudson received a cheque for part of the amount and made arrangements with her to pay an account for gravel of 95.00 to the Indian Agency and the ballance which amounted to about 50.00 was taken up for wood whicn the mission furnished them, therefore the Department had nothing to do with the extension to the Verandah.

Item #2

Copper for wash Tables. this matter was taken up with the Contractors and they accepted my decision in the matter but they claimed that the Plumbing Contractor should cover them but this Sub Contractor said that they did not consider it was their work but would go part way agreeing to do the work of covering the tables providing that Brown & Hudson would furnish the sheet copper and in this way it was carried out, in my opinion I consider the mention of covering the tables in the basement covered all such tables in the building.

Item #3

Extra Pulleys for Laundry Machinery. the specifications calls for all the nessessary Shafting.Pulleys etc and the machinery installed complete, but there is a question whether the pulley for the engine shaft should be furnished by them or the Department owing to the fact that the engine was supplied by the Department,but they certainly should supply the driven pulley on the shafting.

Item #4

The account for extra electrical work as per invoices from McDonald Willson Electric Co, and forwarded to you Dec I5th which includes supplies ordered by the mission,and as for the contractors financing the work they had nothing to do with it and it seems hardly the right thing to do to ask for I0% on the account.

Item #5

Brass Clips for Doors. I am surprised at Brown & Hudson asking for an extra on those clips, they were used for the folding doors between the class rooms on the ground floor. the hangers on those doors were not put on properly at first and when they tried to make them work they split the styles of some of the doors and

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

I ordered them to have the doors replaced so they offered to put those clips on if I would allow them to use the doors, so I consented providing they made a good job of it and that is where the clips were used which saved them from having other doors ordered.
Item # 6

Extra excavation and Concrete work for Machinery Room. the work was carried out by the men from time to time and I was there all the time that the work was being done, I told the Contractor that the work would be paid for according to the detailed estimate which they furnished me at my request, as there was no estimate given for the work. and the second clause on page 4 of the specifications covers that item.

3

Referring to the deduction of 298.29 as specified on final estimate # IO the deductions were figured out as per the detailed estimate which included Brown & Hudsons overcharges and as for the material he referred to they were buying the same kind of material for the job months after those deductions were decided on and as for the doors and millwork which was used at the school were not received at the job for three months after the deduction were decided on,which was on receipt of your letter dated Aug 24/27 and if any of the material was shipped to the job it was their own fault.

I am very sorry that there should be so much trouble about the work in connection with the above mentioned school and I wish to say that in all my experience as an Inspector of Construction I have never had so much trouble with all the contractors put together as I have had with the contractors on this school, and I am very sorry that it was not possible for me to have had a personal talk with your office and it was for that reason I suggested it in letters on two occasions and I am more convinced now than ever that it would be the best course to take in such matters.

I hope that the enclosed information will clear matters up and any other information or assistance I can give you in arriving at a settlement will be cheerfully given. I beg to remain

Dear Sir:-

Re Howard J.Skinner

Your letter of the 26th of November to hand.

We have interviewed both Mr. Cloughton and Mr. Brown in this matter. Mr. Cloughton states Mr. Skinner's account is O.K. Mr. Brown objected that $100.00 was paid to Mrs Skinner on account of the claim of Mr.H.J.Skinner. Now it can be proved that she received only $40.00. This quite agrees with the statement made by Mr. Skinner that he had received $62.00 in all Mr. Brown has not shown specifically wherein his objections are founded. We have tried to get this information from him and also his solicitor here, but without success. We submit that these should be ignored under the circumstances. We have waited now more than a month for Mr. Brown to get this, and Mr. Skinner is staying here in the City, and needs his money very much.He has a family to keep and there is no reason why he should be kept waiting on a hold-up like this.

Please write us and let us know what you are prepared to do . Mr. Skinner keeps calling us nearly every day now, and we should know what is delaying this, and hat is being done to get this matter straightemed out.

We trust to hear from you on receipt of this letter.

Yours truly,

Dear Sirs

I am herewith enclosing my report for the month of June up to the time I left Onion Lake. I am also enclosing my account for expenditures re Travelling. Board. Sleeper. Wages and other Expenses in connection with the Inspection Trips, also for material which I purchased while I was at Onion Lake.

The bolts referred to in the account were for anchors for the Electric Generator as there was only one set sent and they were used for the Electric Engine. the nails referred to in the account were purchased by me for the construction of the lockers. tables. cupboards and benches at the school, the receipts for same were mislaid by me. the other items in the account I overlooked securing receipts for same with the exception of the ones enclosed hoping that the above explaination will be satisfactory to you.

As for the charges for my services in the adjustments of accounts and othe matters in connection with the contractor & other work in connection with the school,including postage and stationary I asked for your suggestion in the matter in my letter of Dec 18th I consider the amount I have placed in the account is very reasonable considering the time I put in at the work.

Hoping that the above may meet with your approval I beg to remain.

Your obedient servant

W A Hamilton

Dear Sir;-

The writer is directed to write to you regarding your account; that the cheque you issued in favor of James Gibson under date the 13th instant for $160.00 is not in full settlement of your account.

We are enclosing copy of letter we received from the Theo A. Burrows Lumber Co., Ltd. with reference to the hauling charge you made of $105.00 and as they will not assume this charge, we certainly will not, and until that is paid us, we will not issue the Department the necessary ~~paper~~ clearance to give you the final estimate.

We also enclose you copy of the letter we have written to W. A. Hamilton the Inspector of Construction.

Yours truly,

(Signed)

DEPT. OF INDIAN AFFAIRS
FEB 13 1929

Ref. No.....
Re Letter 21st January, 1929
Number blank.

Lake Winnipeg Inspectorate
Inspector's Office

Winnipeg, 8th February, 1929

The Asst. Deputy and Secretary,
Dept. of Indian Affairs,
Ottawa, Ont.

Sir;-

I have to acknowledge your letter,daye as above.

This is with reference to a difference of accounts between Messrs P.T.Roberts,Ltd,Wholesale Lumber Dealers,of this city, and Messrs Brown & Hudson,contractors for the building of the Onion Lake R.C.School at Onion Lake.

I am directed by your letter to investigate and to advise if the claim of Messrs P.T.Roberts Ltd.,is correct.

I have ascertained certain facts by interviewing Mr. Sam Brown of Brown and Hudson,Mr P.T.Roberts of Messrs P.T.Roberts Ltd.,and Mr James Gibson who is implicated in this matter as the Salesman of Messrs P.T.Roberts Ltd,and who ~~xxxxxxxxxxxxxx~~ sold the lumber to be used on the work at Onion Lake.

The order for this lumber,mentioned above,was dated as follows, Winnipeg, June 24th,1927,and is addressed to Messrs P.T. Roberts Ltd of Winnipeg,for delivery at Lloydminister,Alta,for the prices shown in the order,the order states the terms of the of payment and is signed "S.Brown.

Encl

Mr Sam Brown also knows that Messrs P.T.Roberts Ltd,shipped the lumber mentioned in the order,some in June,1927,bulk in July 1927,some in August and September 1927. Mr Brown also knows that he paid certain monies from time to time for this lumber,so,~~xxxx~~ to me,it seems strange that Mr Brown should say he had no dealings with Messrs P.T.Roberts Ltd,and there is good grounds to be doubtful of the validity of his statement. I understand that Mr James Gibson,as a salesman called at different times on Mr Brown, In fact Mr Brown knew who this man was in a business way.

When I interviewed Mr Sam Brown re this matter he showed me a receipt,I enclose a copy of this receipt herewith,he gave a cheque to Mr James Gibson,drawn as shown in the copy of this cheque herewith enclosed,and he gets the receipt,which is signed "P.T.Roberts Ltd" per J.Gibson" ,both the cheque and the receipt have written thereon "In full &c &c." I think Mr Gibson exceeded his position with the firm he represented when he gave such a receipt,and my conclusion was confirmed when I read the letter from

from

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

from Messrs P.T.Roberts Ltd,dated 20th Dec.,1927,a copy of this letter is enclosed herewith, After reading this I am again convinced that Mr Sam Brown was well aware that he was dealing with Messrs P.T.Roberts,Ltd.Mr Brown's assumed ignorance,as to Messrs P.T.Roberts Ltd,is only an excuse,and is taken to back up his claim that he"settled in full" with Mr James Gibson,which claim I feel is on a very doubtful base.

When Mr James Gibson turned in to Messrs P.T.Roberts Ltd., the cheque he had received from Mr Sam Brown,he endorsed it and Messrs P.T.Roberts Ltd,placed the amount of $160.00 to the credit of Mr Sam Brown's account,and notified Mr Sam Brown that this was "not in full" settlement of his account)see letter 20 Dec,1927). After this incident Messrs P.T.Roberts Ltd decided that they must move to protect themselves and they then addressed Mr W.A.Hamilton,the Building Inspector of construction. This action then placed Mr Brown in the position that he would have to meet Messrs P.T.Roberts Ltd to get his "settlement",so called,confirmed. Mr Brown takes the position that he "does not know Messrs P.T.Roberts Ltd",which in my opinion is foolish,as the receipt,on which he bases his claim of"settlement in full", is signed "P.T.Roberts,Ltd.,per J.Gibson", and in order to have this receipt confirmed it is in his interest to meet the lumber people.

I have also found that there were some other difficulties developed by the fact that Mr. W.A.Hamilton would not accept some lumber that was offered for the job,as it was not up to grade. Messrs P.T.Roberts Ltd.,shipped the grades they received an order for,t they had nothing to do with the grades Mr Sam Brown ordered,except to ship what was asked,the prices given were for the grades ordered. When the "off grade" was fixed by the Building Instructor,Mr Brown felt that he must blame some one,so you can readily understand what he would do.

As a sensible business man,having his own best interests at stake,I told Mr. Brown that he should seek and court a satisfactory settlement with Messrs P.T.Roberts Ltd,and to do this quickly by calling on them and asking what was the trouble. Mr Brown says he will not meet Messrs P.T.Roberts Ltd. In short he will not proceed to take any steps to adjust differences. Under the circumstances then,I think The Department would be taking a proper stand to inform Mr Brown that they have to insist upon his getting this dispute adjusted and validated without any further delay. Such a request would bring Mr. Brown to the realise that he is really the cause of delay in closing this business up.

1. Mr Brown placed order with Messrs P.T.Roberts Ltd and arranged terms of payment with them. Not With Mr James Gibson.
2. Mr Brown attempts to make a settlement with Mr James Gibson, and he is notified,that what he did with Mr Gibson is not a "full settlement,as long ago as the 20 Dec.,1927. In spite of this notice he is still holding off closing the account with the proper principals.
3. He feels hurt because Messrs P.T.Roberts took proper steps to protect

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

3. protect their interests by informing the Building Inspector of their difficulties with the Contractor. Mr. Brown could and can readily remedy this phase of the business.
4. The trouble about grades of material cannot be placed against the lumber people, they shipped what was ordered and were paid for what they shipped. In fact any claims by Mr Brown have, so far as I can find out, been adjusted and fixed up, his account indicates that.
5. The balance claimed is indicated in the statement of account as rendered. All payments made by Mr. Brown have been properly credited to him. I think it is up to Mr Brown to show why he persists in holding up a settlement. The balance claimed is correct so far as I can determine that.

I have the honor to be,
your obedient servant,

Jno. R. Bunn,

R

Regina Feb 15th/29

Department of Indian Affairs
Ottawa Ont

Dear Sirs

Referring to my letter of Dec 12th last re some extra work the Principal and the Sister Superior of the Roman Catholic Indian Residential School at Onion Lake asks to have done namely a chimney in the laundry room which is very much needed as the stove they had when I was there in december they had the pipe put out through the window and was in a dangerous condition.

they also ask for a small high pressure boiler to furnish steam for the laundry machines.

I took the matter up with firms at Lloydminster re the above and they agreed to send me prices. I received the price on the boiler some time ago but just received the price on the chimney to-day and am herewith enclosing both estimates for your consideration.

Referring to the chimney it is greatly needed both for the laundry and the bakery. I asked for a price on a single flue and a double flue but in my opinion I think the single flue would handle both the bakery and the laundry. the way they have the pipe from the bakery is through the store room to the kitchen chimney which makes the store room so warm that it destroys the use of the store room for keeping certain stores in.

If it is your wish that the above mentioned work should be done I would be pleased to do anything in my power to assist you in the matter. I note in the estimate for the chimney that Mr Venning has quoted on 30 feet but I think it will take about 35 ft so that would make a little difference in the estimate.

I would be pleased to hear from you re the above, I beg to remain,

Your obedient servant

W A Hamilton

115-8-15

February 25, 1929.

Sir:-

Replying to your letter of the 12th instant with further reference to H.J.Skinner's wage claim, I beg to say that it would appear if Skinner is forced to go to the courts to settle his claim, that one of the advantages of inserting the Fair Wage Clauses in the specifications would be defeated.

Your Fair Wage Clauses, which form part of the specifications for the Onion Lake School, provide that if a claim for wages is filed in your office, and proof furnished, the claim can be paid from money due the contractor. Skinner has filed a claim in your office and has furnished a declaration as to the amount due. Fair Wage Clauses also provide that the contractor shall furnish the Minister of Labour with such detailed information as is deemed necessary to secure payment of wages. As far as the records of this Department show, Mr. Brown has not furnished proof that Skinner has been paid his wages, and unless he can in a reasonable time submit proof to you that Skinner has been paid, it would seem in order for the Department to adjust Skinner's claim and charge same to the contractor.

As the contract for this building has been completed for some time, I would like to have a final settlement made as soon as possible.

Your obedient servant,

J.D.McLean.
Assistant Deputy and Secretary.

Gerald H. Brown, Esq.,
Assistant Deputy Minister of Labour,

O t t a w a,
Feb. 28, 1929.

Dear Sir,-

Re: H. J. Skinner's Wage Claim -
Onion Lake Indian Residential
School.

Referring to your letter of the 25th instant in the above matter (No. 115-8-15), I note the view expressed therein that if Mr. Skinner is forced to go to the courts to settle his claim, one of the advantages of inserting the Fair Wages Clause in the specification would be defeated. This may be the case, but as already intimated in our Departmental letter of February 12th, our officer in Winnipeg interviewed the different persons concerned in this claim but was unable to obtain what he regarded as sufficiently conclusive evidence to warrant him in making a definite recommendation. It is under these circumstances that the view was expressed that if the matter is to be further proceeded with, Mr. Skinner had better take his case to court, if he sees fit to do so.

Yours truly,

Gerald H. Brown,
Assistant Deputy Minister of Labour.

March 5, 1929.

Sir,-

I regret having to trouble you further with the particulars of the contract for the new Onion Lake School, but Brown has submitted statements regarding the extra he is asking for change in site, and I would be glad to have your opinion. I beg to quote the following,-

"BUILDING AND FURNISHING CAMPS. $1,800.00. If the site had been at Onion Lake near the old school, Mr. Brown could have used certain buildings at Onion Lake belonging to the Hudson's Bay Co., which were available and vacant and convenient to the job. Instead of that he had to erect certain buildings near the job some 8 miles away including a bunk house, a cook house, an office for the Inspector and an office for Mr. Hudson and himself. Mr. Brown did not figure on these buildings in view of the situation which had been disclosed to him at Onion Lake itself; so that there is no question of the Department paying twice for this item.

HAULING WATER, $1,400.00. At onion Lake itself, water was available right on the job and could have been taken out of the well near the old School. You will note that Mr. Turner in his letter of April 11th states that water ir right on the job. It would certainly appear that at the time Mr. Turner wrote this letter, he had in mind that the site would be right near the old school at Onion Lake. As a matter of fact, all the water had to be hauled a distance of over three-quarters of a mile uphill, and water was hauled this distance right from the commencement of the job until its completion and wages were paid at the rate of approximately 45¢ per hour for hauling water Mr. Brown tells me that his Estimate of $1,400.00 for this item which would not have been necessary if the site had been at Onion Lake near the old school, is very conservative.

DIFFERENCE IN COSTS OF GRAVEL. $1,200.00. Mr. Turner says in his letter of April 11th, 1927, that he does not think that the gravel haul will be more than a mile. As a matter of fact, Brown had to haul gravel a distance of about 4 miles instead of 1 mile. He had considerable difficulty in finding gravel and had to open up a pit himself. The cost of hauling gravel a distance of a mile would have been about $1.00 per yard for hauling. The government was constructing a barn not far from the school and was paying $1.75 per yard for gravel whereas Mr. Brown estimated this item

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

www.collectionscanada.gc.ca

"

at $1.00 per yard and did so on the strength of Mr. Lang Turner's letter. Mr. Brown had to pay $1.75 per yard for hauling instead of $1.00 as contemplated.

HAULING LUMBER AND CAMP SUPPLIES. Mr. Brown used about 125,000 feet of lumber and it cost him $6.00 per thousand for hauling it from Onion Lake to the site of the school. This accounts for the $750.00. In addition to that, he had to haul all his camp supplies and the sum of $100.00 would be a very reasonable estimate for this additional expense. When Mr. Brown went up to the site of the school in September, he found the state of affairs very different from that intimated by Mr. Turner in his letter of April 11th, and very different from that regarding which he had been advised by the man whom he and the Western Steel Products sent up. Mr. Turner's letter is consistent with the school being built at Onion Lake itself and quite inconsistent with its being built on the present site, 8 miles from Onion Lake. It seems to me that Mr. Brown was perfectly justified in assuming that the school was going to built right at Onion Lake, and that he ought to be recompensed for the additional cost to him due to the erection of the school at the present site. He made his estimates on the basis of the school being built at Onion Lake and the Department has received the benefit of that estimate. The Department in paying Mr. Brown the additional expense is not paying twice. May I also streel the point that the contract itself calls for the erection of an Indian Residential School at Onion Lake, not 8 miles from Onion Lake. In view of the circumstances outlined above there is a very great difference between the two."

As far as the Department's records show it was never contemplated placing the building at any other site than the one selected. I would appreciate having your views on these statements at your earliest convenience.

Your obedient servant,

A. F. MacKenzie.

DEPT. OF IND. AFF.
MAR 16 1929
RECORDS

OFFICE OF
INDIAN AGENT

99.

Onion Lake. Sask.
March 9th.1929.

Sir.

I have the honour to enclose herewith, Vouchers Nos.364 and 365 for cash expended on work at the R.C. and Anglican Indian Residential Schools at this Agency.

At the R.C.School, iron screens have been fitted into wooden frames for the 16 windows in the two children's recreation rooms. These screens have been made and fastened so that they cannot be taken down from the inside by the children. Fox wire was used in the construction; this was paid for by the Department on Voucher No.339.dated February 15th.last.

At the Anglican School,I have had the roof and part of the walls of the engine room lined with shiplap. Rev.H.Ellis, the principal, preferred that this be done instead of re-shingling. The ventilator of the battery room ,which was included in the allowance for this work,has been provided for by a pipe from the covered-in batteries to the chimney, vide my letter No.99-18 of con-current mail, covering Voucher No.362.

I spoke to Mr.Ellis with respect to also putting a ventilator in the ceiling of the engine room, and he told me that he intended to ask the Department to instal an electric suction fan for this purpose.

I have the honour to be,

Sir,

Your obedient servant,

Indian Agent.

Ottawa, March 8th., 1929.

Dear Sir,-

Re Onion Lake Residential School

On November 28th last, I wrote you in reference to the contract for the water supply and sewage disposal system for the Onion Lake Indian School, requesting a copy of the contract and also a copy of the Order in Council accepting the tender of John Towers.

I have since received a copy of an Order in Council dated December 22, 1928 approving the acceptance of the lowest tender, but as yet no copy of the contract has been received and I shall be obliged if you will have one sent at an early date.

Were tenders for this work invited by public advertisement?

Yours truly,

Wm Kearns

Sir,-

The Department is in receipt of a communication from the Auditor General requesting that he be furnished with a copy of the contract with Mr. John Towers for the construction of a water supply and sewerage system at the Onion Lake Indian Residential School. As you are aware this work was carried out under the direction of your branch, and I would ask you, therefore, to furnish me with two copies of this contract in order that one might be sent to the Auditor General and the other kept on the files of this office.

Your obedient servant,

A. F. MacKenzie.

12-5-5000

Department of Indian Affairs
Ottawa Ont

Dear Sirs

In answer to your letter of the 5th which was received today asking information re claims of Brown & Hudson as to change of site of the R C Indian Residential School at Onion Lake. I will give you my opinion on the several items in the order as they appear in your letter.

Item # I Building and furnishing camp. I800.00

In the first place the specifications call for the school to be erected on the Onion Lake Indian Reserve, and that the bidders were supposed to visit the site of the proposed work and ascertain for themselves as to the existing conditions. the buildings referred to as bunk house. cook house. office for the company.also office for the inspector did not cost them 500.00 altogether and then they got a fair price for them when they were through with them and in my opinion it would have cost them far more if they had rented buildings.

Item # 2. Hauling water. I400.00

There is a lake about 200 yards from where the school site is and a fine spring about I50 yards from the building, and if Mr Hudson had taken the intrest in the work he should have done he could have put up a small gasoline engine and a pump at the spring and could have supplied all the water required for the work and also for drinking purposes. this spring is at present supplying all the water required for the school. and as for Mr Turner saying that the water was right at the site he was correct, and in all my conversation with Mr Turner he never mentioned any other site than the one where the school is located, and the water is far better.

Item #3 Difference in cost of gravel I200.00

All the gravel used in the building did not cost them more than I.25 per yard as most of it was procured within a mile of the job and when the pit run out they hauled from another pit from which they paid I.25 per yard for hauling and 20¢ to the Agency. the reason the Government had to pay I.75 for gravel was on account of most of the teams were out harvesting. Mr Hudson put their Trucks at hauling gravel and they made eight trips per day with each truck from the farthest pit.

Item # 4 Hauling lumber and camp supplies.

The price charged for hauling lumber from Onion Lake was 3.00 per thousand,and the amount of lumber they received from Onion Lake was approximatly 35000 feet but the balance of the I25000 feet of lumber namely about 90000 feet they saved money on the hauling as the new school is about seven miles closer to the Railway than the old school site,and the above applies to the Camp Supplies.

Referring to the change of Site they never mentioned anything to me about it till about the time the contract should have been completed and in talking with the agent Mr Turner at Onion Lake

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

www.collectionscanada.gc.ca

and also the authorities at the St Anthonies School they told me that they had never considered having the school erected at the old site in Onion Lake.

There are some conditions that existed in the handling of the work in connection with the erection of the school which was anything but good management,and I feel sorry for Mr Brown as any loss which has occured through the way the work was handled will have to be bourne by him,but of course it was his own fault as he should have known the man he was sending there to handle the work.

I hope that the above explaination may be of assistance to you in deciding re the claim referred to, and in reference to the first clause of your letter of regret in having to trouble me in regard to the particulars, I am only too pleased to give you any assistance possible in getting the matter straightened out for I am sure you must be near the end of your patience, and any other information I can give you will be cheerfully given. I beg to remain

March 23, 1929.

Dear Mr. Thorson,-

With further reference to Mr. Brown's claim in connection with his contract for the Onion Lake School, I beg to give you the following information. The items are in the order that they appear in your letter of the 7th of January.

ITEM NO. 1.

With regard to this item it has been ascertained that the buildings erected by Mr. Brown did not cost more then $500.00, and that when they were through with them they received a fair price in disposing of the buildings.

ITEM NO. 2.

There is a lake about 200 yards from the school building and a fine spring about 150 yards from the building. This spring is at present supplying all of the water required for the School. Mr. Turner was therefore absolutely right when he stated that water was on the site.

ITEM NO. 3.

The gravel used on the work was procured from a pit within one mile of the job.

ITEM NO. 4.

Mr. Brown mentions that 125,000 feet of lumber was required. This amount is approximately correct, but I would point out that only 35,000 feet of this was purchased from the mill at Onion Lake, the balance was brought from Lloydminster.

Yours very truly,

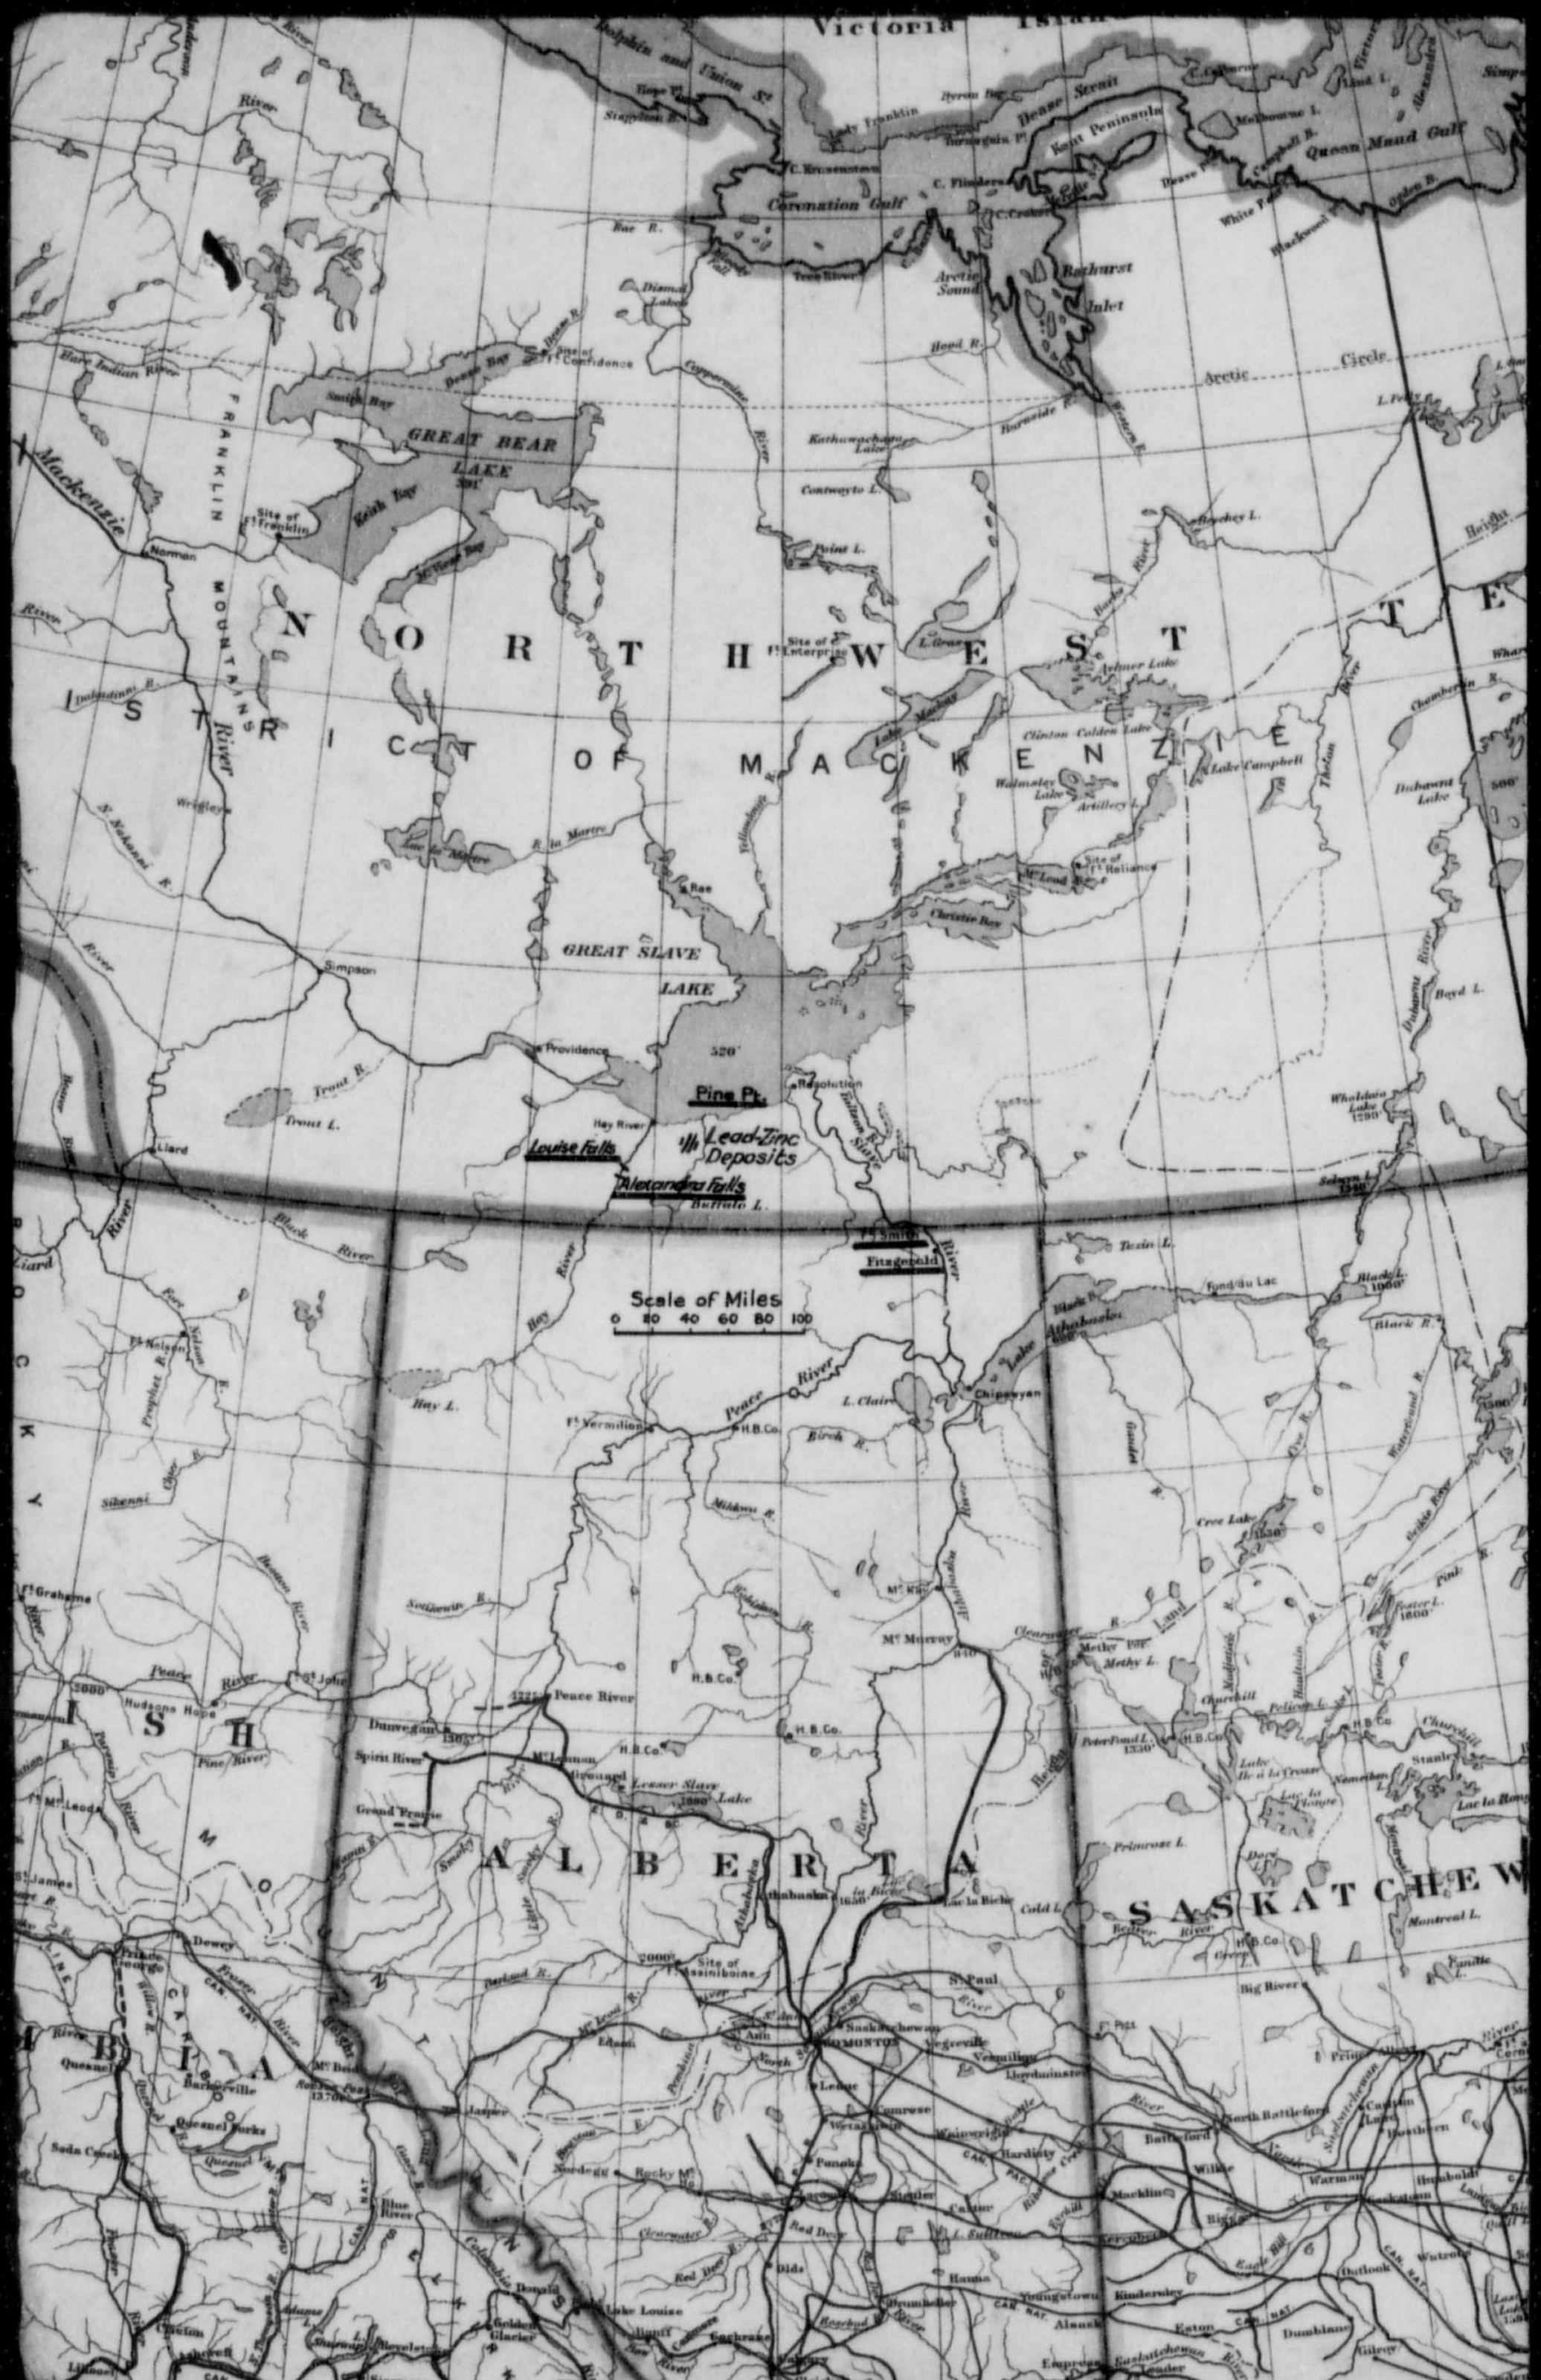

J. T. Thorson, Esq., M.P.,
House of Commons,
Ottawa.

AMB/JCA 19120-W

April 24th, 1928.

MEMORANDUM:

The Acting Deputy Minister.

Re Application of Atlas Exploration Company Ltd., for Alexandra and Louise Falls, Hay River, N.W.T.

With reference to your memorandum of April 13th last, tagged on the file, asking for a draft reply for the Minister's signature to an application of the Atlas Exploration Company Limited, also tagged, for a Water Power Lease covering Alexandra and Louise Falls, Hay River, N.W.T., I beg to submit as follows:-

General Description.

These Falls, as is indicated on the attached map, are located upwards of 40 miles from the mouth of Hay river, which enters Great Slave lake some 70 or 80 miles west of the mouth of the Slave river and 280 miles distant by river and lake from Fort Smith. Our engineers made a reconnaissance survey of these Falls in the summer of 1921 and estimated that under ordinary minimum flow conditions an aggregate of 27,000 horse power would be available and upwards of 80,000 horse power for six months at the two sites, in two developments. The engineer reported that the two drops might possibly be combined in one development and this, apparently, is what the present applicant proposes.

Use to be made of Power.

The Company proposes to transmit the power 40 miles to certain lead-zinc deposits located west of Pine Point on Great Slave lake and use it there for the recovery of the metals indicated where probably all the power obtainable will be required.

Other Sources of Power.

The nearest large source of power other than that applied for appears to be that on the Slave river, in the fall between Fitzgerald and Fort Smith upwards of 100 miles distant in a direct line from the mineral deposits. The Slave river sites are very large and would, with the transmission line required, probably involve a much larger outlay than the Hay river sites.

R. A. Gibson, Esq.,
Acting Deputy Minister,
Department of the Interior,
O T T A W A.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

www.collectionscanada.gc.ca

Report of N.W.T. Branch.

As the site applied for is in the North West Territories it has been referred to Mr. Finnie and from his memorandum on file, immediately hereunder, it appears that he has no objection to offer to the favourable consideration of the application when the provisions of our Regulations have been fully complied with.

Scenic Considerations.

We have on our file copy of a memorandum by Mr. Harkin, dated June 20th, 1917, suggesting that steps be taken to preserve these Falls from disfiguration and recommending that instructions be issued to reserve the lands in the vicinity from homestead or mining entry. This recommendation was apparently approved by the then Minister, Hon. Dr. Roche, and acted upon by the Land Patents Branch. So far as I am aware no further action in the matter has been taken.

Information Furnished.

The information furnished by the applicant is not sufficient under the Dominion Water Power Regulations to permit the issue of an Interim License for a power development, but it is adequate with the data already secured by our own officers to justify the issue of a Priority Permit. A Priority Permit under our Regulations, as you are aware, does not constitute a definite concession nor does it obligate the Department in any way to subsequently grant such concession, it merely grants the applicant priority in the consideration of his general layout plans for a fixed period and thereby affords him protection for the time he requires to make surveys and plans and prepare the information required by the Department before an Interim License can be considered.

Recommendation.

I beg to recommend, therefore, that the Atlas Exploration Company be advised that the information contained in their application is insufficient for the consideration of the issue of an Interim License for the site, but that the Department is prepared to issue a Priority Permit for the period of one year in order that the applicant may proceed with its surveys and prepare the further information required. A letter along these lines is submitted herewith which, if it meets with your approval, might be forwarded over the Minister's signature.

Respectfully submitted,

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

DEPARTMENT of the INTERIOR

WATER POWER and RECLAMATION SERVICE.

C O N T R A C T.

THIS CONTRACT made this 5th day of June, nineteen hundred and twenty eight

BY AND BETWEEN

THE COMMISSIONER OF IRRIGATION of the Department of the Interior, of the Dominion of Canada herein termed "the Commissioner"

OF THE FIRST PART

-and-

JOHN TOWERS of Post Office Box 1842 of the City of Calgary in the Province of Alberta herein termed "the Contractor"

OF THE SECOND PART

WHEREAS the Contractor has under date the 25th day of April nineteen hundred and twenty-eight made a satisfactory tender for the construction of a water supply and sewerage disposal system to be constructed on Onion Lake Indian Reserve for the Onion Lake Indian Residential School situated in township fifty-four (54), range twenty-seven (27) west of the third (3rd) meridian in the Province of Saskatchewan.

AND WHEREAS the Commissioner did award to the Contractor the contract for the material necessary to the work required to install and complete the above mentioned water supply and sewerage disposal system, hereinafter called "the work", or the works."

NOW THIS CONTRACT WITNESSETH:

1. Wherever in this Contract, the words: Province, Commissioner Engineer, or Contractor may appear they shall be defined as follows:

"Province" shall mean the Province of Saskatchewan.

"Commissioner" shall mean the Commissioner of Irrigation, of the Water Power & Reclamation Service, Department of the Interior.

"Engineer" shall mean the officer appointed by the Department of the Interior to examine and check the work under construction from time to time.

"Contractor" shall mean John Towers of Post Office Box 1842 of the City of Calgary, in the Province of Alberta.

2. The Contractor, for himself, his heirs, executors, administrators and assigns, for and in consideration of certain payments to be made to him as hereinafter specified, hereby covenants and agrees with the Commissioner and his successors to perform and execute the whole of the work mentioned herein, to the satisfaction of the Engineer in strict accordance with the

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

provisions of this agreement, the Information of Bidders, the Tender and Schedule of Quantities, the Specifications, General Conditions and Plans referred to, all of which are made part of this contract as if embodied herein, and thereafter maintain the same as therein provided.

AND FURTHER COVENANTS AND AGREES to and with the said Commissioner to carry out, perform and observe and be bound by all the covenants, agreements, stipulations, provisoes, and conditions, to the same extent and as fully as if each of them were set out specifically in this Contract.

3. In consideration of the performance by the Contractor of his covenants and agreements, as herein set forth, the Commissioner hereby covenants and agrees to pay the Contractor the amounts set forth in the said Tender, at the rates, and in the manner and subject to the drawbacks, and penalties set forth in the said Schedule of Quantities, Specifications and General Conditions.

4. The Contractor declares and agrees that the Contract is made and entered into by him for the consideration herein named solely on his own knowledge, and upon information derived from sources other than the Commissioner, his officers or agents, of and respecting the nature and formation of the land upon which the works are to be performed, or the character, quantity or location of the material to be removed; and that he does not rely on any statement made to him by the Commissioner or his officers or agents. No agreement with or statement by any officer, agent or employee of the Commissioner after the execution of this agreement shall affect, waive or modify any of the terms or obligations herein contained.

5. If the Contractor fail to complete the work within the time specified, and if the Commissioner shall nevertheless permit the said Contractor to proceed and continue, and complete the same as if such time had not lapsed, such permission shall not modify nor waive in any respect any forfeiture or liability of the Contractor for damagesarising from such non-completion of said work within the time specified, and covered by the "Liquidated Damages" clause of the Specifications; but such liability shall continue in full force against the said Contractor as if such permission had not been granted.

IN WITNESS WHEREOF the parties hereto have hereunto set their hands and seals.

DATED the day and year first herein written.

SIGNED, SEALED AND DELIVERED
by the Commissioner in the Presence of (P. J. Jennings.

GENERAL SPECIFICATIONS.

1.0 The work to be done and the material and equipment to be supplied include the following:-

1.1 Excavate for and erect a wall and footing of mass concrete which is to act as a holdup or dam for the discharge of the spring. The west 15 feet of the dam to be carried down to the extra depth as shown on plan. To excavate to depth shown on plan, a sump on the north side of dam which will extend for 10 feet along the dam and back from the dam a distance equal to the length of the reservoir. This sump to be filled in for a depth of 6 feet with clean gravel which is to act as a filter for the water entering the reservoir.

1.2 Excavate for and erect a reinforced concrete reservoir at the west end of the stop wall as shown on plan. Erect over the north 8 feet of the reservoir a building for housing pumping equipment. Reservoir wall to be backfilled when completed and the unhoused portion of the top to be back-filled to the natural ground level.

1.3. Excavate and lay a 3" galvanized wrought steel pipe line, at the grades and depths shown on profiles, from the reservoir at east side of building. This line to be provided with a valve and connections to enable the entire line to be drained. The portion of the line extending from the pump house at spring to a point where seven feet of cover is obtained to be protected as shown on plans. Entire line to be backfilled when laying of pipe has been completed, to the level of the natural ground surface.

1.4 Excavate for and erect a reinforced concrete reservoir on the water supply line at a point 12 feet east of building as shown on plan. When complete back fill to the elevation of the natural ground surface, approximately 6.0 feet.

1.5 Excavate for and lay a 1-1/4 inch galvanized pipe line from the reservoir to the typhoon pump in the basement of the building. Portion of this line which is outside of building to be laid at a depth of 7 feet below the surface of the ground and when completed this portion of line to be backfilled to the level of the natural ground surface.

1.6 To excavate and lay a five inch cast iron pipe line 7 feet below the ground surface from the reservoir to connection with the #4 Rumsey Pump which is on the line provided and shown for fire protection. On completion of line, trench to be backfilled to the natural ground surface.

1.7 Excavate and lay a five inch cast iron pipe line from the Rumsey Pump to the building and connect with the fire protection line installed in the building. Portion of this line which is outside of building to be laid at a 7 feet below the surface of ground and when completed the trench outside of building to be backfilled to the natural surface of the ground.

1.8 To erect at point shown on plan a building to house the fire protection pumps and engines.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada

1.9 To provide, install and connect with the reservoirs and water supply lines the following equipment, or equipment of similar capacity and efficiency:-

(a) <u>In building at spring</u> -

1-6 H.P. Fairbanks-Morse type "Z" Kerosene engine with type "R" magneto, and closed cylinder with condensing radiator.

1-Typhoon Pump capacity 2500 U.S. Gallons per hour, fitted with 16 x 4½ tight pulley.

1-4" Graknight Endless Leather Belt for 6 foot belt centres.

with necessary piping, foot valve strainer, etc., as shown on plan.

(b) <u>In building at Upper Reservoir</u> -

1-25 H.P. "Fairbanks-Morse" type "Y" Style "HB" Standard Horizontal Oil Engine as illustrated and described in bulletin 3900 herewith, complete with the regular equipment as listed on page '18' of this bulletin.

1-Set foundation bolts for ditto.

1-Centrifugal circulating pump outfit.

2-Cooling Water tanks with necessary cooling water pipe and fittings for standard installation.

1-Rumsey Fig. Q198½ iron fitted Rotary Power Pump size #4 capacity 336 U.S. gallons per minute at 200 R.P.M., pump to be complete with air chamber, etc., for fire service.

1-6" Graknight Dynamo Double Leather Belt made endless for 12 foot Belt centres.

with necessary piping, foot valve strainer, etc., as shown on plan.

(c) <u>Engineroom of Building</u> -

2 - 42" x 18' Black Hydro Pneumatic Tanks.

1 - Fairbanks-Morse Self Oiling Typhoon pump capacity 1000 U. S. gallons per hour, fitted with 16 x 2¾" tight pulley.

1-1-H.P. Peerless 110 volt 1750 R.P.M. direct current motor with pulley, base and started.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

1-1 H.P. Peerless 110 volt 1750 R.P.M. direct current motor with pulley, base and starter.

1-#2927 Diaphragm Pressure Regulator to automatically start and stop the 1 H.P. motor from predetermined pressures in pneumatic tanks.

with necessary piping gauge glass and all mountings complete.

(d) In basement at or near the Laurdry inside the building.

1-Fairbanks-Morse 210 gallon per hour (U.S.) Automatic electric water system with 110 volt direct current motor,

with necessary piping, foot valve strainer to connect up with the rain water tank outside the building.

2.0 Excavate and lay where and at the elevations and grades shown on plans and profiles a six-inch tile drain from the drainage line at present installed in the building to connect up with the septic tank as shown on plan. When completed, trench to be backfilled to the natural surface of the ground.

2.1 Excavate, erect and equip with syphons and all necessary connections a reinforced septic tank as shown on plan. The whole work when completed to be backfilled to the natural surface of the ground.

2.2. Excavate and lay a 6-inch tile drain from the septic tank to a man-hole "A", the portion of trench which extends from man-hole to be excavated sufficiently wide to take care of drain line from boiler room and laundry. Drain pipe to be laid at the elevation and grades shown on profile. When complete the trench to be backfilled to the natural ground surface.

2.3 Excavate, erect mass concrete Man-hole "A" at location and elevations shown on plans and profiles. The man-hole to be supplied and fitted with top door and frame and pipe connections as shown on detail plan of man-hole. When completed the structure to be backfilled to the natural ground surface elevation.

2.4 Excavate and lay where and at the elevations and grades shown on plans and profiles a six-inch tile drain from the drain line installed in the building and which is from the laundry and boiler room, to manhole "A". The trench when line is completed to be backfilled to the natural ground surface.

2.5 Excavate trenches to a depth of 3.0 feet and at grades to be determined by Engineer in Charge for open tile drains which extend from man-hole "A" along top of slope for a distance of 30 feet on each side of man-hole and excavate four additional trenches each fifty feet in length which are spaced at 20-foot centres and extend down the slope of the bank to form a grid system as shown on plans. These trenches will also be excavated to a depth of 3 feet with side slopes of ½ to 1.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

2.6 To provide and lay 4-inch open tiles in this grid system of trenches, tiles make connection with man-hole "A" and provide the necessary T's to permit the proper distribution of effluent through the whole of the open tile system. Joints of the open tile system to be covered to a depth of 4 inches with clean gravel to prevent the clogging up of the system through sloughing off of open trench banks.

3.0 Excavate for and erect a reinforced concrete tank for soft water, at a point indicated on general plan and as shown in details on plans. Excavate and lay, at elevation as shown on plans a 4" galvanized pipe line from the reservoir to the soft water system installed in the building and connected with pumping equipment shown under 1.9. Excavate and lay a 4-inch cast iron pipe line, or other size similar to the drain pipe from roof of building now installed in building, connecting the installed drain pipe to the soft water tank as shown. Excavate and lay a 6" tile pipe from the soft water reservoir to the sewer line from boiler room and laundry. When completed the reservoir and all trenches connecting with the reservoir to be backfilled to the natural ground surface.

SUPPLY OF MATERIAL AND EQUIPMENT -

4.0 The contractor will supply all material and equipment which enter into and form part of the finished structures, and all material required for the construction and maintenance of forms and the like.

4.1 Transport: The contractor will transport all material and equipment from the Railway station to the site of the work. The cost of transport will be included in the contract price for "Material Supplied" and "Equipment Supplied".

4.2 Care of Material: All material must be properly stored and cared for at all times. It will be subject to inspection before being used and if any is found to be damaged or in any way rendered useless or unsuitable it will be condemned and must immediately be removed from the work and replaced by suitable material by the Contractor at his sole expense.

SNOW, ICE AND DEBRIS -

5.0 Snow, ice and Debris and foreign matter must be removed from the work whenever ordered by the Engineer, such removal being at the Contractor's expense.

FORMS -

6.0 Forms, where necessary, will be furnished and built by the Contractor and included in the contract price per cu. yd. of concrete.

6.1 Materials in forms may be used repeatedly but if so used shall be thoroughly cleaned after each time used and before setting up again. Before any concrete is poured against them the moulding surface must be speared with mineral oil or grease, or soap, in order to prevent the concrete from adhering to the forms.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

6.2 Forms must be left in place until the concrete has set sufficiently to be safe from damage, either in process of removal, or from lack of support or from any other cause. The method employed in removal of forms must be such as to offer the minimum possibility of damaging the soft concrete; using sift concrete as a fulcrum for prying forms loose is specially forbidden.

REINFORCEMENT -

7.0 The contractor will provide, fabricate and fix in place all reinforcement shown on the drawings or required by reason of the methods of construction adopted by him. He must take whatever precautions are necessary, or are ordered by the Engineer, to maintain such reinforcement in its proper position while pouring concrete and afterward until the concrete is set.

7.1 Material: Unless otherwise shown on the drawing or permitted by the District Engineer all reinforcement will be round steel bars meeting the requirements of the Standard Specifications of the American Society for Testing Materials for "Billet Steel Concrete Re-inforcement Bars (Serial designation A-15)" as adopted 1911 with all subsequent revisions.

7.2 Fabrication: The Contractor will do all work necessary in connection with cutting, bending, erection, tying, splicing and anchoring.

7.3 Bending: Wherever bars are shown on the drawing as bent to any shape, such bars will be bent cold (except anchors) using a suitable tool or appliance for the purpose.

7.4 Maintenance: All reinforcement must be so supported that it cannot be displaced before during or after the operation of pouring the concrete.

CONCRETE -

8.0 Materials, plant, labour, tools and appliances for proportioning, mixing, transporting, placing and finishing concrete will be supplied by the Contractor.

8.1 Materials: All material supplied will be tested and if defective must be immediately moved from the work and made good at the contractor's expense. Rejected material, if not removed within four days, may be destroyed or rendered useless by the Engineer.

8.2 Aggregate: The aggregate for concrete will consist of sound particles of silicious or calcareous rock. The particles must be free from hard adhering films or coatings of deleterious matter, such as clay, salts or vegetable acids.

8.3 Cement: All cement must comply with the requirements of the "Specification for Portland Cement" of the American Society for Testing Materials, as adopted September 1st, 1916, and all subsequent amendments or the Standards of the Engineering Institute of Canada. Cement may be shipped in bags or barrels at the option of the Contractor.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

8.4 Transport and Storage: Cement must be protected from the weather during transport and at all times. It must be stored as directed by the engineer in charge and be subject to inspection at any time. If found defective the whole or such part as the engineer may direct must be immediately removed from the work and replaced with new cement at the contractor's expense.

8.5 Reinforced concrete (which for this purpose is defined as all concrete members in which steel is employed, to take certain definite stresses which the concrete itself is incapable of taking) will be mixed in the proportion of one part of cement to two parts of fine aggregate and four parts of coarse aggregate, measured dry. Each bag of cement will be considered as one cubic foot and each barrel as four cubic feet and the volume of aggregate adjusted accordingly.

8.6 Mass concrete (which for this purpose is defined as all concrete members in which all direct stresses are borne by the concrete unaided although steel may be employed for temperature, shrinkage or other reasons) will be mixed in the proportion of one part of cement, two and one half parts fine aggregate and five parts of coarse aggregate. Packages of cement will count for volume as above specified.

8.7 Maximum sizes of aggregate in reinforced work will not exceed one and one half inches in greatest dimension. For mass concrete no particle may be used greater in longest dimension than two tenths (2/10) of the least dimension of the member for which the concrete is intended.

8.8 Consistency: Sufficient water will be used in mixing concrete to give a mixture which will flow (not slide) readily on a plank surface inclined at 25 degrees to the horizontal. For reinforced work, especially in vertical members such as walls, slabs, counterforts, and columns, the concrete must be mixed sufficiently fluid to flow readily into corners and angles and about the reinforcing steel and to fill all voids.

8.9 Finish: After removal of forms, the surface will be carefully examined for exposed reinforcement. All holes, open voids, or pockets will be filled with stiff mortar mixed one to one and rammed in hard. The wires will be clipped off neatly flush with the surface. Bolt holes will be carefully cleaned out by a jet of water, air or steam under pressure, and filled with stiff mortar. The whole surface of all members, except floors, will be painted with neat grout.

9.0 Excavation of Trenches: The trenches in which the pipes are to be laid shall be excavated on the lines shown on the plan. There shall be no bends or undulations made other than those shown on plan or permitted by the Engineer.

All trenches shall be of sufficient width to permit of proper jointing of the pipes. Bell holes at joints shall be excavated below the bottom of the trench,

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

of sufficient size to allow ample room for the proper caulking of the joints, and so that the body of the pipe shall rest on solid ground throughout its length.

All necessary shoring and bracing shall be done by the Contractor to prevent movement in the sides of the excavation and all timber required as well as all necessary labour in connection with it shall be furnished by the Contractor as part of the Contract.

All water shall be removed by the Contractor from the trenches by pumping or other means, and the trench must be kept perfectly free from water when the jointing of the pipe is being done.

10.0 Backfilling Trenches: No backfilling shall be done until the pipes laid and jointed have been inspected and approved of by the Engineer.

After permission has been given, the trench shall be filled with selected earth free from stones and rubbish to a depth of at least two feet above the top of the pipe, thoroughly consolidated and compacted by ramming with suitable tools.

After the pipes have been covered with two feet of filling as specified, the remainder of the trench may be filled by hand, team or machinery. No large stones shall be allowed to be placed in the trench.

11.0 Coating Pipes: All galvanized pipes will have a heavy coating of hot coal tar or pitch applied before being jointed.

12.0 Joints: All vitrified tile drain pipes are to be laid from lower end up and the contractor will see that each length of pipe is clean before being laid. A gasket of hemp or jute of sufficient size will be inserted between the hub and spigot and properly rammed so that a space 1" in depth shall remain for cement mortar, to be inserted. The space between the spigot and hub shall be completely filled with mortarthoroughly pressed in all around and every precaution taken to secure a water-tight joint. The mortar shall be applied with a rubber mitten and rammed or compacted with a wooden caulking tool. Joints shall be finished all around with a neat level. The interior of each pipe joint shall be scraped clean of all projecting material.

13.0 Payments: Payments will be made at the time and in the manner following:-

The Contractor shall be entitled to eighty per centum (80%) of the value of the finished work at the end of every month after its commencement on the certified estimate of the engineer, approved by the Commissioner.

All the permanent equipment to be installed in accordance with the plans and specifications approved and forming part of this contract is to be

paid for an eighty per centum (80%) basis when laid down on the property on the certificate of the engineer.

The remainder of the amount of the contract price with the exception of any deductions required to be made in accordance with this contract, shall, on the completion of the work, be paid to the Contractor, on the certificate of the Engineer, approved by the Commissioner, that the work has been satisfactorily completed in accordance with the terms of the contract.

14.0 In the event of solid rock being encountered in any of the excavations the same will be paid for on a cost basis plus fifteen per centum (15%).

15.0 The works specified herein are to be completed ready for use within a period of ninety (90) days of the signing of the contract.

Witness -

GENERAL SPECIFICATIONS.

1.0 The work to be done and the material and equipment to be supplied include the following:-

1.1 Excavate for and erect a wall and footing of mass concrete which is to act as a holdup or dam for the discharge of the spring. The west 15 feet of the dam to be carried down to the extra depth as shown on plan. To excavate to depth shown on plan, a sump on the north side of dam which will extend for 10 feet along the dam and back from the dam a distance equal to the length of the reservoir. This sump to be filled in for a depth of 6 feet with clean gravel which is to act as a filter for the water entering the reservoir.

1.2 Excavate for and erect a reinforced concrete reservoir at the west end of the stop wall as shown on plan. Erect over the north 8 feet of the reservoir a building for housing pumping equipment. Reservoir wall to be backfilled when completed and the unhoused portion of the top to be back-filled to the natural ground level.

1.3. Excavate and lay a 3" galvanized wrought steel pipe line, at the grades and depths shown on profiles, from the reservoir at east side of building. This line to be provided with a valve and connections to enable the entire line to be drained. The portion of the line extending from the pump house at spring to a point where seven feet of cover is obtained to be protected as shown on plans. Entire line to be backfilled when laying of pipe has been completed, to the level of the natural ground surface.

1.4 Excavate for and erect a reinforced concrete reservoir on the water supply line at a point 12 feet east of building as shown on plan. When complete back fill to the elevation of the natural ground surface, approximately 6.0 feet.

1.5 Excavate for and lay a 1-1/4 inch galvanized pipe line from the reservoir to the typhoon pump in the basement of the building. Portion of this line which is outside of building to be laid at a depth of 7 feet below the surface of the ground and when completed this portion of line to be backfilled to the level of the natural ground surface.

1.6 To excavate and lay a five inch cast iron pipe line 7 feet below the ground surface from the reservoir to connection with the #4 Rumsey Pump which is on the line provided and shown for fire protection. On completion of line, trench to be backfilled to the natural ground surface.

1.7 Excavate and lay a five inch cast iron pipe line from the Rumsey Pump to the building and connect with the fire protection line installed in the building. Portion of this line which is outside of building to be laid at a 7 feet below the surface of ground and when completed the trench outside of building to be backfilled to the natural surface of the ground.

1.8 To erect at point shown on plan a building to house the fire protection pumps and engines.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

1.9 To provide, install and connect with the reservoirs and water supply lines the following equipment, or equipment of similar capacity and efficiency:-

(a) In building at spring -

1-6 H.P. Fairbanks-Morse type "Z" Kerosene engine with type "R" magneto, and closed cylinder with condensing radiator.

1-Typhoon Pump capacity 2500 U.S. Gallons per hour, fitted with 16 x 4¼ tight pulley.

1-4" Graknight Endless Leather Belt for 6 foot belt centres.

with necessary piping, foot valve strainer, etc., as shown on plan.

(b) In building at Upper Reservoir -

1-25 H.P. "Fairbanks-Morse" type "Y" Style "HB" Standard Horizontal Oil Engine as illustrated and described in bulletin 3900 herewith, complete with the regular equipment as listed on page '18' of this bulletin.

1-Set foundation bolts for ditto.

1-Centrifugal circulating pump outfit.

2-Cooling Water tanks with necessary cooling water pipe and fittings for standard installation.

1-Rumsey Fig. Q198½ iron fitted Rotary Power Pump size #4 capacity 336 U.S. gallons per minute at 200 R.P.M., pump to be complete with air chamber, etc., for fire service.

1-6" Graknight Dynamo Double Leather Belt made endless for 12 foot Belt centres.

with necessary piping, foot valve strainer, etc., as shown on plan.

(c) Enginerоom of Building -

2 - 42" x 18' Black Hydro Pneumatic Tanks.

1 - Fairbanks-Morse Self Oiling Typhoon pump capacity 1000 U. S. gallons per hour, fitted with 16 x 2¾" tight pulley.

1-1-H.P. Peerless 110 volt 1750 R.P.M. direct current motor with pulley, base and started.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

1-1 H.P. Peerless110 volt 1750 R.P.M. direct current motor with pulley, base and starter.

1-#2927 Diaphragm Pressure Regulator to automatically start and stop the 1 H.P. motor from predetermined pressures in pneumatic tanks.

with necessary piping gauge glass and all mountings complete.

(d) <u>In basement at or near the Laundry inside the building.</u>

1-Fairbanks-Morse 210 gallon per hour (U.S.) Automatic electric water system with 110 volt direct current motor,

with necessary piping, foot valve strainer to connect up with the rain water tank outside the building.

2.0 Excavate and lay where and at the elevations and grades shown on plans and profiles a six-inch tile drain from the drainage line at present installed in the building to connect up with the septic tank as shown on plan. When completed, trench to be backfilled to the natural surface of the ground.

2.1 Excavate, erect and equip with syphons and all necessary connections a reinforced septic tank as shown on plan. The whole work when completed to be backfilled to the natural surface of the ground.

2.2. Excavate and lay a 6-inch tile drain from the septic tank to a man-hole "A", the portion of trench which extends from man-hole to be excavated sufficiently wide to take care of drain line from boiler room and laundry. Drain pipe to be laid at the elevation and grades shown on profile. When complete the trench to be backfilled to the natural ground surface.

2.3 Excavate, erect mass concrete Man-hole "A" at location and elevations shown on plans and profiles. The man-hole to be supplied and fitted with top door and frame and pipe connections as shown on detail plan of man-hole. When completed the structure to be backfilled to the natural ground surface elevation.

2.4 Excavate and lay where and at the elevations and grades shown on plans and profiles a six-inch tile drain from the drain line installed in the building and which is from the laundry and boiler room, to manhole "A". The trench when line is completed to be backfilled to the natural ground surface.

2.5 Excavate trenches to a depth of 3.0 feet and at grades to be determined by Engineer in Charge for open tile drains which extend from man-hole "A" along top of slope for a distance of 30 feet on each side of man-hole and excavate four additional trenches each fifty feet in length which are spaced at 20-foot centres and extend down the slope of the bank to form a grid system as shown on plans. These trenches will also be excavated to a depth of 3 feet with side slopes of ¼ to 1.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

www.collectionscanada.gc.ca

2.6 To provide and lay 4-inch open tiles in this grid system of trenches, tiles make connection with man-hole "A" and provide the necessary T's to permit the proper distribution of effluent through the whole of the open tile system. Joints of the open tile system to be covered to a depth of 4 inches with clean gravel to prevent the clogging up of the system through sloughing off of open trench banks.

3.0 Excavate for and erect a reinforced concrete tank for soft water, at a point indicated on general plan and as shown in details on plans. Excavate and lay, at elevation as shown on plans a ¾" galvanized pipe line from the reservoir to the soft water system installed in the building and connected with pumping equipment shown under 1.9. Excavate and lay a 4-inch cast iron pipe line, or other size similar to the drain pipe from roof of building now installed in building, connecting the installed drain pipe to the soft water tank as shown. Excavate and lay a 6" tile pipe from the soft water reservoir to the sewer line from boiler room and laundry. When completed the reservoir and all trenches connecting with the reservoir to be backfilled to the natural ground surface.

SUPPLY OF MATERIAL AND EQUIPMENT -

4.0 The contractor will supply all material and equipment which enter into and form part of the finished structures, and all material required for the construction and maintenance of forms and the like.

4.1 Transport: The contractor will transport all material and equipment from the Railway station to the site of the work. The cost of transport will be included in the contract price for "Material Supplied" and "Equipment Supplied",

4.2 Care of Material: All material must be properly stored and cared for at all times. It will be subject to inspection before being used and if any is found to be damaged or in any way rendered useless or unsuitable it will be condemned and must immediately be removed from the work and replaced by suitable material by the Contractor at his sole expense.

SNOW, ICE AND DEBRIS -

5.0 Snow, ice and Debris and foreign matter must be removed from the work whenever ordered by the Engineer, such removal being at the Contractor's expense.

FORMS -

6.0 Forms, where necessary, will be furnished and built by the Contractor and included in the contract price per cu. yd. of concrete.

6.1 Materials in forms may be used repeatedly but if so used shall be thoroughly cleaned after each time used and before setting up again. Before any concrete is poured against them the moulding surface must be speared with mineral oil or grease, or soap, in order to prevent the concrete from adhering to the forms.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

6.2 Forms must be left in place until the concrete has set sufficiently to be safe from damage, either in process of removal, or from lack of support or from any other cause. The method employed in removal of forms must be such as to offer the minimum possibility of damaging the soft concrete; using sift concrete as a fulcrum for prying forms loose is specially forbidden.

REINFORCEMENT -

7.0 The contractor will provide, fabricate and fix in place all reinforcement shown on the drawings or required by reason of the methods of construction adopted by him. He must take whatever precautions are necessary, or are ordered by the Engineer, to maintain such reinforcement in its proper position while pouring concrete and afterward until the concrete is set.

7.1 Material: Unless otherwise shown on the drawing or permitted by the District Engineer all reinforcement will be round steel bars meeting the requirements of the Standard Specifications of the American Society for Testing Materials for "Billet Steel Concrete Re-inforcement Bars (Serial designation A-15)" as adopted 1911 with all subsequent revisions.

7.2 Fabrication: The Contractor will do all work necessary in connection with cutting, bending, erection, tying, splicing and anchoring.

7.3 Bending: Wherever bars are shown on the drawing as bent to any shape, such bars will be bent cold (except anchors) using a suitable tool or appliance for the purpose.

7.4 Maintenance: All reinforcement must be so supported that it cannot be displaced before during or after the operation of pouring the concrete.

CONCRETE -

8.0 Materials, plant, labour, tools and appliances for proportioning, mixing, transporting, placing and finishing concrete will be supplied by the Contractor.

8.1 Materials: All material supplied will be tested and if defective must be immediately moved from the work and made good at the contractor's expense. Rejected material, if not removed within four days, may be destroyed or rendered useless by the Engineer.

8.2 Aggregate: The aggregate for concrete will consist of sound particles of silicious or calcareous rock. The particles must be free from hard adhering films or coatings of deleterious matter, such as clay, salts or vegetable acids.

8.3 Cement: All cement must comply with the requirements of the "Specification for Portland Cement" of the American Society for Testing Materials, as adopted September 1st, 1916, and all subsequent amendments or the Standards of the Engineering Institute of Canada. Cement may be shipped in bags or barrels at the option of the Contractor.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

8.4 Transport and Storage: Cement must be protected from the weather during transport and at all times. It must be stored as directed by the engineer in charge and be subject to inspection at any time. If found defective the whole or such part as the engineer may direct must be immediately removed from the work and replaced with new cement at the contractor's expense.

8.5 Reinforced concrete (which for this purpose is defined as all concrete members in which steel is employed, to take certain definite stresses which the concrete itself is incapable of taking) will be mixed in the proportion of one part of cement to two parts of fine aggregate and four parts of coarse aggregate, measured dry. Each bag of cement will be considered as one cubic foot and each barrel as four cubic feet and the volume of aggregate adjusted accordingly.

8.6 Mass concrete (which for this purpose is defined as all concrete members in which all direct stresses are borne by the concrete unaided although steel may be employed for temperature, shrinkage or other reasons) will be mixed in the proportion of one part of cement, two and one half parts fine aggregate and five parts of coarse aggregate. Packages of cement will count for volume as above specified.

8.7 Maximum sizes of aggregate in reinforced work will not exceed one and one half inches in greatest dimension. For mass concrete no particle may be used greater in longest dimension than two tenths (2/10) of the least dimension of the member for which the concrete is intended.

8.8 Consistency: Sufficient water will be used in mixing concrete to give a mixture which will flow (not slide) readily on a plank surface inclined at 25 degrees to the horizontal. For reinforced work, especially in vertical members such as walls, slabs, counterforts, and columns, the concrete must be mixed sufficiently fluid to flow readily into corners and angles and about the reinforcing steel and to fill all voids.

8.9 Finish: After removal of forms, the surface will be carefully examined for exposed reinforcement. All holes, open voids, or pockets will be filled with stiff mortar mixed one to one and rammed in hard. The wires will be clipped off neatly flush with the surface. Bolt holes will be carefully cleaned out by a jet of water, air or steam under pressure, and filled with stiff mortar. The whole surface of all members, except floors, will be painted with neat grout.

9.0 Excavation of Trenches: The trenches in which the pipes are to be laid shall be excavated on the lines shown on the plan. There shall be no bends or undulations made other than those shown on plan or permitted by the Engineer.

All trenches shall be of sufficient width to permit of proper jointing of the pipes. Bell holes at joints shall be excavated below the bottom of the trench,

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

of sufficient size to allow ample room for the proper caulking of the joints, and so that the body of the pipe shall rest on solid ground throughout its length.

All necessary shoring and bracing shall be done by the Contractor to prevent movement in the sides of the excavation and all timber required as well as all necessary labour in connection with it shall be furnished by the Contractor as part of the Contract.

All water shall be removed by the Contractor from the trenches by pumping or other means, and the trench must be kept perfectly free from water when the jointing of the pipe is being done.

10.0 Backfilling Trenches: No backfilling shall be done until the pipes laid and jointed have been inspected and approved of by the Engineer.

After permission has been given, the trench shall be filled with selected earth free from stones and rubbish to a depth of at least two feet above the top of the pipe, thoroughly consolidated and compacted by ramming with suitable tools.

After the pipes have been covered with two feet of filling as specified, the remainder of the trench may be filled by hand, team or machinery. No large stones shall be allowed to be placed in the trench.

11.0 Coating Pipes: All galvanized pipes will have a heavy coating of hot coal tar or pitch applied before being jointed.

12.0 Joints: All vitrified tile drain pipes are to be laid from lower end up and the contractor will see that each length of pipe is clean before being laid. A gasket of hemp or jute of sufficient size will be inserted between the hub and spigot and properly rammed so that a space 1" in depth shall remain for cement mortar, to be inserted. The space between the spigot and hub shall be completely filled with mortar thoroughly pressed in all around and every precaution taken to secure a water-tight joint. The mortar shall be applied with a rubber mitten and rammed or compacted with a wooden caulking tool. Joints shall be finished all around with a neat level. The interior of each pipe joint shall be scraped clean of all projecting material.

13.0 Payments: Payments will be made at the time and in the manner following:-

The Contractor shall be entitled to eighty per centum (80%) of the value of the finished work at the end of every month after its commencement on the certified estimate of the engineer, approved by the Commissioner.

All the permanent equipment to be installed in accordance with the plans and specifications approved and forming part of this contract is to be

paid for an eighty per centum (80%) basis when laid down on the property on the certificate of the engineer.

The remainder of the amount of the contract price with the exception of any deductions required to be made in accordance with this contract, shall, on the completion of the work, be paid to the Contractor, on the certificate of the Engineer, approved by the Commissioner, that the work has been satisfactorily completed in accordance with the terms of the contract.

14.0 In the event of solid rock being encountered in any of the excavations the same will be paid for on a cost basis plus fifteen per centum (15%).

15.0 The works specified herein are to be completed ready for use within a period of ninety (90) days of the signing of the contract.

R

Sir,—

I have been requested by the Rev. Father Balter, principal at the R.C. Indian Residential School here to ask the Department to bear the cost of the erection of two granaries, one permanent and one portable.

I may state that the granaries asked for by this school, are of the same type as those which were built by the Department for the Anglican School here in 1927. The size of the portable one is 14' x 16' and that of the permanent one 20'x 30'; the latter being set on a cement foundation. The cost of the two buildings was approximately $650.00. and I estimate that the erection of two, similar ones for the R.C. School will cost the same amount.

The Rev. Father Balter has also requested me to draw the attention of the Department to the matter of having a root cellar built for the school in readiness for the coming vegetable crop.

I have the honour to be,

Sir,

Your obedient servant,

Indian Agent.

I

Ottawa, April 8, 1929.

Sir:

I have your 99-19 of the 26th ultimo, with reference to improvements at the Onion Lake R. C. Indian Residential School. At the time Mr. Ferrier visited the school last summer, the Rev. Principal urged that an ice house be provided; that a cold storage be built beside the laundry door and that the painting be finished. Funds were placed in the Estimates for these purposes. If the granaries and the root cellar are more important than either the ice house or the cold storage, the Department would be glad to have the information, so that the improvements this year will give most satisfaction. Please discuss this question with the Rev. Principal and forward to the Department, at your earliest convenience, a list showing the relative importance of these improvements.

(COPY)

S. BROWN
GENERAL CONTRACTOR

791 Preston Ave., Winnipeg

April 5th, 1929.

Mr. J. T. Thorson, M.P.,
House of Commons,
Ottawa.

Dear Sir,

Your favor of April 2nd received and carefully noted.

Re ITEM NO. 1.

The men had to travel back both night and morning, a distance of eight miles by horse and wagon, also carting of all the material caused much delay and extra expense. We could not sell them for money, only succeeded in getting rid of them by trading them for poplar wood at a mere fraction of their value. We realized approximately $100.00 for them in that way, which might be deducted from the $1,800. Otherwise costs are quite reasonable and could not be built under the circumstances for any less.

ITEM NO. 2.

I cannot understand Mr. McLean's remarks on this item. There is only one lake in the vicinity near the school and that is approximately half a mile in a straight line and I presume two hundred and fifty feet below the school site, but the wayround to the lake to overcome the steep descent is three-quarters of a mile. There is a series of small springs approximately 1200 feet from the school and from eighty to a hundred feet below school level. The stream was so small that it required about five minutes to fill a pail. We considered building a reservoir and pumping it up but estimated it would cost more than getting it from the lake. To verify this it must have cost the Department about $8,000.00 to get their water supply from this source. I know the tenders they received were in that neighborhood. We tendered for it ourselves so you see there was no alternative for us but getting the water from the lake.

ITEM NO. 3.

There was no gravel pit known to anybody up there nearer than Onion Lake. We were two weeks discovering the pit where we obtained the gravel which was on private property and as near four miles

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

as they could measure it with the speedometer on the truck. If they still dispute Item No. 2 and No. 3, the Lake will speak for itself also the gravel pit as both can be seen. (To verify this the Department paid $1.75 for gravel from the same pit for the barn).

ITEM NO. 4.

There was two hundred and fifty-eight thousand feet of lumber in the school; approximately eighty thousand feet was purchased in the vicinity of Onion Lake from different parties but all supplies for camps also other supplies for the school are included in the $850.00.

SUMMARY:

The sum of $200.00 has not been paid for copper coverings ordered but not specified. Deepening machinery room has only been partially allowed. The Department have Mr. Hudson's sworn declaration for the right amount. Extras for electrical work have not been allowed. I think I gave you particulars of this Item.

DEDUCTIONS:

Full amount of labor and material have been deducted whereas only labor should be deducted as material was supplied. Correct amount of this Item should be one-third of Inspector's figures.

Yours truly,

"S. BROWN"

Sir,

I have the honour to refer to your letter of the 8th. instant, No.115-8-5, and to report that I have consulted the management of the R. C. Indian Residential School here, regarding the contents thereof; and it is of the opinion that the greatest need of the school, just now, is for the granaries and root cellar; and that the ice house and cold storage could stand over for another year.

The granaries and root cellar which, I believe, would be best suited to the requirements of this school, are similar to those erected by the Department for the Anglican School in 1927. These were a concrete root cellar, 14' x 20'; one permanent granary, 20' x 30', set on a cement foundation; and one portable one, 14' x 16'; and the total cost of the three buildings was, approximately, $1100.00. However, as local lumber prices have increased somewhat since 1927, I believe the cost of putting up similar buildings at the R. C. School, will be, approximately, $1200.00.

I have the honour to be

COMMISSIONER'S OFFICE,

IN YOUR REPLY REFER TO
NO. 309-11
ALSO TO DATE OF THIS LETTER

REGINA, SASK., June 7th, 1929.

INDIAN AFFAIRS COMMISSIONER'S OFFICE
JUN 8 1929
RECEIVED

Dear Mr. Graham:-

I beg to direct your attention particularly to conditions with respect to the fire escapes and fire protection equipment at the R.C. Residential School, Onion Lake Agency.

FIRE ESCAPES.

Two very steep iron ladder stairways are provided, one for each wing, with access to same from each floor. These stairways terminate about 6 ft. from the ground and are installed at the front of the building. In the event of a fire at night there is grave danger that serious casualties might take place. When I last visited this school in October 1928 I informed the Principal that the Department regulations called for regular fire drill and pointed out the importance of the children being trained in this respect. Upon my recent visit I again took up this question and was informed by the Sister Superior that they were afraid to send the children down the present escapes. They consider them very dangerous. Apart from the danger in connection with the steep descent, there is the necessary jump at the bottom. I pointed out that they might make some temporary arrangement at the bottom of these stairways whereby the children would not have so far to drop to reach the ground, and again impressed upon them the importance of having regular fire drill.

W. M. Graham, Esq.,
Indian Commissioner,
Regina, Sask.

I would

www.collectionscanada.gc.ca

FIRE ESCAPES (CONT'D.)

I would suggest that four pole fire escapes be installed, one for each dormitory, similar to those which were installed at the Edmonton Residential School at a cost of $125.00 each.

FIRE FIGHTING EQUIPMENT.

Since my last visit a separate unit has been provided exclusively for fire protection purposes. This consists of a 25 Horse Power Fairbanks-Morse engine and a force pump which has capacity to deliver water at a pressure of 150 lbs. to the square inch. Only 100 ft. of hose has been provided for this unit. The pump house is located 25 ft. from the building. The building has a 144 ft. frontage, and is 160 ft. from the front to the rear, so it is very easily seen that the length of hose is inadequate.

It appears to me that this equipment would be absolutely useless in its present condition in the event of a fire taking place, for the following reasons:-

In the first place, it requires five men to start the engine and one man is required with a pry to keep the belt on the pulleys. I am informed that when the engine was installed and tried out it took the expert and five men 23 minutes to start it. An 8" belt delivers the power from the engine to the pump and is not large enough to work the pump to its full capacity of 150 lbs. and they reduced the valve to 60 lbs. pressure, and when the outfit is in operation it is necessary to have a man with a pry, as I said before, to keep the belt in its place. Either this plant has not been

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

FIRE FIGHTING EQUIPMENT (CONT'D.)

been properly installed and thoroughly tested, or it will be necessary to have it equipped with a compressed air starter. It is very evident, I think, that an outfit requiring five men to start the engine is of very little value at an institution of this kind. In the event of a fire starting and the absence of some members of the staff, it would be impossible to operate the outfit, and even when started its usefulness would be considerably curtailed through an inadequate supply of hose.

This plant, I am informed, was installed by the Water, Power & Immigration Co., Calgary, and a man named Goodchild from their Head Office in Calgary passed it.

I have the honour to be,

Sir,

Your obedient servant,

OFFICE OF THE
INDIAN AGENT

JUN 15 1929

300

Onion Lake, Sask.

June 7, 1929.

Sir,

I have the honour to enclose herewith Voucher No. 52, amounting to $ 27.25 in favour of the Co-Operative Association, Ltd., of Lloydminster, and to explain that in checking over our account with that Association, it was discovered that the articles charged in this Voucher had never yet been paid, but had been overlooked in this office. Linoleum had been purchased by the Department for the children's dining tables at the new R. C. School here, and to have this put on properly a brass binding was necessary.

Apologizing for the late date at which this account is submitted.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa.

R

Dear Mr. Scott:-

I beg to enclose herewith a short report from Mr. Inspector Murison regarding the fire protection equipment at the R.C.School, Onion Lake.

With reference to the Inspector's remarks dealing with the fire escapes, I suppose these steps are standard, but I am of the opinion that in addition to these we should have the pole fire escapes. These would not cost much money and we would have the satisfaction of knowing that the Department had taken every precaution to safeguard the children.

With regard to the fire-fighting equipment, this, to my mind, is a very serious matter and I am directing this letter to you personally as I think you should know what the Inspector has said. I should be glad if you would let me know if steps are to be taken to change this situation. A simple equipment, costing perhaps less than half what this equipment cost could be installed and give adequate protection. The Qu'Appelle School, or in fact any of our schools have a very simple system, but this one appears to be impracticable.

Yours very truly,

W. M. Graham,
Indian Commissioner.

Duncan C. Scott, Esq.,

June 13, 1929.

Sir,-

A report has been received from one of our Inspectors at the Regina office regarding the fire fighting equipment installed at the Onion Lake R. C. School. The Inspector states that this equipment will be absolutely useless in its present condition in the event of fire for the following reasons,-

> "In the first place it requires five men to start the engine and one man is required with a pry to keep the belt on the pulleys. I am informed that when the engine was installed and tried out it took the expert and five men 23 minutes to start it. An 8" belt delivers the power from the engine to the pump and is not large enough to work the pump to its full capacity of 150 lbs. and they reduced the valve to 60 lbs. pressure, and when the outfit is in operation it is necessary to have a man with a pry as I said before, to keep the belt in its place. Either this plans has not been properly installed and thoroughly tested, or it will be necessary to have it equipped with a compressed air starter. It is very evident, I think, that an outfit requiring five men to start the engine is of very little value at an Institution of this kind. In the event of fire starting and the absence of some members of the staff, it would be impossible to operate the outfit, and even when started its usefulness would be considerably curtailed through an inadequate supply of hose."

I would appreciate it if you would have one of your Calgary Engineers look over this plant and submit a report of their findings.

Your obedient servant,

Dominion Water Power Branch,
Ottawa.

J. D. McLean.
Assistant Deputy and Secretary.

Architect
and plans

June 13, 1929.

Dear Mr. Graham,-

Replying to your letter of the 10th instant with reference to the report regarding the fire protection equipment at the Onion Lake R. C. School, I would say that the water supply system, including the fire fighting equipment at this School, was designed and installed by the Engineers of the Dominion Water Power Branch in Calgary, and I am today writing to the Water Power Branch here advising them as to the contents of Mr. Murison's report and asking them to send one of their engineers to Onion Lake to investigate and advise me of their findings. On receipt of this information I will again communicate with you.

Regarding the installation of the pole fire escape this type of fire escape has proven in many cases to be exceedingly dangerous. Accidents have occurred from pupils sliding down the pole before the preceding pupil had reached the bottom or left the pole at the ground, also in extremely cold weather in the winter there have been cases where pupils leaving hot dormitories have stuck to the metal pole with serious injury resulting. In case of fire where pupils are overcome by smoke it is impossible for them to be removed from the building where a pole fire escape is used. If you think it necessary to install additional fire escapes at this School it would appear to be advisable to install the open stair type.

Yours very truly,

Deputy Superintendent General.

Dear Sir:-

re Account Messrs. Brown & Hudson
Indian School Onion Lake

I have been informed from very reliable sources that Mr. Sam Brown of the above mentioned firm has definitely stated; that he will not pay us the balance oweing us, for lumber supplied to the Onion Lake contract. I think that you are fully aware of all the true facts in connection with this case, as your Mr. Bunn (Inspector of Indian Agencies) here in Winnipeg; showed me the letter which he wrote your Department, before mailing it, and the letter fully set forth all the true details concering the case, and as Brown has taken the stand he has, I would like to suggest; that you forward us the balance of our account, namely $ 88.75. Brown has absolutely refused to come near our office in connection with this matter, and probably if he was aware of the fact, that you had paid my account he would have the decency to call on me, and talk the matter over. On the other hand if you cannot see your way clear to send me the money to close the account, I would like you to suggest what I am to do. An early reply will oblige,

Yours very truly,

P.T. Roberts, Limited.

Sir:-

I beg to forward and recommend for payment a very much delayed voucher, sent in for payment recently by Mr. Inspector Murison and which was given to him on his last visit to the Onion Lake Agency. This, you will see, is for hauling or freighting material from Lloydminster in connection with the new R. C. School built in 1928 at the Onion Lake Agency, and is in favour of P. F. Taylor, Onion Lake, Sask., and amounts to $34.39.

This school was built under the direct supervision of the Department officials from Ottawa, and you will no doubt be able to trace if any payment was made previously to cover this voucher; no other vouchers passed through this office for this school.

Your obedient servant,

W. M. Graham

DEPARTMENTAL SOLICITOR.

15-8-15

House of Commons,
Canada

OTTAWA, June 14th, 1929.

Dr. Duncan C. Scott,
Assistant Superintendent General,
Department of Indian Affairs, OTTAWA.

Dear Dr. Scott,

Re - Brown and Hudson.
Indian School at Onion Lake, Sask.

I should have replied earlier to Mr. McLean's letter of April 18th, enclosing copy of letter written to the Department of Justice, asking for an opinion with regard to the points of controversy between the Department and Messrs. Brown and Hudson. Reference was made to a letter from Mr. Lang Turner, Indian Agent, written from Onion Lake, Sask. on April 11th, 1927. It reads as follows:

"Mr. S. Brown,
791 Preston Ave.,
Winnipeg Man.

Dear Sir,

In reply to your enquiry of the 5th instant, I beg to inform you that the site for the new school is about 30 miles due north of Lloydminster, C.N.Ry., and the Saskatchewan River has to be crossed by ferry. The roads are usually in good condition excepting in the early spring. Water is right on the job, and I do not think the gravel haul will be more than a mile. Common boards and dimension can be purchased locally; I will ask the owner of the mill to write you re prices. For the sand and gravel you would be expected to make a small payment to the Indian band funds, say 25¢ per load.

Yours truly,

"Lang Turner"
Indian Agent."

...../2

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

I am quite prepared to admit that the information given in Mr. Turner's letter is correct, but the information as given by him is consistent with the school being built right at the settlement called Onion Lake, but is not consistent with the school being built on its present site. Water would be right on the job if the school were being built near the settlement. The gravel haul would not have been more than a mile in that case and common boards and dimension lumber could have been purchased there. As it turned out, water had to be hauled some distance and gravel had to be hauled a very much longer distance. The facts with regard to the length of the gravel haul can be readily ascertained since the pit from which the gravel was hauled is still there.

May I point out also that Onion Lake is the name given to the small settlement which is, I am told, about eight (8) miles from the present site. I would also call attention to the terms of the contract itself, which call for the erection and completion of an Indian Residential School at Onion Lake, Sask. - not eight miles from Onion Lake.

Under the circumstances, it would seem to me that Messrs. Brown and Hudson have a claim for extras in respect of the additional expense to which they were put, as outlined to you in my letter of June 7th to you.

If this question has not already been submitted to the Department of Justice, I would be glad if this letter could be sent along with your letter of April 18th.

Yours truly,

J. D. Thorson

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE.
D
REGINA, SASK., June 12th, 1929

Dear Mr. Scott:-

Further to my letter of the 10th. instant, dealing with the matter of fire protection at the Onion Lake R.C.Indian Residential School, I beg to say that Mr. Hamilton, who was Inspector in Charge of Construction when the two Onion Lake schools were erected, was in my office yesterday with regard to another matter and I questioned him regarding this fire fighting equipment. He informed me that he was familiar with the situation and that Mr. Murison's report is absolutely correct. Mr. Hamilton saw this plant on the occasion of his last visit to Onion Lake, and he states that the engine cannot be started with less than five men, and that the Principal told him it took three-quarters of an hour to start it under the best of conditions. Mr. Hamilton also tells me that the water supply tank which is just outside the building and feeds the pressure tank is only 2½ or 3 feet under ground, and in order to prevent the water from freezing in the winter time they have to keep it stirred by pumping at short intervals, and in his opinion they will sooner or later have to have this water put down below the frost level. I may say that the Anglican School at this point has a first-class system which works perfectly, when properly handled, although at the present time it is out of order through neglect. This system, which is quite simple, was devised here in Regina by Mr. Paulin and myself, and Mr. Hamilton states that he recommended to the Department that it be installed at the Onion Lake School (R.C.)

I merely write this letter to impress upon you the fact that something should be done at once to remedy this serious state of affairs, as we apparently have no adequate fire protection at this school at the present time.

Yours very truly,

W.M.Graham,
Indian Commissioner.

OTTAWA, ONT.. June 14th 1929.

Sir,

Your file number: 115-8-15.

I have received your letter of the 13th instant with reference to the fire fighting equipment installed at the Onion Lake R.C. school, quoting a report from one of your inspectors at the Regina office to the effect that the fire fighting equipment is useless owing to the difficulty in starting the engine.

In this connection I would refer you to my letter of November 6th last enclosing a letter from Mr. Tempest, Commissioner of Irrigation, with a report from the Resident Engineer, in which this very point is brought out. Mr. Tempest recommended that in connection with the twenty-five horse-power engine an air starter should be installed at an estimated cost of $150.

It was also recommended in this same letter that another three hundred feet of two and one-half inch hose with couplings should be supplied with fourteen more soda acid fire extinguishers.

These additional items recommended by Mr. Tempest at that time do not appear to have been authorized and I shall be glad to have your authority for the immediate installation of an air starter for the large engine, so that the danger in case of fire may be obviated.

In view of the information which we have already obtained on this matter I am not asking for a report from Calgary until I hear from you again.

Your obedient servant,

J. T. Johnston,
Director.

Sir,-

Replying to your letter of the 14th instant with regard to the proposed installation of an air starter for the operating of the 25 h.p. engine etc., for the Onion Lake R.C. residential school, Sask., I beg to request that you arrange at once for the furnishing and installation of the above mentioned machinery as already recommended by Mr. Tempest, Commissioner of Irrigation, last October.

You may also authorize the purchase of 300 ft. of 2½" fire hose with necessary couplings and hose rack for its proper keeping. Should additional fire extinguishers be required besides those already in the building, these may also be purchased and installed in place.

As I presume that it will be necessary for one of your Engineers to supervise the installation of the air starter, kindly instruct him to make an inspection of the water supply system of the Church of England residential school which is located a short distance from the above mentioned one, and to ascertain whether the Engineer in charge of the system possesses the necessary qualifications for the proper operating of the above mentioned plant.

I should appreciate if you would give the above mentioned matters your earliest consideration.

COMMISSIONER'S OFFICE,
REGINA, SASK., June 26th, 1929

Dear Mr. Scott:-

I beg to acknowledge receipt of your letter of the 13th. instant regarding fire protection equipment at the Onion Lake R.C.School, and I note the Department is taking steps to have the Dominion Water Power Branch look into this matter.

With regard to the last paragraph of your letter in reference to the installing of pole fire escapes, I note you state that in using this type of escape accidents have occurred from pupils sliding down the pole before the preceding pupil had reached the bottom or left the pole at the ground, and also that in extremely cold weather in the winter there have been cases where pupils leaving hot dormitories have stuck to the metal pole with serious injury resulting. I recommended pole fire escapes for the reason that the reports I have from our Inspectors, in addition to the impressions which I gained through personal observation on many occasions led me to believe that they were the ideal thing for Indian Schools. I have never known of a case where a child had to put its hands on the pole when sliding down, so that the danger of injury resulting in frosty weather would be negligible. It was only within the last five or six days I watched the children coming down the poles at the Cowessess School. Thirty children came down from the third storey in less than two minutes, and not one child was touching the pole with hands or feet, as they merely hugged it with their legs and arms. There was no confusion at the bottom, and if there had been a case where one child lit on top of another it would not have been very serious. We have ladder escapes at some
-of our-

www.collectionscanada.gc.ca

of our schools, and these, in the opinion of the Inspectors and myself, are most dangerous. If a child slips on one of these ladders it is liable to be seriously hurt, and as some of the ladders are almost perpendicular and in some cases even attached right to the wall of the building it is pretty difficult for small children to negotiate them. The open stair type of escape is just about as bad, as the treads on these are not more than six or seven inches wide, and to get a lot of children seven or eight years of age down these steps is almost an impossibility. Then again, on this type of escape it is necessary for the children to hold on to an iron hand rail all the way down so that the danger in cold weather of having the skin peeled off their hands would be much greater than with the pole escapes.

Your officers here have given a good deal of personal consideration to this matter and I think their views should be considered. I should like to see the pole fire escapes installed, as I think they are in every way the most efficient and the safest means of getting the children out of a building in case of fire, but it is, of course, for the Department to decide whether poles or treads shall be used. I may say that the treads cost four or five times as much as the poles, but I am not taking this into consideration in making this report.

Yours very truly,

W. M. Graham,
Indian Commissioner.

Mr M:-
I think there is some truth in Mr Graham's remarks I have seen pupils at our schools using the poles with skill & even glee. Even the little ones think it great sport.

18th April, 1929

Dear Sir,

I beg to enclose file No.115-8-15B containing a contract, together with specifications, entered into by Messrs. Brown and Hudson, Contractors, with the Superintendent General of Indian Affairs for the erection of an Indian residential school at Onion Lake, Saskatchewan, dated the 8th of June, 1927. This contract has been completed and Mr. Brown now claims a further sum of $5250 in respect of extras due to an alleged change of site for the erection of the building, the particulars of which claim are set forth in a letter from Mr. J.T.Thorson, M.P., dated the 7th January, 1929. As you will observe in the first paragraph on page 2 of Mr. Thorson's letter, he bases this claim primarily on the intimation contained on the outer cover of the Specifications, that "for all information with reference to the site of the proposed building contractors should refer to Indian Agent, Lang Turner, Onion Lake, Sask," and on the letter which Mr. Brown received from Agent Turner in reply to his enquiry, dated the 11th April, 1927, it is stated also that Mr. Brown sent a man to Onion Lake to look over the ground and this man was told by some person that the site was to be right beside the old school at Onion Lake, and it is intimated that Mr. Brown's tender was based on this information. Our view is that even on these statements Mr. Brown has no claim since the information given in Agent Turner's letter as to the site of the school is absolutely correct. Moreover, it is specifically provided that "Before submitting a proposal, the bidders shall carefully examine the drawings and specifications, visit the site of the proposed work, and ascertain for themselves the nature of the soil to be excavated and the amount of excavating required, and fully inform themselves as to all existing conditions."

enc.

The Deputy Minister of Justice,
Ottawa.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

The history of the matter is further set forth in memoranda dated the 16th Jan., 1929, and in a letter from Mr. W.A.Hamilton, the Building Inspector, dated at Regina March 9th. Mr. Brown's answer is contained in a copy of his letter to Mr. J.T.Thorson, M.P., dated the 5th April, 1929.

I may say that in view of the facts as we understand them, we are not disposed to recognize Mr. Brown's claim, and I should be glad to know whether you consider our action warranted.

Yours truly,

Acting Deputy Superintendent General.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

at Onion Lake which he says is a small settlement 8 miles south of where the school was actually built, I have to point out that the first paragraph of the advertisement for tenders for the construction of the building in question reads as follows:-

> "Sealed tenders addressed to the undersigned and endorsed on the envelope 'Tender for St. Anthony's Indian Residential School on the Onion Lake Indian Reserve, Sask.' will be received up to noon of the 2nd day of May, 1927, for the erection of the above mentioned building,"

and the heading of the Specifications on which Mr. Brown based his tender reads as follows:-

> " Specifications ----- Of the work to be done and the materials furnished in the erection and completion of the St. Anthony's Indian Residential School on the Onion Lake Indian Reserve, Saskatchewan ....."

and further that Paragraph 4 of the said Specifications is as follows:-

> "Before submitting a proposal, the bidders shall carefully examine the drawings and specifications, visit the site of the proposed work, and ascertain for themselves the nature of the soil to be excavated and the amount of excavating required, and fully inform themselves as to all existing conditions."

The school was built on the Onion Lake Indian Reserve. The words "Indian Residential School at Onion Lake, Saskatchewan, in the contract is merely an abbreviation of th words "Indian Residential School on the Onion Lake Indian Reserve, Saskatchewan" as contained in the Tender and the Specifications.

Yours truly,

Acting Deputy Superintendent General.

16th July, 1929.

Dear Sir,

I beg to enclose my letter to you of the 18th April submitting for your opinion as to our liability in respect of a claim filed by Mr. Brown, of the Firm of Brown & Hudson, the contractors who built the residential school on the Onion Lake Indian Reserve in Saskatchewan. This letter was held pending a submission of a copy to Mr. Thomson, M.P., whom Mr. Brown had interested on his behalf.

I am enclosing a copy of Mr. Thorson's letter of the 14th ultimo setting forth his observations with respect to our letter of the 18th April. Mr. Thorson, you will observe, admits that the information given in Mr. Turner's letter to Mr. Brown is correct but claims that the information as given is
enc. not consistent with the school site on which this school was built. With reference to Mr. Thorson's observation, I have to say:-

(1) that the school was built thirty miles due north of Lloydminster, the exact site stated in Mr. Turner's letter;
(2) Mr. Hamilton, the Inspector of the Contract, states in his memorandum of the 9th March last that most of the gravel was procured within a mile of the job;
(3) that there is a lake about 200 yards from the school site and a fine spring about 150 yards from the building.

With respect to Mr. Thorson's observation on page 2 of his letter that according to the terms of the contract itself it called for the erection of an Indian residential school

PLEASE ADDRESS
THE DEPUTY MINISTER OF JUSTICE
OTTAWA

OTTAWA 19th July, 19 29.

Dear Sir,-

Referring to your letter of 16th instant (115-8-15B) with reference to a claim for extras amounting to $5,250.00, which has been presented by the contractors who built the residential school on the Onion Lake Indian Reserve, Sask., I beg to say that I do not find a copy of the specifications on your file, although I judge your letter of 18th April last was intended to indicate that your file contained these specifications. I should like to have perusal of this document, also of the advertisement for tenders for the construction of the building. I would also like to see a copy of the letter of 5th April 1927 from Mr. S. Brown to the Indian agent at Onion Lake, of which the latter's letter of 11th April of that year is a reply.

I would point out for your future guidance that when submitting a file which covers other matter than what is related to the question presented it would save our time if the material papers were tagged.

Yours truly,

J. Chisholm

Re Brown and Hudson and School at
Onion Lake

Dear Mr. Scott,

I wrote to you on the 14th of June with regard to this matter and I was hoping to be able to discuss it further with you when I was in Ottawa recently. We mentioned it very briefly when I met you on the street. I am very sorry that I was not able to go into it more fully with you before I left Ottawa. With regard to the question of claim for extra by reason of the difference of opinion as to site; I understand that this is still under consideration by the Department of Justice. If any progress has been made with regard to the matter and if the Department of Justice has expressed any opinion with regard to the points of difference I would be very glad indeed if you would be good enough to advise me.

In my letter to you of January 7th I referred to other claims for extras in connection with the construction of the school. Some time in August last Mr. Brown sent you a memorandum of extras claimed by him and I referred to them in the first paragraph of my letter of January 7th. They are as follows:

2 Extra Doors	450.00
Corridor Partitions	156.00
Paper for Ceiling	44.00
Balance for Verandah extension and stairs to chapel	301.00
Copper for wash tables	200.00
Brass Clips to doors	15.00
Extra excavation and concrete in machinery room	273.92
Extra Pulleys	13.96
Extra Electrical work	117.86
Difference in cost owing to site of school	5250.00

Sir:

I have your letter of the 17th instant, relative to the providing of swings and seesaws for the pupils' playground at the Onion Lake R. C. Indian Residential School.

In this connection I have to say that you may incur an expenditure not exceeding approximately $105 in the erection of six swings and two seesaws. This equipment should be placed at suitable points on the school grounds and should be set in concrete. You should see that a satisfactory job is completed in the erection of this equipment and that the cost is kept as low as possible. After this equipment has been installed, please forward an account, in duplicate, properly certified, covering the expenditure incurred.

R

Dear Sir:

Re Howard J.Skinner

On the 31st of October 1928 we wrote you enclosing statutory declaration of claim of the above party, and also making claim upon the Dominion Government for the sum of $384.26 .

This was for painting work done by Mr. Skinner under one A.Cloughton at Indian School, at Onion Lake, Sask between Oct.11/27 to April 30/28.

In your letter to us of Nov.5/28 you refer us to Mr. W.A.Hamilton of Regina, Sask. We have written Mr. Hamilton more than a dozen letters. He has stated to us that notice was,received of this claim, and sufficient amount was deducted to meet this claim. His letter to us of Jan.26/29 states he has issued the final certificate, and there is no reason why these moneys should not be paid over to us for Mr. Skinner. We have kept writing Mr. Hamilton all spring and summer, and now in his last letter he states he has resigned his position with you. In such an event it is no use to write him any more. We can then do nothing but write you direct.

We wish to know,to begin with,what is the cause of this delay. The work was done nearly two years ago and it is almost impossible to get reply to any letters. This is just like the dunning we have to carry on with certain dead beats. We are certainly entitled to know what is holding this up. Instead we have to wait several months before we can get anybody to answer.

This is a substantial sum and it should be paid without this trouble. Please let us hear from you on receipt of this letter and better still, let us have your remittance for the sum claimed to close this matter out.

Yours truly,

TM

24th August, 1929.

Dear Mr. Thorson,

With reference to the claim for extras amounting to $5250.00 which has been presented by Mr. Brown who built the residential school on the Onion Lake Indian Reserve, Saskatchewan, I beg to say that this claim with all the material relating thereto, including your letter of the 14th June, was referred to the Department of Justice for an opinion as to whether our action was warranted in refusing Mr. Brown's demands.

We have now received a communication from the Acting Deputy Minister of Justice which is unfavorable to Mr. Brown, and we accordingly are not disposed to give further consideration to this claim.

Yours truly,

Deputy Superintendent General.

My dear Dr. Scott:

I am in receipt of your letter of the 24th instant with regard to the above. Have you any objection to sending me a copy of the opinion of the Justice Department in the matter?

There were other claims for extras in addition to the claim for $5250.00 relating to change of site. Will you be good enough to advise me what action if any has been taken by the Department with regard to these other claims.

Yours truly,

J. T. Thorson.

Dear Sir:-

Re Howard J. Skinner

We wrote you in reference to this matter on the 20th of August last. We had already written you before on the 31st of October 1928, and received reply from you referring us to Mr. W.A. Hamilton of Regina. Hamilton has informed us he is no longer in the service.

We expected to hear from you within a few days when we wrote you in August last but have received no reply to date. We cannot understand why we should have to write several times for an answer to a business letter. Have you been in touch with Mr. Skinner directly ?

Please look up our former letters, and let us know how this matter stands with you.

Yours truly,

TM

Re: Messrs. Brown & Hudson and Indian School
at Onion Lake, Saskatchewan.

Dear Dr. Scott,

I wrote you at length on the 16th. ultimo with regard to the above and again on the 28th ultimo. I should be very glad if you would let me know what action, if any, has been taken by the Department with regard to the various other claims for extras in connection with the construction of the above building other than the claim made in respect to change of site.

I also wrote you with regard to claim which H.J. Skinner had against Messrs Brown & Hudson in respect to wages and the claim which P.T. Roberts had against Messrs. Brown & Hudson. I am advised by Messrs Brown & Hudson that they have settled the claim of P.T. Roberts Limited and I enclose herewith receipt from P.T. Roberts Limited to Messrs. Brown & Hudson for $160.00 in payment in full of account.

With regard to the Skinner claim, this was further investigated by officers of the Department of Labor and settlement was arrived at between Messrs. Brown & Hudson and Mr. H.J. Skinner. Mr. Wm. McIntosh a Representative of the Department of Labor at Winnipeg wrote to Mr. Brown on the 17th. instant advising him that Skinner's claim for wages against Mr. Brown was settled and he enclosed in his letter a receipt from H.J. Skinner as follows:-

"This is to certify that Messrs. Brown & Hudson, Contractors, Onion Lake Indian School have to-day settled my wage claim for work done on this School and the matter is now adjusted to my satisfaction".

"H.J. Skinner".

House of Commons
Canada

308 Mining Exchange Bldg.,
Winnipeg. Manitoba,
September 27th. 1929.

Mr. McIntosh advised Mr. Brown that he was forwarding a copy of this receipt to the Ministry of Labor and he said he believed that the money held back by your Department in respect of this claim would be released in due course. Under the circumstances I submit that there is no longer any reason for holding from Messrs. Brown & Hudson the sums of money in respect of these two claims, namely, P.T. Roberts $88.75, H.J. Skinner $384.26, total $473.01. I would be glad, therefore, if you would forward Cheque to Messrs, Brown & Hudson for this amount, and at the same time advise me what decision has been arrived at with regard to the other claims for extras.

When I wrote you on the 28th ultimo, I asked you whether you had any objection to sending me a copy of the opinion of the Justice Department to which you made reference in your letter to me of the 24th ultimo.

Yours truly,

J. D. Thomson.

Oct. 4, 1929.

Dear Mr. Thorson,-

Replying to your letter of the 27th ultimo with further reference to Messrs. Brown & Hudson's contract for the Onion Lake School, I beg to say that a letter has been received from the Department of Labour advising that Brown and Hudson have settled the claim of E. J. Skinner and an amount of $304.26 can now be paid to Mr. Brown and a cheque will be sent to him.

With reference to the account of P.T. Roberts, I beg to say that this company does not acknowledge the cheque for $160.00 as final settlement of their account, and the following is an extract from a letter written to Mr. Brown on December 20th, 1927, by P. T. Roberts, Ltd.

> "The writer is directed to write to you regarding your account; that the cheque you issued in favour of James Gibson under date of 13th instant for $160.00 is not in full settlement of your account."

Referring to your letter of August 16th regarding the claims for extra work the first three items have been allowed and to these will be added the $200.00 for the placing of copper on the wash tables and the providing of extra pulleys. With regard to the other items I beg to give you the following particulars which have been taken from the report submitted by Mr. W. A. Hamilton, Inspector of Construction on this work.

"Balance for verandah Extension and stairs to Chapel."
"Verandah extension and stairs to gallery in Chapel. I authorized the stairs to the gallery in the Chapel and which item I have allowed them $86.34 in the final estimate, and in reference to the verandah I refused to have anything to do in the matter on receiving your letter of July 12th/27 and I notified the Sister Superior of your decision. She then took the matter up with

-----the

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 3)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

"the contractor who gave her a price for the work and which she accepted and authorized the work to be carried out, which they did and when completed Mr. Hudson received a cheque for part of the amount and made arrangements with her to pay an account for gravel of $95.00 to the Indian Agency and the balance which amounted to about $50.00 was taken up for wood which the Mission furnished them, therefore the Department had nothing to do with the extension to the verandah."

"Brass Clips for Doors."
"I am surprised at Brown and Hudson asking for an extra on those clips, they were used for the folding doors between the classrooms on the ground floor, the hangers on those doors were not put on properly at first and when they tried to make them work they split the styles of some of the doors and I ordered them to have the doors replaced so they offered to put brass clips on if I would allow them to use the doors, so I consented providing they made a good job of it and that is where the clips were used which saved them from having other doors ordered."

"Extra excavation and concrete work for Machinery Room".
"This work was carried out by the men from time to time and I was there all the time that the work was being done, I told the Contractor that the work would be paid for according to the detailed estimate which they furnished at my request, as there was no estimate given for the work, and the second clause on page 4 of the specifications covers that item."

"Extra Electrical Work."
"The account for extra electrical work as per invoices from McDonald Willson Electric Co., and forwarded to you on Dec. 15th which includes supplies ordered by the Mission, and as for the contractors financing the work they had nothing to do with it and it seems hardly the right thing to do to ask for 10% on the account."

A cheque is therefore being prepared in favour of Messrs. Brown and Hudson covering the Skinner claim, copper for the tables and the pulleys, amounting to $398.22 .

As requested I am enclosing a copy of the

OFFICE OF
INDIAN AGENT

R

DEPT. OF INDIAN AFFAIRS
OCT 5 1929
RECORDS

Onion Lake, Sask.

September 30, 1929;

Sir,

I beg to report that on several occasions the Rev. Father Balter, Principal at the Onion Lake R. C. Indian Residential School, has spoken to me with respect to the unsafe condition of the electric wiring in the machinery room at the school. This wiring has been left loose and is entirely unprotected so far as it has not been placed in conduit, and in places it is just supported on nails driven into the walls. I asked an electrician, Mr. E. Rotherham, who lives in this neighborhood, to look over this wiring and to give me a report on it, and I enclose his report herewith.

If the Department approves of having this work done I would ask that Mr. Rotherham's estimate be returned to me.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent.

COMMISSIONER'S OFFICE,
REGINA, SASK., 15 October 1929

J.

Sir,

I beg to inform the Department that Mr. Murison, having just returned from Onion Lake, reports that while at the R.C.School there a man arrived from Winnipeg to install a compressed air starter in connection with the 25 h.p. engine which supplies the power at this institution.

On examining the engine it was found that the cylinder was badly cracked through the neglect of someone, presumably the engineer in charge of the plant last winter, who failed to drain it and it is necessary to supply a new cylinder before the starter can be installed.

As the matter is urgent I have ordered the necessary parts from the Fairbanks Morse Company, and I wish to again direct the attention of the Department to the great expense continually being incurred on account of these valuable power and lighting plants being operated by incompet--ent men. The time has arrived when the Department should insist that at least one member of the staff at any school equipped with a plant to produce electric light and pump water, should be competent to operate the plant in a satisfactory manner. This, I am sure, is not asking too much, and I think steps should be taken at once to ensure that at every institution so equipped, at least one member of the staff can be relied upon to take proper care of the plant.

Your obedient servant,

W.M.Graham
Indian Commissioner

Reverend Sir:

Mr. Commissioner Graham reports that a cylinder in the engine which supplies the power at the Onion Lake R. C. Indian Residential School was badly cracked, and that this is evidence of neglect on the part of your engineer. The Department must insist on a properly qualified man to look after the mechanical plant at each residential school, and I should be grateful if you would take immediate steps to secure the services of someone who is competent.

Your obedient servant,

J. D. McLEAN

ED

COMMISSIONER'S OFFICE,
REGINA, SASK., Oct. 16th, 1929.

Inspector Murison's report on the schools in the Onion Lake Agency.

Dear Mr. Graham:-

I beg to report that I visited the Onion Lake Roman Catholic Residential School on the 7th instant and made a general inspection of the buildings.

When I last visited this school I arranged, under your instructions, for the erection of a root house and two granaries. This work has been completed with the exception of painting. I was assured that the painting would be proceeded with at once. The work in connection with these improvements has been well done.

When visiting the engine room in the main building, I noted that the wiring from the switchboard and dynamos had not been insulated. The wire was simply wound around nails and spikes and hanging loose. When the Fairbanks-Morse Co. representative, Mr. Pedersen arrived the same day, I brought this matter to his attention and he stated that last fall he paid Mr. Rose, who was then the engineer at the school, the sum of $40.00 to do this work and sent the necessary insulators. The Farming Instructor, Mr. Balduc, who was present, produced a box which he said he did not know the contents of, and upon opening it, the insulators and other material was found. Mr. Pedersen said that he would interview Mr. Rose regarding this work. This is a matter that I pointed out to the Principal as one which should be attended to as I do not consider it safe in its present condition.

W. M. Graham, Esq.,
Indian Commissioner,
Regina, Sask.

I have

ONION LAKE R.C. INDIAN RESIDENTIAL SCHOOL (CONT'D.)

I have explained, under separate cover, the condition of the 25 H.P. engine installed for fire protection purposes. The air compression starter is on the ground ready for installation as soon as the engine is repaired. Additional hose has been supplied to enable them to reach any part of the building.

The Rev. Father Therien has been re-appointed Principal and has just taken up his duties. He is a business man and I am satisfied he will see that these things are put in order. I pointed out to him how important it was to have a capable man in charge of the heating and lighting equipment, as well as the engine. The question of providing pole fire escapes has already been dealt with by you.

I noticed, in going through the building, that the plaster work, particularly on the stairway walls, is not standing up well and is badly broken in spots. This might be protected by placing burlap on the walls to take the jars. The paint on the outside walls of the main building, particularly at the north side, is very badly blistered and was evidently put on during the time when there were heavy frosts.

In going through the dormitories, it was noted that hay mattresses are being used on all the beds, with the exception of about 20, which are equipped with wool mattresses.

I found the school scrupulously clean throughout.

There are 83 pupils enrolled at this school.

ONION LAKE R.C. INDIAN RESIDENTIAL SCHOOL (CONT'D.)

The stock consists of 10 cows, 6 young stock, 6 horses, 58 hogs, and they have about 80 hens, as well as some turkeys and ducks.

40 acres of wheat yielded 380 bushels, 80 acres of oats yielded about 300 bushels. They had only 47 bushels of potatoes. Their garden was a failure and they will have to purchase potatoes and vegetables for their requirements. 50 acres of new land was broken during the summer.

COMMISSIONER'S OFFICE.
D REGINA, SASK., October 19th, 1929

Sir:-

I beg to enclose herewith a report of an inspection made at the various schools in the Onion Lake agency.

I would draw your attention to the very unsatisfactory condition of the plaster on the inside walls of the R.C.School, and also the paint on the outside. It looks to me as though the work had been very defective and there is criticism coming to the Inspector who was in charge. It seems too bad that in a remote part of the country where it is so difficult to get work done, special care was not taken to see that it was performed in a proper manner. The Department will be called upon now to spend a considerable sum of money to put this building in repair, although it is practically new. I would also draw your attention to the manner in which the Fairbanks-Morse Company installed the new 25 H.P. engine at this school. The purpose of supplying this engine was, I understand, to provide adequate fire protection. I do not know what the Department's arrangements were regarding the installation, but it seems to me most unusual that Mr. Rose, while employed as Engineer at the school, should undertake work of this kind, and be paid twice for his time. I think the Department should look into this matter. We have had trouble in the past with this large engine and it seems to me that our troubles are not ended. It is so important that we should have fully qualified Engineers at these institutions, otherwise we are just smashing, breaking and spending money recklessly in repairs. I think the Department should take immediate steps and call upon the people who agreed to install the engine to see that the wiring is properly done.

-With reference-

The Secretary,
Dept. of Indian Affairs,
Ottawa.

EXTRACT
ON 4-1-42

With reference to the Inspector's remarks regarding the shortage of beds at the C. of E. School, it has long been the policy of the Department to see that each child has a bed and that there should be no doubling up, and I would recommend that the additional beds required should be supplied. I would also recommend that proper mattresses be supplied. I have never felt that straw mattresses would be a success and I think the Department has abandoned the idea and are now buying proper mattresses.

EXTRACT
ON 1-1-43

I do not think the Department would be well advised in spending any money on the erection of new buildings for a Day School in this agency. The time will come when there will be a Residential School built at Saddle Lake and the children from Cold Lake should go to this school, or to a school of the same denomination at Onion Lake. I think you will agree with me in this matter.

Memorandum:

MR. ORR.

With reference to Mr. Graham's letter of the 19th inst. concerning the installing of the engine and switch board by the Fairbanks-Morse Company, you will note that letter of the 8th instant authorized the proper wiring - the work to be done by a local electrician. Do you feel that Mr. Rotherham's account, when presented, should be paid by the Department, or should we look to the Fairbanks-Morse Company for settlement? There is correspondence in this connection on the -15 of the file, in October, 1928, with the Fairbanks-Morse Company.

Oct. 16, 1929

CALGARY OFFICE

With reference to your Register C-4339, which called for Air Starting Equipment to be shipped to the Onion Lake R.C. Indian Residential School, we are now in receipt of a report from Mr. Pedersen, who went to Onion Lake to make this installation, from which we quote as follows,-

"When looking over the 25 H.P. Engine No. 707553, I found that they had neglected to drain the water or to keep the building warm, with the result that the water jacket of the cylinder and one elbow in the cooling water line were cracked. As the Principal of the school can not order big repairs like these, I went to see Mr. Morrison,the Inspector, and he told me this matter had to be taken up with Ottawa. I gave Mr. Morrison? (Murison) a list of the parts needed, as follows:

1 - #1A-c	Cylinder with all studs.
1 - #632	Cylinder head casket (inner)
2 - #118	Combustion Chamber Gaskets (inner)
2 - #40A	" " " (outer)
2 - #33B	Cylinder Head Gasket (outer)
36" x 36"	Asbestos packing

(Cylinder must be fitted with piston, piston rings and piston pin.)

and he will attend to the matter.

I had intended to place the small engine and compressor on a wooden foundation, as the floor of the building is wood, but as we cannot start the engine for some timel I pointed out to Mr. Morrison that a wooden floor was dangerous and unsatisfactory, and he will try to have a concrete floor put in. I, therefore,decided to make a concrete foundation, as someone will, no doubt, have to proceed to Onion Lake to install the new cylinder later on. The former engineer at the school did not install the insulators we sent up for the lighting plant. I placed these and also examined the 15 H.P. engine, which is in good shape. The engineer would like to have some spare parts for this 15 H.P. Engine, and the following is a list of the parts he desires:

Spare Parts - 15 H.P. Type "Y" Engine No.702166

1 - #1209	Torch Body
2 - #97	Injection pump plunger cushion
22- #45	Connecting rod shims thin
1 - #40	Combustion chamber gasket
1 - #33A	Cylinder head gasket
1 - #2639A	Instruction Book
1 - Hydrometer (for testing battery)	
1 - Set of brushes for 10 K.W. type DH Generator	
1 - " " " " 1 H.P. Type DH Frame 20 Motor 110 Volts	
F. M. Grease for ball bearing Generator and Motor.	
20 ft. ¾" BX Conduit with 2 - Style A Condulets and covers for 4 wires.	
1 - 1" E11	
1 - #277A Cooling Water Thermometer.

When inspecting the 110 Volt Battery, I found it to be in bad shape; the sediment on the bottom of the jars reaches the plates. All of the cells should be cleaned out as spon as possible to avoid ruining the battery. I told the engineer this. The cleaning will have to be done by a competent man, and will require four or five days' time."

These are the parts of Mr. Pederson's report which we believe should be brought to the attention of the proper persons, and since the order for this equipment was given to you in Calgary, we think possibly you may know with whom to communicate.

Yours truly,

THE C. F. M. CO. LIMITED

THE CANADIAN FAIRBANKS-MORSE COMPANY LIMITED

300-310 Princess Street,
Winnipeg, Man.,
October 22, 1929

Mr. W. M. Graham,
Indian Commissioner,
Department of Indian Affairs,
Regina, Sask.

Dear Sir:- Reference Your Number 309-11A R.C.

We thank you for your letter of October 15th. enclosing order for repair parts, including a cylinder for the 25 H.P. type "Y" Engine at the R.C.Indian Boarding School at Onion Lake, and our Repair Department are making shipment of these parts.

It was not our intention to send our man back to Onion Lake because, as you will appreciate, it is rather an expensive trip, and the profit on repair parts will not permit of our furnishing this service without charge. While our man was at Onion Lake, it was not possible for him to complete the installation of the Air Compressor, etc., but this work was carried as far as possible while he was there, and we believe that your operator has sufficient information to enable him to complete this installation when the new cylinder has been put on. However, we are rather inclined to believe that it might be advisable to have one of our representatives at Onion Lake when the new cylinder and piston are installed, to make certain that they are correctly put on, and that the engine is operated under no load for a certain period of time, until the piston has become properly seated in the cylinder.

The order for the Compressed Air Starter, which included the services of our mechanic, was placed by the Dominion Water Power Branch in Calgary with out Calgary Branch, and we, therefore, sent to our Calgary Office an extract of the report made to us by our Engineer after his visit to Onion Lake. Our Calgary Branch advise that the Dominion Water Power are no longer interested in this particular transaction, and we, therefore, attach to this letter a copy of the letter we wrote to our Calgary Branch for your information.

Yours truly,
THE CAnadian FAIRBANKS-MORSE CO.LIMITED

Dear Mr. Scott:-

I am enclosing herewith copy of a letter from the Manager of the Engine & Pump Department of the Canadian Fairbanks-Morse Company, together with the copy of their letter addressed to the Calgary Office with reference to the 25 h.p. engine which was installed at the Onion Lake R.C. Indian Residential School.

With regard to the repairs for this engine, which was destroyed through utter incompetence and neglect, you will see that the Company is calling upon me to send a man all the way from Winnipeg to install the new cylinder and piston. The expense in connection with this would be heavy and I hesitate to authorize it. You will see from the report of the Company that there was neglect in connection with the handling of this engine.

Yours very truly,

W. M. Graham,
Indian Commissioner.

Mr Graham's letter of the 15th inst. states he has ordered the parts R.B.

Sir:-

I beg to acknowledge receipt of Department letter No. 115-8-5, of the 22nd instant, and am glad to learn of the Department's insistence that at least one member of the staff at each school shall be competent to operate a mechanical plant. I note further that the Department will take steps to secure a properly qualified man on being advised of any case of incompetency.

In this connection, I beg to advise the Department that there should be a change at once at both the R.C. and C. of E. Schools, in the Onion Lake Agency, and with regard to Gordon's and Old Sun's Schools, steps should be taken to see that only qualified men are appointed when plants are installed in the new buildings. It would be folly to allow the Principal, in each case, to employ a man and find out when it is too late that he is not taking proper care of the plant. The Department should be assured of the competency of the men they propose to employ before they are placed in charge of the machinery.

At the Peigan R. C. School there is a very incompetent man in charge and he should be replaced at once by a man capable of taking care of the light and water plant.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

99-19

OFFICE OF
INDIAN AGENT

DEPT. OF INDIAN AFFAIRS
OCT 29 1929
RECORDS

Onion Lake, Sask.
October 24, 1929.

Sir,

I have the honour to enclose herewith Vouchers No. 207 and 208, amounting to $40.75 and $39.75 respectively, for the erection of some cupboards, shelving etc., at the Onion Lake Indian R.C. Residential School.

Voucher No.207, in favour of Mr. G. T. Hunter, is for material and labour making shelves and cupboard in the storehouse at the school, and also some work at an outside shed; and Voucher No.208, in favour of the Co-Operative Assoc., Ltd., Lloydminster, is for shingles to cover a small shed put up by the school, between the permanent granary and implement shed, and for paint to paint the concrete floors in the boy's and girl's recreation rooms, which were painted last winter, but the paint was worn off and the floors needed another coat. Whilst this work was in progress the school management drew my attention to it, with a view to having the Department bear the cost. I asked Father Balter to write me regarding the work and told him that I would forward his letter to the Department with a recommendation. However, as at that time a change was taking place in the school management, Father Balter did not do this, and Father Therien, who has taken Father Balter's place, has handed me the accounts.

The work was all very necessary and I would ask the Department to kindly honour the vouchers.

I have the honour to be,
Sir,
Your obedient servant,

Indian Agent,

The Secretary,
Department of Indian Affairs,
Ottawa.

EDMONTON IRON FENCE & WIRE WORKS

Edmonton - Alberta

Mr. M. Graham,
Department of Indian Affairs,
Regina, Sask.

Dear Sir,

We will supply 2 fire escapes for the Roman Catholic School at Onion Lake, Sask., as per your sketch, landing 2'-6" wide by 5' long with pipe slide and all brackets and bolts, prepaid to Lloydminster for $133.40, sales tax not included.

For the erection of these fire escapes at Onion Lake these fire escapes have to be hauled approximately 50 miles by truck and the charges we believe are a about $2.50 per 100, but we cannot say how often these trips are made. We will have to send a man down to erect same, and he in turn will have to pick some helpers there. This trip will take approximately ten days, and will cost in the neighborhood of $175.00, this will pay one mechanics time, truck charges, helpers time, fares etc.

We are sorry we were not able to answer any sooner, but your letter was mislaid in our files. Upon receipt of your order we shall be able to ship these fire escapes inside of a week.

Thanking you in anticipation of an early reply, we beg to remain, Dear Sir,

Yours faithfully,

(Sgd) John Nikeforuk

COMMISSIONER'S OFFICE,
REGINA, SASK., 26th December, 1929.

Sir:-

I enclose copy of a letter addressed to Mr. Lang Turner, Indian Agent at Onion Lake, by the Principal at the St. Anthony School, with reference to the fire hose provided by the Department. This equipment was not ordered through this office and therefore I do not know from what firm it was purchased, but I am forwarding this on to you at once as I think the matter should be given immediate attention as it is evident that the fire hose provided cannot be used in case of fire. I also attach the sketch to which the Principal refers in his letter.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Ottawa, January 2nd, 1929.

Sir:

I have your 309-11A R.C. of the 26th ultimo, enclosing correspondence regarding the fire hose supplied for the use of the Onion Lake R. C. Indian Residential School.

In this connection I have to say that 300' of 2½" unlined linen hose and 6 brass couplings for same were obtained from Bell & Morris, 527 - 8th Ave., W., Calgary, in July, last, and the account covering the cost of same was submitted to the Department through the Commissioner of Irrigation of the Dominion Water Power Branch at Calgary in connection with the work carried out by that Department at the above school. As it would appear from the Principal's letter that the connections do not fit the fire hose, I shall be pleased if you will take this matter up with the above named firm and arrange with them to exchange the brass couplings for new couplings of the proper size.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary.

No. 309-11A R.C.
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
D REGINA, SASK., January 23rd, 1930

Sir:-

With reference to my letters of Dec. 26th. and January 7th, and Department letters of January 2nd. and 13th. last dealing with the matter of fire protection equipment at the Onion Lake R.C. Indian Residential School, the installation of which was placed in the hands of the Dominion Water Power Branch, at Calgary, I may say that although we have been corresponding on this subject for a month we do not appear to get anywhere.

In the first place, the Company handled the work very badly and have sent in connections that will not connect with the standpipe. We have had sketches made of the couplings, and I have been in correspondence with Messrs. Bell & Morris, with whom the Dominion Water Power Branch placed the order, and they apparently cannot understand what is wrong. It seems to me this should have been a simple matter if it had been properly handled. First of all, the people who supplied the hose and couplings should have made careful inquiry from the Dominion Water Power Branch regarding the size of the couplings on the standpipe Will the Department place the matter in the hands of the Dominion Water Power Branch and let them finish their job. I have had plumbers here who agree with me that the only thing to do is to let the people who undertook the work complete it. The trouble is that the outlet on the hydrant is 3-3/16 inches in diameter and 6 threads to the inch, whereas the hose couplings supplied are 2-3/16 inches diameter and 8 threads to the inch. I have pointed this out to Messrs. Bell and Morris but it does not appear to be understood.

-It seems-

The Secretary,

www.collectionscanada.gc.ca

It seems to me this is the only way to straighten out this unsatisfactory business. We are putting in hose and connections at various points all the time, and never have any difficulty like this.

It will be necessary to supply a new nozzle to fit the hose supplied by Bell and Morris, and the Rev. Principal asks for a half inch outlet, as the present one uses the water too fast.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

R

St. Anthony's Residential School,
via Lloydminster, Sask.

March 19th. 1930.

The Hon. Duncan Scott,
Deputy Minister Of Indian Affairs,
Ottawa.

Sir.-

I beg to submit to your earnest consideration an appropriation for the following items:

Ist..... One team of working horses for the farm. We have only six horses to do the spring work, and considering the number of acres we intend to put under cultivation, about 175 acre we need two outfits, four horses each, running simultaneously. The shortness of the seeding season amply justified this appropriation.
And as every thing points out to an early spring, I beg to request your immediate attention.

2st..... One Hog-pen needed very badly. This winter we had to winter our pigs in the stable along-side of the horses and cows. Raising pigs is one of our best source of revenue, but we need proper accommodation to warrant a fair success.

3th..... Enlargment of our actual stable;- too small to warrant an increase of our stock. Our stable is already have twenty* instead of thirteen, our present number, in order to supply the quantity of milk required for the children.

*Cows

4th..... One Ice-House. We have nothing of the kind. Badly needed

5th. ... One Chimny in the Wash-House. Up to now we are using the ventilator as a chimny, a poor substitute and far from being safe.

6th. ... A sink near the community room.
and a cellar near the kitchen. and a Drier
Cold Storage

Mr. Murrison was here lately and took note of the different items above mentionned and saw by himself the urgency of an appropriation to cover the same.
Let me once more draw your attention to the discremination we are laboring under with regard our capita grant, 165 instead of 170 dollars, granted to some other schools which are not giving a better service than our and have not to meet the expences incurred for being far away from the station.
I hope our demand for these different items will receive a favourable answer.

Same as the C.E. mentioned below
AMD

I remain.
Your's faithfully.

COMMISSIONER'S OFFICE

IN YOUR REPLY REFER TO
No. 309-11
ALSO TO DATE OF THIS LETTER

ED

REGINA, SASK., March 22nd, 1930.

INDIAN COMMISSIONER'S OFFICE
MAR 24 1930
REGINA, SASK.

Inspector Murison's Report on Schools in the Onion Lake Agency.

R. C. INDIAN RESIDENTIAL SCHOOL

Dear Mr. Graham:-

I visited this school on March 4th, and made a general inspection of the buildings. There were 109 pupils enrolled and 3 non treaty children, about whom there has been considerable correspondence. The Principal is making an effort to have these children taken over by the Province. I found the children neat and clean. They have a well nourished appearance. The school building was scrupulously clean and tidy throughout.

FIRE PROTECTION

Since my last visit pole fire escapes have been installed with access to them from the dormitories. These are in addition to the outside stairways. Regular fire drill is given the children. I had them demonstrate the use of both the stairways and the fire escapes, and noted that they evacuated the school very quickly when they used the pole escapes. The stairways, as I have already pointed out, are very steep, and it was noted that care had to be taken by the children when going down these stairs. There is altogether too long a drop at the bottom and some means should be provided to decrease this. They have to jump about 5 ft. to the ground when they reach the bottom of the stairs, and the children are apt to hurt themselves.

W. M. Graham, Esq.,
Indian Commissioner,
Regina, Sask.

I found

R. C. INDIAN RESIDENTIAL SCHOOL (CONT'D.)

FIRE PROTECTION (CONT'D.)

I found the fire equipment in good condition, and it will be in good shape when they receive the proper hose connections. When the new hose was sent, the wrong connections were provided with it.

I have a suggestion to make which, I think, will add to the safety of the children in the event of a fire taking place in this building. The top floor of the building provides a dormitory at each end. Each of these dormitories have access to the fire escapes, but there is no connection from one dormitory to the other, and in the event of fire at one end of the building cutting off access to the escapes, it would be impossible for them to pass to the other dormitory and use the escapes from there. It would be an easy matter to make an opening and put in a door between these dormitories. This could be properly secured, but would be available for use in case of emergency.

They have two chemical fire extinguishers on the first two floors of the building, but none on the top floor and none for the outbuildings. They should have at least six more extinguishers as a measure of safety.

The paint on the outside of the building is in bad shape. As I pointed out in my last report, it is scaling off badly.

LAUNDRY

The Sisters pointed out that although they have a soft water tank, they have no means of heating soft water in the laundry. They are using a small agricultural boiler now, the pipe from which is carried through a ventilator across the hall to a main chimney.

This does

R. C. INDIAN RESIDENTIAL SCHOOL (CONT'D.)

LAUNDRY (CONT'D.)

This does not look a very safe arrangement to me, and I think that a separate brick chimney should be built for the laundry. The brick for this chimney to be freighted by the school teams free of cost. They also pointed out that they have no drier for clothes, and they expressed a desire to have one. The laundry is equipped with four sett tubs, a washing machine and extractor.

The Sisters also asked that a wash basin and toilet be placed on the first floor for their private use. There was none provided when the building was built.

The dormitory beds are equipped with 110 hay ticks. The hay is changed once a year. The only smell noticeable in the building was the smell from the old hay in these ticks.

FARM

They have 170 acres ready for seed this spring; 60 acres of this will be sown to wheat and the balance to mixed feed grains. They have 12 milk cows, 9 of which are pure Ayrshire. They have 1 bull and 6 young heifers.

They raise about 50 hogs each year, but have had to cut down on account of having no accommodation for them. They have to keep the hogs in the barn owing to lack of room. There is an item in the Estimates for a piggery for this institution this year. There is also an item in the Estimates for a garage, but the Principal states that he would rather forego the garage this year in favour of more room for the live stock. They have only sixteen stalls in their barn, and the Principal states that if we could provide a lean-to shed to the barn, it

would be

R. C. INDIAN RESIDENTIAL SCHOOL(CONT'D.)

FARM (CONT'D.)

would be more useful to them than a garage.

They have six work horses and would like to get two more to enable them to make up two - four horse teams.

The cottage provided for the Farming Instructor at this school is a very neat building. It was wired for electric lights, but no fixtures were provided and the building was not connected with the system. They informed me that they could do the work if the Department would provide the fixtures and wire, which, it is estimated, would cost $75.00.

There is no ice house or refrigerator at this school and they have no means of keeping fresh meat during the summer months. As they have to bring their meat from Lloydminster, a distance of over 30 miles, it is impossible to keep it for more than a day or so during the warm weather.

The Rev. Father Therien is again in charge here, and the work of the school appears to go very smoothly and efficiently under his management.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

IN YOUR REPLY REFER TO
No. 309-11
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
REGINA, SASK., March 29th, 1930.

Dear Mr. Scott:-

I am enclosing herewith copy of a report on the schools in the Onion Lake Agency, inspected by Mr. Murison during the present month.

Conditions at the Roman Catholic Residential School seem to be very satisfactory. With reference to that portion of the Inspector's report which deals with the escapes coming within 5 ft. of the ground, I do not know what we can do in the matter. If the fire escape stairways were carried down within 2 ft. of the ground, there is a danger of people getting up into the dormitories or children escaping. I think all escapes are about this distance from the ground. If a fire should take place the bigger boys and girls should be at the bottom to help the smaller children down. With regard to the suggestion that a door be built to connect the two dormitories, this is for the Department to decide. I have no doubt, when the plans were prepared, that it was thought inadvisable to have doors connecting these dormitories. I will be glad to have your instructions in the matter. It is pointed out that 6 more extinguishers should be supplied. These could be procured here if the Department wish me to do so.

With regard to the paint on the outside of the building, I may say that I drew the Department's attention to this in a letter, but have received no reply. You will note that the paint here is scaling off. This should not be. The paint supplied by the Contractor must have been of an inferior quality.

I would draw your attention to what the Inspector says with regard to the agricultural boiler being used to heat soft water, the pipe from which passes through a ventilator across the hall. This is a dangerous

ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

business, in my opinion. It will cost some money to build a new chimney as it will be quite a height if a new one is built.

I think perhaps the Sisters can do without the wash basin and toilet on the first floor. It would cost a lot of money to send plumbers to the school to make the changes - several hundreds of dollars in my opinion.

I notice that this school is fitted with old hay mattresses, which, in my opinion, is a serious mistake. I have expressed my views on this matter several times. I notice, in some cases, the Department are reverting to ordinary mattresses. There is no economy in using hay, to say nothing of it being inconvenient and insanitary.

You will note that the pigs at this institution are kept in a barn. There is an amount of $500.00 in the Estimates for a piggery, which I presume will be allowed.

I wish to point out that they have six work horses and would like to get two more. It is not up to the Department to buy any more horses for this school, and with your instructions I will make this clear to them.

If it is the desire of the Department to put electric lights in the newly erected Farming Instructor's house, this can be done, but I think our Agents, who have served many years, are more entitled to electric lights than Farming Instructors, even at schools.

It is pointed out that there is no ice house at this school.

Ottawa, April 1, 1930.

Reverend Sir:

I am directed to acknowledge your letter of the 19th ultimo, with reference to the needs at the Onion Lake R. C. Indian Residential School. The per capita grant compares favourably with that at other schools similarly situated, and I regret that no increase can be considered at the present time. I am writing to Mr. Commissioner Graham regarding an addition to the cow barn. The Department considers that the extra team of horses should be provided by the school, from the per capita grant or other earnings.

I am also writing to Mr. Graham, concerning the need for an ice house, a hog pen and a cold storage near the kitchen. I am hopeful that some funds will be available for improvements at your school this year, but I wish to have Mr. Graham's recommendation before giving him authority.

I regret there are no funds for a sink near the community room. I am making inquiry regarding the need for a drier in the laundry. Mr. Graham is being requested to investigate the need for a brick chimney in the laundry. In the meantime, the present arrangement for heating soft water should be discontinued, as it appears to be dangerous.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

April 1, 1930.

Dear Mr. Graham:

I have your 309-11 of the 29th ultimo, enclosing Mr. Inspector Murison's report on the schools in the Onion Lake agency.

You may arrange to have a door cut between the two dormitories on the top floor of the Onion Lake R. C. Residential School. I believe this added precaution is wise in these buildings that are not fireproof. Six additional fire extinguishers will be ordered by the Department. I have noted, for next year's Estimates, the advisability of painting the outside of the main building.

Please ascertain if some other arrangement cannot be made for the heating of soft water for use in the laundry. Could not this be done on the kitchen range and carried in to the washing machine? The present arrangement appears to be unsafe, and you should give immediate instructions that it be discontinued. I hesitate to authorize the erection of a costly chimney for the laundry, until other alternatives have been carefully considered. There are no funds for additional plumbing fixtures near the Sisters' community room nor for two additional work horses. I believe it advisable, however, to arrange for the electric lighting of the farm instructor's home, and you may authorize it.

I am pleased to state that funds will be available this year for the erection of an ice house and a hog pen at this school. You might let me have an estimate of the cost of these two outbuildings. It has also been represented to the Department that a cold storage room should be provided near the laundry door. Please let me have your recommendation. You might also comment on the request for a drier for the laundry. If most of these improvements are allowed this year, there will not likely be funds for the addition to the barn. In the meantime, you might let me have an estimate of the cost of the lean-to shed which is requested.

You will receive separate letters concerning the other schools mentioned in Mr. Murison's report.

Yours very truly,

Duncan C. Scott

Ottawa, April 3rd, 1930.

Sir:

I have to inform you that the Department is today placing an order with the Pyrene Mfg. Co. of Canada Ltd., Toronto, Ont., to ship addressed to Rev. J. A. Therien, O.M.I., Principal, Onion Lake R. C. Indian Residential School, Lloydminster, Sask., six (6) Thermene extinguishers, complete with non-freeze chemical.

This firm have been requested to make early shipment, and to forward their account to you covering the cost of the extinguishers F.O.B. Lloydminster, Sask, sales tax included. When these extinguishers are received, you should certify the account in the usual manner and forward same promptly to the Department in order that payment can be made.

Please inform the Principal of the order placed for the extinguishers, and he should arrange that they be placed at strategic points throughout the building. I may say that these extinguishers are being supplied upon the recommendation of Mr. Inspector Murison, who visited this school early in March, last.

Your obedient servant,

SCHOOLS APR 17 1930
DEPT. OF INDIAN AFFAIRS APR 15 1930 RECORDS

The Hon. Duncan Scott,
Deputy Minister of the Depart.
of Indian Affairs,
Ottawa.

Hon. Sir:-

I beg to submit to your earnest consideration an appropriation for the following items:
1st. One team of working horses for the farm. We have only six ... horses to do the spring work, and considering the number of acres we intend to put under cultivation, about 175 acres, we need two outfits, four horses each, running simultaneously. The shortness of the seeding season amply justified this appropriation. And as everything points out to an early spring, I beg to request your immediate attention.

2nd... One Hog-pen-needed very badly. This winter we had to winter our pigs in the stable along-side of the horses and cows. Raising pigs is one of our best sources of revenue, but we need proper accommodation to warrant success.

3rd... Enlargement of our actual stable:- Our stable is already too small to warrant an increase of our stock. We should have twenty cows instead of thirteen, our present number, in order to supply the quantity of milk required for the children.

4th... One Ice-House. We have nothing of the kind. Badly needed.

5th... One Chimney in the Wash-house. Up to now we are using the ventilator as a chimney, a poor substitute and far from being safe.

6th... A sink in the corridor near the sisters' community room and a cellar near the kitchen.

Mr. Murrison was here lately and took note of the different items above mentioned and saw by himself the urgency of an appropriation for the same.

Let me once more draw your attention to the discrimination now existing with regard to our capita grant, 165 instead of 170 dollars, granted to some other schools which are not giving a better service than ours and have not to meet the expenses incurred for being far away from the station.

I hope our demand for these different items will be granted as soon as possible as every one of them is badly needed.

Yours faithfully,

(SGD.) J. A. THERIEN

(Copy) File 4617

Lloydminster, Sask.
9th May, 1930.

The Commissioner of Irrigation,
Department of the Interior,
Calgary, Alta.

Sir,-

Reference your instructions of October 22nd, 1929, in connection with an inspection at the Onion Lake (R.C.) Indian School, Lloydminster, together with a report on the Church of England School also situated at Onion Lake.

An effort was made to carry out these instructions earlier in the year, but owing to the river crossing, this inspection was postponed till May 8th, 1930.

ONION LAKE (R.C.) INDIAN SCHOOL.

Date of inspection. May 8, 1930.

Purpose of Inspection. To ascertain if the new equipment which was ordered last August had been installed, and as to whether or not the water system is working satisfactorily.

The list of equipment which was forwarded in your instructions of October 22nd, was checked over in company with the Indian School engineer, and it was found that all the new equipment had been installed.

The engineer complained of the main drive belt in the engine house, constantly jumping off the pump pulley, as he stated that every time he started to pump water, this belt flew off. He was therefore unable to let any of the students run the plant, and he requested some means of maintaining the belt. I was of the opinion that the belt was laced too tightly, and that if it was slackened a little bit, and powdered rosin applied to the driving surface, this would solve the difficulty. I am further of the opinion that a belt drive guide with weights would effectually keep this belt on, at the same time giving the correct tension to the belt.

The pump and the engine appear to be functioning very well, and the engineer had no complaints to make about any of the machinery except the engine belt. The sewage disposal plant is working excellently and has given no trouble this winter.

In connection with this visit to the school, I would respectfully point out one defect that was noted. In the lanudry room, there is no means of heating the soft water which is collected from the roof, and carried to a storage reservoir, so it is collected in pails and carried to the laundry room, where it is heated upon a wood stove, chimney of said stove being carried into a ventilator shaft in lieu of a proper chimney. This constitutes a certain hazard and I would recommend that a proper chimney be built with an outlet from the roof of the laundry room.

" C O P Y "

Department of the Interior
Canada

DOMINION WATER POWER AND RECLAMATION SERVICE

Calgary, Alta.,
May 15, 1930.

Sir,

I am attaching for your information two copies of Mr. W.G. Stuart's report of an inspection made by him on the 8th instant of the water supply and sewerage disposal plants at the Onion Lake (R.C.) Indian School, Lloydminster, and of the water supply plant at the Church of England school in the same locality.

From Mr. Stuart's report on the Onion Lake (R.C.) school you will note that conditions in regard to the plant and equipment are satisfactory and everything appears to be functioning well. Mr. Stuart's suggestion regarding the belt from the engine to the pump will no doubt dispose of the difficulty complained of by the engineer.

In the concluding paragraph of Mr. Stuart's report on this school he points out that no satisfactory means of heating soft water in the laundry are available. The wood stove now being used, with the pipe carrying into a ventilator shaft, is far from satisfactory and undoubtedly creates a fire hazard. I agree with Mr. Stuart's recommendation that a proper chimney be built with an outlet from the roof of the laundry room.

Our own Officers are handling this See Letter Copied to Graham A.R.D.

With regard to the Church of England school, Mr. Stuart has recommended that the pumphouse be enlarged so as to facilitate operation and also, in order that the building may be properly heated during the winter months. It is likewise recommended that the intake pipe be extended to deep water, which can be obtained by the construction of an additional one hundred feet of 2½" pipe. It is also recommended that a fine screen filter be placed on the upturn elbow of this intake pipe in order to eliminate drawing small fish into the system.

Stuart Wire J.S.

The question of a suitable preparation to apply to the sunken reservoir, where Mr. Stuart reports hair-checking to have started, will be considered and we shall advise you concerning this matter at a later date.

You will note that Mr. Stuart considers the engineer in charge to be a capable man and fully qualified to undertake the duties involved.

Your obedient servant,

(Sgd.) J. S. Tempest,
Commissioner of Irrigation.

The Director,
Water Power & Reclamation Service,

May 19th, 1930.

Sir,

Re Onion Lake R.C. and
Church of England Schools.

In further reference to your letter of October 11th last regarding the water supply systems at the Onion Lake R.C. Indian school and the system at the Church of England school in the same locality, I enclose herewith copy of a letter received from the Commissioner of Irrigation, together with a report on a recent inspection of these two schools.

Encl.

You will notice that certain recommendations are made with regard to improvements which appear to be necessary and I should be glad to have your instructions in the matter.

Your obedient servant,

J. T. Johnston,
Director.

Ottawa, May 28, 1930.

Sir:

I have your 40782-W of the 19th instant, enclosing the report on the water supply systems of the Indian Residential Schools on the Onion Lake Reserve in Alberta. With reference to the heating of soft water in the laundry at the Roman Catholic School, I have to inform you that the Department ordered that this method be discontinued, by letter of April first. Mr. Indian Commissioner Graham, of Regina, is making a report as to an alternative method of heating the water.

You will receive a further communication regarding the water supply of the Onion Lake Church of England Residential School.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

J. T. Johnston, Esq.,

To the Hon. Duncan Scott
Deputy Minister of the Depart.
of Indian Affairs.
Ottawa.

Hon. Sir,

Replying to your letter No. 115-8-5 of May 28, I am sorry to say, after investigation, that the old arrangement you are referring to, is going on, although as scarcely as possible with that unsafe use of the ventilator; the sister in charge of the laundry is obliged to do so. The inspector of machinery, passing through the establishment just lately, said that he was going to mention the necessity of a chimney. Will you kindly grant appropriation for that chimney ?

Let me also apply for the following items :
Ist. Paint necessary for the floors of dining rooms, recreation rooms and passages in the basement, (work could be done by one of our employees).
2dly. A tank of about 500 gs. in the ground near the machine room for oil, as it is not safe to keep that oil in the open alongside of the building.
3dly. A sink in the room of the Principal; this would be a very handy convenience, and considered as a personal favor to the Principal. Same thing has been wished for by the Rev. Sisters near their community room, and we trust in your kindness to grant both parties this small satisfaction.

Yours faithfully,

Jos. Portier

Ottawa, June 12, 1930.

Reverend Sir:

I am directed to reply to your letter of the 4th instant, concerning improvements at the Onion Lake R. C. Indian Residential School. In my letter of April first, last, you were instructed to discontinue heating soft water, as in the past, because of the dangerous use of the ventilator. This is a serious matter and must not be treated lightly. The question of a chimney is being considered - Mr. Commissioner Graham having been asked to report, but soft water must no longer be heated in this manner, and the Department expects you to give immediate orders. As you have been informed, there are no funds this year for the extra wash basin facilities in the Principal's room and in the Sisters' community room. I am corresponding with Mr. Commissioner Graham regarding paint for the floors and a 500 gallon oil tank.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

Ottawa, June 12, 1930.

Sir:

I wish to refer to the Deputy Superintendent General's letter of April first, last, concerning repairs and improvements at the Onion Lake R. C. Indian Residential School. Please let me have your recommendation regarding alternative arrangements for heating soft water in the laundry. Is a chimney really necessary? The Department also wishes an estimate of the cost of the ice house and the hog pen and your recommendation concerning a cold storage room near the laundry door and a drier for the laundry. Further, you were to estimate the cost of a lean-to addition to the barn. A recent communication from the Rev. Principal indicates that painting materials are needed for the floors of the dining rooms, recreation rooms and passages in the basement and that a 500 gallon oil tank should be installed near the machine room. Please comment on these requests also.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy & Secretary.

REGINA, SASK., June 10th, 1930.

Sir:-

Referring to the fourth paragraph of your letter No. 115-8-5 dated April 1st last, with reference to the erection of an ice house, hog pen, and an addition to the barn at the Onion Lake R. C. Residential School, I may inform you that I estimate that a lean-to to the barn to accommodate 10 milch cows, and with a shed for young cattle, 16'x30', will cost $750.00. We can build an ice house with a refrigerator for $600.00, and a hog pen at an estimated cost of $665.00, or a total of $2,015.00 for the three buildings. It will not be necessary to provide a cold storage room near the laundry door in view of the provision for a refrigerator in the ice house.

Funds provided

With regard to the request for a drier for the laundry, my experience is that these driers do not give very satisfactory service, and it is a utility that can be done without.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

IN YOUR REPLY REFER TO
No. 309-11A R.C.
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,
ED
REGINA, SASK., June 16th, 1930.

Sir:-

I have your letter No. 115-8-5 of the 12th instant, with reference to certain items asked for in connection with the Onion Lake R.C. Residential School. I may say that I forwarded recommendations in connection with the addition to the barn, ice house, and hog pen, together with an estimate of the cost of the three buildings on the 10th instant.

With reference to the arrangements for heating soft water, I may say that it is too bad that this was not foreseen when the building was being put up as arrangements at that time could have been carried out at much less expense than will be necessary now. In my opinion, it would not be feasible to heat soft water in the kitchen for the large amount of washing to be done in the laundry of a school of this size, and the only alternative now will be to build a chimney, the cost of material and labour for which should not exceed $100.00. The school authorities informed the Inspector when he was there that they would freight the brick to the school free of cost.

With reference to the painting material required for the floors of the dining room, recreation rooms, and passages in the basement, this would appear to be necessary in order to keep down dust which accumulates through wear on the concrete floor.

With reference to the oil storage tank and pump, I estimate that this could be supplied at a cost not exceeding $200.00. I think that this is a very wise thing to buy, and the expenditure would be justified

The Hon. Duncan Scott,
Deputy Minister of the Dept. of Indian Affairs
Ottawa.

Hon. Sir,

I beg to reply to the letter of Mr. A.F. Mackenzie (your file No. 115-8-5, June 12), and to say that your instructions regarding the use of the ventilator in the laundry have been fulfilled. I have personnally attended to the removal of the dangerous pipes; and in order to give satisfaction to the sister in charge there I have devised and fixed a temporary outside arrangement for heating soft water & boiling white linen, this of course could not be in use but only during present summer weather. I realise perfectly well that the building of a chimney would be rather expensive, and I dare not insist in my application for the granting of it, as we are in need of many other improvements. But would you give me leave to put up outside, at a safe distance and along side of the chapel wall to the top of the building a good gal anized pipe, this to be done on my own account ? I would not do it without your approval and I shall wait for your answer

Tell him Graham has been authorized to erect a chimney

COMMISSIONER'S OFFICE,
ED
REGINA, SASK., August 5th, 1930.

Sir:-

With reference to your letter of the 20th of June last, No. 115-8-5, it is necessary for me to inform you that the price authorized, namely $100.00, will not meet the cost of the chimney it is now proposed to erect at the R. C. Indian Residential School, Onion Lake Agency. When the estimate was submitted, it was for a single layer of brick, and an 8" flue. Now I strongly recommend that we use a double thickness of brick, a 12" flue, and also that we make openings for bakery and laundry stoves. The additional cost will be about $95.00. Rather than wait, I have taken it on myself to incur this expenditure.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

The Secretary,
Dept. of Indian Affairs,
OTTAWA.

Ottawa, August 12, 1930.

Sir:

I have your 309-11A R.C. of the 5th instant, informing the Department that the amount authorized, viz., $100, was not sufficient to cover the cost of the chimney which it is proposed to erect at the Onion Lake R. C. Indian Residential School.

In view of your report, the Department will approve of the action taken by you in incurring the additional expenditure of $95 in the use of double thickness of brick and in making openings for bakery and laundry stoves.

Your obedient servant,

A. F. MacKenzie.

S. Brown

General Contractor

791 Preston Ave., Winnipeg,
Aug.28/30

Hon. Robert Rogers.

Dear Sir,-

I beg to call your attention to an account owing to me by the Department of Indian Affairs.

In brief, the outline is as follows. I tendered for an Indian school at Onion Lake, Saskatchewan. My prices were based on conditions prevailing at Onion Lake. The site was changed and the building was erected eight miles from Onion Lake, resulting in an increased cost of Five thousand, two hundred and fifty dollars ($5250.00)

I would appreciate very much if you will use your influence on my behalf to get payment of this account.

Yours truly

S. Brown

Sir,

I have the honour to submit herewith Voucher No. 152, amounting to $ 90.00 for paint for the concrete floors of the recreation rooms, etc., at the Onion Lake R.C. Indian Residential School.

It appears that the management of the school purchased this paint on the authority of Departmental Letter No. 115-8-5, dated June 12th, last, to Rev. Jos. Portier. However, I should add that, before doing so, the Reverend Father asked me on more than one occasion whether I had received authority to purchase this paint for the school.

Onion Lake, Sask.,
Sept. 24th, 1930.

Mr. Lang Turner,
Indian Agent,
Onion Lake, Sask.

Dear Sir:

Referring to Commissioner Graham's letter regarding the inspection of all the joints in the wiring at the Church of England School - It would be necessary to take down every lighting fixture in the building to get at the taped joints in the ceiling outlet boxes. These boxes contain anywhere from two to four of these joints. It has been found that the wall switch boxes have also been used as junction boxes in some cases. This would mean that all of the wall switches would also have to be removed, in order to get at any joints that might be in these boxes behind the switches.

The work of inspecting all of these joints, removing the tapes to see that the joints were soldered, and then putting fresh tape on the joints would take almost as long as would be required to re-wire the building.

In Mr. Graham's letter, no mention is made of whether he wants anything done about the loop-in system of wiring, shown in the sketch enclosed with his letter. There is no doubt that this loop-in system is much superior to the system of wiring now in use, as the wires in the loop-in system are continuous throuout the circuit, whereas the present system is composed of short lengths of wire joined together in each outlet box. If the loop-in system was used however, it would be necessary to purchase new wire, as the wire now in use in the building, would be in too short lengths to be used for the loop-in system. In view of the amount of work required to inspect the joints, as requested by Mr. Graham, would it be advisable to communicate with him before proceeding with this work.

Yours truly,

Sgd. E. Rotherham.

RECORDS

IN YOUR REPLY REFER TO
No. 309-11A J.E.
ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE.

W. REGINA, SASK., 29th September, 1930.

R

Sir:-

With reference to Department No. 115-1-5 of the 10th instant, in regard to the suggested form of inspection of the electrical wiring at the Onion Lake C. of E. Indian Residential School, I enclose copy of a letter received from Mr. E. Rotherham of Onion Lake in connection therewith.

In forwarding this the Indian Agent states Mr. Rotherham appears to think that this work is unnecessary, as he has already tested all the wiring and feels almost positive that there are no loose joints. Just before receipt of the Department's letter I had received information in response to my enquiries that proper fuses had not been installed in the first instance, those in use being altogether too large for the purpose, and had written to the Indian Agent, after consultation with an expert here, to arrange for the installation of the proper sizes of fuses. The same expert endorses the opinion of Mr. Rotherham that the carrying out of the suggestions made in the Department's letter of the 10th September would be unnecessary on the grounds that the wiring has been inspected and tested by a qualified man and is reported as satisfactory; that proper sized fuses are now or about to be installed, and that switches which were overloaded have been replaced by those of the proper size. In view of these reports, I am not prepared to recommend to the Department that any further inspections are necessary, as I am satisfied that all safeguards have been taken. I have, therefore, not further instructed the Indian Agent. If, in view of the information I now forward to the Department, it considers the suggested work should be done, I will arrange for it, but I consider, with the expert, that it will be an unnecessary expenditure.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

DEPT. OF INDIAN AFFAIRS
OCT 14 1930
RECEIVED

R √

Ottawa, 11th October, 1930.

Dear Major Kennedy,-

I have before me your letter of the 22nd ultimo with enclosures on behalf of Messrs. Brown and Hudson, contractors for the erection of the Indian residential school on the Onion Lake Indian Reserve.

In reply I have to say that Mr. Brown's claim as set forth in Mr. Thorson's letter of the 15th August last is based on the fact as alleged that the school building was constructed upon a site other than that contemplated by Mr. Brown when he made his tender and it is intimated that Mr. Brown was misled inthis matter, first, by the contract itself which designates the building as the "Indian Residential School at Onion Lake, Saskatchewan", second, by the letter from Mr. Lang Turner, Indian Agent at Onion Lake, and, third, by the information given to the representative sent to look over the ground for this building at the request of Mr. Brown.

With respect to the first matter of complaint, I have to point out that the notice calling for tenders for this building provides that tenders shall be addressed as follows:- "Tender for St. Anthony's Indian Residential School on the Onion Lake Indian Reserve, Sask.". The specifications on which Mr. Brown tendered refers to this building as "The St. Anthony's Indian Residential School on the Onion Lake Indian Reserve, Sask." Mr. Brown's tender was made and his offer accepted before he signed the formal contract about which he complains, so that he could not have been misled by the wording of the formal contract which designated this building as the Indian Residential School at Onion Lake, Sask. The latter is merely an abbreviation of the fuller description set forth in the specifications on which Mr. Brown had already tendered.

Major W.W.Kennedy, M.C., LL.B., M.P.,
Winnipeg,
Man.

Indian Affairs. (RG 10, Volume 6325, file 659-5, part 4)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Library and Archives Canada / Bibliothèque et Archives Canada
www.collectionscanada.gc.ca

With respect to the second matter of complaint, Mr. Brown points out that on the second page of the specifications it is provided that "with reference to the site of the proposed building" contractors were to refer to Indian Agent Lang Turner. Pursuant to this direction Mr. Brown wrote to Mr. Lang Turner and received a reply stating that "the site for the new school is about thirty miles due north of Lloydminster". This description, or lack of description, of the site is quite significant. At the settlement known as Onion Lake, there is a postoffice by that name. If the site had been at that place, the simplest way of informing Mr. Brown of the location of the site would be for the Agent to say that it was at Onion Lake. The site, however, was not so designated. There was no mention of Onion Lake. The location as given by the Agent was only of a general character and could not have been intended by him or relied upon by Mr. Brown as defining the actual site on which the school was to be erected. No one could identify the site from such information. Nor could the Agent inform Mr. Brown as to the exact site by correspondence without a surveyor's plan of the portion of the reserve on which the school was to be built.

With reference to the third circumstance by which Mr. Brown claims to have been misled, I have to say that it shows that Mr. Brown did not rely on the information given in the letter from our Agent above referred to for the location of the site. Mr. Brown apparently did not visit the site to ascertain for himself the necessary particulars as provided by the specifications but made an arrangement with a firm to send a man to look over the ground on his behalf. It is said that this man was told at Onion Lake that the site was right beside the old school at Onion Lake. It is not alleged that this man was told by the Indian Agent. The Department can take no responsibility with respect to any information given to this man by any one else as to the location of this site.

Agent Turner in his letter to Mr. Brown above referred to apparently volunteered some information or gave it on request from Mr. Brown, as to the availability of gravel, water and lumber. As Mr. Brown, in the specifications, was referred to the Agent for the location of the site only, and as Mr. Brown was requested to visit the site and ascertain the facts for himself, the Department can take no responsibility as to what correspondence passed between the Agent and Mr. Brown as to these matters. We are advised, however, that the information given by the Agent to Mr. Brown as to the availability

of gravel, water and lumber at the site where the school was intended to be erected and was erected is substantially correct.

In view of the facts, as above set forth, I regret that I am unable to give favourable consideration to this claim.

I am returning your enclosures herewith.

Very truly yours,

(Minister's signature)

St. Anthony's School
via Lloydminster, Sask.

Sept. 25 1930

Copie

Mr. Lang Turner
Indian Agent
Onion Lake.

Dear Sir,

All the improvements granted this year to our school by the Department are nearing completion to our great satisfaction. But would you let me draw your attention to the heavy expenses that through special circumstances have accumulated against our budget in connection with those improvements ? I know that it was understood that the freighting of all materiel would be done by the School; but most of it has to be drawn for 35 miles from Lloydminster and at a time when the children were away for their holidays, when the work on the farm was very pressing and taking all hands; so that we have been obliged to get outside help for the freighting of lumber, nails , bricks, cement, sand.... We have to pay to various persons for carrying lumber and sand an amount of $ 78.00; we owe to one man only, Mr. Percy Taylor $175.39. Of course I do not mention what we have done ourselves.

Is it unreasonable to expect that on account of the circumstances, the Department will back up and pay the extra expenses ? I hereby do make an instant request for that purpose, trusting that you will kindly consider it and recommend it to the Department, and I hope this will be granted.

I am glad to have this opportunity to thank you and to thank the Department for all that has been done this year for our School,

and I remain

Yours sincerely,

Jos Portier
O.M.I.

Principal.

Onion Lake, Sask.
October 7, 1930.

Sir,

I have the honour to enclose herewith a letter received from the Reverend Jos. Portier, principal at the Onion Lake R. C. Indian Residential School; in which he asks the Department to re-imburse the school for its outlay in having material freighted for a refrigerator, hog pen and lean-to stable, recently erected at this school.

These buildings were erected during the school summer holidays, and, although the farming instructor did all the freighting he possibly could, he could not do very much as haying and harvesting operations were also being conducted at the time. Therefore, although the school management had agreed to do this freighting, it was impossible for it to do so without the cash expenditures for which the principal is now asking re-imbursement.

Ottawa, October 23rd, 1930.

Sir,-

With reference to official letter of June 18th, last, regarding the erection of a lean-to to the stock barn, with shed, an ice house with refrigerator and a hogpen at the Onion Lake R. C. Indian Residential School, an account has recently been submitted to the Department for approximately $200., covering the cost of freighting the material required for the above buildings from Lloydminster to the school.

In forwarding the account, the Reverend Principal points out that, as the buildings were erected during the school's summer holidays when a number of the children were away and work on the farm was very pressing, it was necessary to employ outside help for the freighting. Please let me have a recommendation from you with regard to the payment of this account.

Your obedient servant,

A. F. MacKenzie.

SCHOOLS BRANCH
NOV 6 1930

Sir:-

I beg to acknowledge receipt of your letter of the 23rd. instant No. 115-8-5 with reference to an account of $200.00 which has recently been submitted to the Department, for freighting of material used in the erection of certain buildings at the Onion Lake R.C.Indian Residential School.

In reply I may say that I do not think the Department should pay this account. The resident Agent made it clear to me that the freighting could be done at the school and I believe it could have been done. I do not think the excuse offered by the Principal is a good one, and I am of the opinion that he should be called upon to pay this $200.00 out of the school earnings. In addition to this he should be told that he had no authority to incur this expenditure without first taking the matter up with the Department or this office, unless he was prepared to meet it himself. Had he taken it up with this office he would certainly have been told that he would have to get the freighting done, and it would have been done.

I would judge from your letter that the Principal has been in communication with you regarding this matter. He should have passed any communication he had to make through the local Indian Agent, in my opinion. If he had done so the chances are the account would not have been forwarded.

Your obedient servant,

The Secretary
Dept. of Indian Affairs,
Ottawa.

Onion Lake C.E. Indian Residential School.

Estimates submitted to Indian Department
1930 - 32.

PAINTING:

Interior: Plastered Walls - V Joint Walls - All ceilings throughout building three coat work	$ 1200.00
Inside Wood work (two coat Varnish and paint on paint work)	800.00
Painting cement floors and treating of same	252.00

Buildings:

Horse Barn	800.00 ~~2500.00~~
Implement Shed for Binders	300.00
	~~3352.00~~ 3352.00

If it is the business of the Department to supply an implement shed, then an amount should be inserted in the Estimates. The amount asked for interior painting seems high - this might be cut in half.

DEC 8 1930

Mr. Lang Turner
Indian Agent
Onion Lake.

Dear Sir,

Following the conversation we had lately, I beg you to back up and forward to the Department the following requests:

I. We are in need of a cellar adjacent to the houee with convenient access from the kitchen so that we may have at hand the sufficient quantity of potatoes and other vegetables for the winter, and keep in a cool place all preserves and other provisions. We will be very thankful if you can get appropriation for that. The digging should be about ten feet, and the materiel needed is : Cement ,around 60 bags; 2000 feet of lumber, and a few yards of galvanised iron, and a door.

2. Then, in the house on the walls in the public passages and up along the stairs a lining of burlap would be necessary to prevent the falling of plaster and keep it clean.

3. In the nurse's room is wanted a kind of combined glassed case and cupboard, 4 feet wide, where could be kept the most used medecines and accessories.

You have seen by yourself that these requests are very reasonable, and I trust that by your recommendation they will be granted.

Thanking you in advance, I remain

Yours very sincerely,

Jos Portier O.M.I.

Principal.

Why burlap is not put on in these schools is hard to understand.

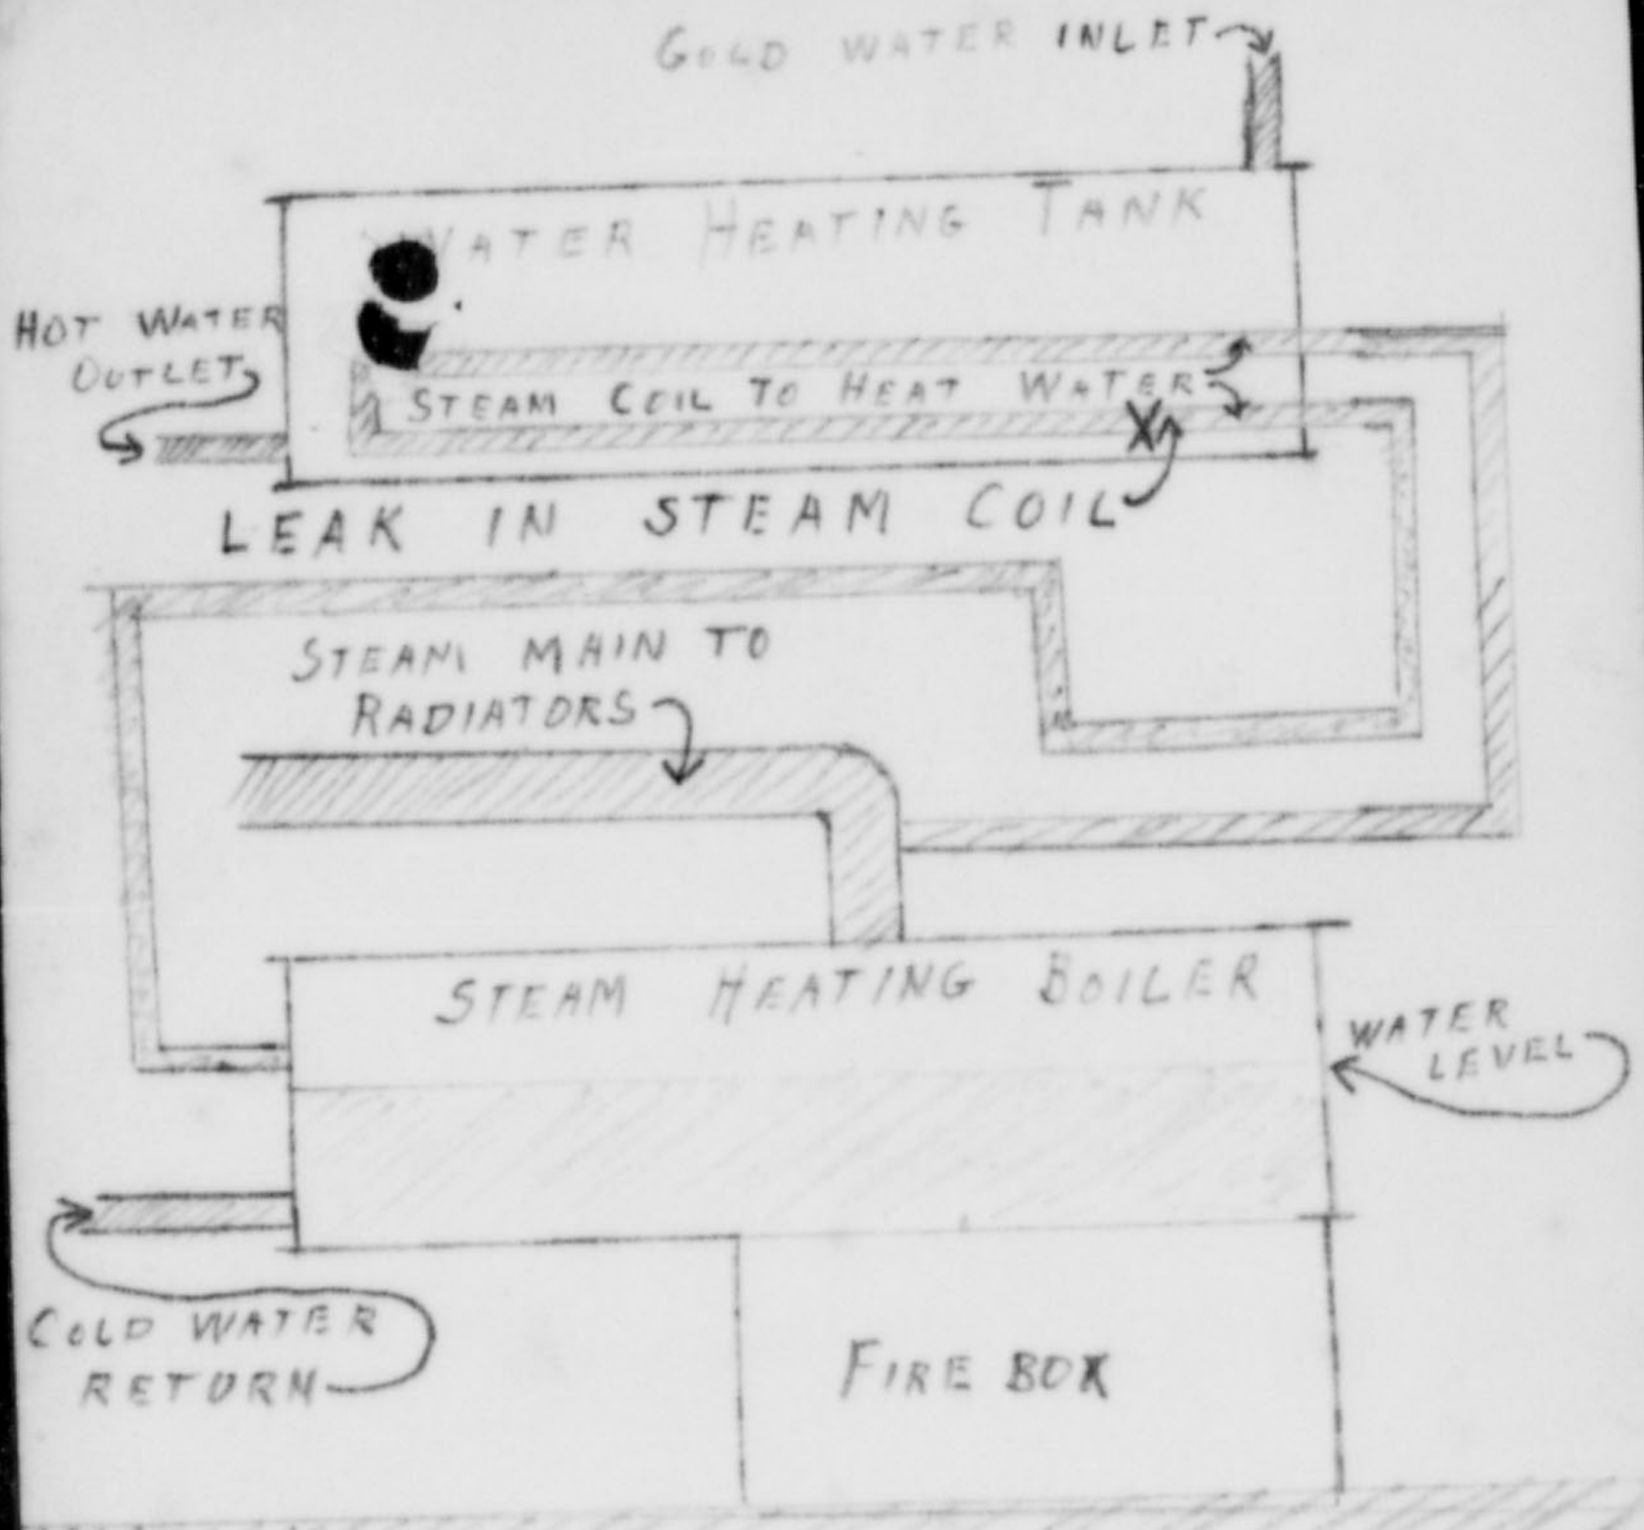

W.M.G.
